A mistake.—The printer made us say yesterday that 800 negroes did vote in Cairo. We wrote: "Did not vote in Cairo." We were correcting the "Kentuckyan" of Paducah, it having said that 800 negro votes had been polled in Cairo at the late election.

Notes "AYE."—The 'Sun' votes "aye" on the proposition to substitute the state law for our present charter. Our neighbor favored this movement last July, but believed that next spring would be a better time than last summer to make the change. We feel encouraged to begin the fight for the proposed reform now that we know the 'Sun' will be our ally in the battle. What does the 'Gazette' say?

Home Again.—Mr. Goldstine, of the firm of Goldstine & Rosenwater, has returned home from New York, where he has been making large purchases of winter dry goods, clothing, etc. Luckily, Mr. Goldstine had completed all his purchases before the Boston fire, and therefore before the late advance in prices. Messrs. Goldstine & Rosenwater can, consequently, sell at prices exceedingly below those now current in this market. They ask the public to call and inspect their goods and ascertain their prices, being satisfied that no one will go away from the store, leaving behind them the bargains this firm are prepared to offer.

Personal.—Abraham Alford, of the firm of Williams and Alford, extensive lumber dealers at St. Louis, passed through here yesterday, from an extended trip through Middle and East Tennessee, where he has been purchasing a large lot of cedar timber which will be shipped to St. Louis via Cairo, as soon as the boating season in the Tennessee river commences.

Pianos and organs for from \$50 to \$1,500. N. P. Curtice, Agent, Cor. Twelfth & Wash. Ave. 11-22-4t.

A Move in the Right Direction.—We are informed that it is the intention of a number of the monied men of this city to form a joint stock company for the purpose of building tenement houses—the want of which is making itself seriously felt just at this period in the history of Cairo. We believe there is not now a respectable house unoccupied to be found in town. Men of family desiring to locate here are compelled to leave their families behind them till a more convenient season or crowd them into houses unfit for the occupancy of respectable human beings.

The substantial and latterly rapid growth of Cairo offers peculiar inducements to strangers in search of a location, but the fact that it is almost impossible to obtain a comfortable dwelling house repels that most desirable class of settlers—men of means and families. Neat, convenient cottage residences would, as soon as finished, return a fair interest on the money invested, and would be a boon to laboring men and heads of families. It is a matter of surprise that the subject has not sooner enlisted the attention of some of our public-spirited men of wealth; it is a subject which concerns very nearly the immediate and future welfare of the city, and one which cannot fail of being, at the same time, of individual profit. We are glad to note the move above mentioned, and hope to chronicle its early inauguration.

The reputation of the Steinway piano is known all over the world. N. P. Curtice, Agent, Conservatory, cor. Twelfth & Wash. 11-22-4t.

Our Happy Thought.—Our original proposition to set apart a day for every sabbath of political opinion represented in the city, was a "happy thought." Yesterday, being our accept-the-situation day, we had the pleasure of a call from the Rev. Mr. Bradley, (colored), and the editor of the 'Sun,' (white, when washed), the only two men of that kind in the city, beside ourselves. In the company of these two illustrious philosophers we enjoyed an intellectual feast. They vied with each other. Jake towered into the region of eloquence, and Davis went after him every time. But, has our reader observed that "the paper over the way" is agitated about our happy thought, and reaches towards us its claw of wrath? It says that, on Tuesday, we propose to entertain certain Democrats, and keep our hand open for any trifles that may be forced upon us. How long would we keep that hand open until it was filled? Is a question the 'Sun' man may be able to answer in accordance with the rule of three. What was it Patrick Henry said about having no way of judging the future but by the past? We forget; but no matter. Then, again, the 'Sun' says that, in company with Pope—

"Friend of my soul, this goblet sip,"—with Pope and Munn and Linegar and Hurd, we occasionally talk a little post-office. Lord bless the dear boy of the 'Sun,' does he really believe we have our eagle eye upon that "fat take"? We haven't; by our dukedom! May our right hand, etc. Are we, because we are like Washington with his little hatchet, and can't tell a lie by swearing that the Democratic party is not defunct—are we to have office forced upon us? Forbid it, Summerwell! No, no; in the placid contentment of the friendship of Munn, who is as a backler to us; of Linegar, who is as a breastwork to us; of Wood, who would not see us injured for the world, and beneath the benignant and approving smile of Pope, we shall live happy, and in peace with them, as long as they pay regularly for THE BULLETIN, and dying we shall ask no epitaph but the words: "He died a Democrat; but it was his misfortune, not his fault!"

MARKET REPORT. Thursday Evening, Nov. 21, 1872. The general features of the market remain unchanged. Receipts of corn and hay are liberal, and prices of both these commodities are weaker. A large amount of corn is disposed of, but prices must be made low or it could not be sold. Nearly all the business of Cairo at present is confined to the order trade.

Oats are still at an advance of one cent on the bushel. Receipts are insufficient to meet the demand, and as a consequence, keep prices up. We note one sale of ten cars in a round lot at 32 1/2c, but this is an outside figure.

Flour shows a very slight improvement in the demand for choice grades. Rates of freight are still at quotations. The weather continues cold but pleasant, and favorable for general business.

Correspondents should bear in mind that our quotations represent prices for round lots from first hands, unless otherwise stated, and that in filling small orders higher prices must be paid.

OATS.—Scarce. The demand exceeds the supply, and prices are stiff at 56c in bulk, and 32c in sacks delivered. Sales were made as high as 32 1/2c, but this is a little above the market. Sales comprise 1 car and 2 cars in sacks, delivered 32c; 1000 sacks del 32c. 10 cars (round lot) in sacks at 32 1/2c; 4 cars in sacks del 32c; 1 car in bulk on track 26c; and 1 car in sacks del 31c.

Special dispatches to THE BULLETIN report the condition of the Ohio and Mississippi rivers at various places.

BUSINESS AND WEATHER. Business on the landing was brisk during the day. The tow company were busily engaged in loading their barges. The weather was clear, calm and very pleasant all doors.

MISCELLANEOUS. The Saviour No. 2 came down from the sunken barge Florence, which the Bon Accord sunk in Bird's bend a short time ago, she has been taking out the car-trucks and railroad iron and put them out here, and will return and finish wrecking the barge. There are some boxes of iron and kegs of powder still in the barge.

The tow boat William Cowen arrived from Louisville with ten barges Pittsburg coal, drawing all the water there was in the channel, and did not touch bottom once. She had to double trip it over Grand Chain.

The Robert Mitchell did not leave as reported. She was detained, having a follower head cast for her starboard engine. On her first trip the head cracked, but not enough to cause trouble until she was on her way down from Evansville this trip, when it was found necessary to have a new one cast at this port. She was expected to leave last night.

A. P. Smith, agent of the Iron Mountain railroad at Belmont, died at that place Thursday night. He leaves a wife to mourn his loss.

The new steamer Jas. D. Parker made her first appearance at this port and was pronounced by all who visited her to be a fine stern wheel steamer. She runs and handles well, and has a carrying capacity for eight hundred tons.
