GEN. McLOWE TO BE APPOINTED UNITED STATES MARSHAL OF GEORGIA.

LETTER FROM MEACHAM, THE MODOC PEACE COMMISSIONER.

THE IMPEDIMENTS TO SPEEDY PEACE NEGOTIATIONS.

ETC. ETC. ETC.

A HUMOR.

WASHINGTON, April 10.—It is reported that the president will appoint Gen. Lafayette McLowe United States marshal for Georgia.

INDIAN NEWS.

The secretary of the interior received a letter from Modoc Peace Commissioner Meacham, in which Meacham says the principal impediment to peace negotiations is the fear that those indicted by the Jackson county grand jury will be given up for punishment. The peace commissioners and the military are working together harmoniously to overcome the distrust of the Modocs, but difficulties are encountered from the intervention of bad white men, whom for mercenary motives desire a prolongation of the war. Meacham says the desire of the government is well understood by his colleagues and the military, and no means will be left untried to secure peace. Secretary Delano advised the military not to give up the Indian prisoners, but rather remove them if they surrender. The commissioner of Indian Affairs received a letter from Supt. Haas, stating that he had not yet discovered who were the perpetrators of the murder of the government surveyors. He reports the Cheyennes and Arapahoes disturbed in their buffalo raids by the whites south of the Arkansas river, when their treaty of 1865 provides that they may hunt as long as they desire. They are also disturbed and injured by out-lawed whiskey traders, and dissatisfied with the appearance and stay of the surveyors on their reservation, but deny any knowledge of recent murders. Excitement has risen high among them, in consequence of the murder of several of their number while returning from New Mexico, as previously reported, but the excitement is subsiding, and Haas says we shall doubtless control them if the border situation can be properly restrained. The commissioner of Indian Affairs has called the attention of the secretary of the interior to the recent murder of surveyors, and requests the secretary to obtain from the president an order for the stationing of two companies of troops in the vicinity of Paget. The secretary will make the desired official request.

ORDERS ISSUED.

The president issued an order today changing the boundaries of the Omaha and Grand Island land districts as recommended by the secretary of the interior, commissioner of general land office, Senator Hitchcock, and ex-representative Taffs.

ARKANSAS LEGISLATURE.

LITTLE ROCK, April 10.—The senate today passed a bill creating a state board of canvassers, consisting of the lieutenant governor, auditor and treasurer, and a member of each house of the general assembly, who are to have charge of the election and registration machinery of the state. The measure was seriously denounced by the Democrats. The bill to donate all forfeited bonds of the state now, and to be forfeited for the next five years, to certain railroad corporations, was defeated in the house today.

A WORKMAN'S CONVENTION.

THE STRIKE FAILS.

The strike of the gas men is considered a failure. To-day a number of gas men from other cities arrived at the New York company's works by steamer, and more Italians were relieved from duty, to their great joy. The gas metres are filling, and before the end of the week, the officers say, everything will be going on with old-time regularity. THE BIGGEST WIFE STORY.

A queer story is told of prosperous merchants in West Broadway. One of them was married rather late in life, some two years ago, and after he and his wife had gone to house-keeping, he invited his fellow merchant to pay them a visit. The latter went and was much pleased with the new wife, who appeared to be very young. They grew to be firm friends. He told her he could not resist the conviction that he had seen her before, at which she laughed and said that was the impression obtained from all sympathetic natures. Their cordial relations continued for a good while, and one day, the mercantile admirer received a letter from an intimate acquaintance in Boston, informing him that his friend had some time before, married an eccentric woman, Mrs. — who had the reputation of being several times divorced. This set the admirer to thinking and tracing out circumstances within his knowledge. The result was he discovered beyond question that Mrs. —, the wife of his friend, had seven years before been his own wife. He had had a legal divorce, for good and sufficient reason, six months after their union. Anxious to corroborate this, he went to Mrs. — and asked her if it was not so. She replied in the affirmative, and without hesitation, adding that she recognized him from the first, but did not care to intimate any information he did not himself possess.

She had been literally in the divorce process, having had no less than seven litiges in twelve years. She understood the art of making herself look young, and at five-and-thirty she did not appear more than twenty. It was the art that had deceived the friend, and caused him to regard her as somebody else than her real self.

GOSSIP FOR THE LADIES.

April is here, and yet the important question—"What shall we wear?"—is not fully answered. Merchants temptingly display their goods and find many purchasers, but many are still waiting for a further revelation from the fashionable world. But some things are certain, and some are not. The bonnet of the season is a sort of straw calico, fastened down at the
