Jewett is looming up in the political sky as a formidable presidential candidate. He is a sound democrat, has a clean political record and very popular in the East.

It is rumored that Col. Cole is about to become interested in building a railroad from Jackson, Tenn. to Nashville and thence to Knoxville. He and President Osborne of the C. St. L. & N. O. R. R. left for New York a few days since on railroad business.

On Thursday April 29th, at the Centennial Exposition in Nashville, Capt. A. T. McNeal will deliver an oration on "Andrew Jackson, John Overton and the settlement of West Tennessee." This scholarly gentleman will do honor to the historic worth of his great theme and place upon imperishable record the sacrifices and achievements of men who set the seal of their wisdom upon the social and political institutions of Tennessee.

LET THEM GO.

About 70,000 Kelly democrats in New York City are now dictating terms to over two millions of democrats throughout the Union. For the past twelve years the party has been at the mercy of these New York local agitators. They threaten to give the presidential election to the republicans if Tilden should get the nomination. The idea that this handful of unscrupulous and unpatriotic malecontents should be so wickedly selfish as to imperil the success of the national democracy in the coming important struggle is an outrage. When we consider that the bulk of these New York city democrats include the worst elements of the party in that state and that they should dictate terms to the intelligent and patriotic rank and file of the party throughout the states, it shows that they cherish hate and vindictiveness more than party success. The sooner we can force these men to leave the party the better for the party. We have had to coax and humor them for years until forbearance ceases to be a virtue. We had better slough them off as a fungus growth, an excrescence, and lose New York than have them longer remain in the party as a demoralizing and destructive element. Kelly, their leader, is a reckless, ambitious man, and would rather destroy the party than see old man Tilden elected. Let them and his crew go.

THE ISSUE IS BEING MADE.

The capital represented by our colossal national bonded debt is a constant source of peril to our republican institutions. Vanderbilt and others with their millions deprecate the mutations of popular thought as expressed in the frequent recurrence of popular elections. They would dispense with elections altogether and so crystallize public sentiment in the interest of capital that the re-election of Grant would be the opening wedge to a permanent change in our institutions to have him or some other man installed in the Presidential chair as permanent executive of the nation. Their theory of government was introduced in our country by Hamilton. He was a monarchist, Jefferson combatted his anti-republican policy and transmitted to the democracy an undying hatred of such principles. Formerly this was a government "of the people, for the people and by the people," now it is a government of the capitalist, for the capitalist and by the capitalist.

Capital has its shlylock hands upon the Constitution and will not hesitate when the time comes to burn that sacred parchment and throw its ashes in to the teeth of the unsuspecting masses. Let capital place Grant in the Presidential chair and grape and canister will keep him there.

The Situation in Virginia.

Democratic circles in Virginia and Washington are somewhat excited over some loud whisperings of a trouble in Virginia which was apprehended three months ago—a threatened third party electoral ticket, having for its object the defeat of the Democracy and the giving of the state to Grant. Gen. Mahone, an influential and able Virginia Democrat and the U. S. senator-elect in place of Withers, is alleged to be agent of the scheme. Both the parties in Virginia were divided by the readjusters' movement which carried the state last fall. The object of the readjusters was to repudiate a portion of the state debt, and they passed a bill to effect this in the late legislature. It was vetoed by the governor, and this vote has embittered them against the Democratic party and provoked them to the threatened schism. They have talked about nominating a separate electoral ticket. There could be but one purpose in such a movement—the defeat of the Democracy.

Art and Decoration Department of the Centennial Exposition.

To the Citizens of Tennessee and adjoining States:—The undersigned committee upon "ART AND DECORATIONS," appointed by the Centennial Commission, hereby respectfully call the attention of the citizens of Tennessee and the adjoining States, to the formation of a "Centennial Loan Collection" of paintings, statuary, etc., to make up the Art Department of the Exposition during the Centennial, and they sincerely hope that all those who may have under their control any works of art, by native or foreign artists, will permit them to be exhibited. By so doing, our citizens will most materially aid the object of the Centennial celebration in helping to decorate and adorn the ample space set apart for this very important branch of the Exhibition, while a collection of "Art Objects" may thus be made through the liberality of our own citizens which will bear witness to the existing refinement, culture, taste and the growing interest in all departments of art culture throughout our State. The committee are encouraged to look for the same emulation in the exhibition of this department, as may be evinced in the domain of the industrial arts.

This exhibition will be held in a portion of the main building, especially fitted up for the purpose, and competent and experienced persons will be detailed to handle and place all paintings, statuary, works of art, etc. The utmost care will be taken of objects and specimens entrusted to us. All works of art sent to us for exhibition should be well packed to prevent injury, and sent per express to the Chairman of the Committee at his expense. An early notice to the undersigned committee, of intention to send art objects for exhibition, with title of object, name of artist, etc., will be indispensable in guiding us as to calculation for space, position, etc. Very respectfully, T. COOLEY, Chairman, JOH. M. YOUNGLOVE, M. J. O'SHAUGHNESSY, M. S. BELKNAP, ROBERT THOMPSON.

A Tract for the Times.

The Blaine Club of Washington have had printed and are mailing to all parts of the country, a little political tract entitled, "A Third Term and its Perils." After paying some gushing compliments to Grant, the author sets forth the sanctity and binding force of the unwritten law which forbids third terms; quotes Jefferson, Patrick Henry, Jackson and the Republican national and State platforms of 1876; scurves up some more gush about Grants personal merits, and sums up as follows:

The great peril lies in the precedent. Every reflecting and patriotic man sees with fear and trembling the multiplication all over the nation of mammoth monopolies, huge corporations, railroads, land, bank, mining, and other; their vast resources, their immense wealth, their increasing powers and forces, really rivaling those of the Government. Everywhere their power is felt. In the State and National Legislatures they have their representatives, and they arrogantly and boldly aspire to absolute dominion. Hence, the precedent of a third term once established, we might, it is true, for a time elect Presidents with patriotism equal to Grant's and who, like him, would protect our liberties with their lives; but sooner or later an ambitious, unprincipled knave—a king of one of these mammoth monopolies, an avenger of a combination or alliance of these corporations—would obtain the Presidency. With the prodigious forces thus united, the power and wealth of the corporations, and the vast patronage and revenues of the Government, such a knave would be able to, and would, reflect himself for life, and establish the succession in perpetuity in his own family, or otherwise, as he and the corporations should choose. All history demonstrates that. Hence here is the great peril of the precedent of a third term. Once firmly seated in the Presidential chair, how could such a usurper be dislodged? It is doubtful whether he could be by armed rebellion, or whether, under such circumstances, rebellion would be possible. The immense forces of the corporations which he would unite and control, supported by the vast resources and wealth and all the forces of the Government, would, in all probability, successfully defy and defeat all the forces of the people, while in his victory would be forever crushed all our cherished institutions and all our liberties, and the hopes of mankind would expire.

Andrew Johnson Dagneerotypes The Money Power.

Andrew Johnson has passed into history as a Politician, a Statesman and a Patriot. In an interview, March 6, 1867, he thus daguerrotyped the Money Power that was then being built upon the loaded debt in this country: "But what do we find? The aristocracy based on \$3,000,000,000 of slaves South of Mason and Dixon's line has disappeared; but an aristocracy based on over \$2,500,000,000 of national securities has arisen in the Northern States to assume that political control which the consolidation of great financial with political interests formerly gave to the slave oligarchy of the late rebel States. The aristocracy, based upon negro property, disappears at one end of the line, but only to reappear in an oligarchy of bonds and national securities in the States which suppressed the rebellion. We all read history, and is it not certain that of all aristocracies that of mere wealth is the most odious, rapacious and tyrannical? It goes for the last dollar that the poor and helpless have got; and with such a vast machine as this government under its control, that dollar will be fetched. It is an aristocracy which can be seen in the people only a prey for extortion.—To an aristocracy existing on the annual interest of a national debt the people are only valuable in proportion to the facility and power of patiently bleeding golden blood under the tax gatherer's thumb-screws."
