An informal smoker was given during the evening and Mr. Clark and his friend were invited to partake of the hospitality of the evening. Before the evening had closed the guests demonstrated that they were adepts themselves in the art of entertaining.

An up to date soda fountain is being installed at the Woman's Exchange and will be taken charge of by an expert soda man direct from the Berry soda fountain establishments in Chicago. He will also manufacture the finest ice creams, sherbets, and frozen puddidgs for service at the Exchange parlor or for sale. The fountain will be in full operation during carnival week and after.

Mr. and Mrs. W. O. Harrell went out to Poland this morning where they will reside. Mr. Harrell surprised his friends in this section by returning from a trip to Bisbee, with a bride. The couple were married there three days ago. They attended the carnival at Phenix en route and Mr. Harrell says it is clean and as nice a show as he has ever seen. He says that every promise made by the carnival people is fulfilled to the letter.

Speaking of the carnival opening at Phenix the Gazette says: "Nat Reiss has brought to Phenix the biggest and the best carnival show ever brought into the west, and hereafter when the word "carnival" is used, it will bring to mind fire works of the real Fourth of July brand, music like the big circuses have, thousands of electric lights, barkers and criers that remind one of the original Midway at the Chicago Fair, Phillion, a marvelous equilibrist, Diavolo, a dare devil fellow who loops a loop, and fifteen big shows, each with a performance of merit. Two hundred and fifty men and women worked last night on the lot at the corner of Fifth and Washington streets to give pleasure and amusement to about fifteen hundred visitors to the show grounds of the Southern Carnival company."

Perry Crouse and Fireman Thorpe on the Santa Fe passenger train, while indulging in a friendly scuffle on the engine during the stop at Tempe last night lost their footing and fell to the platform. Mr. Thorpe was underneath when they struck the walk and Mr. Crouse fell on him. Both men were hurt, Mr. Crouse receiving several scratches on the face and forehead, his upper lip having two holes punched clear through it. It was not learned last night how badly Mr. Thorpe was hurt, but it was feared he had been injured internally. He was taken home as soon as the train arrived at Phenix.—Enterprise.

The man who sends "private advices" from Phenix to the Prescott Herald ought to be publicly branded as a misinformer. Whoever he is, he has privately informed the Herald that Jim Dodson is dead and the Herald thereupon, relying upon the correctness of the information, proceeds to write and print an obituary of Mr. Dodson, so filled with praise and good words that Mr. Dodson must almost regret that he did not die, so that he might fully have deserved the pleasant things that the Herald has said about him. But Mr. Dodson is not dead and at the hour of going to press this morning is apparently no deader than he was a quarter of a century ago.—Republican. That item was only an April fool joke.

R. D. French, the postmaster, merchant and hotel man at Crown King, came into Prescott yesterday evening on a merchandise purchasing expedition. He reports the prospects very bright for the future of the Bradshaws and says he is doing a nice business. He also says he expects his family will return to Prescott from Phenix in a few days.

A special menu has been prepared for opening of Woman's Exchange ice cream parlor and soda fountain April 30th. A musical treat has also been provided for the evening program, and the finest roses obtainable in California will be distributed as favors to all patrons of the soda and ice cream parlor between the hours of two and five and from seven to ten p. m. The ladies of Prescott are especially invited to come in.

An exchange describes an editor as follows: "An editor is a millionaire without money, a congressman without a job, a king without a throne," "He constructs without a hammer or a saw, builds railroads without rails or spikes, and farms without a plow. He runs a butcher shop in the journalistic world and deals out brains for cash or credit. The editor is a teacher, a preacher; he sends out truth to save souls and gets lost himself."

The auction sale of condemned horses and mules at Whipple took place this morning, there being seven animals sold. It is said the animals all brought good fair prices. Sheriff Roberts purchased a couple of the saddle horses and a dump cart and harness. He thought he would bring the cart to Prescott with one of the horses, but the horse thought differently and the cart is still at Whipple.

Dr. F. C. Ainsworth, who was stationed at Whipple Barracks during the early eighties, as a lieutenant in the medical department of the army and filling the position there of post surgeon, has just been promoted to the rank of major general to fill the position of "military secretary" of the general staff of the army. During all the years which have elapsed since Dr. Ainsworth was stationed at Whipple he has ever remained the firm and steadfast friend of Prescott, as well as of Arizona generally, and has shown his friendship on more than one occasion by his acts which have been beneficial to the territory.

Nature Lends

PLANNED WELL BUT IT FAILED

Desperate Convicts Try Make Their Escape.

Life Termer Buck Does Heroic Act Probably Saving the Life of the Superintendent.

Under the leadership of Wm. M. Laustanan, the leader of the Morenci riot a year ago, a number of convicts of the territorial prison at Yuma yesterdy attempted to make their escape. The plan adopted was the one which proved so successful at Folsom, California, last year, but in this case was a failure. While Superintendent Wm. Griffith and Assistant Superintendent Wilder were conversing in the yard they were surrounded by a dozen convicts armed with knives and razors. Griffith ordered a guard on the wall to fire into the crowd regardless of the presence of the officers and Guard Stevens responded by firing three shots from a short barreled gun loaded with buckshot. Five of the convicts were hit and Mr. Wilder was also hit in the thigh. The convicts in order to protect themselves from further shots rushed their captives into the yard office at hand. Col. Griffith shouted to Convict W. C. Buck, a life termer and chief cook of the prison to come to their assistance.

Buck rushed into the kicthen and procured a carving knife. He dashed into the men struggling with the superintendent and succeeded in cutting one so severely that he may die. Col. Griffith managed to break away from his assailants and rushed from the yard to the armony, where he secured a weapon and went upon the wall. In the meantime the convicts who were struggling with the assistant superintendent managed to overcome him by stabbing him near the shoulder with a knife and knocking him senseless with the blow of a heavy file.

The men then secured Mr. Wilder and using him as a shield went to the main gate and were going to demand the keys from Gate Keeker Clark. When they got to the gate they were met by the superintendent with the secretary of the prison, both armed who held them prisoners until they were disarmed and Mr. Wilder retreated from their clutches.

Convict Buck was sent from Gila county about four years ago for the murder of Adolfo Bojorques. There has always been some doubt as to the guilt of Buck. Previous to that time he had borne a fairly good reputation and many have ever since believed that a mistake was made at the trial. The fact that the punishment was not fixed at death was believed to be a sign that the court was not satisfied as to the guilt of Buck.

Nervy Japanese.

St. Petersburg, April 29.—The details of Admiral Yeszen's raid shows that it was entirely successful.

The admiral safely brought back his ships to Vladivostok after inflicting material and moral damage to the enemy. The cruise was a most daring one. The enemy's squadron was known to be approaching which necessitated the prompt sinking of the Japanese transport Kinshiu Maru.

One hundred and thirty remaining on board the Kinshiu Maru, refusing to surrender and firing upon the Russians even while the transport was sinking, elicited unbounded admiration.

The squadron consisting of the armored cruisers Russia, Rurik, and Gromoboi and the protected cruiser Bogatyr, put to sea at day break April 23.

On board the Japanese transport Kinshiu Maru, which was sunk by the squadron at midnight, April 27, were four hotchkiss guns.

After the capture several officers attempted to leave the transport in boats. The Russian boarding party inspected the transport and found six infantry officers, locked in the cabin who surrendered. In another part of the ship were 130 infantrymen who refused to surrender when found. The men refused to leave the transport and it was sent to the bottom by means of a mechanical mine and a few shells.

The Japanese on board did not cease firing and made no attempt to save themselves, though they had a launch. The firing of the Japanese actually continued until the waves closed over the ship. The prisoners numbered 183, including seventeen officers.

A Magnificent Art Exhibition.

It has been said that "a thing of beauty is a joy forever," and "joy was unconfined" in the Prescott high school last night, in the number of things of beauty which were on exhibition in the shape of pictures. It consisted of a collection of pictures of the Horace K. Turner company which had been loaned to the art section of the Monday club for exhibition. The collection numbered 150 and comprised reproductions of art from the brushes of the most famed artists that the world has produced both ancient and modern. While many of those present last night had seen many of the pictures before, and the originals of some, the truth of the opening sentence, that "a thing of beauty is a joy forever" was fully exemplified by their admiration of them again. While admiring one picture last evening one lady was heard to remark that she had seen it at the World's Fair in Chicago, and its beauty and expressiveness impressed it on her mind so firmly that she had to go nearly every day during her visit and view it.

The pictures embrace almost every conceivable class of art, marine, landscape, portraits, animals, birds, architecture and sculpture, each being prominent in the collection.

Among the famous masters reproduced in the collection are Raphael, Morillo, Hoffman, Zimmerman, Landseer, Rosa Bonheur, Vandkye, Willard, Reni, Millet, Saint Gaudens, Ravenstein, Regnault, and others of world wide reputation.

The attendance was fairly large while the enthusiasm of those present was intense. The proceeds from the exhibition will be donated by the art section to the public schools, for the purpose of decorating the walls of the class rooms, and beautifying them. Last night's exhibit was interspersed by a few interesting musical numbers those participating in this feature being as follows:

Instrumental solo — Miss Mary Wright.
Vocal solo—Miss Claire Cline.
Instrumental solo — Miss Helen Burmister.
Prescott quartette, composed of Messrs. Thomas, Poole, Ross and Kessler with Richard Lamson as accompanist on the piano.
The exhibition continued this afternoon from 3 to 5 o'clock and will also continue tomorrow afternoon, for the special benefit of the pupils of the public schools. An interesting musical programme accompanied the exhibit this afternoon and a program will also be rendered tomorrow as follows:
Piano solo—Mabel Hocker.
Piano solo—Mabel Bristey.
Piano duet—Edith Gatfield and Hazel Martin.
Piano solo—Jack Claypool.
Piano solo—Edna Newkirk.
Duet—Davis and Teddy Ross.
Piano solo—June Williams.
Cornet solo—Herman Roemer.
Duet — Vera Greenwood, piano, Nina Greenwood, violin.

The ladies of the art section deserve great credit for providing such a rare treat, as this art collection has proven to our citizens. It was a significant fact that the ladies predominated last night. Is it possible that they possess a taste for the artistic and beautiful in a greater degree than men?

Mrs. Julian Millard is chairman of the art section and has been untiring in her efforts to make this exhibit a success. She has had the hearty cooperation of the members in this direction.

MEETING OF THE TERRITORIAL

Medical Association in Tucson This Week.

Yavapai County Doctors Return. Next Session Will Be Held in Prescott.

Drs. Yount and Coleman returned today from attending the session of the Territorial Medical association at Tucson, Dr. Coleman going on to his home in Jerome. Both of them were enthusiastic over the royal reception accorded them by the medical fraternity and citizens of Tucson. They were also somewhat naturally elated over the fact that they succeeded in securing the next meeting of the medical association for Prescott. The date of holding the meeting was not fixed but it will be some time next spring.

The new officers of the association, elected at Tucson, follow: President, Dr. Ward, of Phenix; first vice president, Dr, Burton, of Tucson; second vice president, Dr. Ketcherside, of Yuma; third vice president, Dr. Yount, of Prescott; secretary, Dr. Foss, of Phenix; treasurer, Dr. Coleman, of Jerome.

Dr. Yount was also enthusiastic in the praise of Tucson's new hotel the Santa Rita. He says it is the finest in the southwest. It is Mission style of architecture, five stories high and the dining room and lobby is finished in Mission style, the color effect being very fine.

Incidentally Dr. Yount says he saw the Prescott automobile squadron when it arrived in town and he said they were a dusty, weary looking company of people. They arrived in Tucson on Wednesday evening, having been just six days making the trip from Prscott. They were scheduled to leave Tucson on the return trip this morning, but with their experience going there, no schedule had been arranged further than for their departure. They will come just as far as they can each day, and get home when they arrive here.

Behan as a Show Man.

J. H. Behan, for years stationed at El Paso as Chinese inspector, and a good one at that, was introduced at The Citizen office this morning by H. S. Knight, a particular friend of the visitor, says that paper. Mr. Behan is the representative of the celebrated "Cummins' Wild West Indian Congress and Rough Riders of the World," and is securing for the show, which will hold forth at St. Louis as an interesting attraction during the World's Fair, half a dozen pottery makers from among the Pueblo Indians, blanket weavers and silversmiths from among the Navajo Indians, and a few of the wild ones from among the Apaches. In company with Mr. Knight, yesterday Mr. Behan visited Isleta and signed up contracts with several pottery makers there to join the show. From here he will visit the Indian villages of western New Mexico and Arizona, and hopes soon to have his collection of Indians en route to St. Louis.

Mr. Behan is an old timer of the southwest, coming to this country in 1863, with H. L. Waldo, the present New Mexico solicitor of the Santa Fe Railway company. He was sheriff, years ago, of Yavapai county, Arizona. Since leaving the service of the government as Chinese inspecor Mr. Behan saw government service in Cuba, Japan and China.

Citizens' Cemetery.

The new plat for the Citizens' cemetery has been finished by Frank Hesse and turned over to J. H. Robinson, clerk of the board of supervisors. There are a great many graves that are marked unknown and anyone having friends or relatives buried there who will report to Mr. Robinson the location of their graves, he will be very glad to properly mark them on the plat. The board of supervisors are to be commended for having this work done as the cemetery was in such a condition that it was nearly impossible to tell anything about it, and was getting worse all the time. From now on there will be something to go by and it will be no trouble to keep it straight. If the board will only make an order compelling the removal of a lot of old rotten, tumbled down board fences in the cemetery it will have the everlasting thanks of a public that has been long suffering in this matter. Some day a fire is liable to get started among these old fences and ruin a lot of good head stones. Continue the good work and remove this public eye sore.

MERCURY

A POOR CRUTCH.

Experience is a dear teacher, as those who pin their faith to Mercury find out sooner or later. This powerful poison combined with Potash, is the treatment generally prescribed for Contagious Blood Poison, but failure and disappointment is the invariable result. These minerals drive in the sores and eruptions, and apparently the disease is gone and the patient believes the cure permanent, but soon learns better when the old symptoms return almost as soon as the treatment is left off. You must either keep the system saturated with mercury or endure the tortures of sore mouth, ulcerated throat and the mortification that one naturally feels when the body is covered with disgusting sores, rashes, copper-colored splotches and other aggravating symptoms of this vile disease.

Mercury and Potash are poor crutches, and their use eventually breaks down the constitution, ruins the digestion and cause the bones to decay.

SSS S. S. S., a guaranteed purely vegetable remedy, is the only antidote for Contagious Blood Poison. It destroys every atom of the deadly virus, overcomes the bad effects of the mercury and cleanses the blood and system so thoroughly that never after are any signs of the disease seen. Nor is the taint ever transmitted to others.

We will send free our book on Contagious Blood Poison, which is interesting and contains full directions for treating yourself at home. Medical advice or any special information desired given without charge.

The Wickenburg Smelter.

Custom Work a Specialty. Wickenburg, Arizona.
Main Office, 218 Fleming Block, Phoenix, Arizona.

The above plant, which some time ago passed into new hands, having been liberally capitalized, fully equipped and put in first-class running order, will be blown in about the 20th of April. The people who own the smelter are thoroughly responsible financially and fully competent to operate the same with entire satisfaction.

Liberal cash payments in advance will be made on high grade ore delivered at the furnace, or purchased at the mines. An especially favorable freight rate schedule has been agreed upon with the Santa Fe, Prescott & Phoenix R. R., covering the whole territory from Florence to Prescott. Shippers are assured of square dealing and expert treatment of their ores. The superintendent in charge is one of the best known smelter men in Arizona. He will be assisted by a select company of assayers, engineers and laborers.

A RARE OPPORTUNITY
