T. F. SHEPHERD, Bay City.  
W. C. STEVENS, East Tawas.

J. A. THORPE, Vassar.  
Geo. W. BELL, Cheboygan.  
WM. CROSBY, Harbor Springs.  
Republican Committee, Tenth District.

GOVERNOR FOSTER says that it costs Ohio \$3,000,000 a year to support its poor, and that \$2,500,000 of that is directly chargeable to the liquor traffic. The entire saloon interest in the state pays less than \$300,000 in taxes, leaving the rest of the tax-payers to foot the balance of the cost of free trade in intoxicants.

The vote on the passage of the River and Harbor bill over the President's veto was, politically, as follows: In the House—years: Republicans 67, Democrats 55, total 122; nays: Republicans 32, Democrats 27, total 59. In the Senate—years: Republicans 18, Democrats 23, total 41; nays: Republicans 13, Democrats 2, total 15.

THE simple fact that the bonds of the government bearing an interest of only 3½ per cent are at a premium in every money market, is proof of good management and evidence of faith in the future of the country. The Republican party did the managing and did the work that paved the way for such a promising future. It is an off year in politics, but it won't do any harm to remember this.

THE present session of Congress has been a long one, though not by any means the longest on record. The first session of the 44th Congress lasted 254 days, from December 5, 1875, to August 15, 1876. The 34th Congress continued its first session from December 3, 1855, to August 18, 1856, in all 260 days. The 33d Congress continued its first session 246 days, adjourning August 7, 1854. The 32d Congress' first session lasted 275 days, to August 31, 1852, while the 31st Congress beat all others before or since, sitting from December 3, 1849, to September 30, 1850, in all 302 days. The present session has lasted to date 246 days.

THE silk culture movement which started in Philadelphia is rapidly gaining ground in New York, and gentlemen of means are interesting themselves to give it substantial encouragement.

THE Senate in executive session Monday confirmed the following nominations: General Grant and W. H. Trescott, commissioners to negotiate a commercial treaty with Mexico; Colonel Charles H. Crane, to be Surgeon General of the United States army.

THE first great loan authorized by the government in 1861, amounting to \$189,300,000, has been wiped out. Of the second loan of \$75,000,000, but \$17,000,000 remain uncanceled. The people of the United States are debt-payers.

DR. WOOD, professor of chemistry of Bishop's college, Montreal, reports on a number of cures of acute rheumatism effected by fasting, the time being from four to ten days. No medicines were given, the patient simply being allowed cold water and lemonade in moderate quantities. From his experience, Dr. Wood has reached the conclusion that rheumatism is only a phase of indigestion, to be cured by allowing the viscera a rest.

THE United States will have at least one substantial citizen in its diplomatic service, who will not have to depend upon his salary to support the dignity and style of the republic at a foreign court. William Waldorf Astor, just confirmed as minister to Italy, is reputed to be worth \$50,000,000. He will not be obliged to go a-foot or employ a shilling cab when he calls upon a king. If he has a mind to, he can discount the king and his court on style. Times have changed since Ben. Franklin went abroad.

THE Chicago Inter Ocean says, the intimation of the so-called Grand Army Journal that Senator Ferry, of Michigan, has not been friendly to the soldiers, has but served to make more prominent the fact that the Senator from first to last has been a warm advocate of the cause of maimed soldiers. His speech of July 31 in the Senate is evidence of this, and it is but one of many that illustrate his earnestness and consistency on this question. Those who believe that maimed soldiers should not be pensioned, can make a strong point against Mr. Ferry by quoting from his speeches, but those who believe that the policy of the Republican party is right, on this question cannot find fault with him.

## The Liquor Traffic.

The National Republican says editorially: "Prohibitory legislation affecting the manufacture and sale of liquors is one of the issues which, sooner or later, must be squarely met by the two great political parties of the country. In Kansas, Iowa, Ohio, and North Carolina the question has become an important factor in local politics, and it is noticeable that in certain other states, especially throughout the south the advocates of at least a restrictive policy as regards the sale of spirituous and even malt liquors, are gaining many adherents. Under the present local option laws passed by their respective legislatures, numerous counties and towns in Texas, Kentucky, Mississippi, Georgia, and Alabama have already by a popular vote declared in favor of the suppression of the liquor traffic, and in those localities where a trial of any length of time has been had, the verdict of the local press, which is generally supposed to reflect public opinion, has been in favor of a continuance of the prohibitory measures. In fact there is a growing disposition in all sections of the country to give the people the right to regulate through the ballot-box this entire matter, and if such authority be conferred throughout all or a majority of the States it will not be long before Congress will be forced to take some action in the premises. The question is one of vast and growing importance in National affairs. Opinions will differ as they must on all great questions, as to the proper line of policy to pursue, but that parties must decide, and that presently, upon which side they will array themselves, is already a fixed fact. Prohibition or anti-prohibition—which shall it be?"

## A New Cable Company.

Last Saturday the Senate passed a bill providing for the laying of a new cable, designed to promote telegraph communication between the United States and Europe, and sent it to the House, where it was placed in the hands of Mr. Willits for examination and report. Willits studied the matter carefully and made a favorable report thereon Monday. On his motion the bill was taken from the speaker's table and passed. The incorporators of this new cable line named in the bill are Samuel L. M. Barlow, and Orazio Lugo, of New York, and A. G. Busby, M. McAllister, and J. H. Colton of Pennsylvania. The terms of the bill provide that the laying of the cable must be begun within two years and the charges to individuals for messages shall not exceed 20 cents per word.

The salt association of Michigan has established an agency in Buffalo for the sale of Michigan salt in the east in cargo lots. Many eastern dealers who have handled all kinds of salt say they can sell Michigan salt for more money and that it gives better satisfaction than any other on account of its purity.

## WHY BOTHER WITH A RIDDLING

When his Value can be Doubled?

MR. J. W. LUCAS, of Battle Creek, Mich., pupil of the celebrated "Farmer Miles," makes a specialty of Contracting and handling Hedges with great success. His system is the only correct one, and insures the animal less than any other method. He is followed by the best horsemen in the country, as a safe and reliable operator. Parties can secure his services by sending a card. Will also spray domestic animals, and teach his pupils the art. Send for testimonials and descriptive circular. The above cut illustrates his method of securing the animal for operation, which effectually prevents injury to the animal or operator. Address, J. W. LUCAS, Battle Creek, Mich.
