# BUTTER-KIST

The Crackling White Popcorn  
With the TOASTY FLAVOR

The kind you see advertised in your national magazine. It is automatically popped, buttered and toasted to a crisp that makes your mouth water. It is untouched by human hands. It is made only on the BUTTER-KIST MACHINE. It is sold in butter-proof bags and cartons. Only pure creamery butter is used.

### A GOVERNMENT BLUNDER

"Somebody blundered when the government, through Secretary Redfield issued an appeal to the public to save waste paper. There is no sale for the stuff at a price that would pay the freight charges on a fifty mile haul let alone paying expenses of baling and cartage. A little investigation on the part of officials before the appeal was issued would have saved a lot of useless correspondence and given the public generally a higher regard for the opinions of high-up government officials. Will the Secretary now please issue a bulletin telling us where we might find a market for this paper?"

### BIG BURDEN ON CANADA

According to recently published reports, the operation of the government-owned railway lines in Canada is proving a heavy burden to the taxpayers. The figures show a loss of almost \$11,000,000 to the people of Canada. In operation alone the five government railways spent \$102.13 for every \$100 of revenue they earned, whereas, on the other hand, the average operating cost of all the lines thus conducted in the Dominion was brought down to \$73.94 for every \$100 earned. In this, as in every other instance on record where accepted business practice is made subservient to political necessity, the public shoulders the deficit and pays the bills.

"The moral of the Canadian experiment," says the Railroad Employee, "should not be lost to those on this side of the border, and it is to be hoped that it may influence the development of fairness on the part of the public towards the railroads on whose prosperity the welfare of such a substantial percentage of our citizenship in that employment depends."

### THE BEVERAGE INDUSTRIES

The manufacture of non-alcoholic beverages causes many industries to spring up in the wake of Prohibition legislation.

In Oregon at least one brewing establishment—the million dollar Weinhard plant at Portland—is making 3000 barrels daily.

In Salem there are two large fruit juice establishments, and smaller ones are springing up in many places in western Oregon.

The Weinhard factory has a capacity of 12,000 barrels per month and employs 75 hands and ships to four states.

The importation of liquors on a large scale keeps down the output of the home product but this may be changed.

### NEW RULING

We are in receipt of the following letter from the recruiting station of the U. S. Army at Eugene:—  
To all the officers of the General Recruiting Service:

The act of Congress approved June 3, 1916, "The National Defense Act", as construed by this Department, renders unnecessary the parental consent to enlistment of persons between the ages of 18 and 21 years, and authorizes the enlistment of any person under 18 years of age who is able to meet the requirements and has the consent of his parents or guardian.

By order of the Adjutant General:  
G. W. Read,  
Adjutant General.

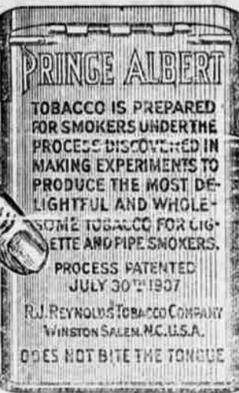

Miss Inez Kern of Lebanon is visiting this week with her cousin, Miss Jennie Booth.

Mr. and Mrs. C. C. Foreman nee Brassfield spent Sunday with the latter's parents Mr. and Mrs. Brassfield on the Siletz.

Jim Hodges was down from Salado yesterday. Jim is proprietor of the telephone lines in that section.

Mrs. Henry Lewis and daughters, Edna and Veronica, arrived home from Portland Wednesday evening.

Miss Ada Carson returned home from Chewawa Saturday evening, where she has been attending school the past winter.

P. A. puts new joy into the sport of smoking!

YOU may live to be 110 and never feel old enough to vote, but it's certain-sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a real reason for all the goodness and satisfaction it offers. It is made by a patented process that removes bite and parch! You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheer-fullest investment you ever made!

Prince Albert is sold everywhere in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin tins—and that clever crystal-glass pound humidor with sponge-moistener top that keeps the tobacco in such splendid condition.
