

MANY PRIZES ARE WON BY YAVAPAI FARMERS

Although The County did not Capture Cup Individual Exhibitors Annexed Many Awards

(From Friday's Daily)
Yavapai county scored heavily in the individual awards for farming exhibits at the State fair last week. Dry farming products raised or collected under the supervision of L. L. Bates, superintendent of the Dry Farming Experimental station, especially attracted attention.

Following is the list of prizes won by Yavapai county in the agricultural department of the Second Annual State fair, held at Phoenix, Nov. 3-8:

Oat hay, best two bales, C. D. Willard, Cottonwood, second prize; best two bales wheat hay, L. L. Bates, Prescott, second prize; best half bushel alfalfa seed, Lindsey Lane, Cornville, second; best half bushel sorghum seed, L. L. Bates, Prescott, second; best bushel Deward milo seed, L. L. Bates, Prescott, second.

Mr. Bates also received second prize for the best bushel of standard milo, and first for best bushel of white milo. In two classes, of white wheat, he also won first and second, and second for macaroni wheat.

Best twelve ears of yellow dent corn, J. R. Alexander, Mayer, won first and second. Best twelve ears of any other dent corn, Bates first. Best twelve ears of popcorn, J. R. Alexander, Mayer, first. He also won first on rice popcorn.

C. C. Callaway, Camp Verde, had the best half bushel of Ohio red potatoes, and C. D. Willard, Cottonwood, and W. M. Goddard, Camp Verde, stood first and second in the Burbank Irish potato class. C. B. Colson and J. C. Maxwell, both of Camp Verde, won first and second, respectively, on pink yams. E. W. Monroe, Camp Verde, showed the best class in Mangle Wurtzel beets. Ringhold Hohensee, Cornville, took second on onions. Charles Burrus, Cottonwood, had the best and largest squash, and C. D. Willard won out with the best Hubbard squash.

BROOKS LEAVES FOR HOME OF HIS BOYHOOD.

(From Friday's Daily)

Another pioneer has gone, but not over the great divide, in Dudley Brooks leaving for Baltimore, Md., the home of his boyhood. He goes to remain after a continuous residence in the Verde valley of nearly forty years.

Brooks was a pillar of that country and in early days made a specialty of horse raising. Later he drifted into the cattle business and finally wound up as a land baron. He disposed of all his holdings a short time ago to George Tompkins of the Salt River valley and the buyer is to take charge in a short time.

The departure of Brooks brought many of his Hassayampier friends to the depot yesterday and incidental to the farewell were several small wagers that the Verdeite would take the back track within a specified time, all bets being conditioned, however, on him not entering into a matrimonial alliance with his "first love," as was intimated as the reason for him going back home. Brooks has brothers and sisters to greet after so many years.

PEACE IS ONCE AGAIN RESTORED

(From Friday's Daily)

Assistant County Attorney Joseph Morgan returned yesterday from Camp Verde and reports that the dove of peace has again descended upon the valley and an amicable adjustment of recent turmoil is under way. The attorney traveled to Camp Verde in order to investigate and be present at a hearing of the charge preferred by Giles Goswick against J. D. Bailey for criminal assault recently.

The light caused an uproar in Camp Verde. The attorney's office was notified and Mr. Morgan left to attend a hearing which was slated to be held before Justice of the Peace George W. Hance yesterday. Before the attorney's arrival, however, the defendant secured a change of venue thus taking the case out of the justice's hands.

According to the latest reports, Deputy Sheriff Mulholland has induced the participants in the row to get together and let peace reign for evermore in the fruitful valley.

BUSY SESSION OF CHAMBER OF COMMERCE.

(From Sunday's Daily)

Military affairs in Prescott, the proposed boom for mines throughout Northern Arizona, the prospects for a Y. M. C. A. here and the annual banquet came in for some mighty lively discussion at a busy session of the Chamber of Commerce last night. The volume of business transacted practically eclipsed that of any session during the past several months.

Mining Matters.

"How to aid the mining man to dispose of his claim and attract Eastern capital in a legitimate way tending toward the advancement of this territory," was a topic discussed at some length. The new mining committee recently appointed to devise ways and means for properly advertising the Yavapai mineral possibilities has continued to be active and Chairman LeRoy Anderson in a report stated that after two sessions of the committee a plan had been decided upon which, it was believed, would bear fruit.

He proposed that a complete list of every mining claim in Northern Arizona which was upon the market be catalogued, the data to include the name, location, minerals contained, amount of work accomplished, surrounding advantages and the price. These data would be compiled and printed in one huge catalogue.

Extensive advertisement should be contained in Eastern magazines and the catalogue sent to any inquirer upon request. The advertisement should include notices that the catalogues are available to all.

Secretary Fraser in commenting upon the plan characterized it as a good one but he pointed out several invisible obstacles which previous plans of a similar nature had encountered and could not be successfully surmounted.

In the first place, how was the data to be gathered? In the second place, the average mining man has a peculiar instinct all his own bordering upon suspicion. A request for data would probably be greeted by a flat refusal or ridiculous results.

President Drake in commenting upon this latter fact stated that if the mining men couldn't appreciate the efforts which the chamber was putting forth in their behalf then they didn't deserve any better than they have now. Other members substantiated the statement that a certain sense of suspicion always lurked in the minds of the mining man when others than a prospective purchaser commenced to meddle with its records, etc. A second sense of a "rake off" invariably prompted the average miner to these suspicions.

The revelation of some of these facts appeared to sober the enthusiasm of the committee. But the work will be pushed ahead. Yavapai is a mining county and as such it must be placed before the investing public. That is the motto of the committee and with this in mind the campaign will be waged.

As a preliminary step to the committee's actual work and as a means of testing the present day pulse of the miners in this county, the Chamber of Commerce will send out 500 post cards and letters to every mine owner in the county requesting his attitude upon the proposed work. The committee will be guided in its future undertakings by these results.

Militia Problem up Again.

A "last ditch" stand is being made by the Chamber of Commerce to save to Prescott Company E of the State militia. Granted an extension of twenty days, it is now up to the chamber to either produce its company fully mustered by November 20 or permit it to go out of commission. This is the ultimatum contained in a dispatch from Adjutant General Harris to Captain Dr. Yount of this city.

The receipt of this telegram prompted the chamber to renewed activity. President W. A. Drake appointed a committee consisting of Messrs. W. H. Timmerhoff, R. N. Fredericks, C. T. Joslin, J. A. Hope and Judge Wells during the week and this body waited upon Judge Frank O. Smith in an effort to have him accept the presidency.

Judge Smith was regarded as a firm enthusiast of the militia company and was accordingly asked to accept the captaincy. After a day's deliberation the jurist reported he could not assume the responsibilities.

This left the committee practically in the same position where it had started. The search for a prominent, capable and willing man to head the company is still in progress.

Unless the company is mustered in within the next week when the inspecting officer will be here the company will be mustered out of service and Prescott will go on record as opposed to the militia idea.

Chamber of Commerce Banquet.

Reporting for the reception and entertainment committee, Chairman

Haworth said that plans for the annual banquet this year were being arranged upon a more elaborate scale than ever before. He stated that a performance at the Elks' theatre would probably be put on in conjunction with the banquet. The date is undecided but the event will precede the election of officers on the second Tuesday in December 10.

Y. M. C. A. Report.

Judge Frank O. Smith, chairman of the Y. M. C. A. committee, reported progress. He said that Secretary Blair of Phoenix and a highly recommended representative of the international committee of the Y. M. C. A. would be here within a few days to go over the situation. Following his investigation, the committee will be in a position to either recommend the adoption or rejection of Mrs. Hugo Richards' offer to assist materially in the erection of a Y. M. C. A. in this city.

NEW CATTLE COMPANY KNIGHT IN HEAD OF

(From Tuesday's Daily)

The Three Links Cattle Company is the title given a new association incorporated recently on a large range undertaking to be conducted in the southern part of this county, the articles being filed for record Wednesday in this city.

The names of the incorporators are Harry Knight, Amelia M. E. Bisby, George H. and Richard M. Bisby, the capital stock being given at \$50,000, and the shares of a par value of \$100 each.

Prescott is designated as the main office of the State, with Wagoner as the range headquarters.

Mr. Knight will be the general manager of the Three Links, and will personally look after its interests. He is one of the best known rangemen in the southwest, and has that agreeable faculty, through his years of training, that gives him a practical conception of the business of the highest standard. Aside from this desirable qualification, Knight knows enough about the "critter" that he can take care of his interests, whether in or out of the saddle. At the Frontier Day celebration in this city and at the State fair last week in Phoenix, he won the top notch prizes in neat feats of the cowboy, so he is perfectly at home in the line of business with which he is identified.

LOCAL WOMAN REAPS HONOR.

(From Friday's Daily)

Attracting remarkable attention and favored by a sweeping triumph in the awards, the chinaware exhibit entered by Mrs. Belle Forrest of South Cortez street added additional laurels to the general cleanup of Yavapai county at the State fair.

Mrs. Forrest has a reputation of being one of the finest chinaware painters in the country. During the Northern Arizona fair she displayed her exhibits and met no competition in securing the blue ribbons. But her performance at Phoenix is notable in view of the strong competition offered by many entrants. The following is the record made by Mrs. Forrest at the State fair:

First prize on a collection of 12 pieces of china.

First and second prize on miniatures.

First prize on "birds on china."

First prize on china tea set.

First prize on water colors.

Mrs. Forrest intends to hold an "open day" at her home in the near future and the general public will be invited to inspect the successful exhibits and her other noteworthy attainments in painting.

NOTICE OF HEARING PETITION.

In the Superior Court, of the County of Yavapai, State of Arizona. In the Matter of the Estate of Florence Abigail Williams, deceased.

Notice is hereby given that Fred W. Williams, of Prescott, Arizona, has filed in this Court a certain document purporting to be the last Will and Testament of Florence Abigail Williams, together with his petition for the probate of said document as the last Will and Testament of said Florence Abigail Williams, and that letters testamentary issue to said petitioner thereon, and that the same will be heard on Friday, the 28th day of November A. D. 1913, at 10 o'clock in the forenoon of said day, at the courtroom of said Court, in Prescott, County of Yavapai, State of Arizona, and all persons interested in said estate are notified then and there to appear and show cause, if any they have, why the prayer of said petitioner should not be granted.

Dated, November 11, 1913.

PATHETIC APPEAL FOR AID IN HER SEARCH.

(From Friday's Daily)

Chief of Police Heister is in receipt of a pathetic appeal from an old Massachusetts woman seeking to find a trace of an old friend who resided here five years ago. Rescued from the shadow of the grim reaper after a lingering illness, the old woman in the East after five years of silence finally was able to respond to letters sent by her friend here.

But her mail has been returned unopened. In her anxiety to again communicate with her friend, she has appealed to the police officer. The latter takes this means of publicity in an effort to assist.

The wanted woman formerly resided at 427 West Garley street and the name is Mrs. William Linton. Mrs. H. S. Ferrent of Swansea, Mass., is the searcher.

The letter follows:

Dear Sir—I had a dear friend at 427 West Garley street five years ago and I was very sick at that time. She wrote and wrote to me, but I couldn't answer her letters. So my dear friend wrote once again and in this letter she said that if she didn't hear from me this time, she would take it for granted that I was dead.

Two long years passed before I recovered and I wrote to her. The letter was returned. It broke my heart.

I spoke to friends and they advised me to write you and that you might assist me in locating my friend. They thought she might have gone to Los Angeles. Now if you can help me in any way it will be so kind of you. I am alone in the world. She is a dear good woman. Her name is Mrs. William Linton. She has one son and three daughters.

My name is Mrs. H. S. Ferrent and address is R. F. D. 45, Swansea, Mass.

P. S.—I am an old lady. Will you please answer whether you can find any trace of her?

DEMAND EQUAL TO THE SUPPLY

(From Friday's Daily)

KANSAS CITY STOCK YARDS, Nov. 10.—Cattle receipts here were no larger than the demand last week but salesmen worked under the disadvantage of heavy runs at Chicago, and lower prices there. Under these conditions a steady market here was turned into a 10 to 25 cents lower one on most of the killing cattle.

Light native steers held up about steady, and range killers sold considerably higher in some cases, stock cattle and feeders uneven, good yearlings and twos a quarter higher; common cattle weak to a quarter lower. Receipts today are 15,000 head, a drop of one-third from recent Mondays, and the strong places in the market bulge out prominently, bulk of the cattle selling 10 to 15 cents higher. Finished heavy steers are still half sellers as compared with the others, though stronger today and that condition stops some prospective feeder buyers from making investments. But some feeders sold close to \$8 today and stock steers ranged from \$6 to \$7.50, including panhandle yearlings at \$6.50 to \$7.35 and Colorado twos up to \$7.25. Colorado killers weighing 1,220 pounds brought \$7.40, light killers \$6.80 to \$7, range cows \$5.50 to \$6.65, canners \$4.40 to \$5.20, heifers \$7. Panhandle stock calves ranged from \$7.50 to \$8.35. Quarantine arrivals today contained stock steers at \$5 to \$5.50, and beef steers up to \$6.95, 30 loads all sold from below the tick line.

Hogs accumulated strength last week and are 10 to 15 cents higher today. Shippers took an active part today after a week or two of quiet and paid \$8 for top hogs, 15 cents above best price paid by packers, bulk of sales \$7.60 to \$7.90. It is said the packers are willing to accumulate product as long as hogs do not cost above \$8, and they probably also realize they cannot get any great distance with a bear program, while receipts run so light ahead of actual fresh meat requirements.

Sheep and lambs sold firm last week, account of the small percentage of the reduced run being fat enough for the killers. The market is 10 to 25 cents higher today, receipts 6,000 head, top lambs \$7.90, yearlings worth up to \$6.25, wethers \$5.25, ewes \$4.85, best feeding lambs sell at \$6.25 to \$6.75, though common light lambs may be had at \$5.00 to \$5.75. Country demand for feeders is good, lambs going as far as New York State from here last week.

PROVING UP.

Cornelius Mutchler of Jerome Junction and Jesse Cook, of Humboldt, were in the city yesterday making final proofs before Commissioner Moore on their homestead entries.

TO BID FAREWELL TO FATHER MANDIN.

(From Friday's Daily)

Hundreds of the local Catholic church parishioners and members of Father Mandin's flock will gather Sunday afternoon to bid farewell to their departing priest and friend. Father Mandin leaves for Bisbee to take charge of a church there next Monday.

There will be nothing elaborate about Sunday afternoon's session. Father Mandin has created such a spirit of love and respect in the hearts of his parishioners that they cannot find it within them to make the occasion any but a solemn nature. Strong bonds of friendship woven during his sojourn in this city have created for the departing priest an equally fond impression on the hundreds of friends he is going to leave behind.

Many of the parishioners are genuinely broken up over the orders from the Bishop making the change imperative. One, in narrating the splendid work accomplished by Father Mandin during his stay here, said that an \$8,000 debt had been cleared from the edifice through his efforts and that the church was now entirely clear from any encumbrance.

The attainment is made most notable by the fact that hard times marked this period and the parish was much smaller in proportion than during the booming mining days.

Father Mandin was also planning to secure a pipe organ for the local church when his plans were abruptly terminated by the bishop's orders. He goes to assume charge of a much larger church flock.

NOTED DAMAGE SUIT SETTLED.

(From Friday's Daily)

Settlement at fifty cents on the dollar has been made by the two parties in the suit of Rose Christopher vs. the Desert Power Company of Kingman. By this arrangement, Mrs. Christopher as the widow of her husband, who was killed while in the employ of the defendant company, receives \$6,000 and costs.

After the trial which followed the death a jury brought in a verdict of \$12,000. Representing the defendant concern, Anderson and Lamson, local attorneys, appealed the decision to the supreme court. The case was to have been heard last week, but the negotiations for a settlement postponed the hearing. Clark and Tischer represented the plaintiff.

RALPH CAMERON IS BOOMED FOR GOVERNOR.

(From Friday's Daily)

BISBEE, Nov. 13.—The circulation throughout the district Tuesday and on Monday of a plain card, business size, bearing in bold type "Ralph H. Cameron, Governor of Arizona" has created no small stir in local political circles.

The appearance of the card came immediately following a meeting in this city on Sunday afternoon of a number of old line Republicans of the county. County Treasurer C. W. Hicks and A. H. Gardner, of Tombstone, apparently brought the meeting about. At least it followed close upon the heels of the arrival of these gentlemen from Tombstone.

The exact facts concerning such things may be obtained only through actual participation, or from one who was a participant. In the present case those who participated are saying nothing. The card in circulation, however, speaks louder than words as to the fact that the meeting held here was not a chance one, the only inference possible from the printed matter being that the meeting was well planned in advance and that it reached definite conclusions.

indications from Mr. Hicks and Mr. Gardner that the time was ripe for action, for it was about these two that the assemblage of Sunday afternoon gathered. Not a great many were present, but those who were on hand represented the fighting, up and doing, old time Republican precinct organizations of the district. It was significant, too, of the strength of these old organizations that within a very short time after the arrival of the gentlemen from Tombstone, the conference was in full swing. Also it was significant of the preparedness of the leaders for business that they were in session a comparatively short time.

Ralph Cameron was the last congressional delegate from the territory of Arizona. He served but one term. Subsequently he entered the contest for the seat of United States Senator from the newly made State. In this campaign he stood out and out as a Taft supporter. The unpopularity of the president at that time among Arizona people, by reason of his staid attitude, was such that Mr. Cameron was

heavily handicapped and his defeat almost a foregone conclusion.

Aside from Mr. Cameron, the meeting on Sunday is of interest by reason of its following close on the heels of a meeting of the Republican State Committee at Phoenix on Wednesday of last week. This meeting invited the attendance of Progressives and suggested a get-together conference. The Progressives declined to enter the meeting or have anything to do with it whatever. Instructions to this effect were sent out over the State as soon as the plan for the Republican committee gathering became known. The word was accompanied by quiet announcement that the Progressives had assembled a considerable fund and would be prepared for a fight to a finish in the next campaign, with sinews of war sufficient to counterbalance any fund the Republicans might raise.

At Phoenix last week there was also a considerable number of Progressives and it is understood on good authority that they lined up to maintain their organization and also for Dwight B. Heard for United States Senator. Mr. Heard, who owns the Phoenix Republican, and is a man of large wealth, has always declined political honors proffered him and has maintained that he was in nowise to be considered as a possibility at any time for preference to any office. He accepted the National committee membership of the Progressives for Arizona, but held this to be outside the pale of political preference. What the Progressives did in their meeting with reference to a candidate for governor is unknown. It is intimated that this matter was left up to the State committee for further consideration.

From all of which the one perfectly plain and certain deduction is that things are lined up for a red hot fight between the Progressives and Republicans in the State. The opening gun has been fired in the out and out announcement by his friends of the name of Ralph Cameron for Governor, and from now on the rattle of the artillery may be expected. The Cameron cards are presumed to have been the outcome of decision reached at Phoenix, and in that event will be appearing all over the State.

Whether Mr. Cameron is aware of the action taken is not known. A telegram addressed to him has failed of reply as yet. His name at the head of the Republican State ticket would undoubtedly make the issue as straightforward. Both Republicans and Progressives are confident they can win in the State as between themselves. To Democrats the situation cannot be a displacing one. In view of the disaffections in the party ranks, the fight of the two opposing organizations is certainly not calculated to create grief in the Democratic ranks, where the hopes for a clean sweep are naturally increased.

GOOD WORK DONE BY SCHOOL TRAIN

(From Friday's Daily)

Greeted by an unprecedented success and tremendous attendance to date, the agricultural train institute for the education of the farmers, will draw into this city this morning and locate for the day at the Santa Fe depot siding. There the array of agricultural exhibits will remain open for inspection as outlined in the program published in yesterday's Journal-Miner.

Two stops have been made by the educational expedition since the start on Wednesday at Glendale, and in each instance a record turnout of those interested and directly benefited was recorded. There is no question but that a similar mark will be attained here today. Farmers within a radius of thirty miles of the city are expected to flock in during the day and take advantage of the profitable program.

The morning hours will be devoted to an observation of the exhibits in the three exhibit cars. Lectures by experts will follow during the afternoon and the program will be completed with two addresses in the high school auditorium tonight.

LAND INVESTMENT.

Len Young, for many years a resident of the Verde valley, is in the city en route to Springerville, Apache county, where he contemplates buying farm lands. He leaves today to close up the deal. He claims the Apache country is one of the most attractive in the State for either farming or stock raising.

DIFFICULT TRAVELING.
