STRUCK IT RICH.

A GOOD FLOW OF GAS AT A DEPTH

Of Three Hundred Feet—Members of the Company and Citizens Visit the Well and Much Delighted.

Yesterday morning near 3 o'clock the parties engaged in sinking well No. 3 for the Wichita Mining & Investment company detected gas. They continued work and soon found that at a depth of three hundred feet, judging from the record of the first well. They continued work until the flow of gas perceptibly increased, and when in the stratum about five feet the drill broke, thus delaying work all day yesterday and until late last night.

When the drill broke it was withdrawn and very soon the flow was strong enough to make a showing of fifteen pounds per square inch out of a ten-inch main.

Near daylight Mr. Brady started to the office of the company and the secretary, Mr. J. E. Davis, returned with him and reached the city last night, confirming the find of gas in large quantities. During the day a number of citizens visited the well, which is near nine miles east of the city, and all returned much pleased with the showing of new fuel.

It is thought that the stratum is about fifteen feet in diameter which will, according to general observation on the subject, furnish a pressure of from forty to fifty pounds per square inch. This holds good that alone will prove a very decent gas supply, but it points to something that indicates by far more satisfactory results than it is thought can possibly be found in a stratum fifteen feet thick and only three hundred feet below the surface. It shows clearly that the well, for that depth at least, is located some where near the anti-clinal axis.

COLONEL STEWART AT HOME.

Yesterday morning's EAGLE announced the home arrival of Colonel M. Stewart and his amiable and vivacious wife, accompanied by their son Charley, who had been attending a boys' school at Falkstone, England, during the travels of his father and mother.

For eight months our old friend and his wife have been visiting the different families of this earth, the various children of the various churches, and only in those things wrought by their heritages of different times and places. Some of these children he found in the zenith of their national strength and historical glory, others only pointing to the grandeur of the past, the beautiful monumental works of their fathers, and yet still others, who, as of the first born, have only their traditions left, their crumbling ruins and the story of their decadence and vanished glories.

What peoples, what scenes, what thoughts have been crowded into that brief eight months of our friend's life. True he has imparted to the readers of these columns something of it all, yet it can only be what the panorama pointing is to the actual scenes. While we have followed his footsteps so closely and attentively that now, in their ending, we feel that we have been robbed of some good, yet we know that the letters were but the crumbs which fell from the prolonged feast—a reflex of the feelings, emotions and incidents but for a single day of all the many months. It seems to us that it would be almost impossible to return home from such a trip and be happy; to return to the new and the crude, the unfinished and unsteady, and not be oppressed with the thought of how much there is yet to do.

We have only met the colonel for a few moments, and as he looked perfectly contented and happy, we will not let our conclusions go as mere vagaries, while we thank him for not forgetting us while tarrying beside the cradle of civilization, he having brought us a cane which grew on the banks of the stream from which Pharaoh's daughter fished out the baby who was permitted to talk to the Creator of this Universe face to face; he having brought us also a pearl-shell paper-knife, a work of art, made in the village of the world's humblest, nearly nineteen hundred years ago, by the guiding light of that new star the sons of God first sang the song of a new Love and another Babe, which to this day everywhere renders and preserves holy and beautiful the fulfillment no less than the prophesy "The Bethlehem of Judea."

Sabbath school convention. A Sabbath school convention under the direction of the United Presbyterian Presbytery of the Arkansas Valley commenced its sittings this afternoon in the Plymouth Congregational church. According to the program Rev. Dr. Owens was expected to preside, but having been delayed he was here only a few minutes until tomorrow morning, and in his absence Rev. Jackson, of Anthony occupied the chair.

The proceedings were opened by devotional exercises, after which Rev. Dr. White, of Arkansas City, led the thoughts of the convention in an admirable paper entitled "The Relation of the Sabbath School to the Church." Devotional exercises were again engaged in, and the convention afterwards thrown open to voluntary discussion of the importance of giving the children a thorough religious training, and devising the best means of holding them for the service of public worship, after the Sabbath school had been discussed. Next on the program was a paper, "Qualification of Teachers," by Rev. J. W. Dorrance. Mr. Dorrance was reported absent, and the subject, and it was moved that the subject be passed over for the present. This was passed by consent and sent to the committee on program.

Next paper, "Music in the Sabbath School," by Rev. Mrs. J. O. Campbell, was not forthcoming. Mrs. C. being reported unable to attend, and the topic was thrown open for voluntary discussion. Several delegates took part, all agreeing that good music was an important factor in efficient Sabbath school work. At this stage of the proceedings praise service was engaged in for a few minutes, and the convention was led in prayer by Rev. Armstrong.

This ended the program for the afternoon session, and there being a few minutes to spare Dr. White said he desired to supplement his previous remarks by a few words on "The relation of the Sabbath school to the state," which he did, showing the influence a sound religious training of the young must have on the future good government of the country.

The question of forming an association of energetic Sabbath school workers was introduced by Rev. Armstrong, and after some discussion, referred to a committee of three who are to report tomorrow. Some announcements were made and the convention adjourned to meet at 7:30 p. m.

MR. HOKNER DEAD. L. M. Horner, the gentleman who, it will be remembered, a short time ago addressed a large crowd at the court room upon silk culture and who came here in the hopes of establishing a silk culture in this section, died Friday morning, probably stricken in a room at the public school library at Kansas City. He remains here, sent yesterday morning for interment to Lima, Ind. From the Kansas City Times the following is quoted: Mr. Horner had been interested in silk culture for the past eight years. He was living at that time at a small place, long first called to the subject. He became interested and in a short time became thoroughly imbued with the idea that the state of Kansas could and should derive a large revenue from this industry. At this time Mr. Horner was well to do and he traveled all over the state of Kansas, his own expenses being paid by the state. He was not long in coming to the conclusion that his money to disappear, and in a short time he had impoverished himself in the cause of his pet project. Although regarded as somewhat of an extremist on the subject, Mr. Horner did unquestionably a great deal of good. He was a tireless worker in the pursuit of his ideas and succeeded about two years ago in securing a law which gave a share of public attention.
