**Prospectus.**

THE AUTO BOOK CONCERN has been organized. First. To acquire and control the American and European patents of the AUTO BOOK BINDER, and the AUTO BOOK TRIMMER MACHINES, that, to the book-making art, mark an advance as important as the Steam Printing Press was to the Washington Hand Press fifty years ago; and to manufacture and operate said machines, in this and in foreign countries. Second. To acquire the most complete set of stereotype and electrotype plates, in this country, of the standard popular authors. These are stored in fire proof vaults in the City of New York. They are perfect and cost over \$1,000,000. Third. To manufacture with the use of these Automatic Machines, all grades of books, including school and music books, and sell the same at greatly reduced prices, to its Stockholders and the trade.

The Company will not sell or lease any of its machines within the United States, but to the European book-making craft only. THE AUTO BOOK BINDER and the AUTO BOOK TRIMMER are run at little expense. They are marvels of simplicity. The binder, with the assistance of two girls, picks up printed sheets and covers, and converts them into solidly and flexibly bound volumes, neither sewed nor wired. These machines perfectly perform their tasks, and are henceforth as indispensable in producing books, as the perfected presses are to the newspapers. It is proposed to provide families, students and school teachers with libraries at trifling expense and the best current literature at prices heretofore unknown and school books for the children of the million, neater and cheaper than ever has been done.

**Statement of Earnings.**

The profits on the publication of the standard and popular works from the plates which the Company acquires have exceeded \$100,000 yearly under the old processes of manufacture, assuring to the stockholders a profit of at least 10 per cent. per annum from this source alone. With the use of the Auto Machines these profits must necessarily be largely increased. It is impossible to estimate the returns from the ownership of the patents and the sale of the Machines in Foreign Countries, but it is a well known fact that patents covering machinery that create a revolution in any important trade have proved enormously remunerative to the original owners, and soon repay the full amount of capital invested. Additional dividends will be declared from time to time as such profits are realized.

**Stockholders' Postal Supply Bureau.**

An important feature of the sale department of the Company is the STOCKHOLDERS' POSTAL SUPPLY BUREAU. The Company acts as agent for each stockholder in the purchase of all books published, and secures for stockholders the greatest possible discount, varying from 25 to 60 per cent. Stockholders will also be supplied with catalogues containing the list of the Company's publications, with a confidential price list, giving the wholesale prices and a special additional discount, which will be given to stockholders alone. Such discounts to stockholders will amount to an immense sum on the yearly purchase of books, thus yielding large DISCOUNT DIVIDENDS, in addition to the Cash Dividends, on the investment.

The price to be paid by the Company for the American and Foreign patents of the Auto Book Binder, the Auto Book Trimmer and the stereotype and electrotype plates of the Standard Works is \$1,000,000; \$350,000 in cash and \$650,000 in the stock of the Company; the vendors agreeing, however, to donate to the treasury of said Company \$150,000 of the stock they receive in part consideration of the conveyance of the above property. To meet said cash payment of \$350,000 to said vendors and to supply the necessary working capital, 50,000 shares of the capital stock of this Company are now offered for public subscription at par

(\$10 per share). This stock is full paid and non-assessable. Purchasers incur no personal liability. The remaining stock is retained by the vendors, as it is expected to command a large premium when the machines are in universal use.

Subscriptions to stock can be paid for in full on application, or 20 per cent. can be paid on application, the balance in one and two months. Should the stock offered be over-subscribed, preference will be given to subscriptions accompanied by full payment. Early application is, therefore, recommended. Applications for stock with remittances must be made to WINTHROP POND, Treasurer, THE AUTO BOOK CONCERN at the Company's office, 308 Broadway, New York.
