He puffs and blows more to build up the town than anybody else, and the more and the bigger he blows; yet they will not take his paper, will borrow it, read it, and call the editor.—Tempe News.

The governor has been credited with having organized, armed and equipped six militia companies in Pima county within the last thirty days. About all the part he has taken in the matter has been to examine books, issue orders for arms and forward commissions to the militia companies.
