MICROBES.

Live Animal Germs the Cause of All Human Disease.

Wm. Radam's Microbe Killer Positively Cures All Disease by Killing the Microbes Which Cause It.

For generations past people have been drilled into the belief that every symptom of disease, such as inflammation, suppuration, the various forms of fever, pain, colds, etc., is produced by a different cause. Such is not the case. All disease is decay, or, in other words, fermentation of the blood and tissue. This fermentation, which gives rise to the various symptoms of disease, viz., inflammation, fever, pain, nervousness, etc., etc., has been proven by Wm. Radam and leading scientists of the day to be caused by the presence of microbes in the body. The microbes causing consumption, influenza, whooping cough, erysipelas, skin diseases, typhoid fever, cancer, pneumonia, etc., etc. have actually been photographed, through the microscope, by Wm. Radam, and these photographs (enlarged) may be seen daily (free) at 87 Monroe-st. Chicago.
