

WEEK'S REVIEW IN BRIEF

NOTABLE HAPPENINGS FROM THE WORLD AT LARGE.

Bolted Down For Busy Minds Into Kitchens Giving Valuable Information of the Great Passing Show as gleaned from the Wire Reports.

Receivers of the Chesapeake, Ohio & Southwestern have been authorized to issue certificates in order to raise funds for betterment and construction.

A three-weeks' old girl baby, richly dressed, was found in a cyclone cellar in the yard of a vacant house in Wellington by some boys Saturday evening. The child was almost dead when found, but was cared for, and it is thought will live. The matter is being thoroughly investigated and sensational developments are expected.

The American Legion of Honor, which was to meet in grand council at Meridian, Miss., Tuesday, turned back at Newton and went to Jackson to hold their meeting, having heard on the train that there were thirty or forty cases of small-pox at Meridian. It is hardly probable that many cases have developed at Meridian, but there are some, and the delegates did not want to take any chances on catching the dread disease. L. A. Moss of Edwards is grand commander.

J. C. Love, aged 19 years, son of United States Marshal R. M. Love of the northern district of Texas, died Wednesday night at his father's home in Oak Cliff, from the effects of a wound inflicted by the accidental discharge of a pistol three weeks ago. The deceased, who was a deputy under his father, in unpacking a grip in his room, came across his pistol, which he carelessly took by the barrel and threw under the bed. The weapon struck some object under the bed and exploded. The bullet ripped up his arm and entered his body, striking the spinal chord, and paralysis below the waist followed.

News reached Selma, Ala., of a terrible difficulty at Pleasant Hill, about thirty miles from there: Joe Vaughan, a young white man, had foreclosed a mortgage, and driving home some cattle, it was necessary that he should go through a large gate. He called on Caroline Weaver to open it, and she complained that it was too heavy for her, whereupon Vaughan struck her over the head with a pistol and then shot her. Her husband ran to her assistance and Vaughan raised his weapon and fired at him, the ball striking him near the waist. Caroline Weaver was shot entirely through and died in a short while, but her husband will recover. Vaughan made his escape.

The Eighth Annual State convention of Kansas Christian Endeavorers was held in Wichita last week, convening Thursday night and concluding Sunday night. Over a thousand enthusiastic Endeavorers were present from all over the State, and many from other States and Oklahoma. Among the noted speakers occupying places on the program were: John G. Woolley and Rev. Carlos D. Martin, Chicago; F. D. Power, Washington, D. C.; B. Q. Denham, J. L. Sewall and J. S. Davis, Kansas City. The following officers were elected for the ensuing year: President, Henry W. Rule, Wichita; first vice president, Rev. B. Q. Denham, Kansas City; second vice president, Rev. H. M. Oberholzer, Salina; secretary, Miss Essie E. Skelton, Kansas City; treasurer, C. L. Brokaw, Kansas City; Junior superintendent, Miss Lizzie Coult, Newton.

John Wilson, an old German farmer living some thirty miles south in the strip, was arrested at Anthony Tuesday evening on a charge of stealing wheat. He was taken before a justice, pleaded guilty and was fined \$10 and costs, which he was unable to pay, and was committed to the county jail. The facts of the case are as follows: Wilson, who has a family to support and not being in very good circumstances, was forced to steal to keep his family from starvation. He stole 20 bushels of wheat from John Mull, living near Ruella, and hauled it to Anthony and traded it to the Poorman Milling company for flour and \$3 in money. He gave the flour and money to Mr. Mull, who after hearing the circumstances which led to the theft, gave Wilson two sacks of flour. A subscription was circulated and enough money raised to pay his fine, and he was released. Shortly after some parties from the strip who know him heard of the matter and informed the parties who had donated the money that the man's name was not Wilson, and that he had considerable property and was getting good wages for holding cattle in the strip. George Kilborn, who had been active in raising the money to pay the fine and costs, when he heard the facts in the case, brought suit against him on an agreement to repay the money, and attached his team and wagon. The fellow finally agreed to turn over stock enough to pay back the money and the costs in the action, and left his team for security until the matter was adjusted.

From present appearances Richmond, Va., will secure the next meeting of the Confederate association, which is in session at Houston, Tex. Charleston, S. C., Atlanta, Ga., and Memphis are making a hard fight for it. A question now before the association is a plan to provide headquarters in which to keep records and everything of historical value relating to the Confederacy. Miss Winnie Davis was given a reception at Capitol hotel by Mrs. Wm. Rice and a party in her honor was given by Mrs. K. McIlhenny.

Captain Frederick Trench, who was British governor of Corinto during the recent occupation, is dead. Gold-bearing sand was found in a well at Ft. Smith, Ark., which was being cleaned out. It was assayed and found to be quite rich. Prospectors will at once examine to determine if the gold comes from a pocket or vein. If it turns out to be the latter it will be a big boost for the school fund, as the land in which the deposit lies is part of an old military reservation which is part of the city's school lands now.

It is said that even if the Vanderbilts are not trying to buy the Reading, the control of that road is being sought by a syndicate friendly to their interests.

Queen Victoria was seventy-six years old last Thursday, and grand naval and military celebrations were carried on in England and Canada on both Thursday and Friday.

A bloody and sensational duel followed the dismissal of the congregation of the Presbyterian church at Troy, Ky., Sunday morning. Archibald Riley, a well-connected young man, was shot and killed, and George B. Montgomery was so badly wounded that he will die.

W. D. Dunnaway, who resides about five miles southeast of Walker, Vernon county, Mo., carved his name and date on the back of a terrapin July 4, 1874. Last Sunday Mr. Dunnaway saw the same terrapin about 150 feet from where he had parted company with it nearly twenty-one years ago. It still bore the name and date carved by Mr. Dunnaway.

William Withers, Government Brand Inspector at the stock yards, at Kansas City, died at his home of heart failure Wednesday after an illness of several weeks. The body was taken to his mother's home, La Junta, Col. Mr. Withers came to Kansas City four years ago from Colorado, where he had been State Brand Inspector.

James P. Maloney, commercial agent of the Missouri, Kansas & Texas, died of inflammatory rheumatism at his home in Austin, Tex., last Sunday. He was fifty years old, and was the first railroad agent ever located in Austin, having been general freight and ticket agent for the Houston and Texas Central when it entered Austin as a pioneer road twenty-five years ago.

A young girl baby was picked up along the Illinois Central railroad Tuesday morning near Dixon, Ill., by Arthur Wasson, engineer of a north-bound freight, where the child had been thrown by its heartless mother. Investigation by the officers show that about three weeks ago a woman went to Dixon from Mazon, Ill., giving her name as Laura Stonier, and went to board at Miss Garrison's, and while there was visited by a strange man whom she refused to see. Tuesday morning she left for the south on the 3 o'clock passenger train with her baby in a cardboard box. After the train was outside the limits she threw it from the window. Both the man and woman were placed under arrest.

A unique and successful experiment was made at Louisville, Ky., Sunday, when the Associated Press telegraphic news was taken from the wire directly by a type-setting machine operator. One of the Associated Press loops was run into the Evening Post composing room, and D. C. Boyle, managing editor of the Post, and Richard Cogan chief operator of the Associated Press, who are both telegraph and linotype operators, succeeded in receiving dispatches of the Associated Press, putting them in type directly from the wire. A maximum speed of fifty words a minute was attained, and in an hour's work an average speed of thirty words per minute was maintained.

AFTER THIRTY YEARS.

THE BUCKEYE STATE CONTRIBUTES THIS STORY.

How Fred Taylor, of the Gallant 180th N. Y. V. L. Finally Found What He Sought.

(From the Ashtabula, Ohio, Beacon.) Mr. Fred Taylor was born and brought up near Elmira, N. Y., and from there enlisted in the 189th regiment, N. Y. V. L. with which he went through the war, and saw much hard service. Owing to exposure and hardships during the service, Mr. Taylor contracted chronic diarrhoea from which he has suffered now over 30 years, with absolutely no help from physicians. By nature he was a wonderful vigorous man. Had he not been his disease and the experiments of the doctors had killed him long ago, Laudanum was the only thing which afforded him relief. He had terrible headaches, his nerves were shattered, he could not sleep an hour a day on an average, and he was reduced to a skeleton. A year ago, he and his wife sought relief in a change of climate and removed to Geneva, Ohio; but the change in health came not. Finally on the recommendation of F. J. Hoffner, the leading druggist of Geneva, who was cognizant of similar cases which Pink Pills for Pale People had cured, he was persuaded to try a box. "As a drowning man grasps a straw so I took the pills," says Mr. Taylor, "but with no more hope of rescue. But after thirty years of suffering and fruitless search for relief I at last found it in Dr. Williams' Pink Pills. The day after I took the first pill I commenced to feel better, and when I had taken the first box I was in fact a new man." That was two months ago. Mr. Taylor has since taken more of the pills and his progress is steady and he has the utmost confidence in them. He has regained full control of his nerves and sleeps as well as in his youth. Color is coming back to his parched veins and he is gaining flesh and strength rapidly. He is now able to do considerable outdoor work.

As he concluded narrating his sufferings, experience and cure to the Beacon reporter, Mrs. Taylor said she wished to add her testimony in favor of Pink Pills. "To the pills alone is due the credit of raising Mr. Taylor from a helpless invalid to the man he is to-day," said Mrs. Taylor. Both Mr. and Mrs. Taylor are not fond words to describe the gratitude they feel toward the highly Pink Pills for suffering humanity. Any inquiries addressed to them at Geneva, Ohio, regarding Mr. Taylor's case they will cheerfully answer as they are anxious that the whole world shall know what Pink Pills have done for them.

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Company, Schenectady, N. Y., for 50 cents per box, or six boxes for \$2.50.

An English coin of the reign of Charles II once sold for \$2,500. This is the highest price recorded for a single piece of money.

BROAD TIRE WAGONS.

There is No Reason Why They Should Not Be Used Everywhere.

While the subject of good roads is being agitated in every part of the country those most interested in the subject are doing their best to make bad roads still worse by using narrow tires on their wagons. Heavy loads are drawn over our mud roads on these narrow-tired wagons and deep ruts cut into them, that in wet weather make them almost, and sometimes entirely, impassable. I have a sort of a pity for a man who urges his team along a muddy road, all the time grumbling about the badness of it, when he might reduce the labor of his team from one-third to one-half by using wide tires at very little additional cost to himself and to the great saving of team and temper. It is to be hoped that the first legislation looking to the improvement of the roads of the country will be in the way of encouraging the use of wide tires, for one narrow-tired wagon will do more damage than a dozen with wide tires if the roads are at all soft. No one disputes the philosophy of wide tires, and no one seems to have any good reason to offer why they should not be used. Our farmers simply follow precedent and go on using narrow tires because their fathers did before them. Lumbermen and freighters use wide tires almost universally and save money by doing so, but it seems that farmers do not care to economize in this direction. The condition of our roads costs us more than any other single item of waste in this country, and the common use of wide tires would reduce this waste of energy to a large extent.—American Farmer and Farm News.

Important Change of Time.

The new service on the Nickel Plate road goes into effect on Sunday, May 19. Three trains will be run in each direction, leaving Chicago going east at 8:05 a. m., daily except Sunday, 1:30 and 9:20 p. m. daily. No change of cars between Chicago and New York in either direction. Also through sleepers between Chicago and Boston. Superb dining cars are a feature of the new service. Rates always the lowest. (City Ticket Office, 111 Adams street, Telephone main 339.)

Horse meat as an article of food is not new to the people of Oregon. The old missionaries from 1833 to 1844 used it as a regular diet.

ONLY ONE AND THAT IN JULY.

Excursion to Colorado. The Great Rock Island Route will sell tickets cheap for this excursion to Denver in July, and you should post yourself at once as to rates and routes. Send by postal card or letter to Jno. Sebastian, G. P. A., Chicago, for a beautiful souvenir issued by the Chicago, Rock Island and Pacific R. Y. calling attention to the route to Colorado. It will be sent free. It is a gem, and you should not delay in asking for it. Jno. SEBASTIAN, G. P. A., Chicago.
