The sword of Damocles, suspended by a single thread, was not a resemblance in point of danger, compared with the heavy weight of the court house clock suspended by a cord, about the latter break. The weight weighs about 800 pounds, and the cord has been in use, it is alleged, ever since the court house was built. It may last as many more years as it has already been used, but no examination or test has been made of it, the possibility is suggested, that its usefulness may have reached its limit, and without warning the immense weight might come crashing through the ceiling, and fall upon the heads of the people who would be a mere bagatelle compared to the possible damage this eight hundred pound weight would cause, should the cord which holds it fast, break, and fall upon the heads of the people who are so completely oblivious to the danger beneath it. This possibility of disaster has been looked upon by a successful bidder for the care of the clock in the past, and he refused on account of it to give any bid, as the amount required for the care of the clock was not considered adequate to take the risk of such a casualty.

Major Mansfield entertained a large number of his male friends, consisting of the officers at Whipple and several from Prescott, at his residence at Whipple last night. An excellent dinner was served, and the evening's entertainment, Master Saxton Pope, with his brother Ben as assistant, gave a display of hand performance, in which he showed great skill in the particular art. He has only been practicing it for a few months, but shows a skill in deceiving the eye that is quite remarkable. Major Mansfield is one of the old stereotyped looks of this mysterious art, and he has practiced a number of years. The following are the names of the audience, who were highly pleased with his performance, from the enthusiastic applause given the young performer. Cards and social conversation were then the order of the evening until nearly midnight, when a bounteous German lunch was served. The menu consisted entirely of German dishes, in which the substantial and delicacies were interspersed with a most appetizing harmony, and was dispensed in a very appreciative manner by the guests. Major Mansfield spared no pains to make the affair a perfectly enjoyable one to his guests, and he succeeded admirably.
