P. E. O. PARTY
...CAUGHT IN STORM
The annual picnic of the P. E. O. was held last Thursday afternoon on the Cimarron where the ladies and their guests spent a delightful afternoon and everything passed along beautifully until the coming home. The storm which was a heavy one, caught the cars on the road north of the city and the Gorman car was stuck in the mud and had to be abandoned while the occupants were taken in the Stevesson car and brought them to the city.

Glenn Rogers of Pratt, was here Friday for a short visit on business.

L.A. Nelson of Hugoton was transacting business in Liberal Friday.

S. M. Douglas of near Plains was a business visitor in the city Thursday afternoon.

Mr. Hardy is again assisting Pete McFarlane with the gardening in the Rock Island yards this season.

Mrs. C. W. Loughton arrived the latter part of the week from Hutchinson, to spend the summer with relatives and friends here.

Edgar Baker returned from school the last of the week to spend the summer with his mother, Mrs. Wilmarth.

The Sanford Cafe has a piano added to its dining room fixtures and Manager Freeman will be giving music along with the meals when a piano player is available.

Miss Neva Trexler who recently returned from school is working at the News, beginning Monday. She will assist in the position formerly filled by Miss Maurine Long. Miss Long will return to her work in the autumn.

Furniture for Sale: Practically all new: piano, 9x12 seamless axminster rug, sewing machine, bed with springs and mattress, small range and oil stove and a few other small items. Inquire at Equity Exchange. 50tfc

Miss Mabel Evans, daughter of J. N. Evans returned from Greenfield Kans., Thursday, after teaching a successful term in the high school there.

George Spradling who is attending K. U., is expected home about June 10th. He will drive to Hutchinson with his college chum then come on to Liberal by rail.

Mrs. O. H. Kindred returned to her home in Wichita the last of the week after spending a short time with her sister, Mrs. G. C. Wells who has been at a local hospital.

Best of 22
The Eldorado Stage Co. of Los Angeles tested 22 leading makes on 12-passenger Packard buses. Not a tire was found to match the Millers in that extreme service.

Some Costly Mistakes

Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

California stage lines are using Millers after million-mile tests with many rivals.

The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons.

They constantly prove that Miller is the best tire built.

In extreme rear-wheel tests they require an average of 15,000 miles on Cords.

They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-times figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

Treads Patented
Center tread smooth with section cup, for firm hold on wet asphalt. *Geared-to-the-Road* side-treads mesh like cog in dirt.

Four Billions Behind a Button!

A sudden storm darkens the city sky. Thousands of lamp switches snap on in homes and offices and factories. At once the city twinkles in light. In the electric power house, machinery and men leap to the task.

Or midnight. A suspicious noise. A button is pressed. A flood of light gives protection and confidence to the householder, putting the intruder to flight.

Again. War. A nation needs everything—And at once. A thousand factories demand more power. Silently over the wires the electric energy flows to meet the emergency.

Four Billions More Will Be Needed
Electric light, heat and power have become commonplace facts in your life; you seldom think of the four-billion-dollar industry behind the electric button. The fact is that the equipment behind the button is not being expanded fast enough to meet the demand.

Figures compiled by the Electrical World show that the electric plants must have double their equipment in the next four years if the United States is not to be halted in its progress by a serious shortage of power and light. And doubled equipment means an investment of not millions but of approximately four billions of

dollars.
Plenty of light and plenty of power are the essentials of community growth. Give your company fair rates and the money it needs, and you provide your town with the vision and power to push ahead. The towns that do well by their electric-light and power companies in the next four years are the towns that will do well by themselves.

The companies need no subsidy or gift; they can pay a fair return on the money they ask, given a chance to earn. For a doubled business is ahead of them. It will come as fast as they can handle it—faster unless they begin their expansion now. *Helping to Build a Greater America* There are five million unwired homes in the United States; thousands of acres to be irrigated by electricity; hundreds of factories needing light and power. The future demands for electric service will be tremendous—these are the assurance of a greater and greater business for electric-lighting companies.

It will pay you to use your savings to help finance this increased business. The man who invests in a bigger, more powerful, better lighted America, is bound to be investing well for himself.

Liberal Light, Ice & Power Company

“SERVICE”
Is the “Big Word” in the Modern Business World

Typewriter Service
Adding Machine Service

These are yours if you buy of the Liberal Typewriter Exchange Office with the Liberal Democrat

Never Out of the Use of Your Machine
If You Buy From Us

Other companies send a man around every thirty or sixty days. If your machine goes wrong you wait for him to come and fix it—Perhaps a few days; perhaps a month.

Home Service Is Instantaneous

If you buy a WOODSTOCK TYPEWRITER or a DALTON ADDING MACHINE from us you can never be caught without a machine to use. Our service guarantee is broad. If anything should happen to your machine, call Phone 116, and a service machine will be delivered to you AT ONCE, to be used until your machine is put in working condition.

Both machines are covered with binding guarantees, and the fact that there is a dealer in Liberal guarantees PERFECT SERVICE. A Company Representative makes headquarters here and arrangements are under way for the locating of a Service and Repair man here.

If you are in the market for either a Typewriter or an Adding Machine, call Phone 116 for a demonstration.
