Large Troop Movements.

EL PASO, Oct. 16.—Arrivals from Mexico report large troop movements out of Chihuahua City in the campaign against Villa, whose partisans are said to control Naniquipa, held by Americans until the lines of the punitive expedition were shortened. SKILLED WORKMEN WHO WENT OUT AGAINST THEIR WISHES, MAY GO BACK TO THEIR JOBS.

BAYONNE, N. J., Oct. 16.—A crisis in the strike of 15,000 workers in the oil plants and other manufacturing at Constable Hook was reached today when the Tidewater Oil Company opened its doors and invited the strikers to return to work.

A meeting of the 3,000 skilled workers, who claimed they were forced to join the strike against their desire, was held this morning. The men planned to march back to the plant of the Standard Oil Company in a body, in the belief that their action would break the strike.

Another meeting of those who have taken a most active part in the strike was held to decide whether it should be declared off.

Settlement of the strike here was deferred at a meeting of the strikers today.

A committee, which will report back to the men, was appointed to discuss with officers of the companies a plan to have the strikers return under a promise of better working conditions.

It was indicated that the men might abandon their demands for better wages.

STAGE SET FOR OPENING OF BIG FAIR

DECORATION OF CITY TO BEGIN TODAY; A LARGE CROWD EXPECTED HERE FOR CELEBRATION.

(From Tuesday's Daily.)

With the finishing touches to the fair grounds, the final meeting of the officials scheduled for tonight and exhibits and entries pouring in from all over the country, the Northern Arizona Fair, to be held the last three days of this week, promises to be the most successful undertaking of its kind that has ever been attempted by the citizens of this city. The low rates on the railroads and the perfect condition of the roads are expected to attract the largest crowd that has ever attended a local fair.

The decoration of the streets and fair grounds will be commenced today and it is the earnest wish of the committee that all of the merchants assist as much as possible by making their windows attractive. The official fair colors are purple and gold and these colors will predominate at the fair grounds.

Under the auspices of the Grand Lodge of the Free and Accepted Masons of Arizona, Judge F. W. Perkins, officiating, the laying of the cornerstone of the new court house will be held Thursday morning at 10 o'clock and will mark the opening of the fair.

Masons from all over the county will be in attendance at this ceremony.

One of the features of the fair will be Redewill's 20-piece band from Phoenix. This band is known throughout the State and is classed as one of the best in the country.

For the first time in the history of the fair the Santa Fe railroad will have an exhibit on the grounds. This will be under the supervision of W. H. Hoover and all matters pertaining to transportation will be explained at the booth. It will also serve as a rest room.

Representatives of the various departments will be in the Chamber of Commerce during the last two days before the opening of the fair and up until noon Thursday, for the purpose of taking care of the late entries.

Government By Two Houses, Not Three, the Kind Hughes Prefers

By Associated Press.
OMAHA, Oct. 16.—Charles E. Hughes, replying to the charge that his election might mean an "invisible government" would be installed in the United States, told an audience here tonight there had been no "invisible government" in New York when he was governor, and there will be no "invisible government" in the United States if he is president.

"I think it might be said," Hughes asserted, "that the present administration has been, in a large measure, an administration of unofficial spokesmen of mysterious influences. I can say in entire good humor I desire government through two houses, not three."

Assailing the Adamson law he declared it "un-American and absolutely without justification, ever to surrender either legislative or executive power to the demand of force either by capital or labor."

NEUTRAL TRADE INJURED BY ACTION OF GERMAN SUBMARINES; UNITED STATES ELIMINATED FROM PRESENT CONTROVERSY, DECLARES UNDER SECRETARY AT BERLIN.

BERLIN, Oct. 16.—Norway, Holland and Spain are now playing the leading parts in Germany's international submarine problem, to the subordination of the United States, which so long and so often has held the center of the stage.

The Associated Press correspondent discussed the present situation today with Dr. Alfred Zimmerman, under secretary for foreign affairs, who indicated that the tables had been cleared and that no negotiations were in progress as far as the United States was concerned. He outlined developments regarding the neutrals.

The case of Holland is simplest. It concerns only the Bloomersdijk, which was sunk off the New England coast by the German submarine U-53. Germany is unwilling to accept the cabled version of the circumstances under which the Bloomersdijk sunk and is convinced the submarine commander must have kept within the German prize regulations as strictly enjoined. Full compensation has been offered in event the commander exceeded his instructions.

Spain's grievances have to do with the sinking of fruit steamers. Strictly speaking, these are valid prizes, because the cargo is contraband bound for hostile ports. The Spanish government, however, has pointed out that the prosperity of the country, and particularly of the great class of small fruit raisers, has been affected seriously by interruptions of this trade, and Germany has offered to let such ships pass unmolested if they are provided with proper certificates from German consuls and if the Entente Allies permit similar cargoes, ship for ship, to pass for the German market.

No reply has been received. The Norwegian measures barring submarines from Norwegian waters, in accordance with the British memorandum, is regarded as incompatible with Norwegian neutrality. No exhaustive report on the legal aspects of the question has as yet reached Dr. Zimmerman's hands, but the under secretary said the matter undoubtedly would be the subject of a strong protest to Norway.

Dr. Zimmerman spoke with high satisfaction of the terms of America's reply to the memorandum of the Entente Allies on the treatment of submarines. He declared it was marked by a true spirit of neutrality.

The appearance and activity of a German submarine off the American coast had not been in the subject of diplomatic negotiations or complications, he continued, and all reports indicated that the German commander had observed in every way the letter and spirit of Germany's undertakings with the United States.

The president declared that the time had come for America to "unite her progressive forces." Rumanians Show Fighting Valor By Capturing Many Teuton Positions

By Associated Press.
LONDON, Oct. 16.—Rumanian headquarters report that King Ferdinand's troops occupy several positions in the Salt River regions formerly held by the Teutons. They repulsed attacks in all other sectors along the Transylvanian front, except in Burzean valley where they were compelled to withdraw slightly. Vienna and Berlin announced, it was merely a continuation of the fighting in Transylvania. Hard fighting is in progress in Galicia. There is seemingly a stalemate in Volhynia, despite the fierce attacks of both Teutons and Russians. The French captured the wood between Genemont and Ablancourt and repulsed a violent German counter-attack east of Beryn-En-Santerre. The British troops captured Bursuk on the Macedonian front. The Teutons repulsed Entente attacks north of the Nidje mountains. The Entente Powers have formally recognized the provisional government in Greece, formed on the Island of Crete.

NEED FUNDS FOR RECLAMATION SERVICE

By Associated Press.
EL PASO, Oct. 16.—Arthur P. Davis, director and chief engineer of the reclamation service, told the delegates to the international irrigation congress that the faults of the national reclamation act of 1902 were not due to ignorance but were the result of a compromise with "pork barrel sentiment." He characterized the influence of "pork barrel" policy upon the farm unit plan as insidious and one which allowed the farm unit to be left so large it became a handicap to the farmer in making payments and needed improvements.

He said the reclamation service will be unable to consider new projects for some years unless the reclamation fund is replenished or other means of financing the projects are devised.

Dr. R. B. von Klein Smid, president of the University of Arizona, delivered an address on "Irrigation and Education."

JEROME BUSINESS MEN AGAINST WILDCATTING

TAKE MEASURES TO PROTECT INVESTING PUBLIC FROM BEING FLEECED OF ITS COIN.

(From Tuesday's Daily.)

Wildcatting must be stopped before it starts in Jerome.

This is the unanimous opinion—determination is a better word—expressed at a meeting of the camp's business, professional and mining men, held in Judge S. F. Denison's office Wednesday evening.

As a result of the meeting a committee is now formulating a plan of procedure. The idea is to establish a sort of censorship over the new mining propositions and to prevent, if possible, the public being fleeced by promoters who are attracted merely by the present prosperity of the district and the ease with which Verde stocks are sold.

A great many ideas for attaining this end were advanced at the meeting. Some thought that the matter should be handled through a local branch of the American Mining Congress. This brought on to the surface a sort of censorship over the new mining propositions and to prevent, if possible, the public being fleeced by promoters who are attracted merely by the present prosperity of the district and the ease with which Verde stocks are sold.

Nearly everyone who spoke voiced in some manner or other the fear that some dishonest proposition would be floated, if outsiders were allowed to trade upon the reputation of the Verde district unrestricted, and when its bubble burst the whole district would be given a black eye. Mining men and business men agreed that nothing must be done to discourage legitimate mining, but it was pointed out that nothing will stop legitimate mining more quickly than wildcatting. The wildcat will make it difficult for the man with a straight, open and above-

LYNCH NEGROES WHO ASSAULT A WOMAN

MOB HANGS AND BURNS 2 MEN CHARGED WITH ATTACKING WIFE OF RAILROAD EMPLOYEE.

By Associated Press.
PADUCAH, Ky., Oct. 16.—The authorities are prepared for further trouble tonight following the lynching and burning of two negroes today. The saloons were ordered to remain closed and extra peace officers deputized.

It is feared that the summary execution of the negroes, one of whom was charged with attacking the wife of a railroad employe, and the other alleged to have landed the act, might whet the lust for blood among the railroad employes and associates of the woman's husband.

Followed by a crowd, estimated at 6,000 persons, a large part of them in automobiles, the negroes were taken to the home of the woman, about two miles away.

While one of them was presented to her for identification, the other was taken to a tree, a rope thrown over a limb, his neck encircled in a noose and an automobile hitched to the other end.

As soon as the other negro had been identified as the assailant of the woman, he was led to the same tree and the process repeated.

After assuring themselves that both negroes were dead, the members of the mob lowered the bodies and burned them on a blazing pile of brush.

The lynchings came after five hours of labor to enter the cells in the jail and were the outcome of an attack made Friday upon Mrs. George Rose at her home in the suburbs.

The mob gathered about 7 o'clock today after hearing that the police had arrested Brock Finley, a negro about 35 years old, who answered to the description of Mrs. Rose's assailant.

The mob demanded the prisoner and brushed aside the police reserves who had been sent to the scene. They battered down the jail door but found that the prisoners had been locked in steel cells.

Failing to find the keys, they sent for a foundryman to cut the bars to Finley's cell. Shortly before noon, he had made an opening sufficient to enable the negro to emerge. The march to Mrs. Rose's home was begun and, on the way, Asa Thornhill, about 20 years old, who, it had been reported, had lauded Finley's attack, was seized.

The cavalcade, when it reached the Rose home had grown to several thousand.

While Finley was being identified, the leaders of the mob resolved to hang Thornhill. Pleading for his life the boy was bound and executed. In a few minutes it was announced that Mrs. Rose had satisfied herself of the identity of Finley. He was hanged to the same tree and a number of shots fired into his body.

Quietly the mob gathered a quantity of wood, built a fire and placed the bodies of both negroes upon it. The mob and spectators then dispersed.

LABOR LEADERS MUST SERVE SENTENCES

WASHINGTON, Oct. 16.—The Supreme court today refused to review the convictions of four labor leaders in the West Virginia coal strike, who were sentenced to six months' imprisonment for contempt of court, in failing to obey an injunction issued by a Federal district judge.

The cases mentioned are another outcrop of litigation in connection with Judge Dayton's decree that the United Mine Workers was an unlawful conspiracy in its organization and operation.

The defendants, Fannie Sullens, F. Lovvink, James Bates and Hiram Steplens, were members of the union and were found guilty of inciting miners to strike or refuse employment.

Their conviction was affirmed by the Federal Circuit Court of Appeals on the theory that Judge Dayton's decree against the United Mine Workers was valid.
