#### Drummers Sample Shoes!

We have recently purchased from one of the leading wholesale houses their entire line of drummer's samples comprising 330 separate and distinct styles in men's, women's and children's dress and work shoes. These shoes were purchased at about one half the regular price and are on sale at corresponding reductions. Never before have the people of Liberal had an opportunity to make such savings. We are pricing these shoesto you by the pair at LESS than the regular wholesale prices to merchants by the dozen.

Hundreds have taken advantage of this big bargain sale, if you get yours you'll have to HURRY! as they are going fast.

We wish also to call your attention to our regular line, which for solid worth, fitting qualities, up-to-date styles and patterns, and best of all, prices cannot be excelled by any firm, corporation or Catalogue House in the United States. We keep a Sears Roebuck catalogue laying on our settee for the convenience of any skeptical customer who wants to be shown. These are very strong statements but please remember that as a matter of business policy, we cannot afford to make any statement which we cannot back up with the goods.

Come in and make us prove it.

#### ARE LIKE SWIMMING GHOSTS

Silvery Fish in the Water Appear Gray and Unsubstantial to Their Fellows.

Lecturing before the Camera club at London, England, Dr. Francis Ward said that, in an attempt to photograph fish in their natural surroundings he had constructed a pond with an observation chamber let in at the side, below the surface of the water. Through the window of this chamber unseen by the fish he could watch and photograph their movements. He discovered by this means that the protection of fish when in their natural state is much more thorough than is generally supposed.

All silvery fish were in reality mirrors in the water, reflecting the tone and color of their surroundings so as to appear to their fellow fish gray, unsubstantial, swimming ghosts, hardly to be distinguished at all. It was only when the dace, for example, rose to the surface, causing its body to reflect light, that this pike at the bottom of the pond could see and go for its little victim.

#### INSULT TO INJURY.

This is a story of the Harvard "Gold Coast." Some students who had either a real or imaginary grievance against a taxicab chauffeur, boarded his cab and rode all evening and part of the morning, winding up in front of the hall. They excused themselves to raise money enough to pay the bill and never came back. The next day the taxicab company was called up and the manager asked: "Did you have some Harvard students use a cab all night?" "Yes." "Did they evade the bill?" "Yes." "Did the chauffeur wait for four hours for them to come out and pay him?" "Yes." "And you were never paid?" "No." "Well," concluded the voice, "I ain't that too—bad," and the receiver was hung up.
