

B. & O. R. R. TIME TABLE.—On and after Sunday June 15th, 1879, Trains will leave Woodstock as follows:
MOVING WEST.
Through Freight Leaves A. M. 7:47
Way Freight Leaves P. M. 2:47
Passenger Train Leaves P. M. 1:41
MOVING EAST.
Way Freight Leaves A. M. 11:29
Passenger Train Leaves P. M. 2:47
Through Freight Leaves P. M. 1:41

SNOW.—There was a light fall of snow on Cedar Creek, on last Monday night.

The sale of the House and Lot of the late R. C. Hughes has been postponed until Saturday, Nov. 23d, prox.

Owing to the weather was heard to remark that he would faithfully meet her until the weather or shower does come, it takes a whole year.

The Lord's supper will be administered at Mr. Calvary on the 4th Sunday of November. Preaching will commence on Wednesday morning previous.

Harrisburg is about starting a shoe factory. We are always glad to hear of these enterprises and hope the day may soon come when some of our citizens will see the necessity of waking up.

The number of letters and circulars mailed at the Woodstock office the first week in November was 929. Total pieces of newspapers was over 1000. Total pieces of all classes, 2114.

SALE OF PERSONAL PROPERTY.—R. V. P. Miller will sell, at the Lutheran Parsonage, in Woodstock, on next Court day, Monday Dec. 8th, a valuable lot of furniture and other personal property. See advertisement in another column.

NOTICE.—All persons knowing themselves indebted to the State of Va., for license of any kind or requested to come forward and settle at once, or the law will be enforced.

TEACHERS WANTED.—Several teachers are wanted in Ashby District. Apply to Jas. Perry, M. J. Jackson. Several teachers are wanted in Davis District. Apply to Dr. G. A. Brown, Strasburg.

The Choral Society will meet in the basement of the M. E. Church next Saturday evening at 6 o'clock, P. M. The programme will be the same as published last week.

IMPORTANT TO TAXPAYERS.—The law adds five per cent on all taxes not paid by December 1st. It is to the interest of taxpayers to give this subject timely attention.

Rev. Mr. Staple, agent for the Virginia Bible Society, visited this place, and delivered two lectures last Sunday. Between twenty and twenty-five dollars was contributed in this place.

Dr. Higbee, President of Mercersburg College, preached two excellent sermons in the Reformed Church in this place, last Sunday, to very large and attentive congregations.

Contrary to the opinion of most persons, we are reliably informed that the river has been frozen over this season. When it is remembered that, as the result of the drought the river is very low, the assertion does not seem unreasonable.

WHEN WILL THEY COME?—Prof. Tice fixed upon the 13th of November for the meteoric display. Prof. Tice says it will occur on the 27th of November and Prof. Harkness says no important display can be expected before 1878 to 1891.

WHY IS IT?—Thus we go, complaining of business, shortness of crops, disease etc.; for the former, put the shoulder to the plow, for the latter, if there is anything to matter with your Blood Liver or Kidneys, use Curative, a vegetable medicine of value.

CHANGE OF SCHEDULE.—The schedule on Valley Branch of B. & O. R. R. was changed last Sunday. The West-bound train now arrives at 1:32 P. M. and the East-bound train at 1:57. In Woodstock, both mails are delivered at the same time.

EXCURSION TO WASHINGTON.—Excursion tickets to Washington good from to-day, 19th to next Tuesday 25th on the B. & O. R. R. are issued to give parties an opportunity to attend the unveiling of the Thomas monument. The tickets are sold at half the usual fare.

THIEVING.—Thieves entered the meat-house of Mr. Edward Bushong last Saturday night. Finding no meat they contented themselves with stealing some hard soap. They also entered the granary and, it is probable, stole some wheat from the granary but the amount could not be ascertained.

Several sheets were stolen from Judge Allen on Monday night.

DEDICATION.—The United Brethren Church at Tom's Brook will be dedicated to the service of Almighty God Sabbath the 30th inst.

Bishop J. J. Glessner officiating. A number of other ministers are expected to be present, all are invited to come.

NARROW ESCAPE.—As Dr. Irwin and his son were crossing the railroad on the Van Buren Furnace road last Monday, the horses became frightened and refused to pull. The East-bound passenger train was rapidly approaching, but was some what checked by the breaks and barely escaped running over the wagon. The engineer was so sure an accident had happened that he stopped and backed the train to the road. The train was running on the new schedule of which the parties had no notice. Fortunately no injury was done.

Valley News.
Harrisburg Spirit.—Harry R. Dillinger has proved a powerful "blatant" in Shenandoah and Page. Wonder if Long John Harris is not troubled over that "blatant"?

The Highland Recliner, of this week chronicles the death of Wm. M. Sommers, of that county. Mr. S. was a native of Shenandoah county, and had been elected sheriff of Highland during the war and subsequently. He is mentioned as being an upright, honorable man. He died from paralysis.

Warren Sentinel: Now corn is bringing here only \$1.59 per barrel. The streams' wells and springs have never been as low as now in this section. Some have dried up entirely.

Bridgewater Journal: Just as we go to press, we learn of the sad death of a six-month-old young lady, Miss Virginia Paul, which was caused by that most dreadful malady, consumption, from which she has for several months been a victim.

Warrenton Solid South: The meeting at the M. Methodist church in this place is still in progress with very encouraging results. The congregation are large, the house being packed on Sunday night. There is apparently a deep religious feeling, preaching every night by the pastor.

Good-on Gazette: Dr. Robert F. Baldwin, Superintendent of the Western Lunatic Asylum, died at his residence in this city yesterday morning at 10 o'clock. He had been an intense sufferer for a long time and his recovery was not expected. Until the last month or two, however, he continued to discharge the responsible duties of his office and did not give up until his suffering entirely incapacitated him for business. His remains will be taken today to Winchester, his former home, and will be laid beside those of his wife who died in June last. The most remarkable natural curiosity that we have ever seen was the headless chicken which was on exhibition in town last week. This odd claudicator was beheaded seven months ago but has been very lively ever since. Nothing but a stump of the neck remains but this sticks under his wing just as naturally as if the head were there. He is fed by means of a syringe and is healthy looking, and seems to suffer no inconvenience from his deputation save the loss of his crow.

Shenandoah Valley: A long arch way, under the ground, on the land of Mr. Stoneburner, near Mt. Jackson, has recently been discovered. It is 100 yards long, beautifully formed, and is soon to be explored. It was discovered whilst a party was blowing for rocks to make lime. Robbers entered the house of Sam'l Bowman near Red Banks, in this Co., on the 20th inst., and stole a pair pants, vest, watch and gloves of Mr. John B. Brown about \$40.00 in money from Mr. Sam Bowman, and some \$300.00 in bonds, belonging to the Bowman heirs. For the first time in our recollection, water is being sold here—from 10 to 20 cents per barrel. It is very scarce—the cisterns about "dry" and very little in wells. People will do up to great inconvenience, if it do not soon have rain. A fine, com, black bear, weighing about 125 lbs., was killed by Mr. Eugene R. Woods, and was accompanied by Mr. John Stier, in Meadow Gap, about 9 miles N. E. of this place. Last week, Mr. M. White, William, on living near this place, sold to Mr. John Sibley a hog 16 months old, weighing 450 lbs. Its dam (now weighing 450 lbs.) was bought by Mr. W. M. of M. Corbin, Paris, Ky. Mr. John P. Zerkle bought a mate of the above Mr. W., which he values at \$300.00. As this paper went to press, about 6 o'clock, the alarm of fire was given. The South end of town being lighted up. The S. & N. Fire Company, with engine, persons on foot and horseback started for the fire, all soon discovering it was beyond the town corporation limits. It was caused by the burning of a stable filled with hay, belonging to the Williamsons, some two miles from town.

The loss is estimated at \$700. Three horses were burned—one belonging to Judge Allen of Botetourt county—the other two to the Williamsons. One horse was saved.

It is not known how the fire originated.

Stanton Fire: In the Circuit Court, yesterday, a charter of Incorporation was granted to the "Central Iron Company of Virginia"—with a capital stock of \$200,000. The said company to hold real estate not to exceed 100,000 acres the principal offices of said Company to be located and its chief business transacted in the city of Stanton, and at their works. The following are the officers of the company: R. H. Cartlett, Stanton; President and Director; H. M. Bell, Stanton, Secretary and Treasurer; and Director; John Echols, Stanton; Thomas Cochran, Philadelphia; R. N. Fogel, Philadelphia; and J. F. Lewis, Ferris, Va. Directors.

Last Monday, as Dr. A. M. Fauntleroy, on the Chesapeake & Ohio train to go to Elizabeth Furnace, he was asked by the parents, who were on the train to examine their little child three years old which was severely injured and had sustained under the following remarkable circumstances: Mr. Geo. W. Kild and lady of Bland county, Va., were on the Baltimore & Ohio road returning with their two children from Kansas. On Saturday night shortly after passing Wheeling the mother passed her child and thinking it had gone to its father a few seats off in the same car went to him, but found it had not seen it. The car was searched amid a painful scene, the mother screaming in her terror, but the little one could not be found. The train which was going at the rate of thirty miles an hour, was then backed slowly for a mile, a lookout being kept on each side of the track. In a few moments the conductor saw the child standing up in a pile of trash. It cried out as he approached it and didn't want to be taken up by him. It was soon restored to its anxious parents and when the train reached Gratton medical assistance was rendered by Dr. Van Kirk. The

child had, unobserved, climbed into a seat in the car to look out of the window and leaning too far had tumbled out. It fell in the brush pile at the side of the road saved it. Dr. Fauntleroy on examination thought it would recover. The parents got off at Hinton, W. Va., when they took conveyance for home. Last Tuesday they were shipped at Swoope's Depot, in Augusta county, 140 head of shorthorn Durham cattle, three years old, owned by Francis Bell, of Pulaski, which had been grazed on his farm in Augusta. They averaged 1,570 pounds, and were destined for Europe. One of them had gained in 11 months 619 pounds; another 538 pounds; another 118 pounds; five others an average of 414.

South Branch Intelligence: It is said that seven deer were killed in the week, in Hardy county, one day last week, by a party of hunters. A gentleman of this place, reports seeing on the South Branch mountain, twelve deer, a few days ago. A contemporary remarks that a gentleman who has been a careful observer of new moors for over fifty years, says that never in his recollection has the moon appeared as for South as it does at the present time. The weather prophets say that this is an indication of warm weather.

Harrisburg Register: It is rather shocking to read of the floods in portions of Europe, while our people have to haul water for miles in barrels for want of a shower.

Stanton Spectator: On last Sunday morning as a cattle train was descending the grade on the C. & O. Railway near Butterfield Springs, about a mile West of Stanton, Mr. George Turner, a brakeman, was thrown from the cars by the breaking of the upper portion of the brake, throwing him down an embankment some thirty feet high. He sustained fatal injuries which resulted in his death on yesterday morning.

A MOUNTAIN FIRE.—On last Friday about 12 o'clock some party fired the North Mountain about two miles above the Fuzer gap road. During the afternoon dense volumes of smoke ascended and bearing a cross the valley in an easterly direction, hung like a dark pall from mountain to mountain. A night the mountain presented one of the grandest scenes ever witnessed in this valley. For a distance of over two miles the fire extended North and South, and from near the top of the mountain almost to the foot. The light was so great that persons could read newspapers by it, at Staunsville, about two miles from the fire. The interest of the people living in that section was greatly excited, not by the grandeur of the scene, but by the danger which threatened their homes. The weather had been so dry that had the fire reached the low land it would have spread rapidly through the dry grass from farm to farm and from barn to barn.

About dark a force started out to attempt to ward off the danger. Reaching the Fuzer gap road, they found a brisk South wind blowing, and at once, making that road their base, they fired the mountain and kept the fire from crossing the road. By that means they succeeded in burning the leaves and brush below, and by six o'clock A. M. the fire on this side of the mountain was under control. A party, acting independent of them, had at the same time on the South side about the same land and prevented its spreading southward.

As the mountain was fired at several points it is supposed that it was done intentionally. Parties sometimes do this in order to burn off the leaves, so that the mountain will afford fine grazing for stock, but it is hardly probable that an farmer would have done so when the act was attended with so great risk. Some suppose that it was done by some party, who is opposed to running deer with dogs, with a view of driving the deer out of the mountain. It is such was the object it met with success as the fight and deer were seen running from the terrible heat which had driven them from their hiding places. Rabbits were completely stupified, and a number were picked up by the parties fighting the fire. The fur of some of them were burned off. As soon as they reached a point away from the fire, they would sit down and permit themselves to be picked up without making the least effort to escape.

Many of our citizens can congratulate themselves that they escaped a danger which certainly was very great and at one time apparently beyond their power to ward off. The parties who undertook to fight the fire certainly displayed great skill as well as energetic labor.

METEORIC.—Quite a number of our people have been on the lookout for the meteoric display predicted by Prof. Tice. Some of the young ladies who kept their company to witness the display, did not seem at all indignant at the dis-appointments. They watched for several nights and will continue to look for it until Thursday Nov. 27th, when it is advertised to appear at 10 o'clock P. M. Biele's broken comet will at that hour, according to the prediction of Prof. Proctor, strike the earth. It will, we have no doubt, be a grand conclusion of the thanksgiving exercises of the day.

Rev. P. Miller, pastor of the Lutheran Church in this place, has accepted a call from a charge near Columbia S. Carolina. This charge under the pastorage of Mr. Miller has been largely increased. His removal will be greatly regretted not only by members of his own congregation, but by our citizens generally. The change, we hope, will prove to his interest and we are sure his new charge will be pleased with their pastor and his family.

NEW MARKET CAYE.—We were shown a beautiful stactite, and a number of specimens of nature's work taken from the New Market Caye. Visitors describe this cavern as a grand place which can only be appreciated by those who see it. The entrance we understand has been greatly improved and the Luray cave will find no rival in the endless caverns near New Market.

Care should be used in taking medicine. The Murrain Tincture of Iron, Bitter Wine of Iron, the Elixir of Iron, should be carefully used as they discolor the teeth. This is not so with the valuable Tonic Iron Bitters, which does not affect the teeth, and by its uniformity of action takes the place of all iron preparations.

THE PRESIDENTIAL ELECTION.—Every one is now interested in the Presidential election and a number of names are mentioned. While it is a subject of great importance, it does not interest the individual citizen to the extent that another subject of more vital importance, of you can order from SMITH & SHARMAN, Wholesale Druggists, Baltimore, Md.

Any Patent Medicine Advertised in this paper can be had of B. Schmitt at the regular price. June 12-17

SPECIAL NOTICE.
A CARD.—To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, or you can order from SMITH & SHARMAN, Wholesale Druggists, Baltimore, Md.

MARRIED.
On Sunday evening, Nov. 16th, 1879, at the residence of the bride's parents, Mr. Moore's Store, Harrisburg, Md., William James Smith and Miss Barbara Will, both of Shenandoah Co. Va.

DIED.
Deceased this life, on November 8, 1879, at her residence, near Lebanon Church, Shenandoah Co. Va. Mrs. Maria Baker, aged 84 years, 9 months and 17 days.
