

LOCAL NOTES

FROM THURSDAY'S DAILY

W. T. Baker left for Phoenix today. Attend the lecture to-night at the M. E. Church. Frank Herford is now a full pledged lawyer. Temp citizens are afflicted with typho malarial fever. The first term of the territorial Normal school has closed. A portion of the delayed eastern mail arrived last night. Baum's hot cream soda is the "bone" drink for the season. John B. Fitch, of the Tempe News, is a prospective millionaire. Invite your friends to come to Prescott, to celebrate the Fourth of July. Wales Arnold, a prominent citizen of the eastern part of the county is in town. It required two stages from Ash Fork to be able to accommodate the passengers. Rev. N. L. Guthrie and niece will take their departure for the east on Monday next. Captain Russell Gresh left this morning to join his command at Fort Davis, Texas. The army of the Rifles, since being newly flooded, has a dancing floor equal to any in town. D. G. Reese is delivering the second volume of the "Personal Memoirs of General Grant" to subscribers in Prescott. J. C. Reynolds, former resident of Prescott, but at present a resident of the Salt River valley leaves for home today. Col. C. P. Head will go out to Ash Fork on Monday, to meet and return with his wife, on her return from California. General B. H. Grierson, post commander of Whipple Barracks, is on a visit to Fort Davis, Texas, where he owns large cattle interests. The Troughs celebrated the opening of their new club room a few evenings since, at which they entertained their friends in royal style. Lewis Williams, agent for Lux & Miller, the celebrated cattle kings of California, is visiting this section for the purpose of purchasing cattle. Lieutenant Maxson, regimental quartermaster of the 10th Cavalry, and Dr. A. E. Buzard, veterinary surgeon, have gone to Tucson to inspect cavalry horses. Was Latchford an enterprising citizen of Ash Fork and proprietor of a first class hotel there, a visiting Prescott and paid his respects to the Journal-Miner office today. The date crop promise to be unusually large in the various counties of this territory this fall. The variety which seems to thrive best and which will furnish the biggest yield, is the "Cantel-dat". John Bickel who has been in the employ of Dr. F. K. Ainsworth for two years, will leave a day or two for San Diego, where he owns some city property that has grown valuable since the recent business revival there. J. N. Rodenburg has again been visited by malarial fever, which tramped his growing trees for him. He says it is very discouraging to attempt to raise anything to have it constantly destroyed by malarial fever. A report from Clifton says that Joe Hampton's ranch on Eagle creek, was raided on Saturday last and two men killed and the place robbed of ammunition, provisions and clothing. The hostiles numbered twenty one. It is asserted by an authority that it is a mistake to suppose that boiling is applicable to fish and meats only. It can be employed with fruits and vegetables and when these are water excellent results are obtained. The apple, pear, quince and banana, the cucumber, tomato, green pepper or egg plant thus prepared make admirable dishes. The contract for government freighting from July 1st, 1885, till July 1st, 1887, has been awarded to W. H. Hatcher, by the chief quartermaster, at the following prices: Ash Fork to Verde \$1.50; Ash Fork, to McDowell \$2.25; Maricopa, to McDowell \$2.50; Maricopa, to Whipple \$2.00 and \$2 per hundred miles for all points not named above. An advance sheet of the Apache county crime has been received at this office. The first number will be issued today, at Holbrook by that veteran journalist, Col. Harry Reed. Apache county has now three papers. The first number of the crime contains a largely communication from members of the Lane cattle company, from which it appears that they are determined to resist the encroachments of the A. & P. railroad. The mammoth "Arce" who own over a million of acres in the Counties of Apache and Yavapai, in this Territory, are developing much of their property. Large parties of engineers and laborers have during the past season been engaged in building dams, for the storage of water in lakes, on several sections. And this vast area is being plowed for arid water in many places and the enormous capital of this mammoth enterprise is being utilized for the benefit not only of the country but for the people of the territory generally and the stock interest in particular, -Hollbrook Critic.

FROM FRIDAY'S DAILY

The Garvey street bridge across Granite creek is coming apart. Isaac B. Marsh, a prominent stock raiser of Tonto Basin, is in Prescott. Mr. Maloney is erecting a quartz mill to be run by water on the Hassayampa. Mrs. D. Levy and her son Nathan, have gone for a week's visit to their ranch on Walnut creek. R. L. Long, superintendent of public instruction arrived by last night's stage from Phoenix. A band of Indians going south recently crossed the S. P. railroad track near Wilcox and died at the track walker. The chief quartermaster of this department advertises today for proposals for certain army transportation. Messrs. G. A. Bray and Frank Meador have succeeded in raising \$300 as a starter for the Fourth of July celebration. The County Board of examiners will meet to-day to examine applicants for teachers' certificates.

Joe DuPre, an old time resident of Prescott, is lying very ill at the Johnson House and but slight hopes are entertained for his recovery. Ex-Chief Justice Howard and wife will arrive on the evening's stage from Ash Fork. A. E. Foote and wife who accompanied them on their visit east, will not return until July. The Old Follows lodge of Prescott has elected the following officers for the ensuing term: S. Carlin, N. G.; Joseph Fifeid, V. G.; Thos. O'Meara, Recording Secretary; W. H. Thronc, Treasurer. Robert Connell has a lot of choice hams and bacon, on consignment, for sale. It is Arizona raised and cured and is equal to the finest eastern cured, and can be had for about two thirds the cost of the eastern article. Notwithstanding the fact that millions of gallons of water have been allowed to run over Miller creek dam, water is said to be getting low. There has been such an accumulation of fish in the dam that the water cannot reach the filter chamber. The Albuquerque Journal complains that traps and lewd people are in the habit of bathing in their city reservoir. From the small emitted by the water, used to run our Backus water motor, our city water would be sweetened by the bathing of a few tramps in it. Register Wing of the land office, received a telegram from Washington, on Wednesday evening, instructing him to refuse further entries under the preemption, timber, culture or desert land acts. Full instructions sent by mail. Ex-Chief Justice Sumner Howard who arrived on last night's stage, informs us that there is a very slim prospect for any communication with the east for several days. The temporary arrangements for the transfer of passengers and mail interfered so seriously with the work of repairing the bridge that the officials stated it would have to be discontinued, and it was estimated that it would require from ten to fifteen days to complete the repairs on the structure. Andy Pringle was shot and instantly killed, yesterday, by John Thomas, at Vasburgh & Newton's ranch, on Eagle creek, in Yavapai county. A dispute over a saddle blanket was the cause of the shooting. Thomas is in charge of Jim Ellison on his way to Globe, -Silver Belt. We would like to know what Jim Ellison is going to do with a man in Globe, who committed murder in Yavapai county. Prescott is the place to bring him to. Astronomers are commenting on the accuracy in scenic details of In Pavilla's "Comet story" by Germaine M. Bonner, in the May number of the Overland Monthly. Some fifteen years ago one of the Magazines published a story of life upon the "lost planet" before it was broken into asteroids. But the crash of a comet into the earth itself as described in "In Pavilla," is a unique and startling conception, worthy of Balzac, or Poe. An Arkansas editor gives to delinquent subscribers the following awful warning against neglecting the fate that awaits the wretch who fails to pay his subscription: You may have all the stars in a nail keg, hang the ocean on a rail fence to dry, put the sky in a gourd to soak, unlick the belly land of eternity and let the sun and moon droop, but never delude yourself with the idea that you can escape the place on the other side of purgatory unless you pay for your newspaper.

The party given by the Prescott Social Club last evening, was a very enjoyable affair. The smorg of the Rifles, in which it was held, was just comfortably filled, for dancing, by members of the club and their friends. The music, by Messrs. Martin, Bar and Bauman was excellent and dancing was kept up until 1 o'clock, the usual hour, at which the club closes their parties.

Mr. R. E. Farrington, who is one of the oldest settlers of the territory, and thoroughly acquainted with every tribe of Indians in it, informs us that he has noted two strange Indians here for the past two or three days whom he is certain are Chiricahuas, and he believes they are here for the purpose of getting arms and ammunition for the hostiles and that it is high time that we are on the lookout for these fellows. -Phoenix Herald.

As an evidence of the interest, which Mr. Adams has aroused on the subject of astronomy, by his lecture, the night hours of the Journal-Miner were crowded with a couple of opposite sexes, the other night peering into the stary firmament, intently taking observations. They were without the modern appliances of a telescope, but from the close proximity of their heads to each other, were evidently both trying to look through one pair of eyes, while from glass placed at him it was apparent that a terrestrial Venus possessed more attractions for him than the one, over which astronomers are wont to "awe."

Some of our citizens seem to be in great haste to get out of town, and are circulating the uncalculated to frighten women and children into the belief that the Hualpah will break out. The whole trouble, such as it is, appears to have risen from the interference of a few of the whites with Chief Surron's arrangements to properly execute the murder of last week. We are strongly of the opinion that if the parties who are trying to create this scare, would associate less with the Indians attend strictly to their own business, and let the Indians severely alone, there will be no trouble to them either now or hereafter. -Mohave Miner

FROM MONDAY'S DAILY: District court opened today. Water is getting scarce in the city reservoir. Croquet is a popular game in West Prescott. W. C. Potts will leave to-morrow again for the railroad. Col. C. P. Head left today for Ash Fork to meet his wife. C. A. Randall, returned from San Francisco on Saturday night. Prescott is filling up with visitors who are here to attend court. George Connell, of Camp Wood, has moved his family to town. Rev. N. L. Guthrie started for the east today with his niece, who is quite ill. J. W. Dougherty and wife returned last night from their Oak creek ranch. General B. H. Grierson is expected to arrive at Whipple to-morrow evening. J. P. Bruce and wife are domiciled in the Borch mansion on Cortez street. Last night's Ash Fork stage brought in a whole lot of delayed California mail. Mrs. F. K. Ainsworth and her friend Miss Moore, left this morning for California. Frederick F. Murry, of Jerome, spent the Sabbath in town with his friends. Candidates have already commenced to announce themselves in Mohave county. A territorial grand jury was impaneled this morning with W. M. Buffum foreman. The Girard Mill of Tombstone, had a narrow escape, recently, from destruction by fire. Beyond calling the calendar this morning, but little work was done in the District court. Robert Ferguson had his leg broken recently in Big Chino valley by his horse falling with him in a rollo. Miss Paise, has closed her school at Ash Fork and is stopping in West Prescott with Mrs. Curtis and Mrs. Barrow. If you wish to save trouble, worry and cash, inspect the "Lion" stock of boys and children's clothing before sending off. Our public schools will close on Friday next, June 11th. A public entertainment will be given by the pupils on that evening. Governor Zalik has offered a \$250 reward for the apprehension of the parties who robbed the Black Canyon stage on Friday night. The Star says, there is what is called "Two sets" in Tucson and the absorbing question of the hour there is to which set do you belong. John Dixon, of Skull valley, is in town to attend court. He says that the crop prospects of the valley are better than they have been for years. An ambulance was sent out from Whipple, today, to meet Col. Morgan C. C. Davis, of Tucson, was killed by Indians recently within a few miles of that town. E. F. Powell a miner, prospector, and mine owner, of Turkey creek, was in town purchasing supplies for his camp, today. A new company has been organized in Phoenix, to build the Phoenix & Maricopa railroad which the Gazette says will go to work as soon as possible. Track laying on the narrow gauge railroad commenced last Monday and the same will now no doubt be continued until the San Pedro is reached. -Star. W. C. Potts came in from the railroad this morning and says that Parkers' mill has cut about 6,000 ties for the branch railroad and are now cutting at the rate of 1,000 per day. Murdock McDonald, a wholesale and retail merchant of Turkey creek, is visiting Prescott. Mr. McDonald supplies miners with anything from a coil of fuse to a Corlis engine. Scientific experts say that no matter how great an overdose of Red Star Cough Cure should be given, even to a child, as it is safe, has no opiate, and is purely vegetable. Besides this is prompt and sure. Governor Zalik has been devoting a considerable portion of his time, during the present week, in the examination of papers containing applications for pardons. As yet no pardons have been announced however. Parties who recently crossed the Colorado river at the Needles, say that the bridge at that place, is threatened with destruction. The river is up to within a few feet of the track and is said to be higher than it has been known to be for years having raised fifteen feet within twenty four hours. Miss Abbie Mott, a prima donna from California will arrive by tonight's stage from Ash Fork, and will make her appearance this evening at the Palace Saloon. She has the reputation of being an excellent musician and will favor the friends of the above place with a free concert every evening. A herder, employed by W. Z. Wilson & Co., during the past winter, near Castle creek, employed his leisure time in prospecting for mineral. He came across a ledge, from which he took a seven pounds chunk of gold ore which he crushed in a mortar and of tased gold to the amount of \$450 from it. W. Z. Wilson brought in a splendid specimen to-day from the mine.

The Tucson Citizen contains the following about an old Prescottite: "Mr. Matt Kyle, who has resided at the Quignons and in Tucson for a year or two, will leave in a few days for Colorado, to engage in mining. Mr. Kyle has many warm friends in Arizona, all of whom, with regretting his departure, wish him abundant prosperity in his new field."

Jerry Woodbridge has returned from an assessing tour through the northern part of the county. In the extreme northern part of it he says there is a flourishing Mormon settlement in which he found one taxpayer who returned \$18,000 worth of property. But little is known of this section, the citizens there do not even vote and, until within a few years, have a capped taxation. We are pleased to announce that C. T. Hayden, of Tempe, has succeeded in arranging his business matter so as to be able to resume under the firm name of C. T. Hayden & Co., Wormer, Peterson & Co., having turned the affairs over to the new firm to-day. Mr. Hayden is an old resident of this valley, has done a great deal towards its success and all will be pleased to hear of his resumption of business. -Phoenix Gazette.

Some of our citizens seem to be in great haste to get out of town, and are circulating the uncalculated to frighten women and children into the belief that the Hualpah will break out. The whole trouble, such as it is, appears to have risen from the interference of a few of the whites with Chief Surron's arrangements to properly execute the murder of last week. We are strongly of the opinion that if the parties who are trying to create this scare, would associate less with the Indians attend strictly to their own business, and let the Indians severely alone, there will be no trouble to them either now or hereafter. -Mohave Miner

FROM TUESDAY'S DAILY: J. H. Carpenter is en route here from Yuma via Los Angeles. Prof. D. M. Martin came in from Walnut Grove last evening. Mrs. Sullivan has just received a lot of new goods, at her ladies bazaar. Barrett Post G. A. R. meets to-night. Members are all requested to attend. Rev. G. H. Adams had a good audience last evening, at his lecture, at Whipple. J. H. Maron, has received and had recorded a patent for his chilo valley ranch. Bryan W. Tchenor, court reporter, accompanied by his wife returned from the east last night. Albert Becker has secured, an interest in Thorbecke new bakery, opposite the Journal-Miner office. The Colorado river is within two feet two inches of its height in 1884 when it took away the Yuma bridge. Fluygitt proposes to give the grandest 4th of July celebration ever known on the Atlantic & Pacific Railroad. June is the hottest month in the year in Prescott, and the mercury is revealing up among the nineties just now. Rev. Mr. Pearson, of Tombstone, formerly of this county, is slowly recovering from a protracted case of typhoid fever. Dad Furrows, formerly a resident of Ash Fork, is now working in the Gallup coal mines. The fire at the former place last year "cleaned him out."

Mrs. Sullivan has just received a lot of new goods, at her ladies bazaar. Barrett Post G. A. R. meets to-night. Members are all requested to attend. Rev. G. H. Adams had a good audience last evening, at his lecture, at Whipple. J. H. Maron, has received and had recorded a patent for his chilo valley ranch. Bryan W. Tchenor, court reporter, accompanied by his wife returned from the east last night. Albert Becker has secured, an interest in Thorbecke new bakery, opposite the Journal-Miner office. The Colorado river is within two feet two inches of its height in 1884 when it took away the Yuma bridge. Fluygitt proposes to give the grandest 4th of July celebration ever known on the Atlantic & Pacific Railroad. June is the hottest month in the year in Prescott, and the mercury is revealing up among the nineties just now. Rev. Mr. Pearson, of Tombstone, formerly of this county, is slowly recovering from a protracted case of typhoid fever. Dad Furrows, formerly a resident of Ash Fork, is now working in the Gallup coal mines. The fire at the former place last year "cleaned him out."

FROM TUESDAY'S DAILY: J. H. Carpenter is en route here from Yuma via Los Angeles. Prof. D. M. Martin came in from Walnut Grove last evening. Mrs. Sullivan has just received a lot of new goods, at her ladies bazaar. Barrett Post G. A. R. meets to-night. Members are all requested to attend. Rev. G. H.
