George N. Moore, who came here from Chicago last October for his health, passed away Tuesday evening at the residence of his uncle, J. W. M. Moore, where he has made his home since his arrival here. The deceased was only eleven years of age and was a bright boy of pleasing manners. His father, Dr. E. E. Moore came here but a few days ago with the intention of taking his son home with him.

The high water in Granite creek Tuesday night caused a break in the eight inch water main on the city pipe line from Del Rio, where it crosses the creek near Fort Whipple. Tomorrow the city pumping station near the Arizona brewery will be started to furnish water for the city until the break can be repaired. During the summer the pipe line will be sunk to bedrock in the creek. This makes the fourth break this winter.

"I have made a number of suggestions already," said Chairman Hickey last night, "but I want to make another, and it is that we get to work at once and organize a company of the Arizona National Guard in this city. I want to suggest that it be called the O'Neill Company, and that it take a prominent part in the unveiling of the monument. National companies will be here from other parts of the territory, and Prescott should not be the only city of any importance in the territory without one, especially at this time."

Prescott had a company of the National Guard twelve or fifteen years ago, but it was allowed to disorganize and was never revived.

The Eagles met last night to initiate several new members.

Pickrell was in town yesterday from the Senator mine and reports that three is still considerable snow in that vicinity and that operations in the Hassayampa district are greatly hampered by the continuous fall of rain and snow. Fair progress is being made in driving the big Senator tunnel and three shifts are kept employed on machine drills. He is now using eighteen men and the force will be increased when weather conditions will permit.

Martin Testori is back from Jerome, where he went a few days ago to figure on a contract for recovering the railroad engine that went over the grade near Jerome a few weeks ago. Testori states that one part of the engine went 785 feet down the hillside. While in Jerome he learned that the firemen of that city are already practicing for the hose races to be held in Prescott on the Fourth of July. They promise to come here with one of the strongest hose teams that has ever been gotten together in Arizona.

If a Cow gave Butter

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

Scott's Emulsion

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.
