

# ROAD GUIDE OF HARRY LOCKE PUBLISHED

TOUR BOOK GIVES COMPLETE DATA ON ALL ROADS IN SOUTHWEST; PRESCOTT HIGHWAYS IN MAP AND PICTURE.

Harry Locke, the engineer who has motored over more miles of good, bad and indifferent roads than any man in the country, has just published a tour book of his travels that deserves more than passing mention. Mr. Locke is field engineer of several good roads and highway associations, a work requiring almost constant travel while searching out and mapping the most feasible route in Florida, Alabama, Mississippi, Louisiana, Texas, New Mexico, Arizona and Southern California.

"Locke's Good Roads Maps of Local and Transcontinental Automobile Routes" is the title of the new edition which contains detailed maps and touring information of thousands of miles of roadway. So clear and plain has this data been arranged that strangers need ask no question regarding the right roads to use or where supplies, service and accommodations can be found. Altogether there are nearly 500 pictures accompanying the maps, entire pages being devoted to illustrations of scenic attractions and various types of road construction. The unusual feature is that this fund of information is contained in a pocket size book of 216 pages.

Among the prominent highways dealt with are: Old Spanish Trail, National Old Trails, Borderland Route, El Camino Real, Apache Trail, Parker Cut-off, Trail to the Sunset, Fort Worth-El Paso Highway, Colorado to Gulf, Meridian Highway, Oklahoma, Texas and Gulf, Jefferson Highway, Dixie Highway, Dixie Overland Route, Forrest Highway, Southern National Highway, Ocean to Ocean Highway.

The greatest variety of interesting travel and diversity of entertainment is thus offered to lure the automobilist on vacation journeys. For instance, one may choose the trip to the White mountains in Arizona, at an elevation of 9,400 feet, or the Imperial valley of California which is below the sea level; the Atlantic coast of Florida, to Palm Beach and Miami, or the route to Los Angeles along the shores of the Pacific; the concrete highways traversing the orange belt of California, or the natural roads through the Indian Villages of Arizona; the summit of the Sacramento mountains at Clouderoft, N. M., or the vast expanses of open prairies in Texas; the Elephant Butte dam which has created a lake 42 miles long on the Rio Grande river, or the Roosevelt dam which backs up the waters of Salt and Tonto rivers for 25 miles; the Gulf of Mexico may be skirted from Tampa, Florida, through Mobile, Alabama, and New Orleans to Galveston, Texas, or in Louisiana the Mississippi and Red rivers can be followed on roads along the levees between Shreveport and New Orleans; even the trail the Arizona Good Roads Association's route car blazed to the very bottom of the Grand Canyon is illustrated.

Chambers of commerce and automobile clubs in many localities are assisting in the distribution of this Tour Guide realizing that the result will be an increased travel over the auto roads of the South and Southwest.

New maps of the roads into Prescott, together with pictures taken in this vicinity are features of the book.

## COL. A. O. BRODIE MAY BE CALLED TO COLORS

(From Tuesday's Daily.) Among the officers of the United States Army on the retired list who bear a distinguished name but are qualified for active duty, the name of Colonel A. O. Brodie appears in a New York newspaper as desirable.

This officer for many years was a resident of Prescott, and after the Spanish-American war was appointed as governor of Arizona, as a tribute to his military record as a major of the Rough Riders. After his official life terminated in Arizona, Colonel Brodie re-entered the regular army, and in due time was retired with the above rank, about three years ago, when he reached the age limit.

Colonel Brodie acquired his military training at West Point, and after graduating, his first field assignment was Camp Apache, Arizona, in the early '70s as a lieutenant of cavalry. He distinguished himself in a fight with Apaches near that post, and received commendation from the secretary of war. Later he took part in the Nez Perces Indian war, and resigned his commission to enter civil life, coming back to Arizona to engage in mining near Prescott. With his experience in three wars, with which is combined an exceptionally fine military record, this valiant soldier may again take part in his fourth brush with the enemy. There are several hundred in this State who would gladly volunteer for duty in any command in which Colonel Brodie figures. He is now residing in New Jersey with Mrs. Brodie. Their son, "Sandy" is also to follow a military career, being a cadet at West Point.

NEVADA COPPER OPERATORS TO CLOSE DEAL (From Sunday's Daily.) Charles E. Carmack and Lewis A. Collins, mining operators of Nevada, who are visiting the city, announced yesterday that after title is established, they will close a deal for the Co-chise Chief group of coppers in Blue Tanks district, in the southern part of this county. The seller is C. K. Pearson, and the terms of the deal call for a first cash payment of \$2,000 with monthly installments to run for a period of two and one-half years.

Two of the claims were patented 14 years ago, and new locations give a group of 14. The operators state they were directed to make an inspection of the property by an engineer now with the Miami Consolidated, and samples taken from three openings, the deepest 62 feet, gave high contents in the red metal. A hoist is to be installed and a depth of 350 feet is to be given before any other development is decided upon. They say that another deal for adjoining claims also is pending, on which they hold an option.

Mr. Carmack will be remembered by old-time residents of this section as with the United Verde in the smelting department, going into the Ely field over 15 years ago. Both are to visit Jerome before returning to San Francisco, where they maintain mining offices.

## SPEED UP LOAN SUBSCRIPTION IN COUNTY

(From Sunday's Daily.) Handling the Liberty Loan in Yavapai county is now in the hands of a committee, of which F. S. Viele is chairman and F. L. Haworth secretary. In order to speed up subscriptions to the bonds, which are issued in amounts as low as \$100, the following notice has been issued by the committee:

**United States Liberty Loan. Do Your Bit—For Your Country.** To raise funds for the prosecution of the war, the United States treasury invites subscriptions from the people of the country for \$2,000,000,000 3 1/2 per cent gold bonds.

This war is essentially for the benefit of the people as a whole. Self-interest, loyalty and patriotism demand the active support of each individual. By subscribing to these bonds you are showing patriotism just as surely as the volunteers for active service.

The bonds being exempt from all taxes—except inheritance tax—give nearly the same return as savings bank deposits, and are available for collateral on loans in any bank at any time. Any bank in Prescott or Jerome will assist you without charge in making application for these bonds, and will further enable you to make large subscriptions by loaning you at 3 1/2 per cent three-fourths of the amount of your subscription, retaining the bonds as security.

Show the world that Yavapai county leads the State in patriotism. Subscribe now!

**YAVAPAI COUNTY LIBERTY LOAN COMMITTEE.** F. S. VIELE, Chairman. F. L. HAWORTH, Secretary.

## MINING MAN IS HEAD OF FAIR COMMISSION

PHOENIX, May 19. — The first meeting of the new State fair commission was held Thursday at the secretary's office at the State fair grounds. The new board is composed of W. B. Twitchell of Phoenix, a mining man of prominence and former president of the Arizona Chapter of the American Mining Congress; S. P. McGuire, of Douglas, a well known cattleman, and O. D. M. Gaddis, of Kingman, a prominent merchant and mining man of Northern Arizona. The members filed their bonds and took the oath of office.

The board outlined the work for the coming year and made preparations to go ahead with the fixing of the purses, setting the amount of premiums and authorizing the advertising for the harness and automobile races. They decided to hurry up work on the new mineral building for which \$30,000 was appropriated by the last legislature. They will advertise for plans and specifications at once. The construction of the building is expected to take four months, and to have it ready by next fair time will call for no delay.

Journal-Miner liners bring results.

# KELLOGG WILL GIVES HALF TO WIDOW

DOCUMENT FILED FOR PROBATE LATE YESTERDAY AFTERNOON; GIVES TWO NEPHEWS EACH A QUARTER OF ESTATE.

(From Sunday's Daily.) The will of Albert B. Kellogg, wealthy cattleman who was shot to death in the town of Mayer Friday by his stepson, Dave Morris, was filed for probate at 4:45 yesterday afternoon by H. H. Linney, who, oddly enough, is at present the sole representative of the county attorney's office in the county, and in charge of the prosecution of the young man accused of the murder.

The will is a simple document, naming none of the assets of the estate, which includes, however, the Horse-shoe ranch holdings in the Mayer county. It was signed on December 9, 1914.

To a child of his marriage with Mrs. Morris, mother of the slayer, the will provides for a half of the estate; lacking issue, however, this half is left to the widow.

One quarter of the estate is left to each of two nephews, Harry L. Hancock, of Phoenix, and Clarence Herrick, of Los Angeles. The will is witnessed by Ruby Loy and Anna M. Caspari.

It provides that in the event the wife dies first, the half of the estate reserved for her was to have been equally divided between Hancock and Herrick; thus making no provision whatever for young Morris or his younger brother.

**Mother Visits Son.** There was no development in the story of the killing yesterday, every fact having been fully covered in the first reports in the Journal-Miner yesterday.

Mrs. Morris and her younger son visited Dave Morris in the county jail yesterday evening, and for the first time since the killing the slayer appeared to grow talkative. His conversation with his mother was not in the presence of any officials, and seemed to be animated.

William Kellogg, a second brother of the dead man, arrived yesterday from his home in Florence. The funeral is to take place tomorrow afternoon from the Ruffner mortuary chapel under the auspices of the Elks, of which order the deceased was a member.

## PIONEER MEXICAN RESIDENT DEAD

(From Sunday's Daily.) Lucas Contreras, one of the best known residents of this county, and whose character was of the highest, passed away Friday after a brief illness due, to a general breakdown in health. He had been a resident of this section for nearly a third of a century, and followed the cattle business with his sons. In all dealings his methods were honest while his citizenship was exemplary. The Contreras family enjoys a splendid name in this community, and the many who survive have the sympathy of all in the loss they bear. Mr. Contreras was born in Mexico 74 years ago, but when a youth entered Arizona. A widow and 11 children survive, while also there are 45 grand-children. He will be buried today by Lester Ruffner and funeral services will take place at the Catholic church at 2:30 o'clock.

## FORMER RESIDENT SEEKS COMMISSION

(From Sunday's Daily.) From a letter received during the past week it is learned that H. G. Theroux, formerly of Prescott, has been accepted to enter the training school for officers of the army, at Fort Sheridan, near Chicago. Mr. Theroux will be remembered as at one time city ticket agent of the S. F. & P. in this city, where he made many friends, and married Miss Elaine Wooster. They have resided in Chicago for the past two years, where Mr. Theroux has been studying law, as well as being employed in a clerical capacity in the Rock Island railway offices.

## LEWIS TO LOOK AT BINGHAMTON

(From Sunday's Daily.) To inspect his offices in Jerome and Prescott, but more especially to look over the developments at the Arizona Binghamton Copper Company at Stoddard, R. Allyn Lewis, proprietor of a chain of brokerage offices, is in Prescott from his headquarters at Phoenix. Manager G. W. Johnson, of the

Binghamton, came in yesterday to meet Lewis and show him over the property.

A better tone is expected in the market now, according to the broker. It is the aim of big business men to make the market more solid at higher levels, in order to produce a better effect on the nation during the time remaining for subscription to the Liberty Loan.

## CONTRIBUTION OF HUMBOLDT LARGE TO THE RED CROSS

(From Sunday's Daily.) As a result of the bazaar, dramatic entertainment and ball recently held at Humboldt in aid of the American Red Cross, together with a subscription list, a total sum of \$1,170.06 was received. The Consolidated Arizona Smelting Company generously paid all the expenses, so that it has been possible to forward the gross receipts to the American Red Cross at Washington, D. C., to be used as may be deemed best at headquarters.

The result is very gratifying to all concerned and especially so to the ladies of Humboldt who, with Mrs. Colvocoresses at their head, worked so hard and nobly in the cause. A Humboldt auxiliary is being planned to continue work on behalf of the Red Cross in various ways, as may seem most effective from time to time.

## LUST SUIT MAY BE TRIED BY U. S. COURT

(From Sunday's Daily.) Pleading a diversity of citizenship and the fact that a sum in excess of \$3,000 is involved, the Arizona Power Company, through LeRoy Anderson, its attorney, yesterday filed a petition for the removal of the damage suit of Mrs. Daisy Lust from the Superior to the United States District court.

A bond to cover damages in case it is found the action has been illegally and wrongfully moved, was filed.

Mrs. Lust is suing for \$25,000 for the death of her husband, Fred Lust, who was killed at Jerome last June when he dragged a steel tape, used in surveying, across a power wire, alleged to have been hung too low.

## COPPER OPERATORS GIVE GOOD REPORT

(From Friday's Daily.) C. D. Dorris, E. J. White and William Weigole, principals of a company operating in Copper Creek district, east of Mayer, were visitors yesterday after returning from a trip of inspection. They are very much elated over the showing made from recent development. They substantiate conditions by samples taken that carry a high copper content, while the ore body has width of over five feet. The depth reached is 200 feet, and 30 miners are employed. The property has recently been equipped with machinery, and plans call for an elaborate system of deep work, owing to the good showing in evidence.

## WILL NOT RESIGN

(From Friday's Daily.) State Engineer Lamar Cobb, arrived from Phoenix yesterday, en route to the north to make what he terms will be his "final inspection" of highways. He states he will hold on to the job as long as Governor Campbell refuses to decapitate his official head, and in a statement made to friends said: "Anyway I have been in harness long enough, and am ready for the swish of the axe." Mr. Cobb was appointed State engineer by former Governor Hunt over five years ago.

## OLD-TIME SCENE

(From Friday's Daily.) Two "prairie schooners" which arrived yesterday forenoon from Northern Texas attracted very much interest among those unaccustomed to early-day methods of traveling. The outfit consisted of eight animals, four cows and two burros, while each vehicle contained household goods, cooking utensils and a small organ. The owner was T. S. Broadway, and with his family of five stated they would locate in the Wenden country, joining other relatives and engage in farming and stock raising. "Three years of a drought in our section has compelled us to move out of the country," he stated.

## DOPE FIEND CAUGHT

(From Friday's Daily.) "Kid" Lee as he was commonly known when in this city, has been playing a strong engagement in criminal circles in the southern section of the State. He was arrested and placed in a Tucson jail for engaging too strenuously in the opium business. Making his escape he was captured at Imperial, Cal., and is now back to serve sentence. This dope celebrity infested this community for several weeks. He speaks the Chinese language quite fluently.

## SAD MISSION

(From Sunday's Daily.) William Kellogg, brother of Al B. Kellogg, shot and killed at Mayer on Friday, arrived yesterday from Florence to be present at the funeral. He will be joined today by a sister, Mrs. Ward, of Los Angeles, wife of Dr. Ward, a practicing physician, formerly of Phoenix. Another sister of the deceased is Mrs. W. L. George, who resides at Mayer.

# JUNE 5TH TO BE A GREAT DAY IN ARIZONA

STATE COUNCIL OF DEFENSE WILL MEET TOMORROW IN PHOENIX AND MAKE PLANS FOR AIDING REGISTRATION.

PHOENIX, May 21.—A meeting of the executive committee of the Arizona Council of Defense has been called by Chairman Dwight B. Heard for Wednesday, May 23, at the State house in Phoenix. This meeting is for the purpose of arranging for Registration Day, although a number of other important matters will come before the committee.

It is proposed to make June 5th a day which will long be remembered in all Arizona communities. It will be declared a legal holiday by Governor Campbell, and the State Council of Defense will make an effort to have the day appropriately celebrated in every precinct, co-operating with local committees to that end.

The government desires to make this day a great festival occasion throughout the nation and Arizona is expected to do her part to make this a memorable event.

The Council of National Defense at Washington has asked the Arizona Council of Defense to immediately prepare organization plans for the celebration of this day on the lines indicated by the secretary of war. The executive committee of the Arizona Council of Defense will formulate the details of the community celebration at its meeting on Wednesday. Co-operating with the Arizona Council of Defense, is the Chamber of Commerce of the United States, the National Committee of Patriotic and Defense Societies and the Council of National Defense. Plans for the celebration to be held throughout Arizona will be worked out to harmonize with the general plan adopted throughout the nation. Secretary of War Baker suggested the idea of community celebrations in an address before the National Defense conference on May 2nd, as follows:

"The first step is the registration of the men. That is a very large undertaking. It is one which may be attended by confusion, or it may be converted into a magnificent demonstration of the unity of our country. When this registration takes place, every individual in the United States who really wants to serve, who wants to bring about that tremendous power of a morally and patriotically united nation both for the stimulation of our side of the cause and the corresponding depression of the morale of our adversary, every man who has that patriotic purpose can contribute to make this registration a great and memorable occasion in our country's history."

"All prejudice will be gone, if, when this day comes, flags are floating from public and private buildings and bands are parading the streets, and the people of the cities and of the countryside are accompanying their sons and brothers and husbands of suitable age to the registration place in the feeling that here in America is the altar of free institutions, and that every man who is putting his name down is making an acceptable sacrifice."

**Bowers Again An Inmate Of County Evil-Doers Hotel**

(From Tuesday's Daily.) W. A. Bowers is again a boarder at the county hotel.

It may have been dissatisfaction with Bill's bill-of-fare or it may have been disgust at the narrow quarters, but Bowers departed from his residence here about a month ago. He neglected to arrange for being away. He was supposed to remain about six months longer.

Two insane persons were indirectly responsible for the return of Bowers. Constable Wm. Fitzgerald had taken the two "nuts" to Phoenix to the asylum. And there—in Phoenix, not in the asylum—he saw Bowers. He persuaded the wanderer to return to the Yavapai county jail.

Bowers was arrested and later pleaded guilty to a charge of swiping a lot of hides at Congress Junction, and shipping them, together with some stolen automobile supplies, to Phoenix for sale.

## FOUNDATION EXEMPT

NEW YORK, May 19.—The appellate division of the Supreme court today ruled that the Rockefeller foundation and the bureau of social hygiene are charitable corporations and are exempt from a State transfer tax. The decision affects bequests of \$488,593 to the Rockefeller foundation and \$75,000 to the bureau of social hygiene by the late Mrs. Laura S. Rockefeller, wife of John D. Rockefeller.

# INTRICATE MACHINERY OF REGISTRATION IN MOTION

(From Tuesday's Daily.) In order to make the registration of the 10,000,000 men of 21 to 30 years of age a one-day possibility, and eliminate the chance of overlooking anybody, Uncle Sam will have to put across between now and June 5, the most stupendous publicity stunt ever accomplished.

Every facility for impressing the facts and requirements of the registration on the public, will have to be used to the utmost. It is notorious among publicity workers that there never was a case where a certain appeal reached 100 per cent of the individuals to whom it was directed. Among the 10,000,000 odd chaps of the proper age, there are hundreds of thousands who belong to the class that no printed word, wherever it is published, will reach, and to the class of those whom the printed word will not impress.

Anyway, Uncle Sam has every mayor, every sheriff, every county recorder, every State governor, prison warden, reservation superintendent and thousands of other State and Federal officers, made a part of the registration machinery by the law. And these men will be exceedingly busy for the next fortnight.

## Swift Organization

Arizona officers have until day after tomorrow to apprise Governor Campbell, and through him, the war department, that they are ready to enroll the estimated 3,000 men who will be this State's quota of the 10,000,000. Forty-two States, however, had reported to Washington Sunday night that they were ready.

It took some swift organizing. The sheriffs and other county officials had to make their appointments of registrars and place in the hands of these men, their supplies of blank cards, certificates and reports.

Sheriff J. F. Young will issue a list of Yavapai county registrars today.

Executive Office, State House, Phoenix, Arizona, May 21, 1917. To All the Citizens of Arizona:

Today we face the necessity of raising our First Arizona infantry regiment to war strength either by voluntary enlistment or by draft. Voluntary enlistment is a credit to the man who gives his services and Arizona can not be more highly honored than by having her young men voluntarily bring their organization to full strength.

From the older men, the mothers and sisters, facing as they do the necessity of loved ones absent in the service of their country, I ask aid and co-operation. In the hands of all the people of this State is Arizona's answer to the call of our country and president. Delay means the draft, with no choice of service for the young men who go.

America has entered this war on the side of liberty and humanity. Honoring the memory of those who fought for those principles in the Revolution, who first established liberty and humanity as the basis of our government, it is fitting that the newest State to enter the Union should be the first to raise its quota to defend those principles.

It is the duty of every man, woman and child in Arizona to urge enlistment on those liable for service until the required number represents Arizona at the front, that Arizona's record may be an example to all the States. I ask aid of every loyal citizen of Arizona in urging that men who are liable for service volunteer now and take their places as members of our First Arizona infantry. To the young men who are of the prescribed age, I would say: "Go, and go now."

THOS. E. CAMPBELL, Governor of Arizona.

## ADVISORY DUTY

LONDON, May 19.—Commander Edward R. G. Evans, who was second in command of the Scott Antarctic expedition and was in charge of the British destroyer Broke when she with another British destroyer defeated six German destroyers off Dover on the night of April 20, has been assigned to advisory duty with the American destroyer squadron in British waters.

One registrar is to be named to each 80 eligibles. If it will facilitate registration, however, the sheriff may name more. The work will be specially hard in this county because of the isolation of so many of the precincts. For instance, Cottonwood precinct, over on the Verde, while has been due for over ten days with its report of the State census, has not yet showed up.

Here is some of the information you will be required to give your precinct registrar on June 5th:

Name in full, age in years, home (not business) address, date of birth, native American, naturalized citizen, alien or one who has declared intention to become a citizen; place of birth; if not a citizen of America, of what country; present trade, occupation or office; by whom and where employed; "have you a father, mother, wife, child under 12 or a sister or brother under 12 solely dependent on you for support? married or single; race; military service, rank, branch, years, nation or State; grounds if any, on which you claim exemption.

How to answer these questions will be conveyed to the men by means of placards to be hung up in the registration offices. There will be an office at each voting precinct as near as possible.

Absentees must register before a qualified officer wherever they are six days before the proclaimed date, that is on May 31st. They must then see that the registration officer of their own home precinct gets the registration card by mail BY JUNE 5. They are held responsible for this, and failure to do it is at their own peril. Persons confined to sick beds must also register in this manner, calling a friend to perform the registration, and then filing the card with the proper officer by the specified date.

The penalty is imprisonment, without alternative of a fine.

# CALL TO ENLIST BULLDOG CIDER IS SOUNDED BY GOVERNOR CASE LOST BY WALTER HILL

DELAY MEANS DRAFT TO BRING UP THE FIRST ARIZONA INFANTRY TO WAR STRENGTH. "GO AND GO NOW" THE ADVICE.

Executive Office, State House, Phoenix, Arizona, May 21, 1917. To All the Citizens of Arizona:

Today we face the necessity of raising our First Arizona infantry regiment to war strength either by voluntary enlistment or by draft. Voluntary enlistment is a credit to the man who gives his services and Arizona can not be more highly honored than by having her young men voluntarily bring their organization to full strength.

From the older men, the mothers and sisters, facing as they do the necessity of loved ones absent in the service of their country, I ask aid and co-operation. In the hands of all the people of this State is Arizona's answer to the call of our country and president. Delay means the draft, with no choice of service for the young men who go.

America has entered this war on the side of liberty and humanity. Honoring the memory of those who fought for those principles in the Revolution, who first established liberty and humanity as the basis of our government, it is fitting that the newest State to enter the Union should be the first to raise its quota to defend those principles.

It is the duty of every man, woman and child in Arizona to urge enlistment on those liable for service until the required number represents Arizona at the front, that Arizona's record may be an example to all the States. I ask aid of every loyal citizen of Arizona in urging that men who are liable for service volunteer now and take their places as members of our First Arizona infantry. THOS. E. CAMPBELL, Governor of Arizona.

SUPREME COURT HOLDS LOWER COURT RIGHT IN FINING PROMINENT DRY WORKER FOR SALE OF HUSKY APPLE JUICE.

(From Tuesday's Daily.) News was received here Sunday that Walter Hill, prominent merchant of Phoenix and Prescott had lost his appeal to the Supreme court from a sentence of the Superior court of Maricopa county on a charge of violating the prohibition amendment. The case grew out of the now famous "bulldog" cider that was sold in Phoenix shortly after prohibition became effective and before the personal use decision let the bars down to those who wanted private stocks of liquor.

Mr. Hill was an active prohibition worker, a fact which makes his conviction on a charge of violating the liquor laws quite ironical. The Walter Hill Company sold five barrels of cider to Troutner, and after its delivery by Troutner to distributors, it was found to contain 7 1/2 per cent alcohol. It was the stand of the appellant that he did not know the nature of the beverage, but the court held that the fact his company handled the drink and sold it, involved a violation of the law. P. W. Duncan, Hill's manager, who actually delivered the goods, was freed by the Supreme court.

## Earthly Career Of Al. B. Kellogg Ends

(From Tuesday's Daily.) The funeral of Al. B. Kellogg yesterday, occasioned many from points outside and in the city to be in attendance, owing to his popularity, and the cortege was unusually large which wended its way to Mountain View cemetery, where this well known citizen was laid to rest. The Elks of this city held services in Ruffner's chapel, the deceased being a life member of Phoenix lodge. Rev. Joel Hedgpath officiated in a touching eulogy to the dead, and Mr. Sumner rendered a vocal selection suitable to the occasion. Many beautiful floral offerings were the tribute of friends, and the pallbearers were C. E. Gentry, Warren G. Davis, J. H. Robinson, W. W. Cook, J. H. Stephens and B. H. Smith.

Give the Journal-Miner job department your order for all kinds of printed stationery—calling cards, business cards, letterheads, envelopes. We do all kinds of work promptly and artistically.
