Mishap hath laid me in the dust. The Queen dowager of Navarre was ofered for her wedding day a costly and beautiful pair of gloves, and she put them on, but they were poisoned gloves and they took her life. Better a bare hand of cold privation than a warm and poisoned glove of ruinous success.

"Oh," says some young man in the aulience, "I telieve what you are preaching. I am going to do that very thing. In the orning of my life I am going to devour the prey, and in the evening I shall divide the spoil of Christian character. I only want a little while to sow my wild oats and then I will be good." Young man, did you ever take the census of all the old people! How many old

He who postpones until old age the reli gion of Jesus Christ, postpones it forever. Where are the men who, thirty years ago, resolved to become Christians in old age, putting it off a certain number of years? They never got to be old. both and got neither. While this is an encouragement to old people who are yet unpardoned, it is no ncouragement to the young who are putting off the day of grace. This doctrine that the old may be repentant is to be taken cautiously. It is medicine that kills or cures. The same medicine given to different patients in one case saves life and n the other destroys it. This possibility of repentance at the close of life may cure the old man while it kills the young. Be cautious in taking it.

Again, my subject is descriptive of those who come to a sudden and radical change. You have noticed how short a time it is from morning to night in the wintereight or ten hours. You know that a winter day has a very brief life. The heart of the longest day beats twenty-four times and then it is dead. How quick the transition in the character of these Benjamin-

Is it possible that there shall be such a transformation in any of our characters? You see that religion is a different thing paradisation. It is enthronement. Religion makes a man master of earth, and death, and hell. It goes forth to gather the medals of victory won by Prince Emmanuel, and the diadems of heaven and the glories of realms terrestrial and celestial, and then, after ranging all worlds for everything that is resplendent, it divides

the spoil. What was it that James Turner, tho famous English evalgelist, was doing when in his dying moment he said: "Christ is all! Christ is all!" Why, he was entering into light; he was rounding the Cape of Good Hope; he was dividing the spoil. A Chicago Man Claims to Have Invented Such an Instrument. [Ohlcago News.] Cornelius Spillane, a stationary engineer, living at 3825 Dashiel street has invented a device for telephoning between moving trains and railway stations. The invention is an extremely simple affair. consisting of a circuit wire resting on an insulated slab between the railway tracks. On this wire rests a circuit-rod made of s strip of metal roller making a continuous connection to all stations and all trains on the line of route. The return circuit is gained by means of the rail-wheel and axle and up through the frame-work of the engineer's cab to the telephone. A wire runs through the train connecting all the cars, so that conversation can be kept up from all parts of the train to all stations

on the road and between all other trains on the line. Mr. Spillane thinks the adoption of his device on railway trains would render needless the amployment of telegraph operators at railway stations, and would afford direct means of communication be he says, prove an absolute check on train-

SAVED BY A DOG. Providential Rescue of a Four-Year-Old Child From Under a Street-Car-[Cincinnati Enquirer.]

Strange things occur in this big city every day. An incident happened the other night at Sixth and Plum streets which showed the almost human intelligence and courage of a dog. The fouryear-old child of John B. Baclgalupo was trying to cross the street railroad track on frightened by the near approach of a car, the little fellow in turning fell directly across the track. The horses passed over the boy without injuring him, and before any injury could be done a dog, sitting with his master at the corner of the market-house, rushed toward the child and pulled it from the track by its clothes just as the wheels were about to crush it. Every one was astonished at the act of the dog, which was remarkably wise and intelligent. He is owned by Thomas Clay. a colored man. The rescue of the child by the canine was observed by a large number of people. The brave dog is four years old, and answers to the name of Jumbo.
