

ARIZONA JOURNAL-MINER

DAILY AND WEEKLY. Established 1884. Published by Journal-Miner Company. J. C. Martin, Editor and Manager.

MEMBER OF ASSOCIATED PRESS Official Paper of City of Prescott.

Entered in the Postoffice at Prescott, Arizona, as Second-Class Matter.

THE DAILY JOURNAL-MINER is published every day in the year except Sundays and legal holidays.

THE WEEKLY JOURNAL-MINER is published every week except the week of the County Seat of Yavapai County.

THE EASTERN OFFICES of this paper are at 234 Temple Court, New York City, and 15 E. Broadway, New York City.

THE JOURNAL-MINER will be continued until ordered stopped. Bills are sent out regularly and subscribers are requested to pay the same as promptly as possible.

TERMS: Daily, per year in advance, \$8.00. Weekly, per year in advance, \$2.50. Three months, 75 cents.

WEEKLY JOURNAL-MINER and Arizona Globe-Democrat, \$1.00. San Francisco Call, \$1.00. Philadelphia Record, \$1.00.

PRESCOTT'S NEED OF A HIGH SCHOOL.

The Journal-Miner has previously advocated the establishment of a public high school in Prescott. We think the children of this city are deserving of as good educational opportunities as are children elsewhere.

Mark Smith made a positive promise to the people of Arizona last fall that if they would elect Col. Wilson as delegate he would secure statehood for them. In order to carry the territory democratic he got a prominent republican senator to write a letter to the same effect.

The doctors of Waukegan, Illinois, have organized a union and advanced prices, among other items the fee for examining applicants for membership in secret societies being increased from \$1 to \$2.

The Phoenix Enterprise is making a political issue of the bond question in that city. Should the city vote to put in water works in opposition to the present system the tax payers will realize that there is considerable business connected with keeping them in operation.

THE SOUTHERN PACIFIC COMPANY has decided to put ticket collectors on their passenger trains again and thus relieve the conductors of the duty of looking after them.

WILL RULE THE WORLD.

From across the ocean comes the statement, made by a leading statesman of France, that before the end of this century the United States will rule the world.

Lazarre Weiller, one of the leading men of the French nation, makes this announcement. He says: "Long before the end of the twentieth century the United States and the American people will be the rulers of human affairs."

This prophetic statement is contained in a book about to be published, entitled, "Great Ideas of Great People," embodying his impressions of the United States, formed during his visit last year.

"The old world," he continues, "might as well accept the truth of Gladstone's prophecy, uttered in 1878 regarding the predominant role to be played by the people of America, who, with the slightest effort and by simple, rational development of their facilities, are shortly destined to assume the task of guiding humanity."

A fact not generally known is that the Goddard murderers were indicted by the recent grand jury under the names of John Doe and Richard Roe. They have been apprehended and identified, if there is any way in the world to give them a speedy trial it should be done, and if convicted, the sooner the sentence of the court, whatever that may be, is put into execution the better it will be.

The election to vote on a proposition to issue \$100,000 bonds to extend the sewer system and to improve the water works system will be held Tuesday, April 14. It is a sort of a "ground hog" case, as the improvements are a necessity, and the only way to secure them is to vote these bonds, so that no opposition to the bonds has developed so far.

As a sample of the way assessments are made in New Mexico the Albuquerque Citizen has the following: "There is a man in this territory who has a most remarkable flock of sheep. He has a certain number of sheep, according to his sworn tax returns, which he has recently counted and produced fifty seven pounds of wool, that being the average amount per head necessary to make up the wool clipped from his flock."

N. O. Nelson of St. Louis, has a large force of men at work erecting buildings and beautifying a tract of 130 acres recently bought by him near Indio, California, for a resort for consumptives and victims of nervous diseases. Indio is about 130 miles east of Los Angeles on the desert. It lies twenty two feet below sea level.

An effort is being made to have the rough riders in this section go in a body to the Grand Canyon and pay their respects to their former commander on the occasion of his visit there. There are at least a dozen of them left in this county.

A survey of the boundary line between Texas and New Mexico is talked of. It is hinted that as the line is at present the lone star state has about 180 square miles of territory in her domain which properly belongs to New Mexico.

"Lady" bull fighters are the latest sensation down at Juarez. They made their first appearance in the bull ring down there last Sunday and large crowds of blood thirsty El Pasos flocked across the border to see the exhibition.

The Southern Pacific railroad company will run an excursion to Tombstone from Tucson next Sunday to the great celebration which the former city proposes to have in honor of the completion of the railroad.

The question of enforcing the prohibition law was submitted to the voters of Kansas at the recent election. The vote in favor of it was the most overwhelming in the history of the state.

By the premature explosion of a shell in a twelve inch gun of the Battleship Iowa, at Pensacola, Florida, the gun burst killing three men and wounding five others.

Japan has adopted the postal system in vogue in the United States, but goes one step further by providing for penny postage.

Non-union workers in Indiana are now organizing non-union unions. The movement is a singular paradox.

The highest mountain in the moon is at least 30,000 feet in height; that is 6000 feet higher than Mount Everest.

HAND TO HAND WITH THE MOROS

They Oppose Advance of Surveying Party.

Battle Ensues—One Hundred Moros Bite the Dust—Three Americans Wounded.

Manila, April 10.—Captain Pershing's force captured Bacolod, Island of Mindanao on Wednesday, killing one hundred Moros and wounding many others.

Three Americans were wounded. Pershing's force consisted of Shaw's battalion of the Twenty-seventh Infantry, Kilpatrick's troops of the Fifteenth cavalry and Chacual's battery. Pershing was surveying the west shore of the lands when Bacolodians opposed his advance and provoked the fight. His force surrounded and attacked the Moros strongly, first shelling them, and then rushing the troops forward charged gallantly.

After crossing a deep moat and entering the stronghold the Americans engaged the Moros, with bayonets against rifles. It is expected that this defeat will result in all the Moros acknowledging the American sovereignty.

City's Rock Pile. At the council meeting on Monday night Chief of Police Prince suggested to the council the advisability of starting a rock pile in West Prescott on which the city prisoners might be put to work.

The plan outlined by these officers is to build a sort of corral among the rocks in West Prescott and take all the prisoners to this place every morning and give them a reasonable amount of rock to break for the day and let them understand that when it is done their day's work is done and not until then. By such a method any amount of men could be worked on one guard, whereas one man can only handle a few prisoners.

The rock thus broken could be piled up until there was enough to make a covering for one block or portion of a block. There are a great many of these spread upon the street, and in a couple of years or in less time the main business streets of the city could all be macadamized with broken rock which would give us as fine streets as any city could want.

The council said they were not ready at this time to take up the proposition but might at some future time.

In conversation with a Journal-Miner man yesterday Mr. Prince said that there had been all the way from ten to twenty prisoners in jail for the past month and that the city had not fed them day after day and was not realizing anything in return for all this expense. It was his opinion also that when the information leaked out as to surely would among the hobo and vagabond class, they would spread on which to entertain their prisoners, that Mr. Hobo would take mighty good care to give this place the "go by."

It does not also have a tendency to bring in cash for fines instead of serving out fines in jail at so much per day.

Club Will Entertain. A few days ago the executive board of the Prescott Athletic club appointed a committee composed of the following members of the club to arrange for an entertainment to the city on the latter part of this month: J. B. Jolly, E. A. Suppiger, Robert Porter, Howard Burnister, Jas. Mulren, Harry Thomas and D. E. Miles.

This committee met in the office of J. B. Jolly last evening and laid out the work of the entertainment, and decided to give at a rock pile athletic and gymnasium sports and wind up the evening's entertainment with a ball. Mr. Jolly was chosen chairman of the committee and he appointed the following sub-committees to assist in carrying out the proposed work.

The time fixed upon for the entertainment and ball was April 24, and the club is going to make a great effort to have something that will be a real treat to Prescott people and at the same time assist a good work, as the athletic club undoubtedly is a good one.

Chairman Jolly appointed the following committees: Music—E. A. Suppiger, Robert Porter. Gymnasium Sports—Harry Thomas, D. E. Miles. Advertising and Printing—J. H. Mulren, Howard Burnister.

The Prescott orchestra will be asked to assist in the entertainment and as the members of the orchestra are and will be public spirited people and are willing to give their valuable assistance toward everything that will redound to the good of any enterprise in the city, they will undoubtedly consent to help out on this occasion.

License Receipts. The report submitted by Sheriff Roberts of the licenses collected during the quarter ended March 31, was as follows: 121 gambling, at \$30, \$3,630. 18 saloon, first class, at \$50, 2,400. 18 saloon, second class, at \$40, 720. 18 saloon, third class, at \$20, 360. 41 station, at \$12, 492. 1 wholesale, 31 class, at \$75, 2,325. 1 wholesale, fourth class, at \$30, 180. 1 pack peddler, at \$75, 75. 1 opera house, at \$30, 30. Total, 88,097.

Will Play Base Ball. The challenge published in the Journal-Miner on behalf of the employees of R. H. Burmister & Sons company challenging the employees of the Bashford-Burnister company to play a game of ball has been accepted by the latter. A meeting was held today and it was agreed to play the game on Sunday, April 10, at 2 o'clock p. m., the losing team to pay for a supper for twenty at Hotel Burke on the evening of that day. The captain of the B. B. team is C. W. Dunlap,

WHERE THE MONEY GOES

On account of the low tide in the county treasury only a small number of bills were allowed for the recent session of the board of supervisors, those allowed being as follows: D. G. Sinclair, supervisor, \$250. Fred Stephens, reliever, \$250. John Snyder, door reliever, \$40. L. S. Colwell, deputy recorder, \$225. F. E. Walker, deputy recorder, \$37.50. Chas. Batts, deputy recorder, \$225. G. M. Dotson, deputy recorder, \$225. P. J. Keohane, deputy recorder, \$195. Geo. Coon, deputy recorder, \$225. M. A. Lawler, deputy recorder, \$37.50. F. G. Brown, copist, \$5. Mary Bowen, door reliever, \$49.20. J. H. Robinson, door reliever, \$45.45.

E. S. Clark, salary and expense of deputy district attorney, \$432.05. J. Aug. Kusche, gardener and labor, \$222.50. The following were audited and partial payment ordered: C. P. Hicks, probate judge, \$320.05. C. J. Farley, recorder, \$549.

GARDENER QUILTS JOB

A vacancy exists at the court house. J. A. Knuehl, the landscape gardener who has been at work for the past year or more disfiguring the plaza has thrown up his job. This will be welcome news to the tax payers as this job of landscaping has been a very expensive one to them, and the completion of rock piles which are left as monuments of the waste of money, is all they have to show for it.

There was a possibility of making a thing of beauty of the plaza at a very small expense, before those piles of rocks were hauled into it. As the expense of hauling them off again will be quite great they will probably be permitted to remain there for years to come. It is hoped that the position of plaza gardener may remain vacant indefinitely unless a better plan can be devised for improving it than the one which has been in vogue in the past. The plaza will be a laughing stock of all visitors to Prescott.

STOP SLOT MACHINES

A move was inaugurated today to stop all slot machines. The sheriff has been instructed to collect a regular gambling license of one dollar per day from all slot machines where there is an element of chance in them. This does not include the slot machines where only a wheel is turned, such things are sold by dropping a nickel in the machine and getting a package of merchandise, for in these machines there is none of the element of chance. The sheriff said today that he had notified all persons who have slot machines in their places to enforce the law, and nearly all, if not all, of them will take out their machines.

LETTER LIST. The following is a list of letters remaining in the postoffice at Prescott, Ariz., for the week ending April 6, 1903: Adams, C F. Allen, Paddy. Betelch, Joe. Bruce, M L. Bunk, Geo. C. Charlington, C F. Cavinand, M L. Cline, T A. Curran, G A. Dill, W. G. Dill, W. G. Dodge, Mrs. Erickson, H G. Foley, Frank. Green, M G. Harlow, G B H. Hart, W T. Herrmann, M Hill, Adam. Hicks, T J W. Johnson, J W. Kelley, John. Keith, Mrs E G. Kerns, Geo M. Kimberly, F S. Len, D L. McCormick, C P. Miller, Lillie. Miller, Lillie. Morris, F G. Paps, Evrigne. Peckhart, Hon Mr. Pender, Harry. Simpson, G T. Thorne, Geo M. West, Miss H. White, Geo M. White, Mrs H R. Welch, Merton.

SPANISH. Gualadon, O. Wells, Dan. Earloindoe, M. Fransiso, L. Antonia, L. Jetrudo, G. Carnocion, G. Jesus, C. J. Monrovia, Cal.

Parties calling for the above letters will please say advertised. A. L. Smith, postmaster.

NOTICE. To the business men of Prescott, Arizona: I now declare that I will not be responsible for any and all bills or accounts which Mrs. Anta Burkholder may make or attempt to make in my name in the city of Prescott, Arizona, or elsewhere. All business men in Prescott, Arizona, are requested to carefully read this notice and be governed accordingly. O. H. Burkholder, Monrovia, Cal.

DUE NOTICE IS SERVED. Due notice is hereby served on the public generally that De Witt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. De Witt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who would spend their money for a salve are never disappointed, because it cures. Brisley Drug Co., Corbin & Bork.

MINE WANTED. Wanted, a lease and bond for eighteen months on a group of gold or copper properties. Must have good copper showings. Send price and full particulars to J. W. Winwood, Drexel Building, Philadelphia, Pa. 4-1-6dlw

NEW COURT RULES

Will Govern Justices of the Peace.

Business Must Be Transacted According to System or No Bills Will Be Paid.

At the recent session of the board of supervisors the following iron clad rules were adopted concerning the presentation of claims of justices of the peace and constables: Each justice of the peace of the county must file with their quarterly claims a full statement of all fines collected by them during such quarter. No claim will be allowed any justice of the peace until such statement is filed, or a statement that no fines have been collected.

Whenever a statement of fines collected is filed, it must show: 1. The amount of each fine, and from whom collected. 2. The amount of costs paid out of each fine. 3. The balance, if any, remitted from each fine to the treasury. 4. Disposition of each case docketed.

And such statement must be accompanied by itemized and receipted cost bills as vouchers, together with the receipts of the county treasurer for such fines as may have been remitted to him. The claims of constables or other peace officers for services rendered in connection with justice courts will not be paid until the statement of the justice of the peace for the precinct in which said services were rendered has been filed in accordance with the above regulation.

No claim of a justice of the peace or constable or other peace officer for services rendered in connection with a trial or preliminary examination will be allowed unless the justice of the peace having jurisdiction of the case shall, before the trial or preliminary examination, have notified the district attorney and received his instructions with reference to the case. This provision shall not apply to precincts so remote from communication with the county seat that the delay involved in transmitting the notification would work undue hardship, expense and delay.

Justices of the peace will be held liable for any costs illegally paid or allowed out of fines collected by them.

MINING INTELLIGENCE.

J. S. McDonnell, foreman of the Mulholland mine, is in Prescott today and says the pump which was ordered by telegraph for the mine some time ago when the Mulholland district some five miles north west of Prescott have been developing their property during the past year to such an extent that only a mill and cyanide plant are required now to extract the assured values in the lenses of the ore blocks, one of which on the Gold Hill is 60 feet wide and 400 feet in length and 100 feet under water level, with known free milling ore extending from 100 to 300 feet under the surface. There are also tens of thousands of tons of granulated quartz, containing high percentages of gold, in this district. This claim adjoins the Gold Hill, with abundant water for all purposes. Dr. Warren E. Day and his son Warren F. Day are now planning to install a system to extract the gold from this granulated quartz. If this can be done without further crushing, there is a bed of natural gold tailings, the like of which has not been found in our section. The owners of this property are open to suggestions as to the proper working plan to install as the value per cubic yard is known to exceed sixty cents simply from the gold that can be washed off the granulated quartz. What the entire values are will remain for the present the assayer's and owner's secret.

GRAND LODGE I. O. O. F. The grand lodges of the Odd Fellows and Daughters of Rebekah of this county will meet in Bisbee on Monday, April 20. That order is one of the strongest in the territory and Bisbee has one of the largest lodges and this combined with the reputation that Bisbee people have for entertaining visitors, gives promise of a grand time and the delegates from this city are looking forward to the trip with keenest anticipation.

The delegates from the Odd Fellows will be as follows: Messrs. Henry Snider, P. R. Stewart, Chas. Avery, and Benj. Robinson. The lodge here the following delegates have been selected: Mrs. Samuel Hill, Mrs. J. C. Forest, Mrs. Harry Snider, Mrs. Geo. Henry.

The delegates from Prescott will likely leave here about the 17th so as to be in Bisbee in time to see that Prescott gets her share of elective honors.

SAVED TWO FROM DEATH. "Our little daughter had an almost fatal attack of whooping cough and bronchitis," says Mrs. W. R. Hays, of Normok, N. Y., "but when all other remedies failed, we saved her life by using Dr. J. C. DeWitt's Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. J. C. DeWitt's Discovery. It is a medicine on earth, infallible for coughs and colds. 50c and \$1 bottles guaranteed by all druggists. Trial bottles free.

NEWS BRIEFINGS. Rev. Milburn, the blind chaplain, of the United States senate, is dead.

Judge Murphy, of Buffalo, who held the inequest over Mr. and Mrs. Pennington that they caused their deaths as a result of injuries received while riding in an automobile. The said automobile plumed from an embankment on the Gehlbeis stone quarry. He adds: "I cannot determine from the evidence submitted whether such plume was accidental or designed."

For liver troubles and constipation there is nothing better in creation than Little Early Risers, the famous pills. They always effect a cure and save doctor bills. Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by rousing the secretions and restoring the liver to the full performance of its functions naturally. Brisley Drug Co., Corbin & Bork.

ST. JOSEPH'S ACADEMY.

Names of pupils who, for perfect attendance, excellent scholarship and satisfactory deportment, during the month of March, have merited a place on the "Roll of Honor."

SENIOR DEPARTMENT. Ruby Loy, Iva Ellis, Elaine Wetmore, Maybelle Hoeker. INTERMEDIATE DEPARTMENT. Eva Boucher, Mary McDonald, Anna Casper, Mae Stukely, Harry Murphy, Belle Rogers.

JUNIOR DEPARTMENT. Norine Derr, Mary Burke, Conception Ortega, Natrividat Ortega, Susie Watters, Mark O'Neil, James Farley.

PRIMARY DEPARTMENT. Fred Eckert, William Dwyer, Beverly Burke, Malcolm Barrett, Stella Bacon, Teresa Masling, Lillie Shoekels, Blanche McDonald, Marie Derr, Mabel Bacon, Louise Hill, Marie Brown, Elsie Love, Saverde Masling, Teresa Sidle, Herbert Cartwell, Charles Bones, Lucy Monrial, Rosemary Farley, Ruth Ruiz.

Business of County. The board of supervisors finished up its business yesterday, adjourned and the members went home. Considerable of the business transacted was routine, among it being the report of the chairman of the bonds approved by him, twenty five in number. Constable Springer of Prescott resigned his position. W. W. Snyder was appointed road overseer of district No. 33.

A. F. Hunt's resignation as justice of the peace at Ash Fork was accepted, and L. J. Burt was appointed to fill the vacancy. Treasurer Storm was directed to strike off the following assessments: from W. S. Pratt lots 1 and 2 Otis addition; G. W. Higley for years 1901 and 1902 all personal property and improvements on land; E. G. Wager for 1902 improvement on possessory right 8000; Mrs. H. Robbins for 1902 all personal property.

The board confirmed the appointments of E. C. Avery and W. H. Pound as deputy recorder of the county. The claims presented for outdoor relief to J. Campbell by F. H. Coon, \$15.95 and to Mrs. Johnson by J. N. Rodenburg to the amount of \$20 were disallowed. Misdeemeanor prisoners committed at points where branch jails are allowed were ordered to be detained at such branch jails during their term of sentence.

Veritable Gold Hill.

The owners of the Gold Hill group of mines in the Mulholland district some five miles north west of Prescott have been developing their property during the past year to such an extent that only a mill and cyanide plant are required now to extract the assured values in the lenses of the ore blocks, one of which on the Gold Hill is 60 feet wide and 400 feet in length and 100 feet under water level, with known free milling ore extending from 100 to 300 feet under the surface. There are also tens of thousands of tons of granulated quartz, containing high percentages of gold, in this district. This claim adjoins the Gold Hill, with abundant water for all purposes. Dr. Warren E. Day and his son Warren F. Day are now planning to install a system to extract the gold from this granulated quartz. If this can be done without further crushing, there is a bed of natural gold tailings, the like of which has not been found in our section. The owners of this property are open to suggestions as to the proper working plan to install as the value per cubic yard is known to exceed sixty cents simply from the gold that can be washed off the granulated quartz. What the entire values are will remain for the present the assayer's and owner's secret.

E. S. Fuller, the well known mining man, has returned from a visit to the Tonahap district in Nevada. He says the district is all right and is making a wonderful growth. The development work in Tonahap district proper is going ahead with wonderful strides and splendid results, while many of the surrounding camps are coming to the front in good shape as well. The character of the improvement in the district is of a high nature, showing the confidence that the people of the place have in the future of the camp.

M. E. Parker was in Prescott yesterday from his mining property in Eugene gulch and showed a Journal-Miner man some ore that had just been taken out of the shaft. The ore, which is the claim of the Alto group. The ore comes from a depth of 220 feet and is changing to sulphides within the last 20 feet and increasing in copper values. The ore now carries about \$20 values in gold, about four ounces in copper, and a half interest, which, as above stated has only lately begun to come in, is increasing in value until it promises to add very greatly to the values of the ore. The ledge is about nine feet across and the walls are well defined and increasing in width with every foot the shaft is sunk. The ore vein is now about three and one half feet across and gives the finest evidence of permanency and increasing in size and value. The new machinery which was started up a few weeks ago is working splendidly and three shifts of men are pushing the work as fast as it can be done. A survey of the claims in the Alto group has just been made for the purpose of having the mines patented. Mr. Parker has shown his faith in the properties by purchasing one of the adjoining claims and has had interest in five others on the same ledge for which he paid Wm. Baird, yesterday, \$8000 in cash.

Merchant Ed Block returned yesterday from a visit to the Merchants Mining company's property and says that things are running very smoothly there. A little grade of ore has been done on the railroad spur to the mine and just as soon as this is completed and the track laid, they will commence shipping ore and then a regular income may be expected from it. While the mine is all that could be desired the company is in splendid financial condition.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists furnish the money if it fails to cure. E. W. Grove's signature is on each box. 2c.

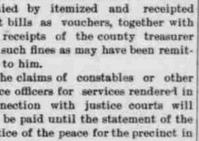

A Carload of Good Things To Eat

And that is enough if we have your attention.

We want to tell you about the new Embroidered Pine Apple Tissues, the Mercerized Damasks and White Goods, and Summer Dress Fabrics that are now coming in.

But perhaps you had better come and see them; that will be much more satisfactory to us both. Seeing is knowing, and we want you to know all about them. They are now ready for your inspection.

Special Attention Given to Mail Orders

Whose good was taxed for \$8? He complained to the assessor. He said that anything that abutted on the road must pay a tax of \$2 a foot. You see this was abutter of unexpected strength and vitality. So today there is a Coffee of unexpected strength and vitality. Ordinary coffee is muddy brown. This is rich port wine color before cream and golden afterward. It is CHASE & SANBORN'S SEAL BRAND—the finest coffee grown. Did you ever try it? We are sole agents.
