## PRESCOTT WOMAN PASSES AWAY IN CALIFORNIA

(From Wednesday's Daily.)

Yesterday the sad news was received in Prescott that Mrs. Jennie Roberts, a well known and highly respected woman of this city, had passed away in San Diego. Her death was due to an illness of several years duration, and in the hope that a change of climate might prove beneficial, she went to California about four months ago. She continued to decline, and the end came through a sudden attack of heart failure.

At her bedside was her son, Joseph I. Roberts, who with Mrs. Roberts was summoned from San Francisco, and Mrs. John Hartin, her daughter, who resides in that city. Besides the above she leaves two sons in this section to mourn her loss, John Roberts of Parker, and Ed. Roberts, of Prescott.

The deceased will be remembered as the wife of the late E. I. Roberts, who died about seven years ago. She was an estimable woman, a devout Christian, and in the early days of her residence in Prescott, was conspicuous as a member of the Congregational denomination. She was very much endeared to all in this city who had the pleasure of her acquaintance.

She was 69 years of age and a native of Wales, England. She arrived in Arizona over 30 years ago, and made her home in this city.

Last evening a telegram was received from J. I. Roberts at San Diego, saying that he and his wife would arrive with the remains on Thursday evening and that the body would be buried in this city alongside of her husband, it being her wish that this request be followed when her death took place.

## COUNTY ASSESSOR'S REPORT.

(From Sunday's Daily)

In submitting his report as county assessor and the amount collected in personal property taxes for the year, T. E. Campbell turned into the treasury of Yavapai county a few days ago the sum of \$11,074.78. To this sum he added \$152.34 on account of school district No. 1 taxes. This total shows a decrease from that of 1908, and is due to various reasons.

Heretofore the ready money available in his line of official work came through willingly on the presumption of the taxpayer that the regularity with which taxes were being lowered was to be maintained in the assessor's office this year. But in this a change occurred, and when the personal property owner tendered payment this year as he did in 1908, and asked for a reduction as prevailed in the year gone, and was refused, he resorted to the drawing of a bond, secured with two endorser's realty valuation, and the county lost the use of this money for the short time that will intervene before taxes come due.

Another feature came into consideration that the personal property holder was aware of. He refused payment of his tax on a basis of a \$2.40 rate, believing that the official rate this year would be the same as that of last year, viz., \$2.30 on each \$100 valuation, and if he paid on that basis, and the rate was at the \$2.30 rate, he would have no redress in collecting the difference that he overpaid from that established.
