

Daily Eagle

NOTHING NEW.

There is nothing new to me said one,
Gravely quoting Thackeray's Solomon—
'There is nothing new beneath the sun'—
'Ah! what foolish wisdom this,' I cried.

LIABILITY OF PHYSICIANS.

What a Supreme Court Judge Said in Charging a Jury—Common Law.

In a recent case, involving a charge of malpractice, tried in the supreme court of Massachusetts, the presiding judge in charging the jury used the following language:
'Whoever men are called upon to act with dangerous agencies, the law holds them to some degree of criminal responsibility.'

Typoid Fever on the Steamers.

People who are about to visit Europe should be very careful what ship they take for the passage. I have heard within the last two or three weeks of some of the most terrible cases of typhoid fever contracted on board ships of the lines considered by the public first class.

Persian Ladies at the Bath.

The bath takes up a good deal of the time of all Persian women. Even the poorest will attend the hammam at least once a week. For the lady the bath is one of the serious affairs of life and takes up daily from two to four hours of her time.

A Thunderstruck Huntsman.

Alexander H. Stephens, of Georgia, had a negro man named Henry, who was very fond of 'possum hunting—a perfect snared in that line. Having, as usual, gone out for that purpose, it was not long before his dog struck a track and soon treed the hunter, having arrived at the tree, deliberately laid down his torch, and drawing his ax from his shoulder, eager for the game, began laying out to fell it.

Almost a New Magazine.

It is not publicly known, perhaps, that some time since a syndicate was formed by Dr. William A. Hammond, Julian Hawthorne, George Parsons Lathrop and Irving Bacheller, whose object was the establishment of a new magazine in New York.

Large Vessels Better than Small Ones.

The tendency to discontinue the building and use of small vessels for ocean transportation, and the facility of such vessels to compete with vessels of larger tonnage, is shown by the statement that while a steamer of from 200 to 300 tons requires one sailor for every 100 tons, a steamer of from 800 to 1,000 tons requires but one sailor for every 41.3 tons.

Translating Shakespeare.

Three Frenchmen, who were studying a volume of Shakespeare in their native language, endeavored to translate into English the well known opening to Hamlet's soliloquy: 'To be, or not to be.' The following was the result:
Frenchman: 'To be, or to am.'
Second Frenchman: 'To where, or is not.'
Third Frenchman: 'To should, or not to kill.'—Exchange.

A Telegrapher's Disease.

Another of the new diseases which follow in the wake of civilization has been reported from Berlin, where two telegraph operators have been affected. The finger nails have fallen out, one after another, though the persons have been otherwise in good health. The curious affection is ascribed to the constant jar and pressure on the fingers produced by working the Morse key.—Arkansas Traveler.

LINCOLN'S CELEBRATED PHRASE.

'He Made no Pretense of Originality in the Matter,' Says Ward H. Lamon.

For using, in his Gettysburg speech, the celebrated phrase 'the government of the people, by the people, and for the people' shall not perish from the earth.' Mr. Lincoln has been subjected to brutal criticism as well as the most groundless flattery.
