AMENDIN - THE LIQUOR LAW.

Kansas House Temperance Committee Favors a Small but Radical Change.

TOPEKA, Kan., Feb. 6.—The house committee on temperance has reported favorably Mr. Hackbusch's bill striking out the word "and" in the penalty clause of the prohibitory law and substituting the word "or," making it read as follows: "Any person without taking out and having a permit to sell intoxicating liquors as provided in this act, or any person not lawfully and in good faith engaged in the business of a druggist, who shall, directly or indirectly sell or barter any spirituous, malt, vinous, fermented or any other intoxicating liquor shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined any sum not less than \$100 or more than \$500, or be imprisoned in the county jail not less than thirty days nor more than ninety days." Should the bill become a law it would in a measure deprive the prohibitory law of its terror, as judges would inflict imprisonment only in the most aggravated cases.

CHANGES IN THE HOUSE.

Twenty-nine Men Elected to the Present Congress Not Members Now.

WASHINGTON, Feb. 6.—The records on file in the clerk's office in the house of representatives shows that there have been no less than twenty-nine changes in the personnel of that body since the members were elected. Even of these have been due to deaths, fifteen to resignations and three to members being unseated. The number is larger than in any congress within the recollection of the oldest house officials and is believed to be unequalled since the war.

NO SIGN OF THE GASCOGNE.

The French Steamship Now Three Days Overdue at New York.

New York, Feb. 6.—The French line steamer La Gasconne, now over three days due from Havre, has not yet been sighted. The wind is blowing from the northwest very strongly, and, although it is clear overhead, the intense cold of the atmosphere causes a vapor-like fog to rise over the water, the result being that the observers at Fire Island and Sandy Hook can see but a short distance off shore. The vessel, therefore, could only be reported when close to Sandy Hook unless the weather moderates.

Wichita's Saloons Opened Again.

WICHITA, Kan., Feb. 6.—At 1 o'clock this afternoon every saloon in town was running again at full blast. State Senator Ed O'Brien arrived from Topeka last night and had a lengthy interview with Sheriff Roysse, after which the idea was somehow conceived by the liquor dealers that Roysse thought he had performed about all the law required of him. Roysse has taken no action to enforce the closing decree.

KANSAS LEGISLATURE.

New Fees and Salaries Bill—To Reduce Express Charges.

TOPEKA, Kan., Feb. 6.—The senate passed the Dumbauld pass bill, which requires railroad companies to furnish free transportation to shippers of stock, fruit or vegetables in more than car-load lots.

The senate suspended the rules and passed an appropriation bill to pay for cleaning the chambers of the house and senate. The cleaning bill carried an appropriation of \$2,500.

Among the bills introduced in the senate was one by Mr. Wilcoxson to compel insurance companies to give notice before cancelling policies, and one appropriating \$17,500 for the erection of a boiler house and electric plant at the industrial school for girls at Beloit.

HOUSE PROCEEDINGS.

The house passed a resolution calling upon the special committee appointed to investigate the stock yards at Kansas City, Kan., to also inquire into the manner of disposal of dead hogs at the yards.

Mr. Hanna introduced a bill making the state superintendent of insurance elective by the people.

Mr. Meredith introduced a resolution calling upon the railroad committee to bring in a bill reducing the charges of express companies. It went over under the rules.

As a substitute for all the bills on the subject, the house committee on fees and salaries has introduced a general bill cutting the profits of all county officers. The officers most affected are county treasurers and sheriffs. In salaries of the former, the maximum is left at \$4,000 a year, but such a sum may only be earned by a treasurer of a county of more than 40,000 inhabitants. In the fees of sheriffs the reduction is sweeping. Representatives of the sheriffs' state organization are seeking to delay action on the bill until they can get here and be heard.

Militia Force of the Country.

WASHINGTON, Feb. 6.—The secretary of war sent to congress an abstract showing the militia force of the country by states and territories. The entire force is placed at 116,889, of whom 107,394 are private and non-commissioned officers and 9,550 commissioned officers. The unorganized military force of the country numbers 9,582,806.

ATCHISON, Kan., Feb. 6.—The long delayed work of the government of protecting the river bank on the Missouri side began to-day. Engineer Meredith says that he does not believe the work will give the desired result.

Another Reform Step for New York.

ALBANY, N. Y., Feb. 6.—The power of removal bill for New York city has passed the senate, all the republicans and one democrat voting for it. It had previously passed the house and now goes to the governor for his signature.

WHAT YOUR THUMB TELLS. Square Type.

The thumb is an unerring index of character. The Square Type indicates a strong will, great energy and business. Closely allied to the Squarish Type, the thumb of those of advanced ideas and business ability. Both of these types belong to the busy man or woman; and Demorest's Thumb, as a rule, prepares especially for such persons a whole volume of new ideas, condensed in a small space, so that the record of the whole world's work for a month may be read in half an hour. The Conical Type indicates refinement, culture, and a love of music, poetry, and fiction. A person with this type of thumb will thoroughly enjoy the literary attractions of Demorest's Magazine. The Athletic Type indicates a love of beauty and art, which will find rare pleasure in the magnificent oil-pictures of cost, \$154.24 inches, reproduced from the original painting by De Longpre, the most celebrated of living lower-painters, which will be given to every subscriber to Demorest's Magazine for 1895. The cost of this superb work of art was \$250.00, and the reproduction cannot be distinguished from the original. Besides this, an exquisite oil or water-color picture is published in each number of the Magazine, and the articles are so profusely and superbly illustrated that the Magazine is, in reality, a portfolio of art works of the highest order. The Philosphic Type is the thumb of the thinker and inventor of ideas, who will be deeply interested in those developed monthly in Demorest's Magazine, in every one of its numerous departments, which cover the entire art and scientific field, chronicling every fact, fancy, and feat of the day. Demorest's is simply a perfect family magazine, and was long ago crowned Queen of the Monthlies. Send in your subscription; it will cost you only \$2.00, and you will have a dozen Magazines in one. Address W. J. DEMOREST, Publisher, 15 East 14th Street, New York. Though not a fashion magazine, its perfect fashion pages, and its articles on family and domestic matters, will be of superlative interest to those possessing the Feminine Type of Thumb, which indicates in its small size, slenderness, soft nail, and smooth, rounded tip, those traits which belong essentially to the gentler sex, every one of whom should subscribe to Demorest's Magazine. If you are unacquainted with its merits, send for a specimen copy (free), and you will admit that seeing these THUMBS has put you in the way of saving money by finding in one Magazine everything to satisfy the literary wants of the whole family.
