Forty-Second Year.

## SPAIN'S YOUNG KING WELCOMED TO ENGLAND

### Reception Is Most Brilliant Ever Given To a National Visitor

LONDON, June 5.—Alfonso XIII, the young King of Spain, was welcomed to England today with the most elaborate ceremonies, every detail of which was supervised by King Edward himself.

Never has there been a case of a reception to a national visitor who has had greater attentions paid in detail, or more careful preparations for a magnificent display.

If only the weather had been propitious, the reception would probably have been the most brilliant ever accorded a foreign visitor to England. A deluge of rain at Portsmouth and London, however, marred all the spectacular effects.

The day broke drearily in France, and increased in gloom as the British royal yacht Victoria and Albert crossed the channel from Cherbourg, accompanied by a strong escort of British cruisers and torpedo boat destroyers. Approaching the harbor the royal

yacht passed through line after line of fighting vessels bedecked with flags, flying the Spanish ensign, a score of which fired a royal salute.

The young king, who wore the uniform of a British general, stood on the deck evidently enjoying the spectacle, in spite of the pouring rain. The Prince of Wales, representing King Edward, awaited the yacht on the dock with a guard of honor, and immediately the gang plank was lowered, went aboard and welcomed the Spanish ruler.

Subsequently the Mayor of Portsmouth presented his majesty with an address of welcome, to which the king made a fitting address in response.

A special train, with the King, the Prince of Wales and their suites left Portsmouth for London, where they arrived without special incident.

The weather conditions here again interfered with the prepared program.

## RUSSIA FORBIDS THE ZEMSTOV CONGRESS

ST. PETERSBURG, June 6, 2:40 p. m.—The meeting of all Russian Zemstvos in a congress which came together today, for which 245 delegates from various Zemstvos and municipalities, including the mayors of 25 cities, arrived here yesterday, and at which it was proposed to bring an election calling for the immediate cessation of hostilities, has been prohibited.

The order of prohibition, which arrived only late last night, aroused the greatest indignation and resentment.

Very many of the delegates are determined to defy the government and proceed with the congress, in which case trouble may be expected.

The greatest anxiety is felt over probable developments today.

### Moscow Hears the News.

MOSCOW, June 5.—A congress of Zemstvos, which was called to meet here tomorrow, to consider the situation arising from the disaster to the Russian fleet, to which the mayor of Moscow was telegraphically invited, as was all the mayors of Russia, has been prohibited.

### Even Journalists Rebel.

ST. PETERSBURG, June 5.—A union of Russian journalists today chartered a steamer, and cruised in the Neva for six hours so as to hold a meeting free from police interference.

The meeting passed a resolution demanding a constitutional assembly, and halting the event of a Russian revolution.

### Strike Threatened.

ST. PETERSBURG, June 5.—Labor leaders are negotiating for the purpose of declaring a general strike on next Saturday.

## RACE RIOT CAUSES SEVERAL FATALITIES

AUGUSTA, Ga., June 5.—A race riot at Turner, S. C., resulted in the death of Barrel McLane, a white man, seriously wounding his son, the death of one negro, and wounding three others.

The white people of the community are in arms. The fight arose from a quarrel over a child which the McLanes claimed was stolen by one of the negroes from a negro woman.

### BASEBALL.

#### American.

Philadelphia 4, Washington 6.  
New York 5, Boston 2.

#### National.

Chicago 4, Pittsburg 3.  
Boston 2, New York 11.  
St. Louis 2, Cincinnati 3.

pany and the union, and Jackson took a job at the mine, running one of the slag dump cars, and has been considered by the union to be a "scab" ever since. He then got a position at the grocery store of Alex. H. Lyons, as clerk, from which place, it is said, the union secured his dismissal.

The local fire department engaged Jackson to train the racing team, he being quite an athlete, until the professional trainer arrived. The union also took exception to this and called all the members of the union off of the fire team because Jackson was a member of it. And last night they told him in no uncertain way what would be his end if he stayed in these parts.

Feeling against the man is running very high in the union ranks, and serious trouble, it is feared, will grow out of it.

## WIFE DASHES LYE IN HIS FACE

SAN FRANCISCO, June 5.—A pitiful story of misery and helplessness, brought on by the unbelievable brutality of a domineering wife, is involved in the case of Joseph Reiser, a barber, who was discharged from the Lane hospital on decoration day, with his sight completely gone. Two months ago Reiser's wife, because he went out for a walk when she told him not to, dashed concentrated lye into his eyes, and while he was under the surgeon's knife at the hospital, the woman fled with all his savings, leaving her blind victim only \$10.

Six years ago Reiser married the woman in Denver, where she was a widow with two children. He worked hard, accumulated a little money, and came to this city a year ago to ply his trade as a barber. While he was working his wife amused herself by posing as a clairvoyant, and donning all the expensive garments she could gather. It appears that her husband was completely under her thumb, and was obliged to ask permission for his smallest act.

Just before the revengeful woman had vented her cruel spite upon him Reiser had asked her to go for a walk. She refused to go and forbade him to go. However, as he felt the need of air, he went and remained away for two hours.

As he opened the door on his return the woman dashed a large quantity of liquefied concentrated lye in his face. The pain was so intense that he could not open his eyes to remove the stuff. His wife became frightened and telephoned for physicians, and while they were waiting she begged him to forgive her and persuaded him to agree to a story that the lye was spilled in a struggle for its possession.

Reiser was taken to the City and County Hospital, where it was found that one eye had been entirely eaten out, while the other was so far gone as to necessitate an operation. He was taken to the Lane Hospital, where the remaining eye was removed.

While he was at the Lane Hospital facts developed which indicate that the woman's fiendish act was a premeditated attempt to rid herself of her husband.

## BOY BURGLARS MAKE BIG HAUL

SAN FRANCISCO, June 5.—William and George Nightwine, aged 13 and 7 years respectively, read dime novels until they became imbued with the idea that life would be sweet if they could live it after the fashion of the bandit and the robber.

So overwhelming did the desire for the exciting and romantic existence become that they took it into their young heads to start out as professionals. With the precision of older and hardened criminals they laid their plot for a general clean up.

They made advance arrangements with the son of a junk dealer to purchase the loot they should bring to his door. They did not intend to be caught with the goods upon them. Rather they intended to spend their hazardedly gotten coin for the good things of the land.

On the chosen day all of the small stores on Union street, in the vicinity of their home were closed. They went to work, the time being opportune, and succeeded in breaking their way into and looting several shops.

Sheriff J. E. Walker, sheriff of Maricopa county, was in Prescott yesterday on official business, and returned home last evening.

## SURVIVOR OF BATTLE RELATES TRAGIC DETAILS

### President Roosevelt Continues In His Efforts To Bring About Peace

TOKIO, June 5.—The Russian cruisers Admiral Nachimoff, Monomach, Dmitri Don-skoï, were sunk in comparatively shallow water, and it is possible to raise them.

A survivor of the cruiser Orsk, who is a brother of the chief editor of the Russ, and apparently a well-educated man, said:

### How the Squadron Formed.

"Our ships advanced in five rows. The Jemtechug was independent of the right extremity, the second class battle ships in single line formation in the second row, the cruisers third, the Ural bringing up the rear, the first-class battle ships in the fourth row, with the Souvaroff leading, and the Izumrud independent of the left extremity."

"Entering the Tsushima, the formation of the battleships was turned slightly to starboard for the purpose of protecting the cruisers. When three Japanese ships were sighted, we fired, but the enemy's ships were beyond our range."

### Japs' Fire Effective.

"Suddenly four Japanese battleships and some cruisers appeared on the scene, sending an incessant fire, which proved very effective, and we were nearly thrown into confusion."

### Five Hundred Killed.

"The Ural was hit on the starboard side by a 12-inch shell, which penetrated and burst in the engine room, smashing up everything, causing the funnel and masts to fall down. Owing to the shock the deck was also rent asunder in many places. The flesh and bones of five hundred men killed were scattered in every direction."

"The horror of the scene was beyond description. The Ural sank at 6 o'clock in the evening."

### Survivors Reach Coast.

The narrator and 33 other Russians drifted to the east off the province of Nagato after fifteen hours' exposure.

### Some Russian Ships Left.

TSINGTAU, June 5.—It is reported that four Russian auxiliary cruisers and one large cruiser were seen near Swatow on June 4.

### More Peace Conferences.

WASHINGTON, June 5.—Peace in the Far East was the subject of another conference at the White House between President Roosevelt and M. Takahira, the Japanese minister.

This was the third conference today which the President had on this subject, M. Jusserand, the French ambassador, Mr. O'Bierne, the British charge d'affaires, having been callers at the White House this morning. Accompanied by six other prominent Japanese, Minister Takahira called at the White House at 9 o'clock tonight.

President Roosevelt gave a cordial reception to the Japanese visitors, the President acquainting himself as fully as possible with the views of the Japanese government on the subject of peace.

### Rely on Roosevelt.

Regarding the general situation, it can be announced that Europe regards President Roosevelt as the most available medium for preliminary negotiations between St. Petersburg and Tokio. The President, it is believed, will endeavor to keep Japan's peace terms within reasonable bounds, and the close relations of the Emperor William to the Czar are expected to enable the German sovereign to advise the Czar with a frankness which even the Washington government could not assume.

### Ordered to Leave.

MANILA, June 5.—Major-General Corbin at 10 o'clock this morning returned the call of Admiral Enquist. Upon leaving the Russian flagship a salute of 13 guns was fired.

Executive Secretary Ferguson boarded the Russian flagship, and delivered to Enquist the ultimatum from Washington that he must either sail at the expiration of twenty-four hours or dismantle his ships.

Enquist is awaiting instructions from St. Petersburg. Repairing has already commenced on the ships.

### The Ubiquitous Jap.

A two-funnelled warship, believed to be a Japanese vessel, was sighted northwest of Luzon, and is headed south.

### Rojestvensky's Condition.

TOKIO, June 5.—The chief surgeon of the Sazabo naval hospital reports that Admiral Rojestvensky's condition is favorable. Pulse and temperature are normal. There is no sign of brain complication.

On the outside of the right thigh there is a bruise as large as the palm of the hand, and there is also a pierced wound in the left foot.

## MAD MEXICAN RUNS AMUCK AT ASH FORK

### Two of His Countrymen Victims of His Knife

### B. Araha Under Arrest For Committing Crime

Early yesterday morning a cutting affray took place at Ash Forks, in which two Mexicans were slashed with a knife by a third who is known by the name of Beudido Araha. One of the injured men was so badly hurt that he was placed on board the Prescott train in charge of an attendant, and is now at the county hospital.

His injuries are in the lower part of the back and abdomen, and from what is to be learned he is not fatally hurt.

The second Mexican whom Araha slashed was not seriously hurt, and has remained in Ash Forks. Araha was last night brought to Prescott by Deputy Sheriff J. H. Foley, and is now in confinement in the county jail. With the usual reticence this Mexican will say nothing of the affair, and takes his arrest as if he were here on a pleasure trip.

The details of the row have not yet been obtained, but it is reported that the trouble grew out of some petty money matters.

## LABOR LEADER IS PUT BEHIND BARS

CHICAGO, June 5.—President Shea, of the Teamsters' Union, was arrested and taken to jail late tonight.

## TAKEN BY MASKED MEN OUT OF TOWN

### Chris Jackson Given Orders To Leave Jerome

### He Returns and Swears Out Warrant For Offenders

(Special to the Journal-Miner.)  
JEROME, June 5.—About one o'clock this morning Chris Jackson was taken forcibly from his room by a party of masked men and escorted down to the "Hog Back," and given ten minutes to leave town altogether.

Jackson, however, returned to town, and swore out a complaint today before Justice St. James, charging J. S. Carter, the acting secretary of the Miners' Union, together with John and Richard Doe, with being guilty of the offense. The latter's real names were unknown to the complainant, who knows them by sight.

The three accused men were arrested this evening, and they gave bonds and were released. They will be examined tomorrow, and the district attorney from Prescott has been telephoned to appear and represent the territory.

It is considered that Jackson is taking great chances by coming back to town, for he had been warned by the Union that if he did return he would be killed, and it was only by seeming to agree to their demand last night to leave town that he escaped unhurt.

Jackson has been living in Jerome about a year, and is well thought of by everyone who knows him, being a sober and industrious young fellow, who attends to his own affairs.

The entire trouble started about a year ago when Jackson first came to Jerome. At that time there was some trouble between the Copper Com-

## FURTHER JUMBLE IN EQUITABLE AFFAIRS

NEW YORK, June 5.—Plans to establish harmony in the affairs of the Equitable Life Assurance Society were further complicated today by the resignation of two more of the directors, making five in all who have recently retired from the board.

A dispatch from Boston announced that Jefferson Coolidge had tendered his resignation, to take effect immediately. This was followed by the resignation of Jacob Schieff, the head of the banking house of Kuhn, Loeb &

Co., who has been a member of the board of directors for twelve years.

In addition, the announcement came from Cincinnati that Melville E. Ingalls would also resign.

CINCINNATI, O., June 5.—The resignation of Melville E. Ingalls, a director of the Equitable Assurance Society, will be in New York in a few hours. Ingalls said he had not yet resigned, but would do so.

### BAD GROUNDS AND SLOW GAME.

The junior baseball teams of Prescott and Jerome, which crossed bats at Jerome Junction Sunday afternoon are to be excused for putting up rather a slow game, running up a score of 17 to 12 in favor of the Prescott boys. The grounds were soft and in such condition as to make the game too hard work to be interesting.

### METAL MARKET.

NEW YORK, June 5.—Silver, 58 1/4; Mexicans 45; copper unchanged.
