

SAMUEL P. WHEELER, ATTORNEY & COUNSELOR AT LAW, CAIRO, ILLINOIS.

THE BULLETIN. Official Paper of the City and County.

TERMS OF THE DAILY BULLETIN. One week, by carrier, in advance, \$1.00.

THE BULLETIN IN THE EVENING. Since the reparation of our printing machinery was completed we have been issuing THE BULLETIN in the evening.

During the past year we have taken the telegraphic dispatches for the accommodation of our patrons, at an expense of \$200 a month—\$2,400 a year for the dispatches alone.

And, how much have we received in return outside of subscriptions for this day? Not one cent. Our subscriptions did not increase one subscriber because of the dispatches, and our advertising patronage decreased as we have increased.

We have, therefore, during the year, given nearly \$5,000 to allow the people of Cairo the pleasure of reading the telegraphic dispatches in the morning.

And, how much have we received in return outside of subscriptions for this day? Not one cent. Our subscriptions did not increase one subscriber because of the dispatches, and our advertising patronage decreased as we have increased.

We shall continue to take the dispatches, or which we shall have to pay \$500 a year, the telegraph companies have more outrageous monopolies than the railroad, but by publishing in the afternoon we can economize to the amount of at least \$5,000, and that is quite an item.

Our business men have been, in the main, very liberal to newspaper enterprises; but even with their liberality, very paper published before THE BULLETIN has lost money and been wrecked.

Another Country Trip. A few days in the country, in the heart of Jackson county, has convinced us that there is no finer season than just now to visit the country, although there are unmistakable signs that the reign of Old Boreas will begin.

sturdy old oaks and hickories are fresh and green as in early summer, while the cottonwood and maple are beginning to turn an infinite variety of colors and shades of color.

A four-wheeled baby carriage with the handle behind is not a common piece of workmanship in a locality four miles distant from any "settlement."

On last Saturday, we went to the Murphysboro races, called, for some unexplainable reason the Jackson County Agricultural Fair.

There was no display of agricultural products visible to the naked eye, and the fair grounds are all race track, with fine accommodations for the horse creation.

The racing was not to begin till one o'clock, and through a somewhat weary forenoon we sat and watched the people, who, like ourselves, were waiting for the business of the day to commence.

Among the buildings burned at Mt. Vernon is East Chester Savings bank. A man was caught in the act of starting the fire.

In the afternoon after recess the court room was crowded with spectators. Their only entertainment however, was a dry-arse-amusement law point, involved in challenges, which Judge Davis brought to a close by taking the papers, saying he would give a decision to-morrow morning.

The editor of the Clarksville (Tenn.) "Chronicle" is in doubt which is most to be dreaded—the yellow fever scourge or that epidemic of moral corruption which is sweeping through the North, threatening death to the government and the extinction of that public virtue which is the last hope of popular liberty.

Dr. Keller, of Louisville, at a meeting of the board of school trustees of that city rose to a personal explanation and assured his colleagues that he was not an infidel. Although a member of no church he protested that no person had more reverence for religion than he, but he would not, even at the risk of being charged with infidelity forego the privilege of thinking as he pleased of all bigots in Christian robes, and the right of visiting upon such people the scorn and contempt which richly merit from every honest man.

EX-PRESIDENT JOHNSON had on deposit in the First National bank at Washington seventy-three thousand dollars. According to the Knoxville "Press and Herald" he regards its recovery doubtful, but even if it is lost, Mr. Johnson will not be without resources.

THE railway sleeping cars are being put to a new use in Memphis by people who are possessed of money. They are taken out of the city a few miles at night, used as sleeping apartments, and carry their lodgers back again to their business in the morning.

THE sessions of the Evangelical Alliance, now fully under way in New York city, appear to be highly successful. The best thinkers and talkers in the ministry of the old and new world are present and their oratory is the order of the day.

THE unfortunate Jay Cooke can pay 70 per cent. of his debts. He proposes to put all his property into the hands of a receiver for the benefit of his creditors, but many of the creditors object.

street. The president was spoken to on the subject, and said he thought greenbacks had become sufficiently numerous to allow resumption. In case, however, of the pressure becoming too great, they would not doubt fall back to the plan followed during the past two weeks as a measure of safety. There was no reason he said, why payments of legal tenders should not go on; trade was prosperous; producers were paying for and receiving larger quantities of grain than had been received at any time before. Shipments of grain from the West were fully 1,000,000 bushels more during the past week than during any week in the history of the country, and all this was paid for in legal tenders.

STOKES. The trial of Edward S. Stokes for the murder of Jas. Fisk, Jr., is now in progress. Judge Davis sustained the challenge to the array of jurors, and the council for the prisoner asked leave to withdraw it, asserting that the investigation by them showed that the pistol was drawn in the usual manner, and without intention to murder. The case work of empanelling the jury then began.

FROM WASHINGTON. WASHINGTON, October 9.—Secretary Delano to-day received the following telegram from the commissioner of Indian affairs, at Fort Hill, dated 4th: To Hon. C. Delano, secretary of the Interior: Gov. Davis and party arrived yesterday. They have held preliminary council with the Kiawachiefs. The severe measures probably necessary with the Camanches make it very important that the Cheyennes, raiding near Pueblo should be struck and destroyed or captured. Their chiefs told me the men went against their wishes and in defiance of their agent. They disclaim all responsibility for them. A blow there will make the solution here much easier by preventing the tribes above from joining the Camanche Indians. They must be kept on their reservations by punishment when other means fail. Signed, D. P. SMITH.

FROM CINCINNATI. CINCINNATI, October 9.—Gov. Noyes through his attorney to-day filed his answer to the petition of the county commissioners in the Indiana suit, denying each and every allegation of fraud and misrepresentation contained in said petition, except as herein admitted, but the defendant says that he received from the auditor of Hamilton county, as he was lawfully entitled to do, upon orders of the board of county commissioners of Hamilton county, lawfully issued to the defendant warrants upon the treasury of said county for the sum of money corresponding with the warrants mentioned in the petition for the payment of work done on account of said county in pursuance of a contract lawfully entered into by the said board of county commissioners with the defendant. The governor did not wait for service to be made, but promptly waived the service of the process upon him and voluntarily responded to the petition while away from home in Lorain county.

FROM ST. LOUIS. ST. LOUIS, October 9.—The directors of the Union National bank of this city decided to-day to go into liquidation. The assets are said to largely exceed the liabilities, and nobody will lose anything. The course of this action is the stringency of currency.

FROM SAN FRANCISCO. SAN FRANCISCO, October 9.—The official examination in the case of Capt. L. A. Ridge, commander of the Costa Rico, which was run ashore at the entrance of the Harbor, was held but the officials positively refused to make public any facts. It is known, however, that Capt. L. A. Ridge has been suspended from the service of the mail company.

FROM EAST PORT. EAST PORT, Maine, October 9.—Work is resumed at Pembroke iron works. The workmen had on a strike for some weeks, owing to a reduction of wages.
