Weakness of sight is frequently the result of general debility. When the blood is impoverished every organ and sense suffers. As an effective, powerful, and economical tonic-alternative, Ayer's sarsaparilla may be relied upon every time.  
In the Yeagarden-Hodges case it came out that Sherman county has no herd law through fault of the affidavit of the publisher of the notorious night mare. The commissioners at the next session of the board will probably attend to the matter.

The many remarkable cures of catarrh effected by the use of Ayer's Sarsaparilla is conclusive proof that this loathsome and dangerous disease is one of the blood, only needing such a searching and powerful alternative to thoroughly eradicate it.  
J. V. Farwell of Chicago, Ill., has written the rain company here to get terms for the production of rain on his ranch in Texas. His property there is 25x300 miles, and he has sixty miles of railroad, hotels, etc., and offers the best possible accommodations.  
A petition of sixteen names of Sir Knights has been sent in to the grand eminent commander at Wichita, Kas., for a charter for a commandery to be organized at Goodland. We hope the petition will be granted as we want to see our city in the lead in the higher degrees of fraternalism.

### HOME EVENTS.

**Kansas Teachers Association.**  
Prof. Kimmel in an interview on the coming Northwest Kansas Teachers association to be held in Norton, said: "I hope that every teacher in Sherman county, may be able to attend this meeting. The meeting is to be held at Norton, the 26 to the 28 of this month. Those wishing to attend can get a one and one-half fare on the Rock Island, based on the certificate plan. Reduced rates and good accommodations may be had at the hotels while in Norton. No pains will be spared to make the trip and the stay at Norton a source of pleasure and profit to all who may attend. Remember we invite not only teachers, but all who are interested in the cause of education to meet with us. It will be a benefit in many ways. They will come home better teachers and can do more and better work in less time by reason of the association, and recreation of the meeting. I would suggest to school boards the idea of giving the time to their teachers providing they attend the association, they will lose nothing by it."

### From the Silent City.

The Colby Tribune last week had an article, the drift of which is that Sherman county farmers go to Colby to trade. Now what a gall the editor of that sheet must have to print such an article. No one would even think of going to Colby to buy even a slide bar of laundry soap. To show that we are about right in our assertions we cite an incident that happened last week. A Sherman county man had a steam thrasher at work in Thomas county, near Colby, and while at work, broke a part of the machine. Did he go to the deserted village of Colby to have it repaired? Not much. He got on the train and came to Goodland. When asked why he did not have it repaired at Colby, he said: "Well I can get it fixed so much cheaper, and the difference in price will pay my fare up here and back and will leave me a little head end collision."

### Head End Collision.

On Wednesday between 11 and 12 a. m. there was a head-end collision on the Rock Island at Falcon, Col., between train No. 98, engine 812, Engineer Bert Keith, Fireman Myron Gamble, Conductor Sands, east bound; and train No. 99, engine 810, Engineer Mike Stanton, Fireman A. F. Tappier, Conductor Beers, west bound. Both engines were badly damaged and fifteen or twenty cars off the track. No one was hurt but a man with a car load of chickens and he not seriously. The cause—98 was switching and 99 coming down from Tip Top was not able to hold the train.

### The Eclipse of the Moon.

There was a total eclipse of the moon on Sunday. It began about 3 o'clock in the afternoon and the moon rose in eclipse. About 6 o'clock there was a narrow rim of light on the lower edge of the moon's disk. The eclipsed portion had a dim muddy appearance. The dark and light portions of the moon's surface were plainly discernible throughout the eclipse. It was a fine sight and was witnessed by many of our citizens.
