When THE BULLETIN office went into the river to bathe the other evening after 8 o'clock, when it was too dark to see anything except by gas light, the police swooped down upon the "boys" who are now working to procure each his \$9.00—the amount of fine and costs; but now each day the river is full of boys from the h.b. factory to the stone depot, and all is lovely and the goose hangs high.

Next week R. H. Cunningham will offer his large stock of dry goods, carpets, clothing, boots and shoes, and all sorts of notions for sale at 20%. Here is an opportunity for our citizens to invest their money to advantage.

There will be a general meeting of the German School society at Broas' office tonight at 8 o'clock. All members are requested to attend. F. KOSMAYER 7-21

Kennedy with his gang of helpers, is reconstructing the sidewalks on Walnut street with all possible speed.

Roman Candles and Sky Rockets—Cameron Torpedoes for the 4th of July—Fire crackers, 3 bunches for 25 cents or 10 cents per bunch. All other fire crackers equally as low at Saus & Clarksons. Ct.

The many friends of Mr. John B. Phillis will be glad to learn that his sickness has taken a change for the better. Should no unforeseen accident occur, a few days of careful nursing will bring him around all right again.

For sale—a large amount of choice fruit in the orchard, consisting of peaches, pears, apples and quinces, on Cairo and Vincennes R. R., eleven miles from Cairo. Enquire of J. S. HAWKINS, 6-27-73

J. B. Cunningham's hacks will leave the corner of Sixth street and the levee every hour on the Fourth of July, and on that night also, running to St. Mary's park. Persons going to the picnic will do well to ride with Mr. Cunningham at twenty-five cents a ride. 7-2-73.

Those who have made donations of tables to the table of the Eckert excursion are requested to take them to the boat on Thursday evening between four and eight o'clock where a committee will be in waiting to receive them. The boat will be lying at the Green line wharf-boat.

On Saturday last a pair of horses, the property of ex-Policeman John Sheehan were found mired near the "point." One of the animals was rescued but the other one died before he could be released. Four colored men discovered the horses and to them is due the credit of saving at least one of the animals.

Col. Falls tried to pay Dr. Dunning for moving his house from Missouri to this state. He mistook the doctor for Mr. Summerwell, the contractor, and afterwards said the resemblance between the two gentlemen was most striking. Both the doctor and house-mover are hunting Col. Falls, and each is carrying a stout gun.

Mr. Owens, a farmer living near Moscow, Tennessee, called upon us yesterday. He represents the country as quiet if not prosperous. The soil in that section is rich, and produces large crops, but more people are necessary to develop it. The farmers' movement tidal wave has reached that part of the country and is a warning one.

The Free Benevolent Sons of America propose to go on an excursion to Broadway Springs on the C. and V. railroad on the Fourth of July. The undersigned committee of arrangements invite all persons friendly to the order to join them in the excursion. Fare \$1; children 50 cents. WARREN WIKES, J. JOHNSON, J. TAYLOR.

Mr. Henry Elliott, of the firm of Elliott & Haythorn, has concluded not to leave Cairo this summer, even for a day—too much business—The largest stock of boots and shoes ever brought to this city, and as complete a variety and as choice a collection as can be found in any market, is to be disposed of at prices that place them within the reach of all, and he is determined to stay here and see it done, therefore, instead of sending his friends "greeting and good bye," he invites them all to come and become his happy possessors of a neat-fitting pair of shoes and then depart with his blessing. 7-1-73

Silberberg is perfecting arrangements to manufacture his "sample envelopes," designed to supersede the use of paper boxes for enclosing samples of flour, grain, etc., for transportation by mail. The envelope will undoubtedly prove a success; it is made of the strongest manilla paper, is securely fastened by mullage and eyelets and can be manufactured at very much lower prices per hundred of a thousand than the boxes now in use. We strongly recommend our business men and commission merchants to Silberberg's new "sample envelopes," and are confident that their patronage of home manufacture. A home enterprise will work to their advantage.

All our people will go to the German picnic on the Fourth, because our company has the reputation of giving the best of picnics. The managers promise that the coming picnic will even surpass all their previous ones. They have made all necessary arrangements for the comfort and pleasure to the multitude who will attend. Innocent amusements of all kinds will be furnished to suit the tastes of all. No extra charge will be made for admission to the dance or the spacious floor. In addition to Silberberg's string band, the Delta Cornet band will furnish music during the day. In the evening the company will give a ball at Scheel's hall. The garden also will be thoroughly lighted with gas and furnished with seats. Refreshments of all kinds will be on hand.

Police Court.
[Before F. Bros, P. M.]
There were only four ordinance violators before His Honor Judge Bros yesterday—two on charges of disorderly conduct, one on a charge of vagrancy, and one for abusive language.

First on the list comes Bud Stouley and Alfred Pastor, who, for the sake of amusement, went to one of the high-toned bawdy-houses in the lower end of the city, and because one of the "girls" would not allow them admittance into her room, they fired several balls through the door at her. His honor, the court, thought the boys had had at least five dollars worth of fun, and accordingly taxed them in that sum, plus four dollars and sixty cents as costs of proceedings. Pastor was not out of the meshes yet, for no sooner had he paid the first fine than Mc Hale arrested him on a charge of fighting. He was found guilty and a fine of \$10 and the "usual additions," booked to his account. All the fines were paid, and Messrs Stouley and Pastor went their way poorer, and it is to be hoped, wiser men.

Then came Sleeper, Rev. Logan, who was arrested by Officer Henry Martin on a warrant sworn out by Porter Adams, one of the deacons of Rev. Sauer's church, charging the said Sleeper with vagrancy—with loitering about the city, with having no visible means of support, etc. A number of witnesses were called on either side of the case. The proprietor of the St. Charles hotel, who knows Sleeper—Sleeper once gave the aforesaid hotel proprietor instructions to cancel all charges against him for board, and set the same down to the account of the Lord. There were other witnesses, but not enough to prove that Sleeper was a vagrant—Sleeper was discharged. He will probably convene another council of ministers—like himself—and decapitate all the hotel proprietors, boarding-house keepers,

and police magistrates within a radius of fifty miles of Cairo.
Jim Orange for abusive language was fined \$5, and the trimmings. Jim had no money, but as he is an old resident and has always paid his fines—he is fined on an average once a month—he was given time to settle.

SIX WIVES.
There lives in this county not many miles from Cairo a man who can boast of having planned five wives, and of having taken to his heart the sixth one. He is not over fifty years of age, and considers himself good for at least three more, but he has set out the sixth, and as he says, "The d—-est best wife he ever had."

A few days ago we were introduced to this jolly old man and his married man, and he gave us a detailed account of the good and bad qualities of each one of the six women he had during his life taken "for better or for worse."

His first wife was "a good gal" and "a pritty as a picture," but she "had bad health and did not stop long with him." The second one was not so pretty as the first wife. They lived together for two years when she took the "measles and they struck in and took her off."

The third wife was "not much account anyhow;" she was devilish and "wanted to fight all the time." She lived four years and followed her predecessors over the river Jordan.

Wife No. 4 was "all right," but she was always sick. She lived nine years, when she too went the way of all the rest.

Then came wife No. 5. She was a "pretty fair sort of a woman," but she would not let her "get along well." She wanted everything her own way, and he was not always willing that she should be humored. They lived together for several years and then parted, but they were not divorced. After being separated six months they "made up" and lived together again. In four months from that time she died and was "buried with the rest."

The old man some six months ago became acquainted and "fell in love" with a Pulaski county woman, and in six months from the time they first met, they were made flesh of one flesh and bone of one bone. They are now living together, and to all appearances doing about as well as married people generally do. The old man says she is a good woman, in fact, she is according to his say so, "the d—-est best wife he ever had." They are both hale and hearty and bid fair to last a long time.

A number of petitions were received and referred.

The committee on police and jail reported that the city jailer, under their circumstances, was doing everything in his power, to keep the jail in good repair and clean; that he had been furnished with tools and brushes and had given the premises a thorough cleaning. The committee recommended that a new pump be purchased for the use of the cistern in the jail yard. The report was concurred in, and committee authorized to purchase said pump.

A large number of bills were reported and referred to the committee on claims. The salaries of city officers were allowed without reference, such action under the new charter not being necessary. The clerk was instructed to issue orders on the city treasurer for the amount of such officers' salary.

A resolution giving the proprietors of the New York store permission to maintain a fence around the pump in front of their store at the corner of Nineteenth street and Commercial avenue, was referred to the committee on streets.

Railroad company having failed to comply with the ordinance giving said company the right of way down Commercial avenue, that the ordinance committee be authorized to draft an ordinance repealing the same.

Alderman Morris moved to lay the resolution on the table. Ayes—Bixby, Morris, Phillips and Rittenhouse—4. Nays—Kormeyer, McEwen, McGauley and Meyers—4.

Mayor Wood having the casting vote voted in the negative.

The resolution was adopted.

Chas. Lancaster, Marsh Warren, and Henry Sargent, were appointed as special police for St. Mary's park on Friday next.

Alderman Bixby offered the following resolution, which was adopted; Alderman Morris and McEwen voting against it:

WHEREAS, As it is proposed to build a narrow-gauge railroad from Cairo, Illinois, to Paris, Kentucky, thence to Huntsville, Alabama, and thence to Ship Island, on the Gulf of Mexico, and

WHEREAS, There will be held a convention for the purpose of discussing the subject and to engage into the expediency of roads, etc., at Huntsville, Alabama, on July 7, 1873, therefore be it

Resolved, That the best interests of Cairo will be subserved by being represented in said convention, and that the mayor be authorized to appoint a committee of three to attend said convention at an expense not to exceed \$150.

The mayor appointed D. T. Linegar, Judge Bros and John H. Oberly said committee.

A number of saloon-keepers presented their bonds for licenses, which were severally approved and license ordered to issue.
