ATHEMUM.—Another good house greeted the Irwin Combination last night, on which occasion was presented Boucault's sensational drama of the Octoroon, and which was produced in fine style. Mrs. Irwin, as Zoe the Octoroon girl—the heroine—impersonated the character of the meek and lowly slave child true to nature. Mr. Irwin as Jacob M'Cluskey—the hardened over-seer—was most excellent, and displayed natural and easy acting, without ranting, as is often the case in actors representing such characters. The Pets of Monte Hernandez, and Scudder of Calder were the mirth-provoking elements of the play. We are pleased to state that this excellent company—and it certainly is the best which has yet visited us—will remain one week longer, and on Monday evening will be presented the beautiful comedy of Our American Cousin and the farce of the Maid of Munster. We have been requested by many to ask for a repetition of the beautiful drama of the Marble Heart, which was rendered in so elegant a manner on Thursday last.

The weather was as cold as Greenland's icy mountains, yesterday. A remark marked by a degree of originality that gives the lie to the trite platitudes that there is nothing new under the sun.

A negro named Jones, yesterday applied to Dr. Woods to extract a pistol ball from his cheek. The ball was put there by a shot by another negro, while the two were on the steamer Emma C. Elliott, near Columbus, Kentucky. The assaulting negro made his escape.

Wood, assistant, of the C. & V. railroad, setting forth that on the 13th day of December, 1872, a through train passed over that road from Vincennes to Cairo, and that the road was in good order, was presented to our county court last week.

The Milliken Bros, late of Paducah, have removed to this city. This new firm brings with it the good opinion of the people of Paducah, and already—evidently before they have dug snugly into quarters among us—they have the confidence of all our business men. Success to them, and welcome to our small but "driving" city.

Ex-Alderman Carroll is hanging in the fence, studying about the Pope proposition. He is a great admirer of that gentleman, and knows he will make a good mayor. If Pope is a candidate for Mayor, Carroll will undoubtedly be an advocate of Webb's claims to the city attorneyship.

Cunningham is busy carrying passengers to and from the Cairo and Vincennes railroad depot. He is already negotiating for a \$1,200 omnibus, and intends to be the king busman of Cairo, when she has obtained her 500,000 inhabitants. If his present enterprise succeeds, he will lose no time in putting down street railroads on all the principal streets of the city. He is determined to help the people get from "point to point" in this city as rapidly as the demands of business and travel require.

Bill Campbell, a colored gentleman from the rural districts, came to town yesterday with a lot of fur. He soon found Andrew Johnson, colored, who volunteered to assist him in the sale of his goods. Andy took the package of skins and bade William follow him. Going straight to a saloon kept by Austin Turner, Andy stepped in at the front door and quickly made his exit out the back way, leaving Bill to elbow his way through the crowd of dorkies. The unfortunate William lost track of Andy, and up to this time has not succeeded in finding him.

The Cairo delegates to the railroad convention, at Paris, Tennessee, Messrs. Hurd, Smith, (Dr.), Barclay, Bros, and Oberly, unite in praise of the hospitality of the good people of Paris, Tennessee. General Atkins, Dr. Dickinson, and other gentlemen of the committee, were courteous and attentive. The delegation indulged in the good fare furnished by "mine host," Carter, of Carter's hotel. They tarred sumptuously, but the cold breeze had a depressing effect upon them. But in the fact that they contributed by their presence at the convention, to inaugurate a movement that will give Cairo another and valuable railroad, they find consolation. They would freeze again to advance the enterprise.

EDITOR BULLETIN: DEAR SIR:—Herewith I hand you bill lading for your inspection for 100 barrels of flour from D. Heister, Vienna, Illinois. This is the first car load of flour over the Cairo and Vincennes railroad and will be in to-day. Yours, P. COME.

We place the above in our columns as the record of an important event in the history of the progress of Cairo. It may not appear to the reader to be of great moment, but years after this the curious searcher through the files of the Cairo papers will read Mr. Cuhl's note not without interest, and from it draw information which may appear in this shape in the columns of THE BULLETIN, issued in the morning of the 20th of December, A. D. 1872, by John H. Oberly, the grand-son of the present proprietor, and be read by its at least 100,000 subscribers: "The first car load of flour over the Cairo and Vincennes railroad was received in Cairo on the 20th of December, 1872; and now thousands of barrels are received every day. Yesterday the famous flour dealer, James Hambleton, (whose great-grand-father was of Casey-avenue and Thornton street, near Second Ward, formerly the village of Mound City, received a thousand barrels over this road to-day. If the old-time Cairoites were living to-day, they would open their eyes with astonishment while looking upon this city, which has advanced with such marvellously rapid strides to the rank of the greatest city of the republic embracing as it does, the Western Hemisphere."

MAGNETIZING THE BLOOD.—If those who are in the habit of wearing their feet at night by artificial means, would make a few applications of Dr. Trask's Magnetic Ointment, they would have no further trouble from that source. Its magnetic qualities promote the healthy circulation of the blood, restore vigor to the small blood vessels, and give a healthy glow to the surface. See advertisement in another column. 12-22-w1t

THIRTY YEARS YOUNGER.—To say that hundreds of maids, wives and widows look twenty years younger than they are in consequence of the consumption of a medicine derived from the use of HAZEL MAGNOLIA BALM, is simply to state an absolute fact, which might be promptly verified by direct testimony if ladies were as willing to tell their ages as to use the best means of making themselves lovely. Nature sometimes, but very rarely, crowns the charms of perfect features with a complexion of exquisite clearness; but even then time soon begins to make inroads upon the velvet cheek, the fair white brow, the ivory bust, the rounded arm. To preserve the "glory of woman" unblemished, even after the meridian of life has been passed, it is only necessary to use daily this cooling, healthy, vegetable preparation. 12-22-w1w

The Arlington hotel of Washington D. C., for the third time since its opening, has undergone a complete embellishment. It was originally fitted up in grand style, with every convenience, elegance and luxury that experience, taste and judgment could desire and money accomplish. During the summer succeeding it was beautifully frescoed and renovated throughout. Within the last two months all the chambers have been covered with the new style of carpeted gold and silver paper. The House has been re-painted, re-carpeted, and a number of the rooms re-furnished. From the constant efforts of the Messrs. Rosselle, to beautify and improve it. "The Arlington" is now far more luxurious and magnificent than ever, and it is the only hotel in the city that has been improved since the year 1850. The Hotel of the capital. 12-11-w1w

DEFUNCT. Such is life. But yesterday we walked the streets in all the pride and glory of our triumph. To-day, from the crumbling back of his epizootic Pegasus, the "philanthropic post, Aghalative," reads to a sympathetic public our epitaph. How sad! Our germ hath been developed—our epitaph waits, and yet we hesitate to take water, although the "Styx of Erebus" notwithstanding is surely warm and buoyant. We hesitate only because we wish to say one word to our dear Christian friend, "Aghalative"—"the mildest mannered man that ever scuttled ship or cut a throat." You say, blithe Aghalative, "enhanced the value" of your masterly sarcastic effusion by our friendly remarks. We are proud of it—not that it needed enhancement; no, no. The value to the cause of Christianity was fabulous from the jump. But because—we love thee.

For us to mention the name of the author of the following, would be entirely superfluous in talking to a poet so thoroughly versed in poetry as thou art. Aghalative, and might inconvenience us; but that somebody would if we are positive, as we are copying it word for word: "Fame is the birthright of genius and he reeketh not how long it be delayed. The Herd need not hasten to his heritage when he knoweth that his tenure is eternal."

We saw thee, Aghalative, quietly taking possession of thy birthright, Fame, and we almost unconsciously exclaimed, "bally." We know that well-timed silence hath more eloquence than speech. But 'twas our soul, not our lips, went off, dear Aghalative, when we realized thy tenure was eternal." Salut!

As to the advice you gave us—"L. O. L." look to the best, and when he kicks beneath the load, that his back is unable to support, learn a lesson."

Our eyes follow thee;—and the following from the same inspired writer, how beautiful: "Yes, and if ever, during the time to come, you think about assuming another load of wit, kick, kick, until you knock out your own brains and rid mankind of the scourge."

The insinuation that we have brains is a new one on us; and to have it clothed in such beautiful language—masked as 'twere not intended for a compliment, makes it doubly sweet. Oh, Aghalative, to be buried by thee "in a pleasurable and not a pain!" Sent round the hearse. L. O. L. Cairo, Dec. 15th.

THROW NOT PEOPLE'S FAULTS.—In their teeth, for there are few teeth that have not faults of their own. There is but one way to preserve them without spot or blemish, and that is, by the daily use of the best dentifrice in existence—Fragrant Soredont, cool, refreshing and agreeable. 12-22-daw, 1w

RIVER NEWS.

ARRIVED. Steamer Emma C. Elliott, Memphis. Glasgow, Hickman. Illinois, Columbus. Jim Fisk, Jr., Paducah. Steamer Glasgow, Hickman. Illinois, Columbus. Jim Fisk, Jr., Paducah. Tynon, Nashville. CONDITION OF THE RIVERS.

Here, the river is falling steadily, and ice was floating past the harbor yesterday. Heavy ice was going out of the Mississippi, and that stream is gorged with ice just below Grand Tower. There was some fear of it gorging between here and Columbus, but they may be set aside as groundless. The latest reports from below, still report only four and one-half feet at Point Pleasant. Cumberland river is reported awelling rapidly with over five feet on Harpeth Shoals.

Special dispatches to THE BULLETIN report the condition of the Mississippi and Ohio rivers at various places.

At the lower landing there was scarcely anything doing and the roads down to the wharf were slippery as glass. At the upper landing the Continental, Elliott and Lewis were busily engaged handling freight.

The weather was windy, cold and snowing part of the day.

The Continental commenced discharging her freight yesterday, which consists of 500 hogheads of sugar and 400 barrels of molasses.

The Emma C. Elliott brought up 600 bales of cotton for the East. She is now loading and will leave for Memphis today. Capt. Robert K. Reilly, a careful and experienced steamboatman, has been appointed commander of her and took charge yesterday.

The Susie Silver will get away this evening loaded to 4 1/2 feet. The Dexter begins loading for New Orleans Monday. The Arlington is due to-day for Cincinnati with 1,500 bales cotton.

The Mary Davags has taken her barges and gone to the bank to await the opening of the Mississippi river.

The new steamer John S. Bransford and Ella Hughes have gone from Nashville to the head of Cumberland river.

The new steamer Pat Rogers, built for the Louisville and Cincinnati mail line, made her trial trip Thursday and her performances were successful. She is 252 feet long, 36 feet breadth and draws 30 inches, and will carry about 700 tons. She has 4 double flued boilers, 40 inches in diameter and 26 feet long. Her cylinders are 21 inches in diameter with 1 foot stroke. She is regarded as the best steamer in the line and will be fast.

The Mary E. Poo has laid up here, paid off her crew, and will not go up the Ohio river.

The Tyrone raised steam and lit out for Nashville last evening, and will at once enter the trade between here and there if the water plays the channel in a condition that she can do it. Captain Harmon says that he is tired of laying his boat at the bank and is going into some trade sure.

The St. Louis 'Republican' of the 20th says: "The story stated by the Commerce, (Mo.) 'Dispatch' of a man being robbed and thrown overboard on the Mary McDonald, is a bare fabrication, and deserves the severest censure. The man has since turned up at his home, and reported there that his wife had been robbed and murdered. The officers of the boat do not think he had as much money as reported, as he tried to get passage up on the boat free, and during the trip both parties were drunk all the way. The man seemed as if he wanted to shift the woman, and would have got off a couple of landings below but he was afraid the woman would see him leave the boat."
