AN AWFUL CATASTROPHE.

The Ditmar Powder Works, Bay Chester, N. Y., Blown to Atoms.

BARTOW-ON-THE-SOUND, N. Y., Sept. 30.—A terrific explosion occurred at the Ditmar powder works, Bay Chester, on the Harlem river branch of the New York & New Haven railroad, about 10 this morning, resulting in the instantaneous death of four men employed in the factory. The explosion occurred in the packing house, a one-story frame building twenty by thirty feet, in the centre of the grounds, about two hundred yards from the main factory, a large building near the water, where the bulk of the giant powder and nitro-glycerine used in the new aquatuet work is manufactured.

The men were hard at work putting up and packing cartridges, when suddenly and without warning the explosion occurred, shattering the building to splinters and blowing the four men to fragments. The exploding powder, of which there a large quantity, shot up into the air as high as fifty feet and splinters of the building were blown a mile distant. The names of the men killed are as follows: Max Shafbolt, Ernest Dralen, John Rousch and Mr. Reinhart. Nothing was left of them except fragments of their bodies. Their hands, legs, feet, arms, pieces of skull, backbone and charred bits of flesh were scattered in every direction, from five to six hundred feet from the packing house.

Max Cruger, foreman of the works, says the explosion was caused by two men shooting into the building. He was in the packing house at the time and going out found two men who said they were shooting squirrels. He says he threatened them with arrest. They then became impudent. As the explosion occurred the men were seen hurrying away.

R. Stansfield, superintendent of the powder company, was near by and picked up a box full of fragments of the dead men. Others assisted in the work and the remains were all placed in a heap to await the coroner's arrival. One of the dead men leaves a family in Germany; the others were single.

The manufactory of the Ditmar works was nearly wrecked, one end being blown to pieces, exposing the interior.

After the explosion the lower timbers of the building took fire and burned fiercely. A large tree near by was torn up by the roots. Branches of other trees were blown away. The ground around for half a mile is strewn with fragments of the dead, splinters, packing paper, etc. The violence of the explosion shook houses in Bartow, across the creek from Bay Chester. Many windows in John Elliott's Bay-View hotel at Pelham bridge, over a mile away, were shattered.

Thomas W. Linwood's blacksmith shop at West Chester was shaken violently. The windows in many houses in the same village were broken.

This is the second explosion that has occurred in these works this year. The one last winter blew a man to fragments.

The remains of the men killed today could not possibly be identified. Many persons living miles away drove hurriedly to the scene and some of them helped gather together the fragments of the dead men.

Window sashes and doors in the railroad station at Bay Chester were blown to fragments and windows in other houses damaged, but no one outside the factory was hurt.

OVER THE OCEAN.

Bulgaria.

SOFIA, Sept. 30.—General Kaulbers today received a deputation of prominent Bulgarians who called upon him to endeavor to induce him to withdraw or modify his circular. The deputation was composed of one hundred and fourteen of the most respected and influential citizens of the principality, and was headed by Dr. Voultiff who acted as spokesman. He stated to General Kaulbers that the Bulgarian people asked him to reconsider some of the Russian demands, particularly that for the postponement of elections two months. The nation was anxious to speedily settle the choice of a prince to occupy the Bulgarian throne. In addition to that modification the doctor said the people desired that Russia withdraw her demands for the immediate raising of the state of siege, and also the demand for the instant release of prisoners in custody for complicity in the coup d'etat. The continuance of the state of siege was the only guarantee the government had for the preservation of peace, which the rest of Europe desired as well as Bulgaria. The Bulgarians, believing that the czar had no desire to prolong the crisis, begged General Kaulbers to telegraph to him to hasten the choice of a prince. In regard to the liberation of political prisoners, Dr. Toultiff said it would be a dangerous precedent to establish to liberate without trial or punishment those responsible for such a monstrous act as the deposition and kidnapping of Prince Alexander, besides being contrary to laws which were safeguards of the county. Besides, if the prisoners were released as demanded the probabilities were that the people would kill them in the streets, such was the popular indignation against the implicated men. The government thought the imprisoned officers should be tried first and subsequently offered clemency.

In conclusion, the deputation assured Gen. Kaulbers that Bulgaria is thankful to the czar for past protection, but maintained that the laws of the country must be respected.

Gen. Kaulbers in reply said that Bulgarians knew very well that the czar had their prosperity at heart, but, he added, they must confide in the czar did carry out his wishes.

Dr. Voultiff interrupted Gen. Kaulbers at this point and said: "If that is all you have to say, we will retire." The deputation then withdrew.

The Bulgarian ministry have concluded to postpone their reply to Russia's note demanding as conditions of the czar's protection the raising of the state of siege, of the liberation of the political prisoners and the freedom of all parties to vote in the elections for members of the grand sobranji to choose a new prince. The ministers are not willing to flatly refuse Russia's demands, and have resolved to depute and instruct some one to enter into negotiations with General Kaulbers with a view to finding some other method of settlement between Russia and Bulgaria.

Austria-Hungary.

PESTH, Sept. 30.—Prime Minister Tisza replying to interpolations for the government in the lower house of the Hungarian parliament today said Austria-Hungary intended to prevent any single power from establishing a protectorate over Bulgaria. We want independence among the Balkan states, he continued, without having any covetous design towards any of them, no community of interest exist in the Balkans. Austria-German alliances continues guarding mutual conditions of existence without endangering peace. Austria-Hungary will not allow any single power to make armed interference in Bulgaria. Austria-Hungary earnestly intends following this policy during these critical times.
