

MEDALS GIVEN TO DESERVING STUDENTS

(From Wednesday's Daily.)
 Tuesday, Academy Day, was an important occasion for St. Joseph's, for it disclosed to the anxious members, who were to be the recipients of the medals, which each and every one sought to gain through hard study and strict attention to the duties set before them.
 In the primary grades, Mildred Settle was the proud recipient of the excellence medal. Margaret Broadhagen was awarded the excellence medal in the fourth grade. In the contest between the fifth and sixth grades, Lloyd Marsch was successful in gaining the excellence medal and Edwin Lee the Christian Doctrine medal. Ralph Ryan won the seventh and eighth graders' medal for excellence. Emmy Denny a commercial student, received the Knights of Columbus medal for excellence. Louise Hill received the Alumni medal for excellence, and Juanita Morrison the Christian Doctrine medal.

Class Banquetted.
 Monday evening St. Joseph's Academy was the scene of a social triumph, the occasion being a banquet tendered the Class of '15 by the alumni.
 The students' dining-room was converted into a bower of beauty. Ferns, snap-dragons and roses gave a typical air to the happy enclosure. Covers were laid for 18. A splendid repast was served, after which the election of the new officers of the Alumni Association for the ensuing year took place. Miss Babe Sparkes was elected president, Miss Mamie McDonald, vice-president, and Robert Geimer, secretary and treasurer. The officers of the past year were: Miss Dollie Butler, president; Miss Belle Rogers, vice-president, and Robert Geimer, secretary and treasurer.

Dinner over, all repaired to the auditorium where a pleasing musical program was rendered. It was as follows: "Somewhere a Voice Is Calling," by the orchestra which consisted of a piano, violin and cornet, handled respectively by the Misses Dorothy Day, Vera McNulty and Grace Sparkes; a vocal solo by Miss Dorothy Day; a piano solo by Miss Louise Hill; "Southern Dream" by the orchestra; vocal duet by the Misses Frances Goodwin and Agnes Schroeder; vocal solo by Miss Juanita Morrison, and "March Billboard" by the orchestra.
 The evening was most pleasantly spent and the time for departure arrived all too soon.

ANSWERS CALL OF GRIM REAPER

(From Wednesday's Daily.)
 Mrs. Edith L. Hoffman passed away last night at her home on South Mt. Vernon street, following an illness of two months from Bright's disease. She had realized that the end was near for several days and was resigned to the inevitable, bidding her husband, relatives and friends farewell, but expressing the hope that they would all meet again in that land where sickness and suffering are unknown.

Endowed with many admirable traits of character and possessed of womanly virtues that won admiration and esteem, she had endeared herself to a host of friends during her seven years' residence, coming to Prescott as a bride from her home in Hamilton, Ontario, Canada. For the past two months Mrs. Hoffman had been under the care of physicians and nurses, and although the parting of earthly ties was a prospect hard to contemplate, she looked into the Great Unknown with unfeeling eyes and with Christian resignation said: "Thy will, not mine, be done."
 Deceased was the beloved wife of G. Norman Hoffman, a member of the firm of E. A. Kastner & Co., and was aged 35 years. She was born, and lived in Hamilton, Canada, until seven years ago, when she was claimed as a wife by Mr. Hoffman. Her maiden name was Beatty and surviving her are two brothers, Charles of Hamilton, Canada, and Robert of Buffalo; also three sisters, Minto Beatty, Mrs. J. H. Gordon of Stratford, Alberta, Mrs. Geo. Slater of Edmonton and Mrs. R. S. Unwin of Toronto. Mr. Kastner was an uncle by marriage.

No arrangements for the funeral services have yet been made, but it is probable they will be held tomorrow afternoon in the Episcopal church of which deceased was a member. The body will be taken to Hamilton for burial.

OVER \$12,000 IS VALUE OF G. H. BAILEY ESTATE

(From Wednesday's Daily.)
 A petition for the distribution of the estate of Guy H. Bailey, deceased, valued at \$12,658.41 was filed in the Superior court yesterday. It was filed by Vivian D. Bailey, administratrix and M. B. Hazeltine, administrator, and names the administratrix, Bailey's widow, and John H. Bailey and Margery E. Bailey, deceased's father and mother, as the only heirs. No date was set for a hearing.

THIRTEEN IN THE LIQUOR CASES CHANGE MIND

(From Wednesday's Daily.)
 After asking for a new judge and getting Judge Stanford of Maricopa county to try their cases, 13 of the 22 men charge with selling liquor since the first of the year appeared before Judge Stanford yesterday in the Superior court and took advantage of the string attached to their pleas of not guilty made about a week ago allowing them to change them. Eleven of the men represented by Attorneys Anderson & Lamson and F. L. Haworth withdrew their pleas of not guilty and entered pleas of guilty. The two men represented by Attorney R. E. Morrison, though their attorney also followed the same procedure.

The 13 men will appear before the jurist this morning at 10 o'clock and sentence will be pronounced. The eight other cases in which pleas of not guilty had been entered were continued until that time this morning and the pleas will either be changed, cases dismissed or else they will go to trial before a jury. This is the result of the crusade against bootlegging started in this county by Sheriff Young about a month ago and Young says: "I hope that this is the end of it all, but liquor dealing while the state prohibits it must stop in this county or the end is not in sight."

Besides the four spotters employed by the sheriff's office to eliminate bootlegging in this county, Young had subpoenaed over 63 prominent local men whom he intended to place on the stand to tell whether or not they had purchased liquor since the first of the year and where they had bought it.

JUDGE STANFORD FINISHES WITH LIQUOR CASES

(From Thursday's Daily.)
 With the courtroom crowded with an eager crowd of spectators, Judge Stanford yesterday cleared the calendar of the Superior court of 17 of the bootlegging cases, sentencing 12 to jail and imposing fines, three to fines and in two cases sentences of one year were imposed but suspended on good behavior. Three of the cases were dismissed on a motion of County Attorney O'Sullivan and but two remain. They will be tried before Judge Smith. The two are those of John Lindell and James Stephens.

The three dismissed were those against Nick Marina, Marvin Testori and John M. Sullivan of Jerome. The county attorney based his motion for dismissal in these cases on the fact that sufficient evidence was lacking.
 The two sentences of one year which were suspended were given Sam Manlak, a Jerome boy who pleaded guilty and Andras Madero who entered a plea of not guilty and had his case tried without a jury. Judge Stanford declared that he had heard good reports about Manlak and because of his youth he would give him one year suspended sentence and that he would be under the supervision of the county probation officer, Manlak is but 20 years old.

In the morning a plea of guilty had been entered for Madero, but later in the afternoon the attorney for the defense discovered that the evidence of the State in his case was rather weak and they again changed his plea this time to not guilty and tried his case before Judge Stanford after waiving a jury trial.

Fred Hawkins, deputy at Jerome was first on the stand and he told how on the morning of March 9, he, former police chief Frank Heisler, and a number of other men went into Birch Brothers place and that Heisler had been served something which he thought was whiskey. Madero served the drinks. He also said that Heisler had told him that it was whiskey. Heisler, who testified, contradicted this, saying that he had not had anything but ginger ale in Birch Bros' establishment and had not told Hawkins that he had had a drink of whiskey.

Deputy Guy Bozarth while on the stand said that he had seen Malcolm Fraser and Jimmy Merritt, when he had been called over to the saloon to arrest a man, drink what appeared to be whiskey. In cross-examination he could not say for sure what it was.

Benito Alto, the "spotter" who is awaiting trial on a bribe-soliciting charge testified that on the 26th of April he had purchased a pint bottle of whiskey from Madero and that Lucio Soto, another of the spotters had seen it given to him.

That he had ever sold whiskey to anyone or to Benito Alto was denied by Madero on the stand. Soto testified that he had seen Madero accept \$1 for the whiskey. In cross-examination Soto admitted that he had been in the city jail for a period of five days, contradicting a statement made by him at the preliminary hearing for Peter Gautriaud not long ago. At that time, to questions put by attorneys, he continuously denied ever being in the city jail.
 After the case was submitted, Judge

Stanford finding Madero guilty, warned him never to sell another drop of liquor and gave him one year's suspended sentence. Judge Stanford in passing sentence said: "It is the policy of the court to break up the practice so far as possible."
 The cases in which only fines were imposed were those of Peter Gautriaud, May King and Jennie Pope. The two women were each fined \$25 and released. Gautriaud was fined \$200 and no jail sentence was given him because the court was informed by Gautriaud's physician that to be placed in jail would probably cause the death of the old gentleman.

Those who received both jail sentences and fines were as follows: Manuel Paz, 10 days and \$50; Susana Cota, the same; George Yoshihiro, 15 days and \$300; Joe Abbott, 10 days and \$50; Mike Chiantaretto, 10 days and \$25; Robert Griffith, 10 days and \$200; Larry Duff, 10 days and \$300; Art Cook, 10 days and \$300; Frank Ito, 10 days and \$100; Fred Scopel, 10 days and \$25 and James Hartigan, 10 days and \$25.

The total amount of fines thus far imposed on the persons rounded up in Sheriff Young's crusade to clean the county of bootlegging comes to \$2,175. \$200 of which was imposed by Judge Smith on Benjamin Rossi and Joseph Bechetti and \$1,975 by Judge Stanford. Nine of the men started serving their sentences yesterday. After Yoshihiro finishes his 15 days, Frank Ito who is running the pool hall belonging to Yoshihiro will serve his 10 days. Manuel Paz and Susana Cota are expected to do likewise with one of them starting to serve his sentence next Saturday.

BRADSHAW TRAIN TO HAUL ORE IS REPORT

(From Thursday's Daily.)
 Reports are in circulation that in a short time it is quite probable the Bradshaw Mountain railway may install a special service in daily ore hauling from Middleton, the loading station of the DeSoto mines, due to that property entering a productive stage to warrant this undertaking.

Under prevailing transportation conditions, but two trains a week reach that and other Bradshaw camps, and at the present time the DeSoto is shipping out about four cars per week. This output is to be greatly increased, however, beginning about the middle of July, when a system of large exploration is being planned through mechanical facilities being introduced to materially add to its present tonnage output. This property, it is reliably stated, exposes a vast tonnage from recent development, and the operating company has expended a heavy sum in building from Mayer to the camp, an electrical line for transmitting power to facilitate the production that will justify the increase in train service. Other camps in that field also will be materially benefited by daily train service, notably Black canyon, where two companies are ready to resume, and which will find an outlet at Turkey. The running of the Mayer ore custom plant, also, will stimulate many mines to produce, and readily market their output.

SCIENTISTS WILL BUILD PLACE OF WORSHIP

(From Wednesday's Daily.)
 At the semi-annual meeting on Monday night of members of the First Church of Christ Scientist, of this city, it was decided to build a church, and a committee of three was appointed to select a suitable site. This move is due to the membership growing rapidly, and for the additional reason that ample funds are now in the treasury with which an edifice can be erected that will be a credit to the city. The approximate cost of the church will be about \$6,000.

This religious organization has quarters in Elks' building, which are inadequate for the large attendance. They also desire their doctrines to be expounded in a place to be solely devoted to this purpose. Five practitioners of this faith are now attached to the local church, and it was stated yesterday the services of another may be secured.

DISMISS THE BOOZE THEFT CASE

(From Friday's Daily.)
 Justice McLane after hearing the testimony in the case of the two negroes and one white man who were charged with having stolen about \$50 worth of liquor, decided to dismiss the case because of a lack of evidence. The men discharged were Thomas Reeves, a white man, and Harry Lee and Theodore French, both negroes.
 The three who were arrested on warrants sworn out by T. H. McLoughlin were charged, by him, with having stolen a large quantity of wine, whiskey and beer from the old stock of Captain Dodge in the basement of the Antler building. A few witnesses were examined and all said they had seen the men with booze, but did not know where they had got it.

THREE SENIORS KIDNAPPED BY JUNIORS

(From Thursday's Daily.)
 Three of the seniors who were to have received their diplomas, having been abducted and held captives near the Cathedral caves just below Ash Fork, the graduation exercises at the High school last night did not run quite as smoothly as they would have otherwise.

The three seniors who were kidnapped by a band of daring juniors and a number of the Prescott High school alumni were Tom Marks, Paul Ketcherside and Oliver Nelson, leaving but three, Don Bell, Mary Richards and Anna Richards to be presented with their sheepskins.
 All through the exercises preliminary to the presentation of the diplomas, Superintendent Baker and Principal Hart eagerly awaited the arrival of the three boys thinking that at the last moment they might appear, but long after the exercises they were still being held, and their hopes were in vain.

The mothers of the boys who were to have been honored on this one occasion of their lives, in some of the cases were weeping and the sympathy of the entire audience was with them. About 4 o'clock yesterday afternoon, according to the story, the boys who did the kidnapping appeared at the different homes of the seniors and asked them to go out for a joy-ride and take a swim in Lake Watson. All accepted the invitation except Don Bell, who was too busy at the time to think of it.

The boys started out in two machines, a Ford driven by Homer Clark and a Buick by Lee Thompson. The other boys in the kidnapping party were Milo Deming, Leo Penn, Ernest Love, Jim Stewart and Chas. Born.

The original intention of the seniors and alumni members, it is said, was to take the seniors out to the dam, get them to go in swimming and then depart with their clothes, leaving them to return to the city in nature's garb. Upon arriving at the dam they decided to tie them up and make them captives and take them farther north.

About 6 o'clock yesterday evening the High school authorities were informed of what had happened and a search was started, Don Bell leaving in a machine, Under Sheriff Marks in another and Sheriff Joe Young in his own car. A number of other cars took up the search to get the boys back into the city in time for the graduation exercises. None was successful. The first two autos followed the kidnapping party as far as Jerome Junction, but it developed there that they had gone on to Ash Fork. The searchers realized that it was too late for the seniors to get back in time for the commencement exercises so they returned to Prescott.

James Farley and Howard Morrow, upon hearing of the kidnapping, also started in pursuit, but returned about 10:30 o'clock and reported that the three boys were being held captives by the juniors and alumni among the rocks near the Cathedral caves.

It is expected that Marks, Nelson and Ketcherside will be brought into the city during the day.

It is also said that the juniors had another plot in mind which was to get the two girls who were to graduate to go out auto riding around the loop and have the machine conveniently break down. If this plot had gone through the entire graduation exercises would probably have been postponed.

Given Their Diplomas.

Despite the incident the eleventh annual commencement of the High school was a creditable success. The front of the stage on which three of the seniors were presented their diplomas, was decorated with ferns and palms, presenting a pretty effect. A picked bevy of pretty High school girls of all the classes sang two songs very harmoniously under the direction of Miss Mabel Barnard. The High school orchestra also furnished a number of delightful selections. Two excellent solos were sung by Miss Gladys Fox in a very pleasing manner and she received a great deal of well deserved applause.

Donald Francis Bell, Mary Richards and Anna Louise Richards were presented with diplomas by M. B. Hazeltine, president of the board of trustees. When the names of the other graduates were called applause equal to that given those present was given by the audience. Mr. Hazeltine declared that he was sorry to see the vacant chairs and was very sure that no objections would be heard from the board did the parents of the boys kidnapped take up the matter with the county attorney and sheriff's office. Other presentations made by him were medals from the class of 1914 to the four following students: Freshman, George Hill; sophomore, Mary Cromwell; junior, Mary King, and senior, Don Bell. Mabel Lloyd and Lillie Murphy were given certificates for having success-

fully completed the commercial course.

The address given by Dr. R. B. von KleinSmid, president of the University of Arizona, was the best ever heard here on a commencement occasion. He is an eloquent and forceful speaker and had an audience which appreciated to the fullest extent, his remarks.

"We are inclined to underestimate the value of youth at times," he said, "but youth is the stuff out of which deeds are made."

"We undervalue the prospects of the boys born without prestige of family or wealth. Youth should be encouraged to see visions—to realize that the future has a definite task in store."

Dr. von KleinSmid said the following four rules are good ones for every young man to follow:

- "1. Have an ideal.
- "2. Surround yourself with the best environment possible for the realization of that ideal.
- "3. Give closest application to preparation.
- "4. Most of all have faith in yourself.

"Educational accomplishment should mean a well balanced intellect with the soul open to sentiment and sympathy for both the grief and fun of the world. A fine conception of spiritual relationship should also be gained by every successful young man."

Such were the principal points of Dr. von KleinSmid's address besides which he related as he went along many interesting personal experiences which were greatly appreciated by the audience.

MILEAGE INCREASES; VALUATION DECREASES

PHOENIX, June 15.—A slight gain in mileage and a decrease in the valuation is shown in the assessed valuation of telephone and telegraph companies for the year 1915 an announced yesterday. The valuation for this year is \$1,925,762.51, as compared with \$1,938,215.24 for 1914, and the wire mileage this year is 30,729,005 in all, an increase of a little over 565 miles over last year.

The decrease in valuation this year which amounts to \$12,452.73, is due to a reduction in the valuation of the properties of the Western Union and Postal Telegraph companies and the Mountain States Telephone and Telegraph Company. The Western Union is assessed this year at \$66 per mile; the Postal Telegraph and Cable Company at \$54 per mile and the Mountain States Telephone properties at \$65. The last named company leads with a mileage of 18,241, over half of which is in Maricopa county. The valuation of the company's property in the state is fixed at \$1,185,665. The Western Union has 7,211.64 wire miles in the state, and its valuation is fixed at \$475,968.24. The Postal Company has 3,165 wire miles, and will be assessed on a valuation of \$170,915.40.

The shortest telephone line which is listed is that of the Chiricahua Telegraph and Telephone Company. It has 14 miles of wire and is assessed at \$30 per mile.

GOLDWATER HAD SENATOR SIMS REAL HOSTILE

PHOENIX, June 17.—What looked like a warlike proceeding but turned out to be a very pleasant affair took place in the senate at a late hour on Tuesday afternoon. Just before adjournment Senator Goldwater rose to a question of personal privilege and began a sharp criticism of the rules and he seemed to be chiding the presiding officer for the manner of his enforcement. Under the castigation, President Sims began to exhibit signs of resentment. He was plainly unpleasantly surprised. He turned from the speaker now and then to look at members as if to gain from them some idea of the meaning of the attack that was being thus made upon him.

All the time, Mr. Goldwater kept advancing toward the president's stand and talking with increasing earnestness apparently about the tyranny of the rules and the czarlike application of them. By this time the president was white. When within arms reach of the president's chair, Mr. Goldwater took something from his pocket and handed it to the president with a neat speech. It was a handsome and costly gold watch which the speaker said was intended as a slight manifestation of the senate's appreciation of the presiding officer and of his fairness in all of his rulings.

The president had been taken squarely off his feet. He was now whiter than ever and for a minute he could only gaze about him. When he had finally recovered he expressed his full appreciation of the testimonial and thanked the senators for what they had done to assist him in the discharge of his duties.

EXPECT FIELDING TO TAKE MOVIES OF BIG SHOW

(From Friday's Daily)
 Romaine Fielding, motion picture producer and director, at present located at Phoenix, in answer to an invitation extended to him by the Chamber of Commerce to take pictures of the Frontier Days celebration states that if his work permits he will be present for the occasion.

Fielding also stated in his letter that during the summer he expects to come through Prescott with his company en route to the Grand Canyon. The Chamber of Commerce will be notified of any definite plans that he may make for coming up here.

Harry Welch, secretary of the Phoenix chamber, writes that the board of directors of the southern city's chamber at a recent meeting decided that if possible a road race between Phoenix and Prescott ought to be held during the State fair which has been definitely set for November 15 to 20, inclusive. The Phoenix chamber has appointed a committee to handle the matter if it is favorably decided upon.

In answer to Welch's letter, he was notified that the matter has been referred to A. D. Barnhart, president of the Prescott Auto Club, and will be taken up at the meeting of the Chamber of Commerce on June 24. The local chamber looks on the matter favorably and in all probability the race will be run.

William Stephens, C. E. Gentry and T. G. Norris have been appointed by the chamber as a delegation to appear before the Coconino county board of supervisors with a delegation from the Flagstaff Board of Trade and assist in an effort to convince the Coconino county board that they should select the route connecting with Yavapai county's best highway to build their portion of the State highway. The board is considering two routes, namely via Loy's and Munds parks, leading to the Verde or the road leading by Lake Mary, Mormon Lake and Stoneman Lake leading into Tonto Basin and indirectly to the Verde and at the same time connecting with that portion of the highway already constructed by Yavapai county. Both the local chamber and the Flagstaff Board of Trade are in favor of the latter route and a strong effort will be made to have the Coconino county board build the road in that direction.

Stephens while at Flagstaff will make an effort to have part of the Darius party of 100 autos of tourists who are on their way to the coast come down and pay a visit to Prescott and Yavapai county.

A. W. Bork, who went to the Grand Canyon to meet the medical men and distribute booklets telling of the advantages of Yavapai county returned to this city yesterday. The medical men who are going to the coast to hold their annual convention stopped off at the Grand Canyon for a day's visit and while there the booklets were given them. The party consisted of four special trains. Mr. Bork met Dr. Mayo of the great firm of Mayo Brothers, of Rochester, N. Y., while at the Grand Canyon. Mayo is known as one of the best surgeons in the United States.

Lots in Pine Crest are selling fast, five being sold during the past week. One was sold to A. D. Tracy, who with his wife, although neither is sick, has hunted from coast to coast for an ideal climate and have at last decided on this city. Tracy will start to build in a short time.

Helene E. Upson will arrive from Bristol, Conn., July 1, and intends to stay indefinitely. Miss Upson comes to this city through the efforts of the Chamber of Commerce.

BLACK CHIEF IS MAKING GOOD SHOWING

(From Thursday's Daily.)
 Arriving yesterday from the Black Chief mines in Black Hills district, J. M. Sullivan, president of the company, stated that the first shipment would be made in a short time of two carloads of high grade copper ore, this tonnage being developed from a strike made a short time ago of native copper and oxidized ores at a depth of about 140 feet.

Mr. Sullivan brought to the city samples from the new zone opened up in a winze sunk from the 100-foot level, and stated that as far as determined the ore body measured 20 feet through. The hoist is being removed from the old location to the site on the 100-level, where a station is to be cut, and future exploration directed, as well as the mine force to be increased. A system of cross-cutting is to follow from the 200-foot level, and the new ore body drifted on to maintain regular shipments. This property has been under operation continuously for the past two years, and during the slump last fall in copper values, work continued without interruption. The native copper samples attract attention, this condition proven being the first instance known where such a mineral has existed on the southern slope of this range of mountains.

GETTING BIGGER AS DEPTH IS REACHED

(From Thursday's Daily.)
 W. S. Comer, superintendent of the Pine Mountain Mining Co., was an arrival yesterday from Walker, and reported the strike on the Homestead claim as showing indications of permanency as depth is given in the old shaft.

Where the sulphide ore condition was exposed is in the bottom of the abandoned shaft at a depth of 50 feet, a two-foot body being hit, and sinking followed for 30 feet additional, with the vein increasing to over three feet in width. This development will be continued indefinitely, and the showing is attracting more attention in mining circles of that country than has been known for many years.

The Homestead was one of the first mines operated in this county, early in the 60's, and the yield was free milling. The sulphide zone being entered, led to its suspension until a few weeks ago. Mr. Comer states the affairs of the recently reorganized Pine Mountain are assuming practical as well as substantial consideration by the new owners, and the mill begins dropping stamps early in July. Colonel Tonkin, president, is expected to return from the coast in a few days.

HARRIS COPPER MINES IN NEW HANDS

(From Friday's Daily.)
 The taking over by purchase of the Harris Copper Company holdings, in Black Canyon district, has been consummated, in which deal J. L. Gillespie, of Tulsa, Okla., figures as a principal. The consideration is heavy, and in the future it is reported, the affairs of this copper property will be in the hands of a close association.

Mr. Gillespie was in Prescott yesterday, after making an inspection of his holdings. He stated that a large fine of exploration will begin immediately, the sinking of the main shaft to a depth of 1,000 feet being decided upon. Other development also, is to go ahead, and a permanent camp established.

Mr. Gillespie is a man of wealth, the president of the Oklahoma Iron Works, and has interested other Oklahomans in this undertaking with him. With the wagon road completed out of Turkey to Black canyon, that route will be used for shipping instead of the old stage road to Phoenix. In that event Prescott will be the supply center for what is destined to be a large proposition. The Harris in recent years has been quite largely explored, and was a shipper of several hundred tons of a high grade copper ore that was loaded on cars at Beardsley. Internal differences arose in the company, and in the adjustment made recently, a new organization was effected.

RING CEREMONY JOINS POPULAR COUPLE

(From Thursday's Daily.)
 The home of Mrs. H. H. Rodgers on North Pleasant street was the scene of a pretty wedding last night when her son, R. Marion Rodgers, and Mrs. Novella Walker were wedded by Rev. H. W. Cox of the Baptist church. The marriage took place at 8:15 o'clock, the ring ceremony being used. Miss Belle Rodgers and Irwin Cain acted respectively as bridesmaid and groomsmen.

The charming bride was costumed in a white serge coat suit and carried white roses while Miss Rodgers was dressed in sand colored crepe de chine. The ceremonies were followed by a wedding dinner for the young couple, who will go to the Grand Canyon to spend their honeymoon.

The popularity of the couple was attested by the large number of presents received, consisting of cut glass, silver and Haviland china. The present of the groom's mother to the newlyweds was a cottage on North Pleasant street, where they will reside.

SUGAR RATE TO PRESCOTT REDUCED

PHOENIX, June 17.—Rates on sugar from California refineries to Phoenix and Prescott will be reduced \$2 per ton on August 15, in accordance with an order just issued by the interstate commerce commission. Copies of the commission's order in the sugar rate case were received yesterday by the corporation commission.

The rate on sugar to main-line points was formerly \$1 per 100 pounds with an additional charge of 18 cents to Phoenix and Prescott. This was reduced by the long and short haul order to 55 and 60 cents to main-line points, according to the size of shipment. The railroads added a charge of 15 cents to Phoenix, Prescott and other points. The commission's order stipulates that the carriers shall not charge over 5 cents per 100 pounds over the rate to points on the main lines, making the rate to this city 60 and 65 cents, according to shipment.
