## INVESTIGATE DEATH OF 10 PERSONS IN DETROIT

### Freight Train Hits Crowded Streetcar

TROLLEY IS SWUNG OFF TRACKS IN COLLISION; PASSENGERS JUMP TO DEATH UNDER WHEELS TRYING TO ESCAPE.

By Associated Press. DETROIT, Oct. 2.—A mass of charges and denials was elicited at the investigation today into the death of ten and the injury of 50 persons last night when a freight train struck a street car at a cross-town grade crossing. The street railway company and Grand Trunk road both disclaimed responsibility. Authorities detained the engineer and conductor of the freight, the street car crew and the crossing gateman.

The switch engine, with three freight cars, was southbound and the trolley was going west on Forest avenue toward the center of the city. The end of the first car caught the trolley almost in the center and swung it off the tracks until it stood almost parallel with the moving freight cars. In the panic that followed the impact, passengers leaped from the doorways and windows. Most of those who met death were killed by jumping from the windows and falling under the wheels of the freight cars.

## MINING MEN ASK COMMISSIONERS FOR CHANGES

By Associated Press. ATLANTIC CITY, Oct. 2.—A committee representing 50 mining and smelting companies, operating in Mexico, protested to the American members of the American-Mexican point commission against decrees termed "confiscatory." They said that the export taxes on gold and silver had been increased four times over those of 1912 and a heavy tax placed on lead, copper and zinc where there was none formerly. They will confer with the American commissioners again tomorrow. The Mexicans presented a plan for border patrols, which included the withdrawal of the American troops.

## Nogales Gives A Hearty Welcome To Republicans

BRING BACK TO STATE THE HEART AND SOUL IT HAS LOST URGES TOM CAMPBELL.

Special to the Journal-Miner. NOGALES, Oct. 2.—Before largest and most enthusiastic audience ever assembled in Nogales, Tom Campbell, tonight delivered a strong, virile appeal to the people of Santa Cruz county to bring back to the State the heart, soul and confidence which it has lost. He made a deep impression, convincing all of his genuine sincerity. Like all of the speeches of Mr. Campbell, there came from the attentive crowd frequent outbursts of spontaneous approval and it was apparent when he finished that he had won a lasting place in the regard and esteem of the people of Nogales.

Mr. Campbell spoke of his program for building up the State and placing it in the front rank of States where investment is secure and people of all classes at peace and happy. He arraigned the present governor for yielding absolutely to a class, and reiterated his pledge to be fair with both labor and capital and firm with both.

The rally was held in the public plaza, and the street fronting the plaza was packed with automobiles crowded with eager listeners. The audience filled the rows of seats for the full distance of the park and men and women thronged both sides and the rear. The entire block surrounding the park was taxed to care for all who crowded the available space within hearing.

George H. Smalley, candidate for State tax commissioner, was the first speaker. He told of the inefficiency he had found during his investigations of State and county affairs while employed by the associations of taxpayers and commended the budget statute as a remedy for the cost of local government.

D. Merrill told of the fight in the legislature of which he was a member to create the county of Santa Cruz and of the assistance he rendered. He also spoke of the duties of State auditor. Mr. Merrill eloquently portrayed the qualities of the State candidates traveling with Governor Kibbey.

Prof. H. E. Matthews, was in his usual fine voice and spirits, and his platform for the advancement of the schools met with hearty response. He was given an ovation at the close of his speech.

J. Harry Cloonan spoke of his long experience in work fitting him to serve the State as corporation commissioner, and made an excellent impression.

## LEMBURG AGAIN THREATENED BY SLAVS

By Associated Press. PETROGRAD, Oct. 2.—Fighting on the southwestern front has reached another of its periodic climaxes, which has turned in favor of the Russians and is yielding them a large number of prisoners and again threatened Lemburg. The Russians appear to be closing in on Lemburg but the vagueness of details leaves the extent of the advance in doubt.

## Senator Burton Discusses Campaign Issues Before Large Prescott Audience

(From Tuesday's Daily.)

Ex-Senator Theodore Burton, of Ohio, last night lived up to his national reputation as a speaker in an address delivered to a big crowd of Republicans, non-partisans and Democrats in the Elks' theatre. The Republicans went to hear Senator Burton outline the issues of the day and the stand which the Republican party would take on them and they left satisfied that the "Grand Old Party," re-united, would "come back strong" in November. The non-partisans left with the belief that perhaps they had better become Republicans and the "hide-bound" Democrats walked down Garley street in the rain after the address with a puzzled look and nothing to say, for Senator Burton had brought up many things that the Democrats could not explain and had explained many things that the Democrats had thought had already been explained.

Senator Burton is getting along in years—he readily admits it—but he proved a forceful speaker and one who looked every issue square in the face as an American and not a politician. E. J. Mitchell, Republican candidate for county attorney, presided at the meeting and first introduced Henry J. Eads, Republican candidate for congress. In introducing Senator Burton, Chairman Mitchell urged the audience to remember that the issues confronting the nation should be looked at more from a patriotic standpoint than from the standpoint of political parties.

Senator Burton had his audience with him from the start and his remarks were frequently interrupted by outbursts of applause. The speaker made himself at home as soon as he arose. For several minutes he discussed the future of the Southwest, and Arizona in particular, telling of the great reclamation work that was certain to come throughout the State. "Mining, agriculture and the forests

Dudley Field Malone, collector of the port of New York, predicted at Western Democratic headquarters that Wilson would carry California, Utah, Wyoming and Nevada.

COPPER NEW YORK, Oct. 2.—Electrolytic, \$27 and \$28.50.

## FAIRBANKS REPLIES TO WILSON'S CHARGE

### Says Statement "Base Utterance"

PEACE WITH HONOR AND OBSERVANCE OF INTERNATIONAL RIGHTS TO FOLLOW ELECTION OF HUGHES, IS REPLY.

By Associated Press. LOS ANGELES, Oct. 2.—Charles W. Fairbanks, in an address here tonight, described as a "base utterance" such charges that President Wilson made Saturday at Shadow Lawn when he said: "It is certain that a Republican success in November will mean the use of force in Mexico and the entanglement of the United States in the embroilment of the European war."

"Hughes as president," said Fairbanks, "will be regardless of peace with honor but will firmly insist upon the observance of our international rights. Not as this means war, but as assurance against it." Fairbanks said a protective tariff was necessary as preparation against the "commercial invasion" which will follow the establishment of peace in Europe.

## Baseball Pool In Chicago Raided By Police Squad

FEDERAL JUDGE LANDIS DRAWS OUT TESTIMONY OF GAMBLING FROM RELUCTANT WITNESSES.

By Associated Press. CHICAGO, Oct. 2.—City authorities uncovered evidence of a baseball pool in a raid on a downtown office building today while Federal Judge Landis continued to draw from reluctant witnesses testimony of a highly developed organization for gambling which the police previously declared did not exist. State's Attorney Hoyne, who conducted an independent raid on the Sportsmen's Club of America, declared he suspected the funds derived from the sale of associate memberships were used as a political fund for the benefit of Mayor Thompson.

## SILENT PROTEST IS MADE BY WOMEN

By Associated Press. SAN FRANCISCO, Oct. 2.—Members of the National Woman's party stood sentry like outside of the building where Senator James Hapilton Lewis, of Illinois, Democrat, spoke tonight in behalf of Wilson's re-election. The "silent protest" was caused by Lewis' alleged statement recently in Washington: "If the women arouse the antagonism of the Democratic party, the Democrats will oppose suffrage nationally."

### NEW WORLD'S RECORD

LEXINGTON, Oct. 2.—Real Lady in winning the two-year-old Kentucky futurity today made a world's record an established a new heat record for two-year-olds. She trotted the first heat in 2:07½ and the second in 2:07. The former mark was 2:07½.

### TO CONTINUE INSPECTION

NEW YORK, Oct. 2.—Health commissioners declared today that they will not relax their rigid inspection of milk despite the threatened shortage because of the controversy between the Dairymen's League and individual distributors.

"We would convey our armies to Europe to aid the Allies."

"In addition to these considerations, some of the countries engaged in war must have ready access to the supplies which we can furnish, all of them desire our good-will. The combatants certainly do not wish to have any other nation involved in the war against them. Their highest interests are on the side of avoiding further conflict. The good opinion of the world, which none of them can altogether neglect, would be diminished by our entry into the struggle."

"We have coddled every bandit chief in Mexico; alternately opening and closing our gates to the shipment of American arms and ammunition, as the mood of favoritism changed. Finally, we recognized Carranza, whose followers had been as eager in murder, and spoliation as any of the others. There can be no more severe indictment of him than the note of the State department of this administration on June 25th last. All our dealing with Mexico have been so characterized by the personal partiality of the administration, by meddling officiousness, lack of firmness and consistency, as to cause us to lose the respect not merely of the Mexicans but of the world."

"It is hard to speak of the unspeakable Villa. I wish we could erase forever the shameful blot upon American diplomacy which connects the fair name of the American people with this low butcher and brigand. But it will stand forever: it is one of the achievements of the Democratic administration. In view of the horrors

## RUMANIANS' MOVE MAY ISOLATE TEUTONS

### Invasion Of Enemy Territory Started

BULGARIA'S CHIEF PORT ENDANGERED BY NEW OFFENSIVE; ZEPPELIN CREW DIES AS CRAFT BURNS DURING RAID.

By Associated Press. LONDON, Oct. 2.—The Rumanians have invaded Bulgaria and crossed to the southern bank of the Danube between the fortified towns of Rastchuk and Turtukia. If sufficient men crossed, the move will endanger Varna, Bulgaria's chief Black sea port, and seriously threaten the isolation of the Germans, Bulgarians and Turks, operating against Rumania to the north. Bucharest also reports that a fresh attack on the Dobrudja front resulted in the defeat of the center and right flank troops of the Central powers.

The Teutons report successes against the Russians northwest of Lemberg. One was killed, one injured and slight material damage done by a Zeppelin raid Sunday night in East England. The crew perished when one Zeppelin burned near London. The Germans gained a footing in fierce fighting at Eaucourt L'Abbaye. The British improved their positions west of Guedecourt and east of Courcellette. Inclement weather impeded operations at Somme.
