

The Small of the Back

That is where some people feel weak all the time.

They are likely to be dependent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

The fact is their kidneys are weak, either naturally or because of sickness, exposure, worry or other influences.

"I am thankful to say," writes J. L. Campbell, of Syracuse, Ill., "that Hood's Sarsaparilla has cured me. For many years I was troubled with backache. At times I was so weak I had to be helped from the bed or chair. I am now well and strong and free from pain. What this great medicine did for him is done for others."

Hood's Sarsaparilla

Promises to cure and keeps the promise. Begin treatment with Hood's today.

Contagious Blood Poison

There is no poison so highly contagious, deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been cured by Merrett's Blood Purifier for months or years, and pronounced cured—to realize when too late that the disease was only covered up.

Like Bogus Like, driven from the skin out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early childhood.

The Sin of the Parents. Life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only remedy known that can overcome it and drive it out of the blood, and it does not harm the system or effectually clear the blood.

Poison in any and all stages; contains no mineral to break down the system; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure it. It is free and should be in the hands of everyone seeking a cure. Send for it.

A little four year old girl from Kingman came over to Prescott with her father during the recent sitting of the United States grand jury. In Kingman she was used for illustration of a purpose, and her lights are unknown there. The first evening the gentleman was here he held his little girl up to the electric light fixture and told her to turn on the gas. The little one turned on the electric key when to her surprise it did not require the use of a match to get a light. Looking at the bulb for a minute or so she remarked: "Oh, papa, they have their gas in a bottle here."

C. W. Pugh, editor of the Stockman, came up from Phoenix this morning.

The opening of Moden & Meador's ice cream parlors on Saturday evening was a complete success, so far as attendance was concerned. There was a regular jam during the evening, the rooms, as commodious as they are, not being large enough to hold the crowd. The parlors are the nearest ice cream parlors in the south-west, and if a person could be dropped in there without knowing where he was at and asked from the appearance of the place to locate himself, he would certainly think he was in New York or Chicago. The place would be a credit to either city.
