

THE TREADWELL SMELTING PLANT

Is Completed and Will Soon be in operation.

Is Modern in Every and of the Mitchell Type—The Mines of This Company Justify the Installing of Machinery to Treat the Product. —Flattering Outlook Ahead.

The new Mitchell economic smelter of the George A. Treadwell company at Mayer which has been in course of erection for several months is finished. All that remains to make the initial run is the completion of the ore bins and in a few weeks these will be ready for the ore from the many properties of the company. The new plant is pronounced one of the best ever constructed in this territory and is of a capacity of 250 tons, having a tuyere dimension of 42x120 inches. It is of a type used at Jerome, Bisbee, the Canabos and other places.

The completion of this magnificent smelter is one of the most important propositions of late years to be transacted in this section. It is the result of the good showing of development work in evidence at the present time on the many mines of this company. In this connection it may also be stated that to support the vast consumption of ore this plant will demand, there is enough material ready for treatment at even the present time to guarantee the steady operation of the same for many months to come. It is probable that the output of the company's mines alone will be the source of supply, but on the other hand if the custom output will warrant, the capacity of this smelter will be enlarged to accommodate that demand. On the Queen mine dump of this company there are over 4,000 tons of ore roasted ready for treatment, while ready for extraction thousands of more tons are blocked out and can be handled at any time, and are being held in reserve.

Development work on the Hackberry has terminated satisfactorily. The main shaft has reached a depth of 400 feet, and it is being continued to greater depth and crosscutting from that point is given. The deeper this shaft is driven all the better is the showing that is in evidence. This mine of the Treadwell people is very highly spoken of by mining people, and every indication at the present time supports the belief that it will from now on be a very desirable piece of ground, improving in value and widening out in vein matter with every shot.

On the Queen a depth of 375 feet has been reached, and sinking and drifting is being given. Also does this property show up handsomely. On the Boggs drifting north and south from the 400 level is the work under headway. The same is likewise of good results. In all it may be said three mines of the company never looked better, and the extensive underground development that is in progress on them is warranted by what is being shown and produced.

The narrow gauge railroad of the company is finished and it has a total length of over three miles, touching the Hackberry, the Boggs and a branch line has been run onto the Queen ground. It has a terminus at Arizona city, where it connects with the main line of the S. F. P. & P. system and from the latter point the standard road conveys the product to the new smelter that is located at Mayer. Several new steel bottom dump cars of a broad gauge type will handle the ore output of this company and are en route. This will facilitate the handling of all ores produced expeditiously as well as economically. All equipment used by the Treadwell company is owned by them, in any way to be associated with the operation of their interests in production as well as in treatment.

The inauguration of this plant is to be rated very favorably in connection with mining progress of not only this section, but likewise is the above company to be commended in so practically and systematically working out in a satisfactory manner the problem that has faced them. The Big Bug region seems to be forging ahead, and the Treadwell interests are among the most inviting in that section.

They Refused to Take Any Action.

Just before the close of the Phoenix city council meeting the attention of the council was called to the fact that no action had been taken yet on the petition presented by Dr. Hughes in behalf of numerous citizens concerning the suppression of gambling and liquor selling. A motion was made by Councilman Dennis, that the petitions

be tabled and was supported by all four councilmen. Dr. Hughes then said that in behalf of the people he represented he desired to call the attention of the council to the fact that women and minors were frequenting saloons almost without restraint. Marshal Kinney denied the charge and said the police were vigilant and he had heard of no women visiting any places except the restaurants behind the saloons.

MAKE NACO A MONTE CARLO

The possibility of gambling closing in Bisbee is leading up to developments in which Naco has an interest.

A well known sporting man of Bisbee was over here the other day, and frankly admitted that the object of his visit was to look over this field, with a view to opening an establishment here in case the "kibosh" was put on open gambling in the copper camp. He had his eye, moreover, as much on the town across the line as upon Naco, Ariz., since there is a possibility that the coming legislature may taboo gambling altogether in Arizona. In fact, it now seems more than likely that the lawmakers at Phoenix will handle the proposition without gloves. The Bisbee man had no hesitation in saying that if either of the contingencies referred to above came to pass among the eventualities would be the construction of a trolley line between here and Bisbee to facilitate travel on the part of those sportively inclined. So, if the legislature takes a hand at freeze-out, Naco may become a Monte Carlo, with some consequent improvements that would have a bearing on the future of the town.—Naco Budget.

Symphony in Gray.

In the 1905 calendar of N. W. Ayer & Son, the Philadelphia advertising agents, is worked out a color scheme in grays and white so harmonious as to merit the above title.

On the back ground of gun metal gray cover paper is developed in lighter tones their well known medal trade mark and motto "Keeping Everlastingly at it Brings Success;" the latter being the predominant feature of the design.

The calendar is a large one, fourteen by twenty eight inches and designed for office or library. The figures are large and being printed in white, stand out clearly across a large room.

Whether the popularity of Ayer & Son's calendars is due to the uniformly tasteful design, to their utility, or to the epigrams on advertising and business building which fills the blanks left on the flaps, it is hard to say, but they have enjoyed a steady sale for years at twenty five cents each; for this sum, which barely covers cost and postage, the 1905 edition may be had as long as it lasts.

FALSE AND MALICIOUS

About fifty people were denied their right to vote yesterday at a city election a result of a batch job in printing the city register, the work having been done under contract in the job office of the Prescott Journal-Miner.

The above false, malicious and contemptible statement appeared in the Herald last evening. The city register was printed in the Journal-Miner office, but beyond that statement there is not a word of truth in the item. The name of every man which appeared on the register was printed according to the copy furnished. The paper in question could have ascertained this fact if it had cared to make a just and truthful statement. Of course this was furthered from its intentions though. After the register was printed parties came to this office for the purpose of finding fault, but in every particular they found the printed copy to correspond with the copy furnished. If any names were left off the register, they were not omitted while the copy was in the hands of the printer. As to the work being a "batch job" the Journal-Miner is willing to put it alongside of any work of the kind done either in Prescott or elsewhere, for comparison by any printer or other person.

The copy furnished the Journal-Miner is still to be seen and any one doubting whether the Herald misified about the matter can prove it to their satisfaction, as the names are all numbered and not even one could be left off without destroying the consecutive numbers.

Flagstaff Man Kills Himself.

Flagstaff, Ariz., Jan. 4. (Special)—Lyman A. Tolfree, proprietor of the Commercial hotel, shot himself through the head this morning with a forty five Colt's pistol. The shooting took place in the barroom of the Commercial hotel. Mr. Tolfree was alone in the barroom at the time of the

shooting. As he was a man of cheerful disposition and no motive for suicide can be imagined it is presumed by his friends that the shooting was accidental. He was a well known hotel man in Arizona and California. A brother of Mr. Tolfree committed suicide at Mojave, California some four or five years ago. The latter was a hotel man too.

Mr. Tolfree leaves a widow and two married daughters: the latter residing in San Francisco.

TUCSON'S WAR ON GAMBLERS

The New City Council Passes an Ordinance That Practically Prohibits Gambling.

The new city council of Tucson has assumed the reins of office. At the first meeting held the following ordinance was passed covering the licensing of gambling and the pay therefor. The list of games includes all known devices; including that of policy. The section adopted reads:

Every person, company, association or corporation who shall begin, or carry on, or manage, or conduct, or control or deal within the corporate limits of the city of Tucson any of the gambling games mentioned in section one of this ordinance, shall pay a monthly license of two hundred and fifty dollars per month for each of said games; and a like monthly license for each gambling table, apparatus, or device kept, used or operated within the corporate limits of the city of Tucson for playing, conducting, or operating any gambling game, or gambling scheme not specifically and definitely designated by name in section one of this ordinance.

Any person, persons, company, association, or corporation who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be punished by a fine in a sum of not less than one hundred dollars, nor more than two hundred dollars and by imprisonment in the city jail, for a term of not less than fifteen days nor more than thirty days. All licenses issued under the provisions of this ordinance, shall be subject to revocation by the mayor and common council at any time for any cause deemed by them good and sufficient; provided however, that in case such license is revoked as herein provided, the license fee for the unexpired part of the term for which such license was issued shall be returned to the licensee by warrant on the city treasurer.

MRS. DWYER PASSES AWAY

After a Long Illness Death Finally Comes as a Relief.

We regret to announce this morning that Mrs. Eliza Dwyer, the wife of our townsman, Daniel Dwyer, is dead. For many years she had been an invalid, and her condition physically was such that she was confined to her home most of the time. Her death took place at the family residence on Marcon street yesterday morning, and during the last hours at her bedside she was attended by her three daughters, with all the care and love it was possible to bestow. Mrs. Dwyer with her husband has been a resident of this city for over twenty eight years, and among those with whom she was acquainted she was held in universal esteem and sincere regret is expressed over her loss.

Mrs. Dwyer leaves beside her husband, three daughters, Mrs. Amy Hill, Mrs. H. J. Suder and Mrs. H. T. Dailey, all of whom reside in this city. A son, George Dwyer, passed away a few years ago in this city. She was born in England, where she married, and at the time of her death was sixty years and two months of age. Her remains will be laid to rest in the citizen's cemetery on Saturday afternoon at 2:30 o'clock, and the funeral services will be conducted from the residence of the deceased by Rev. Father Bennett of the Episcopal church.

We extend to the bereaved ones our tender sympathy in the sad loss that has befallen them.

The most careful farmers and gardeners everywhere place confidence in Ferry's Seeds—the kind that never fail.

FERRY'S SEEDS

have been the standard for 40 years. They are not an experiment. Sold by all dealers. 1905 Seed Annual free for the asking.

THE PILGRIMS OF THE GILA

They are Bloody Inclined and Want to Fight

If Plans are Carried out it Will be in Order to Sing the Doxology of Statehood for Arizona on the Consolidation Order.

The Bisbee Review says: "On to Washington with the legislature!" is the slogan of the southern Arizona anti merger statehood bill zealots. The opponents of joint statehood are preparing to make a last grand hullabaloo against the passage of the bill, and the Review advocates a spectacular migration of the whole legislature of Arizona in Pullman cars to the national capital to block the bill, if it is necessary to use a six shooter on each member of the senate of the United States. The members of the Arizona legislature will rope the unruly senators with lariats, hog tie them, round them up and brand them or resort to any other desperate means to prevent Arizona from being made a "vassal" of the barbarian state of New Mexico.

"When the legislature meets in Phoenix on January 16th, the first bill introduced should be one appropriating sufficient money to defray the expense of the entire legislature on a tip to Washington.

"The expense would not be great. Three Pullmans would carry the crowd and no doubt if properly approached the Southern Pacific railroad could be induced to furnish the cars and motive power without cost.

"Before the train bearing the Arizona legislature reached El Paso it would attract the attention of every daily newspaper in the land and before it reached Washington we believe the press of the country would be aroused in defense of the rights of Arizona. We do not believe the press will approve of the attempt to force Arizona from its present governmental position into objectionable statehood with New Mexico. Let the Arizona legislature go to Washington in a body and ask that the present bill be amended so that the consent of each of the territories be necessary before New Mexico and Arizona can be joined in statehood."

"Arizona was never confronted with such danger as now. The duty of Arizona now is to combat the proposed joint statehood bill in every conceivable manner. If the joint statehood bill passes the senate Arizona will be wiped from the map of the country and the people of this territory will become the vassals of New Mexico and its Mexican population."

A dispatch from Phoenix says: The opinion prevails here that unless some influence is brought to bear upon the senators of the United States Arizona's autonomy is doomed.

It is proposed to send a delegation of five of the prominent lawyers of the territory to join Col. Wilson, Mark Smith, R. A. Fowler and the other Arizonians who it is known will be in Washington to combat the iniquitous merger statehood bill. To meet the expense of the Bar association of the committee it is proposed that the several counties contribute. Messages were sent out today to representative citizens of many counties by Judge Kibbey, and the replies indicate that the people are ready to put up the expense money.

Midwinter Edition

The midwinter number of The Times will appear, as usual, on the first of the year. In regard to its contents, it is scarcely necessary to say more than it will be fully up to the high standard of previous numbers, and perhaps, in some respects, better. It will consist—in addition to the ordinary paper—of three special magazine sections, aggregating from 88 to 100 pages of "meaty" matter, including twenty five full page illustrations, and smaller half tones.

This year a specialty will be made of the deserts of the arid southwest and their reclamation, a subject of special interest just now, when the beneficent work of national irrigation is assuming definite shape. There will be graphic pen pictures of life in the land of the afternoon, and a complete story of the wonderful progress made during the past year by the great southwest, extending from Fresno on the north to El Paso on the southeast.

You can do no more effective mid-

sonary work than by sending a liberal number of copies of this midwinter number to your friends and acquaintances in the east. Copies will be for sale, wrapped ready for mailing, at the price of ten cents each. Advertisements for this number must be received not later than December 22. This number will circulate among thousands of home seekers in the east and consequently offers an exceptional opportunity for advertisements of property for sale.

Afternoon of Cards.

Mrs. H. D. Aitken gave a delightful entertainment at "five hundred" at her residence on Mt. Vernon street yesterday afternoon, in honor of Mrs. Henry Goldwater of San Francisco. There were between twenty and thirty ladies present and a number of very interesting games were played during the afternoon. Mrs. E. H. Draper was awarded the favor for the highest score made and Mrs. S. L. Pattee won the lone hand favor. Miss Nellie Drake received the consolation favor. Delicious refreshments were served at the close of the games.

ROUNDING UP BEEF BARONS

The Bovine Trust Faces the Big Court

Their Attorney Makes a Plea on Technical Grounds That the Government's Corral is a Shaky Affair.

By Associated Press.

WASHINGTON, Jan. 6.—Argument in the case of Swift & Co. vs the United States, known as the beef trust conspiracy case, was begun before the supreme court of the United States today by Attorney John S. Miller, of Chicago, on behalf of the packers. He attacked the bill of the government as insufficient in its manufacture to allege the facts necessary to constitute a cause of action and said that the charges made were not facts, but conclusions of law, that the commerce charged was not interstate or foreign commerce, and that even if it were interstate commerce the facts given constituted no violation of the law.

WOMEN WHO WERE LUCKY

A Hater of Their Sex Keeps a Vow to the end of his Life.

LARAMIE, WYO., Jan. 6.—Hiram Miller, the eccentric old ranchman, whose frozen body was found in bed in his cabin yesterday, and who died from pneumonia and feebleness, is said to have never spoken to a woman for nearly thirty years.

Miller had been a resident of this section of the west for thirty five years. In the early days of the territory he was tried upon the charge of shooting at a man named John Seifert before a jury consisting of ten men and two women. He was convicted and sentenced to serve seven years in the federal penitentiary. Miller said at the time of his conviction that the women on the jury were the cause of his being found guilty and swore that henceforth he would have nothing to do with the fair sex, and he kept his word until the day of his death.

It is claimed by old timers here that Seifert testified at the trial that when Miller shot at him he saw the bullet coming and dodged it.

The two women who were upon the jury, Mrs. Martha Boies and Mrs. Annie E. Sinclair, are still alive and residents of this city.

OFFICERS INSTALLED

Golden Rule Chapter No. 1. O. E. Star installed officers last evening. The newly elected officers who were installed are as follows:

Mrs. Clara Jenkins, W. M.; Mr. David Miller, W. P.; Mrs. A. Tomlinson, A. M.; H. J. Oliver, secretary; F. G. Brecht, treasurer; Mrs. Julia S. Mayer, conductress; Mrs. Mary Miller, A. C.; Mrs. M. Peters, Adah; Mrs. Amy Hill, Ruth; Mrs. Bertha Robinson, Esther; Mrs. Mary Gray, Martha; Mrs. Alice Robinson, Electa; Mrs. Jane E. See, Warder; J. H. Robinson, Sentinel; Mrs. Cora E. Johns, organist; Mrs. Lena Hoeker, Marshal; Mrs. Sarah J. Merritt, Chaplain.

THE SITUATION IS PERPLEXING

The State Statutes are Brought Into Action

The Right of Some one to Pre-side Over the Legislative Body Leads to a Serious Problem.

DENVER, Jan. 6.—Behind locked doors and amid scenes of great confusion and excitement, the Colorado legislature today passed a resolution creating a committee of foreign members to canvass the vote cast for governor at the last election and submit its report to the legislature not later than 2 o'clock on the afternoon of next Monday. The committee is composed of five senators and ten representatives, twelve republicans and three democrats. It organized this afternoon by the election of Senator Conforth as chairman and will commence hearing evidence tomorrow. Trouble began with the first session and the joint session continued until the close. It was expected there would be a contest over the respective rights of Speaker Dickson and Lieut. Gov. Haggott to preside over the joint session. The speaker based his opinion on his right to preside on a section of the state constitution, which says the speaker shall open and publish the election returns in the presence of a majority of both branches of the legislature. Haggott construed his right to direct proceedings on the statute which declares that in conducting any contested election the general assembly shall convene in joint session and that the president of the senate shall preside unless he is the contestant. Legal advice was given to each gentleman that his position was correct.

THE CONTEST FOR THE TOGA

SACRAMENTO, Calif., Jan. 6.—But few members of the legislature will remain in the city until after next Monday. With the scene of the contest for the senatorship shifted to San Francisco there is but little interest in the local headquarters of the various candidates. The impression prevails that none of the aspirants has yet secured enough pledged votes to insure an election. Speaker Prescott expects to announce the committee appointments next Monday.

Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
