

CITY NEWS IN BRIEF

(From Thursday's Daily.)

Back to Camp. Charles Bolman, owner of the U. S. Navy group, in Copper Basin, returned to the camp yesterday to resume development.

From Copper Basin. Mr. and Mrs. Joseph Scherer, the former prominently identified with the Loma Prieta in Copper Basin, are in the city on a business trip for a few days.

Visits Schools. W. Curtis Miller, superintendent of county schools, left on the afternoon train yesterday for Jerome Junction and Cedar Glade where he will visit and inspect the schools. Miller expects to return to his office by Friday evening.

To New Mexico. Frank Hudible, interested in copper mines of Squaw Peak district, who arrived last week from Mesilla, N. M., to establish a camp, will return home today, owing to weather conditions being undesirable for this purpose. He will return during February with two of his co-partners.

Difficult Traveling. Mr. and Mrs. N. H. Getchell were arrivals yesterday from the Cash mining camp, in team, and report a very disagreeable journey of over four hours for a distance of twelve miles. In some places water covered the wagon bed, and the horses waded through mud knee-deep at other points. They are here to attend the funeral of Mrs. Harry Jones, on Friday.

Visiting Family. Robert Halpin, foreman of the Bonanza mines at Harqua Hala, is in the city to visit for a few days with his wife and family. He gives a good report of underground conditions of that property, and states development ultimately will bring that gold property into excellent rating. Halpin also says the desert region from the heavy rains has been transformed into a huge inland sea as far as the eye can reach.

Fine Outlook. Richard Hoskins was an arrival yesterday from his camp in Copper Basin district, which was revived recently. Development on a permanent basis is now under headway. His associates are William Larkin and Thomas Hogan, all miners. Hoskins predicts the Basin will be one of the liveliest sections of Yavapai this Summer, and with the fine outlook on the Loma Prieta, the heavy production of the Commercial, with a large deal ready to be closed, an excellent future is forthcoming.

Unwatering Mine. W. H. Jones was an arrival Tuesday night from the Little Jessie in Chaparral, where he is in charge. Unwatering the lower levels has started, for beginning of development later. This property has reverted to the original owners, the Ohio Mines Co., and through L. W. Smith, a wealthy stockholder, a plan of large and permanent operations has been outlined to begin immediately. Mr. Jones was superintendent under a former syndicate, and is fully conversant with practical mining, as well as familiar with underground conditions for the Jessie.

From Dubuque. D. L. Wells was an arrival in the city yesterday from the north. He comes from Dubuque, Iowa, here on a business trip.

Called to Butte. Receiving news of his brother being quite seriously ill at Butte, Montana, Fred Sattes left a few days ago for that city, and will be away indefinitely.

Appraising Railroad. Charles O. Trimble, right-of-way agent of the A. T. & S. F. Railway Co., is a recent arrival in Prescott to remain for an extended visit, and will make an appraisal of railroad property, similar to that concluded recently by the Federal government.

Mint Mine Revived. G. H. Vollmer, interested in the Mint gold mines of Copper Basin district, was in the city yesterday and started development on a small scale is again under headway on the group. The old shaft is being cleaned out, and other work performed, preparatory toward placing a force at work later.

Skull Valley Serene. Frank Williamson was an arrival yesterday from Skull valley, and stated the three days and nights of a continuous rainfall reached to over six inches. The country is submerged, but no property damage has occurred. The outcome of the big storm will be of great benefit to farmers, he says.

Country Flooded. J. K. Ackerman, treasurer of the Major Mining and Milling Co., was an arrival yesterday from the Eureka camp at Walker. He is one of the first to make the trip out of that section since the big storm and states that bridges that had withstood floods for a quarter of a century were washed away and old-time residents said all previous high water marks along the Lynx creek had been shattered. Travel along the county road is difficult and the damage done has been heavy.

(From Saturday's Daily.)

Starts Placering. J. F. Klans, a recent arrival from Marysville, Cal., started yesterday to establish a camp on Upper Granite creek. He has about four acres of ground that he will work by sluicing. His brother, Carl Klans, will arrive next week.

Country Opens Up. J. R. Slack was an arrival yesterday from the Ruth camp on Indian creek and reported wagon traffic as again going ahead, and several mines are running steadily and with a heavy concentrate production.

To Capital City. J. H. Robinson left yesterday for Phoenix, on business for the Arizona Chapter of the American Mining Congress.

Visiting Friends. Mrs. Worth Rybon, wife of the superintendent of the Lady Allday gold mines, near McCabe, was an arrival yesterday to remain for a few days' visit with friends.

Mining Business. William Francis Wilson, who enjoys distinction in mining circles as an engineer, was an arrival recently from San Francisco, representing a large operating syndicate, and will remain in this field for a few days to make mine examinations.

Mine Improvements. William Ellingford, superintendent of the Gold Blossom Co., of Indian creek, will begin the erection of several new buildings at once, a favorable indication to face the future of that property. Freight teams left the city yesterday with the first load of lumber.

Brief Visitor. Miss Alice Devine, a visitor during October, arrived yesterday from Riverside, Cal., to accompany her brother home, who had been here for his health since June. His condition has improved and the family expects to return during the Summer to remain.

(From Sunday's Daily.)

From Skull Valley. W. W. Colby arrived in Prescott yesterday from Skull valley on a business trip.

To Dewey. W. W. Wilkins was an arrival from Phoenix yesterday. He will go to Dewey in a few days.

To Phoenix. Attorney F. L. Haworth left for Phoenix on the afternoon train yesterday on a business trip.

Back to Camp. Richard Hoskins returned yesterday to his mining camp in Copper Basin district, to resume development.

Improving. John A. Richards who has been confined at the Mercy hospital for the past three weeks is improving steadily.

Examining the Daisy. Major A. J. Pickrell left yesterday for the Little Daisy at Jerome, on an examination trip, to be away for a few days.

To Los Angeles. Peter Diskin was an arrival in the city yesterday from Skull valley, en route to Los Angeles on a business and pleasure trip.

Taking a Layoff. J. T. Arnold, a well known miner, was an arrival yesterday from Camp Anderson, near Humboldt, to enjoy a layoff for a few days.

Visiting Friends. Miss Abbie G. Rambo, teacher of the public school at Humboldt, was an arrival Friday to spend the week-end with Prescott friends.

Valley Visitor. Mrs. A. A. Vannoy was an arrival yesterday from Skull valley, to remain for a few days. She is at the home of her mother, Mrs. H. H. Carter.

Range Visitor. Pete Carr, a rangeland man of Black Hills, was an arrival yesterday on horseback, after being marooned in snow since December 30th. He is going to Salt River valley, to drive saddle horses north next month.

Mining Man Returns. John F. Pell of Newark, N. J., a principal of the Major Mining and Milling Co., was an arrival this morning to remain for an extended inspection of his varied holdings. He leaves today for the Eureka camp at Walker.

Steady as a Clock. W. S. Jones of Humboldt, was an arrival yesterday and stated the Consolidated smelter had not suspended for a minute during the heavy storms, and was running as steadily as a clock. The full capacity of 640 tons per day is being treated.

Still Snowed Under. T. C. Hill was an arrival yesterday from the Madizelle camp, on the Sierra Prieta range, and stated the snow blockade continued to shut out that region. Only a trail is open to the railroad, and snow is two feet deep on the level.

Difficult Traveling. Evan A. Bonham of Cherry creek is in the city after being snow bound for nearly one month. He states that roads are badly damaged, and only light rigs should make the trip into that country. Snow reached a depth of four feet, the greatest ever known.

Mining Business. Frank S. Hartin, a Dubuque, Ia., mining investor, was an arrival yesterday, and later leaves for the Big Bug country, to remain for a few weeks. He was here last October, and says it is quite probable a deal will be closed, after his associates arrive.

Returns East. Frank L. Carlisle, who had been in the city since the big snow storm on mining business, returned to Pittsburgh Pa., yesterday, being unable to visit certain sections on account of weather conditions interfering with examinations. He expects to return early in the Summer.

Resumes Freighting. Ruffner's freight teams out of Copper Basin resume hauling Commercial ores to Skull valley on Monday, after a tie-up of over two weeks on account of bad road conditions. Eleven six-mule teams are ready, and over 100 tons per day will be hauled, to relieve the tonnage that has accumulated.

Vacation Trip. Miss Lillamoy Hill, chief operator of the Mountain States Telephone and Telegraph Co., in this city, left yesterday for Phoenix, to enjoy her first vacation in nearly two years with relatives and friends, and will be away for a few weeks. During her absence Miss Theora Simmons will fill the position.

Heavy Damages. J. I. Roberts has returned from Williamson valley, in looking over his large land and cattle interests, and states considerable damage from flood waters occurred. Fences were washed away, and the concrete crossing at Simmons, was damaged. Road conditions are deplorable, many points being washed out and the grade undetermined by the heavy torrents.

(From Tuesday's Daily.)

On Friday evening, January 21, at the Yavapai Club a delightful Leap Year's dance culminated two weeks of intense activity and work of the greatest secrecy on the part of a number of the young unmarried women of the town. Two weeks ago the mails scattered over the city and adjoining towns of Yavapai wherever any eligible bachelor happened to be in hiding, cards bidding the recipients to present themselves at the Yavapai Club on the above evening to be entertained by the "Bachelor Maids" of Prescott at their Leap Year dance.

Between that date and Friday last, rumors of deep laid plans and plots to ensnare a goodly band of the wily genius bachelor, floated around the town but it served to scare off only a very few of the more wild of the game, for at the appointed time 25 eligibles presented themselves at the scene of the festivities.

The second floor of the club was a vision of beauty, the result of over a week's hard work on the part of the decoration committee, headed by Miss Gardner. The main ball room was a maze of color in soft rainbow pastel shades long streamers of web-like tulle overhead, cosy corners, doors and windows concealed by wisteria flower hangings and the wall lights showing softly through the huge gauze wings of vari-colored butterflies, all producing an effect extremely beautiful and wholly artistic.

In the receiving line were the heads of the various committees and also the following patronesses: Mrs. Hugo Richards, Mrs. C. T. Joslin, Mrs. R. H. Burmister, Mrs. T. G. Norris, Mrs. Morris Goldwater and Mrs. A. J. Herndon.

A dance program of 20 numbers was enjoyed. Of these, with the exception of but two dances, the girls did all the choosing of partners and carried off the traditional leap year custom with practiced ease. Favorable dances and unexpected stunts varied the usual order of dances. At midnight an hour's respite in the decorated dining room at the club served to further enliven the good spirits of the occasion, which lasted until 2:30 a. m. Altogether it was a party which for originality and cleverness probably surpassed any similar former effort that Prescott has seen.

RICH CINNABAR ORE FROM OLD LOCATION

(From Sunday's Daily.)

Samples of cinnabar ore brought to the city yesterday by Richard McNary from the Copper Basin field, attracted very much interest among mining men conversant with this mineral, from the unusually high grade values carried in quicksilver, tests giving as high as 10 per cent.

The product was taken from an old shaft originally sunk by the father of McNary over thirty years ago, at a depth recently given of 80 feet, where the ore body is strong and shows values increasing as sinking goes ahead. Present market quotations give this ore a value of \$400 per ton, with a heavy demand as prevailing in all markets.

This field was recently revived by John Ross, W. L. Roberts, R. C. McNary, Matthew Hall and others, and seven continuous locations were made on the dyke that cuts through the formation, the mineralized area running from 20 feet to 50 feet in width. In relocating this deposit, the owners performed annual assessment work, as well as exploration given at different points, all openings carrying values in mercury that reached to the high average in shallow workings of 2 1/2 per cent.

Mr. Ross in speaking yesterday of the new strike, stated all the proposition requires is a thorough cinnabar operator to take charge, as the tonnage is unlimited, and the percentage of values is far ahead of any other field known in the world. It is quite probable this Summer will see a plan of activity crystallized by which operators familiar with this phase of mining, will be on the ground.

LADOS BOMBARDED

PARIS, Jan. 22.—A dispatch from Milan to the Temps says that the squadron of 16 warships which on Wednesday last bombarded Porto Lados, a Bulgarian seaport on the Aegean sea near the Greek border, shelled also the military barracks and railway station at Dedeatchach and destroyed a military train.

FALTIN AT ASYLUM

PHOENIX, Jan. 22.—William Faltn, convicted of murder and saved by a Pinal county jury which declared him insane, is now an inmate of the State asylum, east of Phoenix. Faltn was removed to the asylum under strong guard and with considerable secrecy last Tuesday.

25 FOUND NOT AFRAID TO TAKE A CHANCE

BACHELORS RESPOND TO INVITATION TO BALL AND HAVE THE TIME OF THEIR LIVES.

(From Tuesday's Daily.)

On Friday evening, January 21, at the Yavapai Club a delightful Leap Year's dance culminated two weeks of intense activity and work of the greatest secrecy on the part of a number of the young unmarried women of the town. Two weeks ago the mails scattered over the city and adjoining towns of Yavapai wherever any eligible bachelor happened to be in hiding, cards bidding the recipients to present themselves at the Yavapai Club on the above evening to be entertained by the "Bachelor Maids" of Prescott at their Leap Year dance.

Between that date and Friday last, rumors of deep laid plans and plots to ensnare a goodly band of the wily genius bachelor, floated around the town but it served to scare off only a very few of the more wild of the game, for at the appointed time 25 eligibles presented themselves at the scene of the festivities.

The second floor of the club was a vision of beauty, the result of over a week's hard work on the part of the decoration committee, headed by Miss Gardner. The main ball room was a maze of color in soft rainbow pastel shades long streamers of web-like tulle overhead, cosy corners, doors and windows concealed by wisteria flower hangings and the wall lights showing softly through the huge gauze wings of vari-colored butterflies, all producing an effect extremely beautiful and wholly artistic.

RUSSIANS BEGIN BUILDING NEW HOMES

LONESOME VALLEY PASSES FROM SCENE OF DESOLATION AS NEW HOME-BUILDERS BEGIN.

(From Tuesday's Daily.)

Active construction of 25 farm homes in Lonesome valley started yesterday with a vim that would indicate quite a large community as assured for the future, in which the Russian colony figures as homebuilders on a permanent basis. With these buildings there are to be 25 barns, a public school house, and a church for these people to worship in, which will be of the Greek denomination. Each home will be of four rooms, and all structures are to be built of the best material.

Each habitation will set in a tract of 20 acres and every family will select from the 3,000-acre allotment from 80 to 120 acres. All homes, accordingly, will be widely separated, but all colonists will be centralized into a community of interests and work in conjunction under one directing source. The coming of favorable weather to permit of developing plans to be carried out is joyously welcomed by these frugal and industrious people, which was exemplified yesterday by the earnestness with which all started in to pave the way for their future welfare.

Prof. A. M. McOmie, who has charge of farming lands for these people, stated yesterday that active farming will begin in a short time and the happy mood of these aliens would indicate a big success as assured. All are enthusiastic over soil conditions, and are very much contented in reaching a section where they will be permitted to pursue their vocation with freedom and without the severe burdens as were imposed on them while in Mexico.

A dance program of 20 numbers was enjoyed. Of these, with the exception of but two dances, the girls did all the choosing of partners and carried off the traditional leap year custom with practiced ease. Favorable dances and unexpected stunts varied the usual order of dances. At midnight an hour's respite in the decorated dining room at the club served to further enliven the good spirits of the occasion, which lasted until 2:30 a. m. Altogether it was a party which for originality and cleverness probably surpassed any similar former effort that Prescott has seen.

PRIME STEERS IN A CLASS BY THEMSELVES

WOULD BRING FROM \$9 TO \$9.50 AT KANSAS CITY MARKET; HOGS 10 TO 15C HIGHER.

(From Tuesday's Daily.)

Special Correspondence. KANSAS CITY STOCK YARDS, Jan. 17. — Cattle sold stronger last week, beef grades 15 to 30 higher, and stockers and feeders 10 to 25 higher. Receipts were very light after Tuesday, storms interfering with railroad service. Receipts today are 13,000 head, and there is a good market. Beef steers are selling steady, with no very tippy steers here, sales around \$8.25, being the best, and most of the steers at \$7.50 to \$8. Prime steers are getting into a class by themselves, and would bring \$9 to \$9.50. Butcher cattle are gaining strength more rapidly than steers.

An order buyer wired an Eastern killer this morning that he could buy good heavy cows around \$6.50, and received instructions to buy, but found it took \$6.50 to \$6.75 to get them, extra good ones worth \$7. Veal calves are selling up to \$10.50, and heavy bulls to \$6.50. Arrivals from Iowa and Minnesota were small today, zero weather acting against loading there, stock steers selling at \$6.50 to \$7.25, and butcher cows and heifers \$5.50 to \$6.75. Stockers and feeders sold quickly today, as few were left in the yards last week, and buyers got out early. Prices on them were 10 to 25 higher. A pair of choice Colorado yearlings and two sold at \$6.75 to \$7.55. Colorado feeders brought \$7.15 to \$7.30. Three lots of Colorado yearlings sold at \$7.65, from Olathe, Lamar and Delta, respectively. A load of 1,202-pound feed steers from Hugo, brought \$8 and Colorado cows sold at \$6 to \$6.60, heifers \$7.25 bulls \$5.60. The Panhandle country had practically nothing here today, because of bad weather for loading.

Hogs sold 5 to 10 higher, receipts 12,000 head. Chicago had a heavy run, and market reported steady, but competition soon put prices up 5 to 10 cents here, top \$7.20, bulk \$6.85 to \$7.15. The feeling prevails that heavy liquidation has run its course, and stronger prices are expected. Outlook for fresh pork and pork product is wide open, and packers cannot conceal their desire for hogs, and the market is creeping upwards steadily. Sheep and lambs sold steady, after signs of weakness at the opening, receipts 15,000 head. Pea-fed lambs brought \$10.50, top ewes \$7. Some medium wethers brought \$7, and yearlings \$8.75. The common price last week for good feeding lambs, 54 to 60 pounds, was \$9.15, 10 doubles selling at that price. Dealers expect a temporary break in prices, especially if Northern Colorado loads freely, although that is the only region capable of furnishing enough of a supply to create an impression.

GOLD BLOSSOM HAS SIX-FOOT ORE BODY

(From Sunday's Daily.)

William Ellingford, superintendent of the Gold Blossom Mining Co., was in the city Thursday and stated the main shaft had reached a depth of 136 feet, and the vein had widened to six feet, with also an increase in values, in gold, silver and lead.

Drifting has started from the 70 foot level, and sinking will be resumed as soon as the pumping out of water has been completed. The heavy rains inundated the workings. Mr. Ellingford states the property is developing into what he considers as the making of an attractive proposition, and later extensive operations are planned.

exhibit them, with the necessary vouchers, within ten months after the first publication of this notice to the said Executors at the law office of John J. Hawkins, Prescott, Arizona, the same being the place for the transaction of the business of said estate, in said County of Yavapai.

JOHN DIERUFF, MATTIE ROLAND, Executors of the last Will and Testament of James Thomas Brown, deceased. Dated Prescott, Arizona, this 22nd day of January, 1916. First publication Jan. 26, 4t. (W).

NOTICE TO CREDITORS

Estate of Thos. R. Rice, deceased. Notice is hereby given by the undersigned, Administrator of the estate of Thos. R. Rice, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice to the said Administrator at the Yavapai County Savings Bank, the same being the place for the transaction of the business of said estate, in said County of Yavapai.

D. W. RUSSELL, Administrator of the Estate of Thos. R. Rice, deceased. Dated this 21st day of January, 1916. First publication Jan. 26, 5t. (W).

APPLICATIONS FOR GRAZING PERMITS

Notice is hereby given that all applications for permits to graze cattle, horses, hogs, sheep and goats within the Prescott National Forest during the season of 1916 must be filed in my office at Prescott, Arizona, on or before February 15, 1916. Full information in regard to the grazing fees to be charged and blank forms to be used in making applications will be furnished upon request. CHAS. H. HINDERER, Supervisor. (W)

ORDER TO SHOW CAUSE

In the Superior Court of Yavapai County, Arizona. In the Matter of the Estate of Julia Guild, Deceased.—Order to Show Cause.

It appearing to the Court, by the petition duly presented and filed by C. A. Peter, executor of the estate of Julia Guild, deceased, praying for an order of sale of the property of said estate, hereinafter described, that it is necessary to pay the debts outstanding against the said decedent, and the debts, expenses, and charges of administration, and that it will be for the best interest of said estate, to sell said property; it is

Ordered by the said Court that all persons interested in said estate appear before said Court on Friday, the 25th day of February, 1916, at ten o'clock in the forenoon of said day, at the Court room of said Court in the Courthouse in Prescott, Yavapai County, Arizona, to show cause why an order should not be granted to said executor to sell the said property, the same being described as follows, to-wit:

Lot 17 in Block 27, of the City of Prescott, Yavapai County, Arizona, together with the improvements thereon, and the personal property described in said petition situate on said premises.

And that a copy of this order be published for at least four successive weeks in the Journal-Miner, a newspaper printed and published in said County.

Dated, January 21, 1916. FRANK O. SMITH, Judge. (W) First pub. Jan. 26—5t.

FORFEITURE NOTICE

To C. W. Mitchell, his heirs, executors, administrators and assigns: You are hereby notified that I have expended during the years 1913, 1914 and 1915 Eight Hundred Dollars in labor and improvements upon the following mining claims situated in the Lower Turkey Creek mining district, Yavapai county, Arizona
