WEATHER BULLETIN. SIGNAL OFFICE, WICHITA, KAN., July 13—The highest temperature was 92°; the lowest 74°; the mean 82°; with brisk southerly winds and clear weather.

WAR DEPARTMENT, WASHINGTON, D. C. July 13.—The indications for thirty-six hours, commencing Saturday, July 4, at 10 p. m., are as follows:

INDIANAPOLIS, July 13.—There was comparative quiet about the Harrison residence today which continued until 9 o'clock tonight, when a delegation of 600 railroad men, led by A. D. Shaw, yamminer of the Bee Line, made a call. Mr. Shaw addressed General Harrison in a brief speech and in response the latter said:

CHARGED WITH RAPE.

STRELLING, Kan., July 13.—A warrant has just been issued for the arrest of James Dilley, a horse dealer from Geneseo, this county, for rape committed on Lydia Borton, a crippled woman, returning to her home south of the river, this evening. The woman was dragged from a wagon and taken under the bridge, where the brute accomplished his unholy purpose. The woman is paralyzed in her right side and unable to protect herself against assault. Officers are out after the wretch and will undoubtedly catch him, as they are only twenty minutes behind. Great indignation is expressed and it will go hard with the criminal if captured.

THE TRADE REVIEW.

Interior Points Reflect a Hopeful Spirit—Business Generally Dull.

NEW YORK, July 13.—R. G. Dun & Co. in their weekly review of trade, say: Quiet hopefulness prevails. Business now is dull. That it is going to be good, more favorable crop prospects lead people to hope. In financial markets there is nowhere disturbance, though the uncertainty of loans at New York raises questions that are not yet answered. There is no present expansion or legitimate trade to explain it and if important speculations are preparing they are all well concealed. The reports from interior points reflect a hopeful spirit, with most frequent reference to improved crop prospects. As to cotton, there is some contradiction, in the Mississippi valley, too much rain is reported with consequent excess of weeds. Corn and oats would probably exceed any previous yield if the weather should prove entirely favorable from this time onward through harvest, but the point of greatest danger is not yet passed. The hay crop at the east is ample and the latest reports are more encouraging as to wheat; prices are 1/2 higher than a week ago for oats, 1/2 lower for corn and 1/2 for wheat. In all directions the influence of more speculation upon values is just now an undecidable sign. Stocks have advanced, the more active averaging about 2 per cent higher than a week ago and yet the course of events would have suggested the decline. Cotton has advanced three-sixteenths, and the move now seems to be taking the form of a "corner" on near deliveries. Hogs, eggs and poultry are higher, while coffee is 1/2 lower than last year.

DYNAMITERS IN COURT.

Continued from First Page. shown witness, which were taken from Broderick. He was taken to the Fulton branch of the "Q." He told witness that he laid the cartridges on the rail, and the caps exploded, indicating a fatal wound in the abdomen. The high waymen then relieved him of all his money and escaped. No trace of them has as yet been found.

In a Big Telegraph Office. Suppose that the average man is induced to step off from State street for a few minutes, and mount the four or five flights of stairs leading to the main operating room of the Western Union company's Boston office, having, of course, obtained from the proper authority the necessary permission to do so. When the top floor is reached, and entrance to the main operating room gained, there is heard the most peculiar and astounding clatter imaginable. It is as if all the sailing circles in the world had met for an afternoon of silent work, as sewing circles generally do. It is like, and yet it is unlike, the clatter of a thousand machines in a great factory, or a myriad of looms, and if one wishes to talk and be heard he has to talk at the top of his voice. But this noise comes from the telegraphic instruments which are being operated by some score of nimble wretches, nimble fingers seated at tables systematically arranged in rows and sections.
