GREAT REMEDIES! Bull's Cedron Bitters, AUTHENTIC DOCUMENTS, Arkansas Heard From.

TESTIMONY OF MEDICAL MEN. Stoney Point, White Co., Ark., May 23, 1866. Dr. JOHN BULL.—Dear Sir:—Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved. Dr. Gist, who has been in bad health, tried them, and he also improved. Dr. Coffee, who has been in bad health for several years—stomach and liver affected—has improved very much by the use of your Bitters. Indeed the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall—especially your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care of Packard & Neely. Respectfully, C. B. WALKER.

To My United States and World-Wide Readers. I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Here what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, WALKER COUNTY, GA., June 29, 1866. Dr. JOHN BULL.—Dear Sir:—I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the worms and parasites of a great majority of the regular kind, M. D. S., but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to relieve suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured for himself the right to use that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, which purports to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your list of terms. I am, Sir, most respectfully, JULIUS P. CLEMENT, M. D.

Bull's Sarsaparilla! A Good Reason for the Captain's Faith. Read the Captain's letter and the letter from his mother: Dent Barracks, Mo., April 30, 1866. Dr. JOHN BULL.—Dear Sir:—Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case. I was wounded about two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I find your Sarsaparilla, for which I give him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio, and Iowa, for scurvy, fever sores, and general debility. Perfect success has attended it. The cure effected in some cases of scurvy and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover. Respectfully, CAT. C. P. JOHNSON, St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Capt. Johnson. Dr. BULL.—Dear Sir:—My husband, Dr. C. S. Johnson, was a skillful surgeon, and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhea and scurvy, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio, and Iowa, for scurvy, fever sores, and general debility. Perfect success has attended it. The cure effected in some cases of scurvy and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover. Respectfully, JENNIE JOHNSON.

DR. JOHN BULL, Manufacturer and Vendor of the Celebrated Smith's Tonic Syrup! AGUE and FEVER, Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy, and permanent cure of Ague and Fever or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever it will fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient however, require cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Dr. Russell's Private Medical Dispensary, No. 42 North Clark Street, Memphis, Tenn.—Established in 1850, for the cure of all diseases. All afflicted with any form of chronic disease, such as gonorrhoea, gleet, stricture, hereditary syphilis, piles, etc., should beware of attending their cases to inexperienced quacks. Such invariably drive their patients with misery, which will never be relieved, until they are driven to the hospital. Our cure is effected through two (two) doses, without the use of mercury, change of diet, or medicinal treatment. Our patients are cured, and are able to resume their ordinary avocations. We would advise you to attend to the importance of getting the cure in the first place, and a list of the cities in which we have branches, from which you may obtain our medicine, will be sent you free of charge. How often is it the case, we are sometimes asked, that persons do not come in contact with a reliable physician, but are obliged to consult with a quack, who, by his unskillful treatment, drives them to the hospital, and there they are treated with mercury, and other poisonous and dangerous remedies, which drive them to the grave.
