

LOCAL NOTES.

FROM THURSDAY'S DAILY.

N. Ellis and wife and Mrs. Beale are among the water-bound passengers on the South bound stage.

Kingman gave a big masquerade ball on the night of the 15th, the first one ever held in Mohave county.

Donne Merrill has resigned his position as telegraph messenger, and the position is now filled by Willie Tinker.

Owing to the deep snow in the mountains south of town, the work of packing ore from the B and D mine has been suspended for the present. There is about thirty feet of high grade ore now in sight at the mine.

The reported loss of 1,000 cords of wood at Whipple proved to be a canard. Not a stick was lost. The report was started by a practical joker who desired to work on the feelings of wood owners.

H. J. Wurzburg, yesterday, received a letter from his partner, L. Kuhn, stating that he was now bound at Coalinga, Kansas, with good prospects of continuing there for some time.

Miller Creek, during the storm, a few days past, went spouting down through the Chinese vegetable gardens below the water works dam, carrying destruction before it, and opening up an entirely new channel.

Congressman Laird, of Nebraska, is making himself useful to the Western man troubled with Indian outbreaks, by his untiring efforts in causing the Washington authorities to understand the true nature of the action in the Southwest.

M. O. Murphy and other parties went out yesterday to the Lynn Creek placer mine and found them in full operation. It is expected that a large amount of gold will be washed during the present season, as the property is in good condition.

Hon. S. E. Gage, of Walla Walla, Michigan, and G. P. Preble, and O. M. Eggeborn, of South Lyon, Michigan, arrived on the stage from Ash Fork this morning. These gentlemen are all interested in the Oro Fino placer mining company, and will shortly pay a visit to that property.

Deputy Grand Chancellor J. L. Fisher last night Monday sent the following officers of the Knights of Pythias Lodge: John R. Hill, C. C. Christ, O. G. Griffith, K. O. R. & S. John Baker, M. O. F. I. P. Ingerson, M. O. E. Nick Schaffner, M. O. A.

A meeting of the executive committee of the National Bi-Metallic Silver Coinage Association was held in Washington yesterday. It being impossible for Governor Tittle, who is a member of the committee, to attend, he telegraphed his proxy to Deleage Bean who represented Arizona at the session.

Engineer Robert Oringby, yesterday, turned over to his successor, I. Helm, the machinery of the water works in first-class condition and in operation. The water committee was present. It is the intention of the committee to have Mr. Helm proceed at once to fill the reservoir, it having never yet been tested to its full capacity.

The jury in the Hitchcock case brought in a verdict of not guilty last night, and were discharged.

Geo. H. Curry returned last night from his hunting trip on Oak Creek with quite an abundance of game.

The telegraph wires to Puenit and Camp Verde are down. The one to Ash Fork, however, is still in operation.

The city council last night awarded the contract to W. C. Potts to repair the Granite creek bridge for \$200.

Hitchcock and Daines are still held in custody to answer the charge of assault with attempt to commit murder on Leo Tompkins.

C. E. Tupper, the ambulance driver between Prescott and Whipple, has been relieved from duty, and ordered to join his company at Verde.

Quite a number of citizens of Mohave County, who have been attending court here, have engaged passage for Ash Fork tomorrow on their way home.

T. B. Carter, of Walnut Grove, who has been serving his country day and night for eleven years as a juror in the Hitchcock case, paid a respect to the JOURNAL-MINER today by dropping a year's dues for the same. Come out and do the likewise, then you are in arrears.

W. S. Reese, the well known smelting man, has received a commission from President Taft to proceed to Chicago as soon as possible to represent the state in the proposed plant for an English mining company on a Superior copper property. The furnace to be erected will have a capacity of 1,000 tons of tailion per month.

Prof. Hugo Arnold and Mr. Reese, brother of W. S. Reese, left on Monday for the Elm Dick mine and nothing having been heard from them since, some uneasiness is felt in regard to their safety, owing to the terribly deep snow on the divide. A courier was sent out in search of them today, and it is hoped they will be found to be all safe.

The verdict rendered in the Hitchcock case has been the cause of a great deal of unfavorable comment on the streets today while there are also a number who endorse it. It is somewhat astonishing that diverse opinions will be formed by hearing the same statement of facts in regard to an occurrence.

The visit of the eastern capitalists connected with the Oro Fino placer mining company is a most opportune one, as water is abundant to run that property can now be had. Hon. A. W. Cullen has been visiting in his enterprise to get the property in running order and of the parties who have recently arrived do not find everything in first class order with abundance of such water. Mr. Cullen is now in the market for a success of everything he undertakes, and we do not believe that this enterprise will prove any exception to the rule.

The Albuquerque newspaper was growing hot. Tom Hughes, of the Journal, served the following notice through his paper, on Allbright, of the Democrat: "Notice is hereby given that if J. G. Allbright slips up behind any employe of this paper and breaks his skull, as he has threatened he would do the past two days, he will be shot inside of ten minutes, just the same as if he was a slat bound pup."

Mrs. C. W. Beach received a telegram this morning from Mrs. W. W. Hatchinson at New Orleans, announcing the serious illness of her husband there. She stated that an operation was to be performed to-day by three of the best physicians in the city, but they had no hopes of his recovery. She did not state how long he had been sick, but his illness must have been of brief duration, as W. T. Richardson received a letter from him last evening, dated the 18th inst. in which he said that he was in best of health and himself and family were enjoying themselves well in the Crescent City.

Philip Richardson arrived last night from the B and D mine having left there on Monday. He says that when he left E. S. Janier's place there were four feet of snow there, and he experienced considerable difficulty in getting down the mountain side. When he got to a lower altitude his way was much impeded by swollen streams and he found travel difficult. His worst experience, however, was yesterday in crossing the Huesyampa divide, twice miles south of town, where he found from four to ten feet of snow, which, being wet, made travel almost impossible. He says that two or three times he was almost compelled to go up in despair over accomplishing the trip.

Prof. William Beard returned last night from a protracted visit to the Catalina mining district.

Services will be held at the Catholic Church to-morrow as follows: Mass, 10 A. M.; Sunday School, 2 P. M.

T. B. Carter, of Walnut Grove, who has been spending a few days here as a juror, left for home this morning.

Professor Farmer and wife will take the departure for Tempe to-morrow as communication with the southern country is opened.

The San Francisco Bulletin of the 18th inst. says the Tucson Daily Times has suspended publication. The Times was one of our very best exchanges.

Mr. Taylor, a retired lumber merchant of San Francisco, is paying a visit to Arizona's capital, and enjoying its fine suburban climate. He is the guest of Dr. F. K. Alsworth.

A survey of the Walapai reservation has been ordered by Judge Porter in order to ascertain if the shooting scrape indicated in the limits of the reservation or not.

The time of departure of the Ash Fork stage has been changed to 8 o'clock A. M., during the continuance of muddy roads.

The south bound stage depart regularly each morning with the mail, going as far as Bumble Bee daily, from which point they are compelled to return on account of high water.

Lieutenant William Davis, of the 10th cavalry, who is known among his brother officers as "Whispering Bill" on account of the timidity of his voice, is a brother of the well known late General J. S. C. Davis, of the Union army.

Morris Goldwater would make a good experimenter. He is a conscientious and honest business man, and the opposing power being in the hands of the democratic party of which he is an active member, a better selection could not be made.

Capt. W. H. Hardy, of Mohave County, enclosed a letter to the JOURNAL-MINER from Hon. C. C. Bean, under date of December 24, in which it appears that our delegate was working with might and main to secure additional troops for Arizona. As troops have been sent since that date we are glad to note the success of his efforts.

According to the revised statutes of the Territory all vacancies in boards of supervisors shall be filled by the Probate Judge County Treasurer and Chairman of the Board of Supervisors. As Supervisor Hutchinson was Chairman of the Board, it will devolve upon Probate Judge Hawkins and County Treasurer Cook to name his successor in the board.

The Army and Navy Journal says: "The War Department is anxiously awaiting the report of the retiring board before which Lieutenant Simpson was recently ordered to appear for examination. A vacancy having occurred on the 400 regiment he could be retired immediately if the board finds him incapacitated and thus relieve the department from any further embarrassment in regard to the Steyer nomination. The attorney for Lieut. Simpson is still active in his opposition to the nomination. He has informed the committee of Simpson's examination by the retiring board, a step, he says, which was taken by the Department solely for the purpose of postponing his retirement until after any request from Lieutenant Simpson for such an examination. This statement is not verified at the War Department, as it is said there that Lieutenant Simpson asked to be sent before the board." In connection with the above, it may not be generally known outside of army circles that Lieutenant Simpson received his appointment as captain, but the Senate refused to confirm him. Both of the officers were recently stationed at Whipple, Lieutenant Steyer being adjutant of the third cavalry.

FROM MONDAY'S DAILY.

Hon. N. L. Guthrie and C. G. Beardsley held services in the county jail yesterday.

No San Francisco mail last night, and but a very little struggling mail from the east.

Hon. E. W. Wells and family are at present staying in San Francisco at the Regis Hotel.

Geo. H. Tinker will arrive on to-night's Ash Fork stage from a canvassing trip along the railroad.

General Wardwell says he is a proponent of Cleveland man, and Cleveland knows it. Verbum sap.

Prof. Farmer has bought a residence in Tempe with accommodations for a large number of pupils.

D. W. Dills, the convicted murderer, is said to be working considerably in the date of his execution draws near.

Philip Richardson has been engaged by Sheriff Whitcomb to erect the shaft on which Dills is to be executed on February 5th.

The Board of Supervisors will open bids next Monday for printing, stationery, board of prisoners, care of indigent sick, etc., for the current year.

M. E. Collins, who is interested in mining properties on Big Bag, in this county, is agent in Los Angeles for the sale of Salt River Valley lands.

Postmaster Mowry, of Phenix, says that during his long residence in the valley he has never seen water in Salt River as high as during the past week.

We are under obligations to Mr. Thomas Wing, Register of the Land Office, for a copy of the annual report of Commissioner Sparks, of the General Land Office.

A pugilist from San Francisco and one from Whipple propose to amuse themselves and entertain their friends shortly in Prescott by a fight to the finish for blood.

As pleasant and kind to those around you a man who stirs his tea with an icicle spoons the tea and chills his fingers. St. Jacobs Oil will, however, restore the circulation.

Patricia Mouton, a Mexican, while whitening his revolver on his finger, shot himself in the stomach, near Clifton last Sunday, and the next day joined the host who have gone before.

A backboard arrived Sunday morning from the north bringing a small portion of the delayed mail. Phoenix papers arrived, but only one came in from Tombstone and two from Tucson.

Judge W. W. Porter will leave for Phoenix to-morrow evening. During his absence of a month in Prescott the Judge has made many warm friends by his genial and courteous manner.

The lovers of the Lynn Creek placer mines are reaping their harvest in large quantities of gravel through their claims. They have now pipes at work.

Those people who don't believe until they have seen are the ones to visit the Lynn Creek mines and see the rich, sparkling diamonds of the earth at Kuhn & Wenzel's advertisement.

Sheriff Mulvane has received word of the shooting of James Patton, alias "Blind Jim," at Kingman, on Saturday last, by Pat Dolan. Patton is not expected to live. Patton shot and killed a man at Kingman a few years ago, during the time the Atlantic & Pacific railroad was being built, and was acquitted.

In order to encourage immigration into the Salt River Valley, the Southern Pacific railroad company has made special rates between Los Angeles and Maricopa for parties of five or over wishing to visit the valley.

It is said that during the recent storm Chas. W. Beach's place, in Kirland Valley was damaged to the amount of \$1,000. James Mose and E. Jackson also sustained considerable damage to their ranches from the flood.

C. P. Stanton writes that he had a narrow escape from drowning during his trip home from Prescott, last week in attempting to cross Kirland Creek. He was compelled to disrobe and swim the stream, it was swollen so as to make it impossible to cross on his horse.

Charles Furlan, an Indian boy, who has spent a good portion of his time in jail for the past two years, and who has been employed as a trusty around the place, after finishing up his work of dusting, etc., this morning concluded to take a walk for his health and has since returned.

On his return from the east General Wardwell attempted to introduce a pig into the Tombstone. There is an ordinance which generally forbids the introduction of swine of any kind into the county, and when a Tombstone sharp shooter sent a bullet through the top of the General's head, he decided to await the decision on the question of a special tax by the election to be held February 24. Should the tax be voted the public schools will be re-opened, and should it be defeated, private schools will probably be opened.

FROM TUESDAY'S DAILY.

Household furniture for sale, very cheap. Apply at the residence of Henry J. Wurzburg.

E. C. Payne and wife have gone on a two months' visit to friends in Massachusetts and Illinois.

The Hitchcock trial cost the United States nearly \$2,000, and yet a crime is allowed to go unpunished.

Get a copy of to-morrow's WEEKLY JOURNAL-MINER, the brightest, best and cheapest work in the territory, and send it to your friends.

D. Snyder's station, at Bumble Bee, has been quite popular as a forced water resort for south bound passengers, during the recent heavy rains.

A stage and six mules of mail were washed down the Agua Fria river near near Gilbert last week. The driver and team had a narrow escape from drowning.

The closing of the public schools is an advantage to the normal school in the matter of furnishing pupils for it.

The first number of the Weekly Tucson Times, an offspring of the late Daily Times is at hand. It is published by Walter S. Neville and is a neat and new paper.

It will be one of the "best opportunities" of your life if you neglect buying your necessary clothing outfit at the Lion Store immediately—clothing never cheaper.

James H. Vandenberg left to-day to try his fortunes in Mohave county. He is an energetic industrial man, and it is our sincere wish that he may strike it rich there.

The regular meeting of Astian Lodge, No. 1, F. & A. M., will be held at Masonic Hall, on Saturday evening next, January 29th. A full attendance of men has been requested.

The syndicate, which "it is rumored," propose to purchase the Journal-MinER for \$100,000, has not yet made known to the public where they have known them to be held, and it is well known, that the syndicate has appointed several Chicago millionaires voluntarily to go on to his hands for \$50,000. He was also a candidate for state treasurer in 1897, and ran 18,000 or 20,000 ahead of his ticket."

OF INTEREST TO ATHLETES.

James Robinson, trainer of athletes at Harvard and Princeton colleges, writes from Princeton, Jan. 24, 1898: "For cuts, bruises, strains, rheumatism and cold, I always use Alcock's Porous Plasters for myself and pupils. Never have known them to fail in any one hundred cases. They strengthen the muscles and give instant relief. They are the only external remedy used by our athletes."

The rumor that the JOURNAL-MINER is again about to change hands is a lie, made out of whole cloth, and the person rragging it is, of course, known to all. The expensive nature of our small minds is something remarkable.

Recent experiments show that if logs containing oil are thrown from a ship in a storm the force of the waves is lessened. In the same way, St. Jacobs Oil checks the force of rheumatism and brings peace where all was turmoil.

John Molander, an old Phenix acquaintance of D. W. Dills, called on the latter individual to-day and administered spiritual consolation to him by advising him to "take it easy."

A number of soldiers from Whipple visited Prescott last night, and becoming quite bilious on the way home, tore down the streets, overturned fire bridges and behaved in a mischievous manner generally. As a result, the guard house at Whipple contains about twenty inmates to-day.

The Phoenix Champion gives the following account of the fight at Kingman on Saturday last. It says: "A man known as 'Butch,' who is a better in that place, shot Bill Johnson, a gambler, and then cut his own throat. Neither of the men are expected to live. The affair was the result of a quarrel over a woman known as Meg Brown. Johnson was formerly a resident of Flagstaff and is well known there."

If Prescott can only realize her desire in regard to the building of her branch railroad this spring our town will experience an unexampled business revival. With railroad communication our resources will support a prosperous town of four times its present size.

Miss Amelia Rusk had a narrow escape from being severely burned this morning. While passing near a stove her dress caught on the fire, and she was obliged to get away by the back of her head. The fire was finally smothered without serious damage except to the dress and the Judge's head.

The Selby smelting Co., of San Francisco have recently opened large and improved facilities for refining ores at Valley Junction, Contra Costa County, California, on the main line of the Southern Pacific R. R. They are now prepared to work gold and silver and lead ores, sulphur, lead bullion, etc., in large quantities and upon the most favorable terms. Shipments should be addressed to us at Valley Junction, and all correspondence sent to 418 Montgomery St., San Francisco.

A Liberal Schedule.

Under the present time schedule for carrying the mails between Prescott and Ash Fork, the contractor is allowed seventeen hours, the time of arriving here, according to schedule time being 11 o'clock P. M. The Superintendent, Mr. Stewart, however, has of his own motion shortened the time four hours when the roads are good, and instead of arriving at the hour named, stages arrive at 7 o'clock P. M.

The present contract expires on the 31st of next June, and proposals are already advertised for, and will be opened next month for contracts for four years from that time.

The postoffice department, for some reason, has arranged the schedule time under these contracts at twenty nine hours, which will allow a sixteen hour lay over along the route for rest and recuperation.

Frank Leslie's Fingerprint Monthly for February is all that its patron can desire. The articles vary in character and treatment, are all interesting and timely and all well illustrated. Mr. Christie's article on the late William H. Vanderbilt gives a striking picture of the career and life of the greatest American millionaire, and the reader can judge for himself of the man, his palace, his gallery, his stables and his tomb. Ken Law Wallace, the talented wife of our general and diplomat, contributes a very striking romance, "A Fair Child's Story." The well known novelist, Christian Reid, gives one of his striking stories, "A Rustling Leaf." "The Home of the World," "The Conqueror," "The Story of the Man Who Wrote Robinson Crusoe," Noel Rathen takes us back to England in the time of Dr. Poe. "The Plot," as described by Charles H. Lester, gives the reader a knowledge of what will be England's next sensation. R. S. Torr describes the "Past and Present of a New England Fishing Town," Frank H. Norton's "Irregular Troop," and M. A. Dea's (author of "The Husband of Mine"), C. L. Hildner, Henry Tyrrell, Cathie Jewett, J. F. Nichol, contribute stories and poems. "Telegraph," the last application of electricity for transporting freight, will be read with interest; and all readers will follow E. W. Pierce's novel, "Daughters of Cain." The illustrations of this number are all striking and good.

Opinions of the War Hero.

When asked in regard to the efforts of a concerning Senator General Hise, and of the opposition to his confirmation, by a Tombstone reporter, Gen. Al Wardwell replied:

"Never heard a word about it. It is a reprehensible lie" started the old "war hero." "It is a dead sure thing that Hise will be confirmed, and he ought to be, for he is the right man for the place. He is backed by Secretary Lusk, Commissioner Sparks, the entire Illinois Congressional delegation, the leading business and professional men of Chicago, and most of the Pennsylvania delegation, including Senator Don Cameron. Hise, you know, is a native of Pennsylvania, but resided for many years in Illinois, having served in the legislature of that state. He was Comptroller of the city of Chicago, and handled millions of dollars of public money, and so official wrong doing was never charged against him. As an illustration of the confidence and respect in which Mr. Hise is held where he is well known, at the time of his appointment several Chicago millionaires voluntarily offered to go on his bonds for \$50,000. He was also a candidate for state treasurer in 1897, and ran 18,000 or 20,000 ahead of his ticket."

COOK.—At Point of Rocks, near Prescott, January 26th, to the wife of W. W. Cook a son.

The gentleman who borrowed my Compiled Laws of Arizona, will be as kind as to return it immediately.

W. H. McGraw.

December 20, 1888.

Primes and Gypsons

Of the finest tone and best make, suited to this climate, for sale cheap at

Geo. H. CURRY'S Jewellery Store.

See Butler's Chop House.

Montana Street, Prescott. All the delicacies of the Home, San Francisco and Kansas City markets, comprising: Fresh Fish, Oysters, Lobsters, Chickens, Pigs Feet, Tripe, Spiced Lamb, Tongues, Salsas, etc., etc., Dinner from 4 to 7 P. M. Elegant Private Rooms Attached, Suppers and Private Dinners a specialty. Prices to suit the times. Open day and night.

See News.

One treatment house, with four rooms, furnished. Apply to

Geo. H. CURRY.

Wednesday's Edition.

Ash Fork has two good hotels now, Mrs. General Cook is expected of Whipple in a few days.

Col. A. J. McGonigle has gone to San Francisco on business.

No eastern mail has reached here yet since Saturday night last.

Assistant Secretary T. E. Purish has returned from his lecturing tour.

Oh! For a good smoke! "Albion's Best" 12 1/2 cent cigar and you have it.

Territorial Treasurer T. J. Butler is paying warrants of the series of 1896 up to No. 240.

Firelight claims to have the largest theatre in the Territory, with all necessary stage appointments and a seating capacity for six hundred people.

A petition is in circulation here asking Congress to grant a pension to the children of the late General W. H. H. McCull, who died in Prescott in June, 1868.

Wm. Fisher, of Ash Fork, has a card in to-day's issue which is of special interest to stock men and ranchers. He has opened a first class saddlery and harness shop in Ash Fork.

County Treasurer E. J. Cook and Probate Judge J. J. Hawkins this morning appointed J. W. Dougherty as supervisor to fill the vacancy caused by the death of Supervisor W. W. Hutchinson.

As will be seen elsewhere in our advertising columns, the Cottage Hotel, at Ash Fork, has been re-opened and is again ready for the accommodation of guests. Mr. and Mrs. Walter Cook will spare no pains to entertain their guests in a comfortable manner.

Residents of Turkey Creek, Ahmanu, and all that route are justly indignant at the action of the department in raising their mail facilities to twice a week. Delegate Bear should use his influence at the department to have a tri-weekly mail restored.

An exchange gives the following: "To keep a baby quiet who has passed the age when anything goes into the mouth, the tips and feet of the baby with gum water or dissolved gelatine, and give him a drowsy feeling to play with. He will spend half an hour in picking it out from an adherent finger to another, and so back again."

Two Great Discoveries.

The discovery of cocaine has aided surgery in making delicate operations, by lessening pain and doing away with chloroform. St. Jacobs Oil removes all pain and inflammation which follows severe cuts or bruises.

The Thomas Concert.

A fair audience, in point of numbers, attended the concert, given last night, at the Marine Street Church. The programme, which had been arranged by Prof. Thomas, showed great care in its preparation, as the selections were so arranged as to avoid all monotony in their production. The opening piece by Professor Thomas, on the piano, and Mr. F. O. Cook, with the violin, was a beautiful piece of musical composition and was most artistically rendered. The "Singers' Carnival" by Mrs. Blake and Miss Moore, soprano; Mrs. Martin, alto; Mr. Brown, tenor; and Mr. Dauphin, bass, was light and airy, and well sung. "My Queen," a baritone solo, by Oskar Huber, was rendered with much feeling, although Mr. Huber had been sick for several days.

A piano solo, by Professor Thomas, showed remarkable skill in the manipulation of the keys, as well as a thorough and perfect knowledge of music. In fact he rendered a number of pieces on the piano, which were perfect gems. The Professor stands without a rival in this territory, as a pianist or organist. "In Meadow Green," a duet by Mr. Brown and Mrs. Martin, concluded some very beautiful melodies and was well rendered. F. O. Cook rendered a violin solo, remarkably well, as did also Messrs. Dauphin and Huber, a duet. Miss Adda Moore sang "When The Bird Sings Bold Again," in a remarkably rich and sweet voice, which was loudly cheered. She was followed by singing "Goodnight," Miss Moore's voice never appeared to better advantage, being very rich and showed good training. "The Ship on Fire," a solo, by Mr. Dauphin, was an exceedingly difficult piece, but was rendered in a manner which brought down the house. Mr. Dauphin was in excellent voice, and in response to an encore, simply bowed his appreciation. Taken as a whole, it passed off more smoothly than any other entertainment of the kind which has been given in Prescott for a long time, and reflects credit on all who took part and particularly on Professor Thomas, under whose direction it was given.

Schools Closed.

The school trustees were compelled to close the public schools yesterday for want of funds. During the afternoon a number of visitors were present, to witness the closing exercises which were very appropriate. An election will be held early in February, for the purpose of voting on a proposition to levy a special tax of \$2,000 to keep the schools running. As it requires a two third vote, and the already high rate of taxation and all that time, it is thought scarcely probable that it will be carried. Our school is of the greatest importance and should be kept open.

NEWS LOCALS.

"Our Children," only 8 cents, and as good as any 10 cent copy in the town, at Altkirk's Drug Store.

Just received, at Hutchinson & Co's, Corner Drug Store, another invoice of Whipped Oil, Ely's Cream Balm and other popular remedies. 50¢

For ten or twelve years I have been severely afflicted with catarrh. Never before found a such decided relief as from Ely's Cream Balm. I consider myself cured. —J. W. BURRIS, Mechanicsville; N. Y. (Price 50 cents.)

Rheumatism, Gout and Neuralgia are generally caused by acid in the blood, and it is one of the special properties of Dr. Richmond's Remedial Medicine to eradicate all these disorders. For sale at C. S. Hutchison & Co's corner drug store.

In one week Ely's Cream Balm opened a passage in my nasal, through which I had not breathed in three years, and which inflammation in my head and throat, the result of catarrh.—Colonel O. M. Neilley, Otago, N. Y. (See adv.)

We will furnish the WEEKLY JOURNAL-MINER and the Weekly San Francisco Call for \$2.50 a year.

Libson Lemons, Missouri Apples, Imported and choice domestic cigars, candies and notions. Try the French "cat" cigar, at Ford's, Montgomery St.

Instrumental and vocal sheet music, also music books for sale by Miss Adda Moore, Corner Street.

Try my Silvers watch, only "Ten Dollars" the best watch in the world for the money. —Geo. H. CURRY.

Curry has gone to Tomba Bore for a few days, but leave Mr. Geo. H. Huber, a competent watchmaker in charge during his absence.

A Card

To all who are suffering from the errors and aberrations of youth, nervous weakness, early decay, loss of manhood, etc. I will send a recipe that will cure you. —J. E. O'NEILL. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. James T. Emmet, Station D, New York City.

One treatment house, with four rooms, furnished. Apply to

Geo. H. CURRY.

ALEXANDRIA.

A New Year Letter From a Live Mining Camp.

ALEXANDRIA, ARIZONA, January 24, 1898.

MY DEAR FRIENDS:—

Owing to the extreme inclemency of the weather lately, business and social matters are nearly at a standstill. The principal object of agitation is the unjust and outrageous idea of cutting our mail system on this route from three times to twice a week. This will cause untold inconvenience and loss to the people, who are justly very indignant about it, and a petition protesting against it, and praying for restoring of the tri-weekly system is being circulated and unanimously signed, and will be duly forwarded to Delegate Bean to be presented to the Postmaster General. Perhaps before the end of the present administration, the people of this vicinity will have to send and receive their mails through the Prescott office. What the matter with the Arizona Stage Company? It has been just ten days at this writing, since we have had intelligence from the outworld. 'Tis true the weather has been somewhat uneven of late, yet we cannot conjecture why it should cause this long delay. Other contractors have, in former years, been always on time, no matter in what condition the elements were.

Mining prospects are looking up quite brilliant now a days. Mr. W. C. Dawes' intention to hoist water from the Peak mine at the rate of 25,000 gallons per day, and propose to be taking out ore soon.

Mr. John Curtis, our
