THAYER.

Thayer, Kan., Jan. 13.—The first result of the political coalition formed in our state during the last campaign, was completed Monday in the assumption by the populists, who profited thereby, of the various state offices, and thus of the governmental control of our state. When a similar coalition in 1892 produced a similar result in part, Thayer was "in it" to the extent of furnishing the "rump house" speaker. This time utilizing the same material, she is able to again be "in it" to the extent of furnishing the sergeant-at-arms of the lower house, for which our fellow townsman, J. M. Dunsmore has been chosen.

A strong argument in favor of prohibition was furnished by the incidents growing out from the too free indulgence in intoxicating beverages, Saturday night in this city. Although the express company does not seem to have done any larger business than usual in the transporting of the ardent from Kansas City during last week, yet there seemed to be more of that animal in evidence that night than usual. Many of those who "filled up" discreetly retired from active service rather early, in obedience to the suggestions of the city marshal. Others were less wise. About 10 o'clock, A. W. Bullard was arrested by the city marshal and placed in the cooler, charged with being drunk and disorderly. He was released on bail to appear before the police judge on Monday. Later at about 2 o'clock a. m. Sunday, he was again arrested, and as the marshal was taking him to the calaboose, they became "mixed up," from such mixtures Bullard emerged bleeding profusely from a battered head which is alleged he received from the marshal's baton. Monday morning Bullard appeared before the police judge and asked continuance, which was granted, and trial set for Thursday, the 21st.

VILAS.

Vilas, Kans., Jan. 13, 1897.—Several copies of the CHANUTE TIMES were passed around at the post office last week and you could hear the people

Mr. Hoffman has lost six head of cattle by hydrophobia. Mr. Hoffman killed his dog as soon as he discovered that he had gone mad, but evidently the dog had been mad for some time to have bitten so many animals.

The voters of this precinct will probably have a chance to vote on a proposition to build a Township house; better talk the matter carefully with your neighbor and see if you think we need it and especially make inquiry where it is to be built.

Well, did you notice that change last Monday noon, the sky seemed to be covered with a silver lining and the big clock in the steeple pealed forth its silver notes reminding the good people of Kansas, that a change took place, may she prosper as she never has before.

We are not disposed to find fault with our present city officers, but we would like to remind them that an ordinance was passed about a year ago in relation to the sanitary condition of our city, that the present officers seem to have forgotten. This is only a hint, but if not enforced by the time we go to press again we will give a further explanation of the matter and the duties of Health Officer Carlburg.

50 lbs. of Coal

A day would keep your rooms warm in winter. But that small stove will burn only twenty-five. Hence, discomfort and misery.

A certain amount of fat, burned daily, would keep your body warm and healthy. But your digestion is bad, and you don't get it from ordinary fat-food. Hence you are chilly, you catch cold easily, you have coughs and shivers; while pneumonia, bronchitis, or consumption finds you with no resistive power.

Do this. Burn better fuel. Use SCOTT'S EMULSION of Cod-liver Oil. Appetite and digestive power will revive; and soon a warm coating of good flesh will protect the vital organs against the cold and the body against disease.
