**The Kansas City Stock Yards**  
Are the most complete and commodious in the west and second largest in the world. Higher  
prices are realized here than farther east. This is due to the fact that stock marketed here is  
in better condition and has less shrinkage, having been shipped a shorter distance; and also  
to there being located at these yards eight packing houses, with an aggregate daily capacity  
of 9,000 cattle, 40,000 hogs and 4,000 sheep. There are in regular attendance sharp, competitive  
buyers for the packing houses of Chicago, Omaha, St. Louis, Indianapolis, Cincinnati, New  
York and Boston and the Export trade to Europe. All the eighteen railroads running into  
Kansas City have direct connection with the yards.

This work embodies every practical rule known in commercial calculation and all of the best features of higher arithmetics, "lightning calculators," etc., besides hundreds of original methods and "short cuts" for easy and rapid calculation.
