

NORTHERN TRIBUNE.

Entered at the Postoffice at Cheboygan Mich., as Second Class Matter.

SATURDAY, JULY 14, 1883.

CHEBOYGAN MATTERS.

Cheboygan county against the world for berries, either wild or cultivated.

Cheboygan beats the world on strawberries, they grow here in quarter sections.

Wild strawberries are very abundant in this section, and are of the finest quality.

Services at the Independent church tomorrow evening, at 8 o'clock. All made welcome.

The advantages of the telephone are already being appreciated by those enjoying its privileges.

Effie Johns, supported by the Elfin Star Combination, at the Opera House on Monday July 16th.

Will Van Valkenburg, the fish dealer, is buying fresh fish for McDonel, Carter & Co., of Bay City.

A canary bird's song was distinctly heard at the Central Telephone office, the singer being squares away.

There will be a moonlight excursion on the steamer Pearl next Thursday night, for the benefit of the St. James' Church.

Reid & Co., the wide-awake grocers, come to the front to-day with new announcement, figures that speak for themselves. Read them.

Blackberry bushes are completely loaded in this vicinity, and oceans of red raspberries are coming forward and will be in market in a couple of weeks.

A large force of men and a train of gravel cars are at work leveling up the track at this end of the Michigan Central, and are getting it in the finest condition.

J. Q. Williams, of Detroit, arrived last Sunday with his family, to visit Merritt Chandler and see Cheboygan. He left on Thursday for his home, satisfied that Cheboygan must continue her growth.

Who says the population of Cheboygan is not rapidly increasing? Doctors T. A. and C. A. Perrin captured six babies this week, five girls and one boy, all doing well, and returns are not yet in from the several other doctors of our village.

It is amusing to watch suffering contortions of the "missing links" as they wrestle with the meaning of a phrase unknown in their vocabulary of animal slang; tis true their paroxysms of pain are severe, and they are always thrown, but it is through this ordeal that evolution will bring them to understand, therefore it is amusing.

As long as you pay 100 cents on the dollar, are not dunned, do not sneakily avoid the payment of an honest debt, and have good credit and some clean cash, rest easy, eat, sleep and be merry; let some chronic crank worry, fret, and make faces over your financial condition. The Lord made cranks for something, don't rob them of their right of attending to other people's business.

Joseph Burns has sold his lease of the Pioneer House and the furniture to Mr. McLean, and Thursday morning left on the Ste. Marie for Grand Marais, where he proposes building a large raft, and erecting a house on it and anchor it in the bay and start a saloon, the mill proprietors not allowing a saloon to be opened on shore. Mr. McLean, his successor at the Pioneer House, is an experienced hotel keeper, having kept hotel for several years in Canada.

Dr. Gerow's new block is going to be an ornament to Main street and a credit to Cheboygan. The front will be exceedingly tasty. The main portion of it will be of cream colored brick, the pilasters of red brick, and the trimmings will be of stone and black brick. The front of the lower story will be of plate glass and the windows of the upper story will each be composed of two large lights of glass. The Doctor intends to invest a considerable sum for the sake of improving the appearance of the building.

On our table we found a beautiful box from Mrs. A. Dodge, Mullet Lake, that had been placed by a kind hand while we were dining. Not suspecting an infernal machine, and knowing the glorious Fourth, with its dangers, was past, we opened the box, and there appeared what seemed at first glance a lot of red apples or tomatoes, but they actually proved to be strawberries. Now, how shall we describe their size? Being unmeasured before being introduced to a printing office, this could not be thought of, but they were immense, the largest ever seen on our editorial table, they were actually so large that one filled the mouth of the editor, and this makes it superlatively a whopper. Thanks for the whoppers.

New buildings, no end to them, all over Cheboygan.

The masons are laying the walls of Dr. Gerow's new block.

Friday night of last week three inches of rain fell. It was a wet rain, too.

Joseph Spooner now *meats* his friends in his new room, and does it in good style.

Morris Wheeler's delivery horse ran away Wednesday morning, breaking one shaft of the wagon.

No pains will be spared in arranging to make the coming musical entertainment a perfect success.

Two thirds of the taxes assessed by the village have been paid in, over \$6,000 being paid last Saturday.

Remember the adjourned meeting of the agricultural society at the Town Hall, next Friday at 2 p.m.

Robert McNair is leading support for Miss Effie Johns in "A Terrible Test," at the Opera House on Monday evening, July 16th.

J. J. Cueny is raising his side walk on Division street, up to the grade of the walk on Main street. It is a good improvement.

It is claimed by competent judges, men who are or have been experienced farmers, that the yield of the wheat crop in this county will be from 30 bushels to 40 bushels to the acre, unless rust should strike it.

E. O. Penny is in possession of a new penny, the only one in existence at this time. It is of the male gender, weighs twelve pounds, and arrived Tuesday night. All doing well and Ed. is happy, of course.

We hear that a request is going to be made the council to have the whistle of the water works blow at six o'clock a. m., at noon, and at six p. m. It is thought it would result in having uniform time in the village.

The fruit trees planted by Cheboygan county farmers are reported, with few exceptions, as doing well and promising an abundant crop of fruit, for young trees. Experience has demonstrated to a certainty that Cheboygan county is within the great fruit belt of Michigan, and it will not be many years before the fruit crop will be a prominent factor in the products of Cheboygan farms.

We are glad to announce that the Cheboygan Banking Company have decided to erect their new banking building this season, and that the work will soon be commenced, and also that they have about decided to turn the bank into a national bank, with a capital of \$50,000, the full amount of stock being already taken. The necessary papers for the change, we understand, are now being prepared. The new bank building will be one of which our citizens may feel proud, and fitted up in a style that will equal any banking office in Northern Michigan, and in keeping with the progressive enterprise of the stockholders of the bank.

Frank Vauk was nicely confided out of \$5.50 the latter part of last week. It seems he was desirous of procuring a license as engineer of steamers. A man named Long learned of the fact and proposed to Mr. Vauk to secure a license for him for \$5.50. Shortly afterward he brought a couple of strangers around to Mr. Vauk, one of whom he introduced as the Collector of Customs of the port, and the other as Local Inspector. The latter said he was combining pleasure with business, enjoying a summer tour and at the same time obliging those who desired licenses by granting them. The \$5.50 was paid over, but it is needless to say that the accommodating Local Inspector has not yet granted Mr. Vauk his license as engineer. For the benefit of all interested we would say that any competent man can get his license for fifty cents. It is reported that the man Long left Sunday on the Messenger for Manistique, accompanied by a woman of the town.

Papers so disgustingly vile, abusive, and personal, as to voice the indecent slang of the lowest strata of blackguardism, do not represent any church, political party, organization or community of earth; they are isolated cases of un-mixed cussedness, known by the society they cannot associate with, none so poor as to recognize them or their foul aspersions of everything sacred. Among Democrats, Republicans, and Greenbackers there are none so thoroughly depraved or universally mean as to desire or justify cowardly abuse, malicious personalities, or vulgar rudeness. On the contrary, they insist that a paper representing their community, entering their homes, and read by their families and friends be dignified, thoughtful, enterprising, and "with malice towards none, and charity to all," labor in each issue to raise the standard of public opinions and morals by an honorable, just, and manly course. By this standard a paper must rise or fall in Cheboygan.

Charley Hampton has sent us an extra as a sample of what his Harbor Springs "Daily Resorter" is to be. It is newsworthy and interesting. The regular issue will begin next Monday.

Wm. B. Ellis, the efficient manager of the Hemlock Extract Factory, very kindly showed us through the factory, which is well worth seeing. Mr. Ellis, who is one of the proprietors, informs us that their goods, which are the best manufactured, are in demand at good prices, and we are glad.

The propeller Messenger will make an excursion from this place to Mackinac Island, some day in the near future. Special rates will be made on horses and carriages to parties who desire to take their own rigs with them. The boat will remain at the island long enough to give ample time to drive about and see all the sights.

LIVE TALK ON LIVE SUBJECTS.

Fresh butter at M. & B. Molony's. Go to Wheeler's for glass fruit jars, Bird cages of all kinds cheap at Erratt & Co.'s

Everything Warranted the Best and Cheapest,

MORRIS WHEELER,

Main Street, Moloney's Old Stand.

Gregory Bros'

G R E A T

INTERNATIONAL SHOW!

AND

PROF. DONALDSON'S

Museum of Living Curiosities!

WILL VISIT

CHEBOYGAN,

THURSDAY, JULY 19th.

FOUR DISTINCT SHOWS!

In One Stupendous Aggregation.

WE WILL FORFEIT \$1,000

If the arena of the Great International does not contain absolutely more fresh and startling novelties than any other show in America. Specially commended and visited by the clergy, heads of educational institutions, and millions of the first people of the land. The most brilliant, artistic, graceful, and talented, gymnastic, acrobatic, juggling, and amusing medley of Entertainments ever given under a tent. It is congenitally asserted as beyond the power of contradiction, that the performances presented at every exhibition are positively unequalled in the world. We offer no played-out swindling mountebank march of cheaply daubed wagons, tinsel and trash to gull the public and entice them into empty canvasses, but we do give all we advertise, and more too; and more for the money than any show on earth.

C. J. Gregory & Prof. Donaldson.
