

AUGUST FLOWER.

"A surprising fact," says Prof. H. ... that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion. Sample bottles free at G. P. Wilders. Sold by dealers in all civilized countries.

Not much attention is being paid to politics in this neck of the woods. The Republicans hereabout think the convention and not the politicians should nominate the candidates for office. Bossism, though on a small scale is odious to the average voter. A ticket nominated by the voters is easier to elect.

There must be a good reason why the coffee lovers of America buy millions of pounds of ARBUCKLES' COFFEE in preference to any other kind. The reason is found in its rich drinking qualities; in its permanent goodness. The quality never changes. Whether you buy it of a big coffee dealer or at a little grocery store around the corner, you get the same coffee, the same goodness, the same value for your money. You can't be deceived if you buy

ARBUCKLES' Roasted Coffee

It is prepared by an individual firm who value their reputation too highly to endanger it by lowering the standard of their coffee. It is hermetically sealed and put up in packages by people of many years experience and utmost reliability. It is not ground because ground coffee loses two-thirds of its flavor before reaching the consumer. It is not sold in bulk because of the possibilities of adulteration. It is not sold at a high price because it is better to sell millions of pounds of coffee at a small profit than hundreds of pounds at a large profit.

Every package of Arbuckles' Roasted Coffee contains information about many valuable articles that the consumer is entitled to receive. Ask your grocer for Arbuckles' Roasted Coffee.
