AN EXPLOSION.

Seven Men Killed and One Fatally Injured by a Boiler Bursting.

A MAD DOG ATTACKS SHEEP.

The Flock Killed and Their Carcasses Burned--A New Oil Field in Ohio--Horse Collar Works Burned.

WELLVILLE, N. Y., May 15.--By the explosion of a boiler in a saw mill half way between Ferryville and West Binghamton, Pa., about 15 miles from here, five men were killed and three fatally injured, two of whom have since died. Ten men were at the time of the explosion sitting near the boiler waiting for a belt to be repaired. Two escaped by a miracle. The boiler had been condemned by an inspector only a few days before.

A Mad Dog Attacks Sheep.

TIFFIN, O., May 15.--Three weeks ago a mad dog attacked a big flock of sheep belonging to William Keller, biting a large number of them. Nineteen were killed outright. Nine more went mad and had to be killed. Yesterday, on the order of the township trustees, Keller killed the remaining 150. Their carcasses will be burned to prevent a further spread of the rabies. The same dog bit two cows, which had to be killed.

A New Oil Field in Ohio.

VAN WERT, O., May 15.--The Evans oil well, drilled in this county a few days ago, is producing at the rate of 300 barrels a day, being one of the best in the state. This strike opens a new territory and all the land is leased. Drilling will begin in earnest within a short time and some good wells are expected.

Horse Collar Works Burned.

BLAIR, Neb., May 15.--The Blair Horse Collar Co.'s factory burned yesterday, causing a loss of \$50,000, with an insurance of \$27,000. One hundred men are thrown out of employment. This was one of the largest institutions of the kind in the country.

MAY CUT THE WAGES.

National Association of Cigar Manufacturers in Session at Chicago.

CHICAGO, May 15.--President John H. Brown, of Detroit, called the annual convention of the National Association of Cigar Manufacturers to order at 11 o'clock this morning. One hundred and fifty delegates were present. The annual output represented by the factories of the firms from which the delegates were selected is about 1,500,000,000 cigars, or one-third of the total product of the country. Most of this morning's session was consumed in the appointment of committees.

It is the general impression among the cigarmakers here that the manufacturers' association intends to cut wages. It is known that they now think the men are receiving too much money. Hand made cigars are now paid for at the rate of from \$10 per 1,000 up and mold cigars from \$7 up. If the cut comes it will probably precipitate a big strike all over the country, and the men are but poorly prepared to resist the manufacturers in a big strike.

THE ROYAL ARCANUM.

Supreme Council in Session at St. Louis--Big Increase in Membership.

ST. LOUIS, May 15.--About 100 delegates, representing twenty-one grand councils, are in attendance upon the eighteenth annual session of the supreme council of the Royal Arcanum, which began here to-day, and will continue for about a week. To-day's session was largely devoted to the hearing of the annual reports. That of C. W. Hazard, supreme regent, showed that during 1894 the order paid to widows and orphans death benefits amounting to \$3,029,520, leaving a balance on hand of \$463,578. On December 31, 1894, the order had a membership of 157,507, a net increase of 11,083.

RAIN IN MANY PLACES.

Heavy Hailstorm at Kansas City, but No Damage to Vegetation.

KANSAS CITY, Mo., May 15.--A bombardment of hail visited the city about 3:30 this morning and stones as large as olives fell. There was a heavy rain fall at the time accompanied by thunder and lightning. About 1/2 inch of rain fell. At 7 o'clock this morning rain was falling at St. Louis, Kansas City and elsewhere in the state and at Concordia, Kan., Moorehead and Duluth, Minn. During the night showers fell in eastern Kansas, Missouri, Iowa, Nebraska and Minnesota. No damage from hail was reported at Kansas City or vicinity.

THE STRIKE IS OVER.

St. Louis Hodcarriers Return to Work at Their Old Wages.

ST. LOUIS, May 15.--The hodcarriers' strike, which began April 22, is practically ended and nearly all the strikers returned to work at their old wages to-day. About 1,000 hodcarriers went on the strike and through their action nearly 12,000 mechanics, including carpenters, plumbers and bricklayers have been idle. It is estimated that the men lost \$490,000 in wages while the strike lasted.

Schooner and Crew Lost.

CHICAGO, May 15.--All doubt that the schooner Kate Kelly was lost in Monday's storm was removed to-day when the log of the schooner was found.

wreckage bearing the schooner's name. It is believed that Capt. Hatch and his crew of five men were lost, as the wreckage found by the Charm indicates that the boat was pounded to pieces.

Germany Favors Bismarckism.

BERLIN, May 15.--The committee appointed by the upper house of the Prussian diet to discuss the motion of Count von Mirbach, leader of the agrarians, favoring an international agreement for the use of both gold and silver, has accepted the motion by a vote of 10 to 4.

Burglars raided the post offices at Pomona and Quezono, Kan., obtaining \$300 in money and stamps.

The Sandflower club, of Kansas, an insurance combine, is holding its annual session at Excelsior Springs, Mo., behind closed doors.

THE MONUMENT DEDICATION.

Letter from Gen. Underwood Regarding Commander Thayer's Protest.

CHICAGO, May 15.--So many statements have gone abroad in other cities than Chicago as a result of Department Commander Thayer's recent letter to the Massachusetts G. A. R., protesting against the proposed dedication of the confederate monument at Oakwoods cemetery Memorial day, that many persons deeply interested in the event believe a part of the public has been led to misconstrue the significance of the ceremonies to be performed. Gen. Underwood, commander of the division of the north, United Confederate Veterans, deemed it advisable to issue a letter defining his position. The letter, which is addressed "To the citizens of the United States, a renned people of one nation," says in part:

"The permission to erect a monument over the remains of 6,000 southern soldiers in Oakwoods cemetery was granted by the secretary of war. Accordingly a fund was raised, two-thirds of which has been contributed by citizens of Chicago, and the monument as it stands was erected under direct provision of the permit that emanated from the war department. Last Decoration day a number of G. A. R. posts joined with the confederate camp in the memorial exercises and profusely decorated the confederate graves with northern flowers--the southern men returning the courtesy in memorial ceremonies by decorating the graves of the union soldiers in the same cemetery. On that occasion Maj. H. G. Purinton, commander of Columbia post, No. 705, G. A. R., suggested that the monument be dedicated the next Decoration day, May 30, 1895, that G. A. R. veterans, because of its being a holiday, might attend and take part in the ceremony. The holiday feature of the day applying as well to my own command, that day was selected, without any thought or intention of infringing upon a prerogative of the G. A. R.

"I am the recipient of a letter from Lieut-Gen. John M. Schofield, commanding the United States army, and an intorsement on the back of his photograph by Gen. Thomas G. Lawler, commander-in-chief of the G. A. R., each commending the monumenting of the remains of my dead comrades. I will be in command during the dedication of the confederate monument on the morning of May 30 next, and know in advance that neither an unpatriotic sentiment nor disloyal word will be uttered, and I will personally see that the stars and stripes are alone given to the breeze on that occasion."

GEN. HUGHES' STAFF.

The Kansas Major-General Appoints the Men to Compose His Official Staff.

TOPEKA, Kan., May 15.--To-day Maj-Gen. J. W. F. Hughes, of the K. N. G., transmitted to the war department of this state the following appointments as members of his official staff: C. N. Nelson, assistant adjutant general; Topeka; W. A. S. Bird, of Topeka, judge advocate; Robert Atkinson, Jr., of Ottawa, engineer in chief; D. B. Kilburn, of Burlingame, and S. C. Orr, of Manhattan, aides de camp. These officers each have the title of major. There is yet one aide de camp to be appointed but Gen. Hughes has not fully determined who it will be.

KANSAS BASEBALL LEAGUE.

Schedule of Games Arranged for Different Towns Up to June 2.

LAWRENCE, Kan., May 15.--E. E. Murphy, secretary of the Kansas Baseball league, has made out the following schedule of games up to June 2: Leavenworth at home May 16 with Topeka; 25 and 26 with Troy, and June 1 and 2 with Emporia; Topeka at home with Leavenworth May 16, 17 and 18; with Emporia 23, 24 and 25; with Troy 30 and 31 and June 1; Emporia at home with Troy May 16 and 17; with Leavenworth 31 and 22; Troy at home with Topeka May 21 and 22 and June 2 and 3; Troy and Topeka will play at Seneca May 28 and 29.

A Power House Burned.

KANSAS CITY, Kan., May 15.--A fire which broke out in the boiler room at the West Side Railway Co.'s power plant and car house on North Third street during the storm early this morning completely wrecked the upper portions of the building, destroyed the offices and machine shop and two of the company's cars, and caused a tie-up of the West Side system. The damage is estimated at from \$70,000 to \$85,000, which is covered by \$40,000 insurance. It is the general belief that the building was struck by lightning.

AN INVESTIGATION.

Commissioner Wright Noting the Effect of Machinery on Labor.

DIVORCES AT WASHINGTON.

The National Capital Becoming a Great Resort for Dissatisfied Married Persons--A Rumor About a New War Secretary.

WASHINGTON, May 15.--The champions of conflicting currency views are likely to find much valuable material in the report upon which the department of labor is at work regarding the effects of machinery upon labor. The report was ordered by a special resolution of the last session, and Labor Commissioner Wright has already made a number of preliminary inquiries and set his agents to gathering material. He has prepared questions which will reduce the results to simple comparisons in time and money. A unit of production is to be taken, like a hat, a dozen pairs of shoes or a bolt of cloth of substantially the same character and quality, at different dates and different establishments, and it is proposed to determine the amount of time taken by hand labor and the amount paid for the labor, and the amount of time taken in tending machinery and the amount paid in producing the same results. The data will be obtained from a great number of establishments and great variety of articles, so that the figures of time and cost will be put in comparative columns to indicate the saving due to machinery. If wages have risen while the cost of the product has fallen, it is thought it will go far to support the theory of the believers in the gold standard that the fall in prices of commodities is due to improved methods of production rather than the scarcity of gold.

Mr. Wright will not undertake to discuss these problems in this report, but the report will form an arsenal from which students of the subject can draw effective weapons. He is glad it has been ordered by congress, because the present transition stage is favorable for comparing hand and machine labor. Many articles are now manufactured by hand in certain localities which are manufactured by machinery in the great centers of industry, and from which hand labor is likely soon to disappear. There are great advantages, in the opinion of Mr. Wright, in being able to make the investigation while both methods are in use, instead of being obliged to rely for data regarding hand labor upon written documents and the recollections of old employees.

DIVORCES AT WASHINGTON.

WASHINGTON, May 15.--Washington will soon be qualified to take place with Sioux Falls and Chicago in the facility with which divorces are granted. The district laws are such as to make this the most desirable place to secure a divorce, as there is absolutely no publicity connected with a divorce or petition in Washington. The papers are never given out to the public, and the fact of filing the divorce is in fact withheld from the usual channels of news. After the divorce is granted, the only information procurable is the bare action of the court. In consequence many are coming to Washington to procure divorces. For several years the divorces granted in Washington have been out of all proportion to the number of people living here, and it will not be long before the courts will do better business in divorces than the marriage license clerk in issuing licenses.

Outwaite for War Secretary.

WASHINGTON, May 15.--Another cabinet rumor is floating about Washington. It comes from friends of ex-Congressman Outwaite. Secretary Lamont is to resign, so the story goes, and Mr. Outwaite is to be put at the head of the war department. Mr. Outwaite was chairman of the military committee of the house in the last congress and shortly after the adjournment was given a place on the fortifications board, an office paying \$5,000 a year. Not much credit is given to the rumor here.

A Joker Shot Dead.

GUTHRIE, Ok., May 15.--It is reported here from Perkins that two young men decided to have some fun by holding up and scaring a traveling medicine venter who went under the name of Dr. Wild Jack. As he came along the road they sprang out and ordered him to hold up his hands. Instead of getting scared, he pulled a revolver and shot one of them dead and the other one only saved himself by taking to his heels and plunging into the bushes.

Omaha Stills Men Do Nobly.

MEMPHIS, Tenn., May 15.--At the military encampment yesterday the features were an exhibition by the United States troops and the drilling of the Thurston rifles, of Omaha. The latter made the finest display of any of the companies. The Omaha Gatling gun squad also did finely.

Western Silverites in Convention.

SALT LAKE, Utah, May 15.--Delegates to the silver conference have arrived from California, Oregon, Washington, Idaho, Wyoming, Montana, Colorado, New Mexico, Nevada and Utah and there are large numbers of silver men from surrounding regions.
