NORTHERN TRIBUNE.

SATURDAY, FEBRUARY 10, 1883.

The Sault people are agitating the water works question and propose submitting to a vote of the citizens the proposition to invest \$40,000 in the project.

Ash Wednesday having occurred this year on the 7th of February, brings Easter on the 25th of March—the earliest period known that is possible for it.

Who wouldn't be a doctor? It is delightful to be called out of a warm bed at midnight, with the thermometer 20° below zero, and get the fresh air by taking a ride of several miles in the country.

William Ross has purchased from A. L. Fexer his news stand and book and stationery stock. Will is a young man of good business habits and will, we are certain, meet with favor in his new venture.

The village of Mackinaw City holds its first election for village officers next Tuesday. The two candidates for village president will be George Gane and Geo. W. Stimpson. The contest is not a political one, but purely on local issues.

A tree was cut in Amos Bailey's camp at Indian river one day last week which measured twenty-two feet in circumference and several feet in diameter at the stump. It was sound from butt to top, and is regarded as one of the very best specimens of pine ever cut in Michigan.

Not much work has been done at the water works well this week. They are out of collars to connect the tubing, and have been awaiting their arrival, they having been ordered some time since. They have not yet reached the rock, but think it cannot be much farther down until they will.

F. S. Tolma is having an ice house built next to his fish house on McArthur, Smith & Co's dock. He is going to put in a dock at Hammond's bay and establish a fishing station at that point the coming season. He expects to do a largely increased business from this port the coming season.

Doctors A. M. Gerow and W. W. Bowes, of this village, and Dr. B. B. Beach, of Indian River, board of examining surgeons, for this county, of applicants for pensions, met at Dr. Bowe's office Wednesday. Ten applicants for an allowance from Uncle Samuel presented themselves for examination.

F. B. Stockbridge has purchased the controlling interest in the Kalamazoo race track, and is going to have it put in first-class shape. They have over 100 stables for the accommodation of horses, W. S. Humphrey is going to send a couple of his trotting nags down before the spring break-up to go into training for the seasons' trotting.

January 28th, the Catholic church at Posen, Presque Isle county, burned to the ground. The fire caught in the vestry behind the church at 11 A. M., during mass. Some 600 persons were in the church. Owing to the prompt and energetic directions of Rev. Father Bogacki no confusion occurred. The sacred vessels, altar, furniture and vestments were all saved. Loss about \$3,000; no insurance.

J. S. Cromwell, father of Mrs. S. H. Embury, of this village, has had a rather serious experience in the cutting line. In February, 1876, when he resided on Third street in this village, he cut his foot badly while chopping wood south of town and had quite a serious time. Recently, while working at Seney, on the D. M. & M. railroad he was unfortunate enough to receive another cut, and catching cold in it afterwards, it has turned out quite severe, and he came to Cheboygan, and is being treated by Dr. Perrin.

The Senatorial matter yet remains an open question. The last balloting was done last Saturday, the only noticeable feature being a break in the vote for the Fusion candidate, Stout, whose vote run down to twenty. A caucus of the fusionists was held that evening, when it was decided, so stated, to withdraw the name of Stout. The failure of the firm of Ferry Brothers, in the minds of some, complicates the question as to the re-election of Senator Ferry, but just what bearing it will have remains to be seen. There will be no more balloting until the 13th, next Tuesday.

Senator Ferry has introduced a bill for a \$60,000 light house at Poverty Passage near Escanaba.

Old Boreas got down to business last night, and the result was the coldest night of the season; the thermometer indicating 20° below zero, the lowest we have heard of.

Thursday one of the men employed in rebuilding the Baker dock, fell into the river head first. He says he does not enjoy a winter's bath at all, and that by the time he got home his clothes were frozen stiff.

The lumber dealers of Cleveland, O., were severe sufferers by the floods last week. An aggregate of 12,610,000 feet of lumber and 500,000 shingles were swept away and the loss is estimated at near \$300,000.

We understand that the owners of the propeller Champlain have purchased the controlling interest in the propeller Lawrence, and that the two will form a line the coming season between Chicago and Cheboygan.

Geo. E. Frost has received a large crayon portrait of the late Mrs. Frost. It was executed by a Detroit artist, and is an enlarged copy of a photograph. It is an elegant and life-like portrait of the deceased, and cannot fail to be appreciated by Mr. Frost.

An increase of three in the population of our county during such a cold night as last night is doing well. That is the number that we have heard of that our doctors was called upon to assist into the world since last evening, and the returns are not all in yet.

Thursday there were no through trains on the railroad. The up train only come to West Branch, and the down train only to Vanderbilt; both returning to their starting points. The mail train came through yesterday but was late. The night train is still suspended and is greatly missed by the traveling public.

W. S. Smith has sold a half interest in the steamer City of Cheboygan to John S. Herrington, who has served as engineer in Mr. Smith's employ for several years, and they are going to rebuild her, putting on heavy deck timber, and providing her with strong tow posts, and will warp her up over the rapids and put her in Black lake the coming season for the purpose of carrying freight and doing towing. She will make a strong tug and do good work, and is just what has been wanted on that lake for a long time, and will prove quite a convenience to the settlers and lumbermen operating in that section.

In response to a complimentary benefit tendered her by some sixty or seventy of our leading citizens, Miss Julia F. Lee has designated next Wednesday evening as the time when she will again appear before our citizens, at the opera house, and give another of her entertaining readings, giving an entire change of programme. It has been decided to place the price of admission at twenty-five cents to all parts of the house. Those of our citizens who heard Miss Lee, in the Star course, need no telling of the good things in store for them. To those who did not have the pleasure of hearing her on that occasion we would say do not fail to attend next Wednesday evening.

The Weather.

By reference to the weekly reports of the weather, as published in the Tribune we gather the following in regard to the coolness prevailing in this quarter for the months of December and January. During December the thermometer did not get down to zero, the lowest point reached being the morning of the 18th when it was 2° above, 16° at noon and 15° at sunset. The coldest day of the month was the 7th, when the thermometer indicated 7° above at sunrise, 9° at noon and 8° at sunset.

During January there were eight days when the mercury fell below zero, but no day when it failed to rise above. On the morning of the 4th, it was 4° below; 12th, 5°; 15th, 6°; 21st, 2°; 22nd, 8°; 23rd 11°; 25th, 8°; and 26th, 16°. The coldest day of the month was the 22nd, when it was 8° below in the morning, 1° above at noon and 5° below at sunset. On the 26th when it reached the lowest point in the morning at noon it was 15° above, and at sunset 17° above.

Weather Report for the Week ending Thursday Evening Feb. 8, 1883.
