

## NORTHERN TRIBUNE.

SATURDAY, FEBRUARY 25, 1882.

## Banker's Daughter.

The Legislature met in a special session last Thursday.

Rindskoff Bros., of the Star Clothing House received a large addition to their stock this week.

Prof. Sweet will continue to give his dancing lessons and his social hop every Thursday evening.

Mr. Rollo has transferred his fire and marine insurance business to W. H. Daniels. It is in good hands.

The new Wertheimer building to be occupied by Paul Baker as a restaurant, is fast approaching completion.

Some of our young folks got up a dance at the Spencer House last Monday evening which was well attended.

Tuesday night the train did not arrive until about nine o'clock. The delay was caused by the heavy snow storm.

Chas. Nuite was down from his lumber camp Thursday, and reported having 1,700,000 feet of logs already banked.

The Michigan Central pay car was here Tuesday night and made the boys happy. It went back Wednesday morning.

H. J. Miner has recently added a fine show case and rearranged his clothing, thereby much improving the appearance of his store.

The railway mail service on the D. M. & M. R. R. will probably end all trouble our friends across the straits have in securing their mail promptly.

I. E. DeGowin, the east side grocer, has something to say in our advertising column this week that will interest all wanting groceries.

Prof. Chamberlin announces in another column that he will give instructions in vocal and instrumental music. He is well recommended as a musician.

A. W. Rush the architect and builder of Lowell, Mich., who was here looking over the town a few weeks since, writes us that he expects to arrive here about the first of April.

The first winter term of court held in Mackinac county commenced this week Tuesday. There is quite a large calendar and it is likely that the court will be in session two weeks or more.

Joe Miller, the young man who tried to play a sharp game on the firemen at their ball last week, had his trial before Justice Fife Monday and was fined \$15 and costs amounting to \$25. A pretty costly experiment for him.

The extreme warm weather last week had the effect of sending a great many men out of the woods. The change has had the effect of sending them back again, and the starting up of lumbering operations with renewed vigor.

Washington's birth day was not observed here to any very alarming extent. The only emblem shown was the stars and stripes over the TRIBUNE office and that caused so many questions to be asked that we concluded that nearly every one in town came from Canada.

The new building which Mr. Patterson contemplates erecting will have 47 feet front on Main street by 70 feet deep, thus making two fine store rooms with a wide stairway entrance to the second story. Mr. Patterson has not decided positively whether he will put the third story on or not.

The Presque Isle Advance says that surveyors have been in that county for some weeks past estimating the cost of construction in extending the shore railroad to the straits. The road is bound to come through and the sooner it comes the better it will be for the prosperity of Northern Michigan.

W. E. Warriner has purchased of C. S. Fisher two thirds of the steamer Keweenaw, and is having a new main deck put on her. He will also have a new captain command her, Capt. Chamberlain. We are satisfied from an acquaintance of several years with Capt. Chamberlain that he will form many friends on his new route.

Major Clarke of the Schoolcraft County Pioneer rises up and meekly asks that Schoolcraft county have the privilege of presenting the next candidate to the state Legislature. Now Major, we have not the slightest objection. We think that you would look well among the law makers, but how can you think of so lowering the dignity of the profession.

It is announced that the Western Union Telegraph Company is putting up wires to Cheboygan along the Mackinac Division of the Michigan Central railroad, and when this is done, will take down the shore line between Alpena and Cheboygan. Would it not be a good plan for the towns of Alpena, Cheboygan and intermediate points to purchase the line as it stands and use it for a telephone line?

Banker's Daughter at Town Hall, Monday night.

We neglected to call attention to the new advertisement of H. Chamber's last week, but we suppose everybody read it all the same.

Thurlock Weed, who recently opened a general store in Pattersonville, we are pleased to learn is doing a good business, which is as it should be.

J. S. Douglass has been appointed deputy county surveyor. This will be a very great convenience to those residing in or near the village who need the services of a surveyor.

An unusually good time was enjoyed by those who attended the social given by the ladies of the M. E. congregation at the residence of Mrs. Hamilton, last Wednesday evening.

The contract made by the Board of water commissioners with Mr. Walker for two pumps the particulars of which was given last week, was ratified by the village council Tuesday night.

A white and black bear paraded the streets several days during the week much to the amusement of the small boys. The bears have been so long in the business that they know their tricks well.

Capt James Bennett, late master of the tug J. W. Bennett, will sail the tug Johnson, of Sandusky, Ohio, and tow barges. Wm. Fells formerly engineer on the tug W. S. Carlin is to be his engineer.

Prof. H. Box Brown gave a slight-of-hand, legerdemain, animal magnetism, electro biology, etc, entertainment at the Town Hall last night to a pretty good sized crowd. He goes from here to St. Ignace.

The Lotus Club's dance last Tuesday night was the last before Lent, but so enjoyable have they been that the members could not think of giving them up entirely so decided to have them every other week during Lent.

It is rumored in Detroit that one of the fast steamers owned by the Detroit and Cleveland steamboat company will run the coming season between Detroit and St. Ignace calling at Cheboygan and Mackinac and make two trips per week.

Wednesday last Mrs. M. Chandler received a telegram stating that her brother, Morris Shaw, was very ill of pneumonia, at Ann Arbor where he was attending school. She left on the Thursday morning's train to go and care for him.

We understand that L. P. Trempe, of the Sault, is negotiating for the purchase of the steamer Gazelle to run in connection with the St. Marie. The statement published that he had purchased the Grace Grummond is not true, as yet at least.

Railroad mail service is announced on and after February 25th from St. Ignace to Marquette six times a week and at the intermediate stations of No. 1 Kilns, Moran, Palms, No. 2 Kilns, Trout Lake, Hendrie, Junction, Seny, Driggs, Jeromeville, Munising, Au Train, Rock River, Onota, Dart, Whitefield, Sand River, and Harvey.

The Standard Comedy company, which is well spoken of by the state press, will commence an engagement at the Town Hall next Monday evening with the play entitled, Banker's daughter, and on Tuesday evening, Hazel Kirke is announced. They will probably remain two nights longer if they meet with sufficient encouragement the first two nights. Miss Genevieve F. Sawtelle and Miss Elma Cornell are the leading ladies of the troupe.

Last Saturday evening as Mr. Henry DeGowin was returning from Duncan City a man stopped his horse by seizing him by the bits and started for the sleigh. Mr. DeGowin got out of the sleigh on the opposite side and started around the horse to meet the man. When they met the stranger attempted to seize Mr. D. by the throat and said "now I've got you." That was when he made a mistake for Mr. D. hit him a blow between the eyes and gave him a kick at the same time which landed him in the ditch and would have secured worse punishment only for the fact that the horse had not stopped and he was obliged to go on to catch him. Mr. DeGowin does not know what motive the man had in attacking him, whether it was for robbery or that he made a mistake and attacked the wrong man.

We notice that the state Republican press with great unanimity are mentioning the name of Auditor General Latimer for a renomination. We know that the precedent established in this state is that of two terms for state officials, but this rule has been broken over several times in the cases of officials who have given more than satisfaction in the conduct of their offices. If the rule is to be passed over we do not know of any one who more richly deserves the compliment than Mr. Latimer. We should press the matter more strongly, if the salary of the office was such that it would be a benefit rather than a detriment to a man to accept the place. However if Mr. Latimer would accept the place, the people of the state could not serve themselves better than to nominate and elect him.
