Worth your careful investigation. Come and see for yourself.

New Goods Constantly Arriving.

Respectfully Yours,

H. CHAMBERS,

Mammoth Store,

BENNETT BLOCK.

NORTHERN TRIBUNE.

Entered at the Postoffice at Cheboygan Mich., as Second Class Matter.

THURSDAY, AUGUST 21, 1884.

THE CITY.

The Morrissey's Monday evening for benefit of St. Mary's school.

The warm weather brings many strange faces to Cheboygan.

The Third street bridge and its approaches have been newly painted.

Sullivan, the alleged attempted rapist, Monday plead guilty to assault, and was fined \$50 and costs.

The Board of Supervisors held a session this week and voted to divide the offices of County Clerk and Register of Deeds.

The members of the board of directors of the agricultural society should bear in mind the meeting at the Grand Central Hotel next Saturday and make every endeavor to be present.

A. P. McKinnon shipped several teams, camp supplies, camp equipage and men to Naubinway on the Messenger Monday morning, preparatory to commencing lumbering operations in that section.

Last Monday John Andrus forged Mattoon & Robinson's name to an order on H. Chambers for five dollars. On his examination he plead guilty and in default of bail was remanded to jail until circuit court.

The excursion to Mackinac Sunday on the VanRaalte was well attended and a very pleasant trip enjoyed. Many took advantage of the opportunity to run away from the extreme heat and enjoy the cooling breezes of the straits.

W. H. Bunker completed the Topinabee dock the first of the week. He says it is, as far as it goes, as good a dock as is in the county. Its completion will be quite an advantage for Mr. Pike, the genial landlord of the Topinabee House, as well as for the hay fever resort.

Geo. Spaulding was arrested for stealing silver spoons at the Michigan Exchange, plead guilty, and was sentenced to 90 days in the local house of correction. Sheriff Harrington left with him yesterday to matriculate him in that institution.

The school board are having pipes laid from the main from the water works on Huron street to the school building. They have purchased patent closets for the outhouses, and will connect them with the Pine street sewer, and having the water from the water works will remedy a great nuisance heretofore prevailing.

Many of our citizens have noticed the view of London in W. C. Moore's window engraved from a photographic view taken from a balloon. Elsewhere we give a very interesting description, taken from the London Telegram, of the magnitude and work of preparing the original wood engraving and a comparison with former noted wood engravings.

The First National bank of Cheboygan commences business next Monday in their new bank building. It is needless to say that they have as neat a banking office as can be found in the state. The building has a large fire proof vault, and in it one of the Detroit safe company's burglar proof safes. The bank opens with a capital of \$50,000. The stock holders are from among our leading capitalists and business men. The cashier George F. Reynolds is an obliging gentleman with whom it is a pleasure to do business and we see no reason why the First National bank of Cheboygan should not prove a success and add to the reputation of Cheboygan.

The meeting of the Blaine and Logan club last Thursday evening was a grand success, the attendance being quite large. After the regular business was transacted speeches were made by H. M. Loud, of Oscoda, and W. S. Humphrey and Oscar Adams, of Cheboygan. The applause rendered showed that the audience was in full sympathy with the speakers and when at the close of the meeting W. S. Humphrey stepped forward on the platform and called for three cheers for Blaine and Logan they were given with a will, and the result was a marked contrast between the cheers for Cleveland and Hendricks at the grand ratification meeting addressed by the Hon. Henry M. Look. The cheering Thursday night was heard several squares away.

A. G. Boggs left last evening by rail for Buffalo and Tonawanda, N. Y.

John VanArsdale has recovered from his illness so as to be on the street again.

George A. Mosher, of the Mackinaw City Straits Journal, was in town Tuesday, and paid us a pleasant call.

John Sherburne pole inspector for W. U. T. company was in town Monday on his way to "Soo" river.

The Republican pole on the Benton House corner is to be put in shape at once and a huge Blaine and Logan flag will fly from it.

There will be an excursion to Mackinaw and return on the propeller Lawrence Monday evening. Tickets fifty cents. Dance at the Island.

Mrs. F. M. Sammons shipped her household goods on the Messenger Monday morning, and she and remainder of family left on the Lawrence Monday evening to join her husband in Dakota.

The bereaved family of the late Mr. VanArsdale desire to extend their thanks to their many kind friends who assisted, supported and sympathized with them in their late great affliction.

N. B. Mason has purchased Carleton Brothers' brick and tile yard, and proposes pushing the business. Cheboygan brick have a good reputation wherever they have been used. Mr. Mason has a card among our business notices.

Thompson Smith has only one more boom of logs to come down through the river this season and that will not be brought down for some weeks. The Major Dana towed down a large boom yesterday.

David Bell, of Duncan City, returned from Ireland last Saturday. He is a rusher, went to Ireland with his five children found a new mother for them, and returned in less than two months. He will bring his wife and family over in the spring.

Mr. Schannneck met with a very serious accident last Sunday morning. He and son started to attend church, the latter driving the horse became scared and started to run, throwing Mr. Schannneck out and dislocating his shoulder. Dr. Gerow reduced the dislocation.

Rev. A. W. Westgate delivered a lecture last Saturday evening before the Vanderbilt social club. His subject was the "Disagreeableness of Disagreeable People." The attendance was large, and it is needless to say that all were highly entertained. He reports the weather exceedingly warm at Vanderbilt.

David Bell states that on his return voyage to the United States, when about 500 miles out, the steamship Lake Winnepeg struck some unknown object, shaking the ship from stem to stern, breaking one blade and the half of another off her wheel. The captain concluded she must have struck a whale.

Benton lodge No. 108 A. O. U. W. is steadily growing in numbers. The success of this order has been wonderful. Organized in 1868 at Meadville, Pa., it stands at the head of all mutual insurance institutions, having at this time 141,000 members in the United States and the Dominion of Canada. It numbers over 7,000 in Michigan.

The Wyman combination are enjoying the cooling breezes of Northern Michigan prior to the opening of their season in the larger cities and at the same time are favoring the people of this section with some of their inimitable entertainments. Tuesday and Wednesday evenings of next week they appear at the Opera House and our citizens may expect a first class entertainment.

Captain Mosier went up with the Cuyler Saturday, and brought the last tow of logs across Mullet lake for W. & A. McArthur for this season, arriving down Monday. While running through the logs one caught the rudder of the tug and threw it around causing the wheel to turn suddenly, one of the arms striking the captain on the back of the hand, skinning it badly and making a sore bruise.

D. Leubrie, of the Chicago Inter Ocean spent Tuesday and Wednesday in Cheboygan soliciting subscribers and gathering material for a letter setting forth the advantages of our village. The value of such a letter cannot be over estimated. The Inter-Ocean is conceded to be the leading newspaper of the west, circulating in all portions of the country and a letter in that paper reaches several hundred thousand readers.

Miss Jessie Blake entertained quite a number of her young friends last Saturday evening, the occasion being in honor of Miss Edie Bennett, daughter of Mr. and Mrs. Will Bennett, formerly of Cheboygan, who was visiting her aunt, Mrs. J. P. Sutton.

Brooks Waters says his sympathies are Democratic, but we heard him authorize Lou Veeder to take bets to the amount of \$1,000 that Blaine would be elected president of the United States at the November election. If there are any Democrats with sand here is their opportunity.

Levi Gray has purchased the Union hotel property, corner of Main and Third streets, of Mrs. F. M. Sammons. It has a frontage on Main street of six rods and runs back on Third twelve rods to Huron street. It is one of the most valuable corners for business in Cheboygan.

Mr. and Mrs. Isaac R. Purnell, of Richmond, Indiana, were both present at the marriage of James G. Blaine and Miss Stanwood at Millersburg, Kentucky in the parlor of the seminary in which the bride had been a teacher and pronounced the whole story a fabrication from beginning to end.

Francis Stead informed us Saturday that the corn raised from the specimen of Flemming corn he received from the Agricultural department at Washington was eleven feet high and promised a most excellent result, the ears of corn being numerous and beginning to develop in an extraordinary manner.

Vanderbilt has a Blaine and Logan club numbering over 100. We would advise our Democratic friends in Cheboygan county to come out on the winning side once in their life, and vote for the Republican candidates and make the thing unanimous. The indications all point to a large majority for Blaine and Logan in this county.

The first patient at the Cheboygan Sanitarium and hospital was received Saturday, coming down on the Van Ralite from St. Mary's river. He was an employe on Carlin, Stickney & Cram's dredge, and in about eight hours after he had purchased his ticket had the misfortune to have three of his fingers mashed while engaged at his work, and came down for treatment. His investment proved a good one.

That the Democracy realize the handwriting upon the wall and see the utter route of their party in November is clearly shown by the desperate efforts of the Democratic press. They are regardless of truth in their desperation. We notice a list going the rounds purporting to give the leading Republican journals that have gone back on Blaine. In the list the name of the Chicago Inter Ocean appears.

The picnic in Myers grove last Sunday was well attended. It is proposed to hold another next Sunday. The object is to raise funds to help Mr. Myers rebuild his grist mill, to replace the one destroyed by fire a few weeks since. The fire consumed all Mr. and Mrs. Myers had and any contributions our citizens can make to assist them to rebuild will be worthily bestowed. The tug R. C. Wilson will leave John F. McDonalds dock at 9:00 and 10:30 a. m. and 1:30 p. m.

A mate of one of the vessels in port last week attended the Blaine and Logan meeting Thursday evening. In a discussion with one of the unterrified he gave some points that his antagonist will do well to think over. He said he had been a Democrat all his life, but would vote for Blaine and Logan, and that there was a Blaine and Logan club in one ward in Chicago numbering over 250, the membership of which was composed of laboring men formerly Democrats.

A. R. Thayer returned from Detroit yesterday afternoon where he had been to secure a patent on a cork that he has invented. Those who have seen the cork concede that it is bound to work a revolution in the cork trade. It is far superior to the ordinary cork and fully equal to the best grade for all purposes. It is manufactured out of bass wood or poplar and is so made as to secure the necessary compression and at the same time be perfectly secure, and can be manufactured so that the cost will be a great deal less than that of the ordinary cork. Mr. Thayer says while he was in Detroit he exhibited it to a number of prominent men all of whom predicted a great success. It needs only to be seen to be appreciated.
