Section 20. Any person who shall by threats, menace, or intimidation prevent any colored children...

Section 21. Any person who shall by threats, menace, or intimidation prevent any colored children...

Section 22. Any person who shall by threats, menace, or intimidation prevent any colored children...

Section 23. Any person who shall by threats, menace, or intimidation prevent any colored children...

Section 24. Any person who shall by threats, menace, or intimidation prevent any colored children...

grationists as Mrs. Swishelm, the absurdity of the whole system of compulsory education becomes so manifest that the wayfarer man, though a fool, can scarcely err therein.

THE FORTIETH PARALLEL ROUTE.

The proposition started at Quincy, in this State, for a convention, to be held in this city on the 4th of March next, to discuss the feasibility of a trans-continental railway for the transportation of freight and passengers, about the line of the 40th parallel of latitude, is beginning to attract wide attention, not only among the producing and commercial classes, but among practical railroad men, also.

We have before us a letter from a practical railroad man—one deeply and successfully interested in railroad construction and management in this State and Indiana—called out by the report of the Quincy meeting published in the Journal of the 25th.

"I think our people would go in for the 40th parallel railroad very heartily. I have given the Journal here the paper containing the article published in the Journal of the 25th, and I think this county will send a good delegation to Springfield to the proposed convention on March 4th.

"If Congress is going into the business of chartering and building railroads at all, this is the route to adopt, as it will serve the interests of the greatest number, and the road would be the great spinal column or backbone railroad, with branches (ribs) running to Cleveland, Toledo, Fort Wayne, Chicago, Peoria, St. Paul and Omaha, on the north, and Cincinnati, St. Louis, Memphis, New Orleans, the M. & T. railroad, and Kansas City on the south.

"I will call the attention of our people in New York to it. This is the argument in a nutshell, and evidently comes from a practical man, who grasps the whole project whether it corresponds with his interest or not.

"If Congress is going into the business of chartering and building railroads at all, this is the route to adopt, as it will serve the interests of the greatest number, and the road would be the great spinal column or backbone railroad, with branches (ribs) running to Cleveland, Toledo, Fort Wayne, Chicago, Peoria, St. Paul and Omaha, on the north, and Cincinnati, St. Louis, Memphis, New Orleans, the M. & T. railroad, and Kansas City on the south.

"It is not proposed, specifically, we believe, in the call of the Quincy meeting, that the government shall engage directly in the construction of such a line. This matter will be decided when the convention shall meet. It is proposed, however, to urge that whatever steps may be taken by Congress toward the construction of a national highway of this character, shall have reference to this line as most central to the territory and population of the whole country, and as conferring the largest benefits upon the largest number, including the great body of the agricultural, mechanical and commercial classes—the producing regions of the West and Middle States, as well as the commercial and manufacturing cities of the East.

"It is not proposed, specifically, we believe, in the call of the Quincy meeting, that the government shall engage directly in the construction of such a line. \$100,000 among the officers of the army for one criminal and not such a bad one either, as these miscreants.

Mr. Scott said it had been his good fortune to meet Major Merrill. He thought if the senator from Delaware, (Hayard) knew him personally he would not think he was a man to be guilty of any bad conduct. If there was any one man living to-day, to whom the people of South Carolina were indebted for enforcing peace and order, and putting down their knavery organizations, that man was Major Merrill. Scott did not oppose the passage of the resolution. Morning hour expired.

The chair announced as the regular order, unfinished business—being a bill for the withdrawal of twenty-five millions of national bank currency from the States having an excess and residue of it to the States not having their 'pro rata' of currency.

Mr. Hayard moved that the bill be laid aside, informally and that a vote be taken on this resolution without further debate, Mr. Hayard's object being to prevent Mr. Bayard's motion to be lost and the resolution went over.

The chair laid before the Senate a communication from the secretary of the Treasury in answer to the resolution of the Senate yesterday, in regard to the coinage of silver in place of the present fractional currency. He says it will take four years to coin enough silver to replace the fractional currency. Referred in regular order.

The bill to withdraw twenty-five million dollars of the national bank currency, was proceeded with and an amendment offered by Sherman to authorize the comptroller of currency to issue twenty-five million dollars to those States having less than their proportion, and declaring that the comptroller might do so without waiting for the return of circulating notes of other banks, was adopted.

Mr. Morriss moved to strike out the words 'twenty-five in relation to the amount to be withdrawn and residue and insert in place thereof, seventy-five. Lodge approved the passage of the bill.

WASHINGTON, February 11.—The speaker stated he had received a communication from E. H. Roberts of New York, stating that his time was so engrossed by his duties as a member of the committee on ways and means that he could not serve on a joint select committee on the affairs of the District of Columbia. He was therefore excused and his colleague, Ross, appointed in his stead.

Cheyenne, W. T. CHEYENNE, February 11.—Information has been telegraphed from Fort Laramie stating that on Monday, Lieut. Robinson of the 16th Infantry and Corporal Colman of Co. K, 20 Cavalry, were surrounded by thirty or forty Indians, near the mouth of the Snake river, Pa. Laramie, and murdered. Their bodies were found yesterday all riddled with bullets and arrows but not otherwise mutilated. Two companies of cavalry under command of Capt. Egan and Lieutenant Allison have been sent in pursuit of the Indians. Gen. Babcock arrived at Fort Laramie yesterday and reports that he saw a large party of Indians on the upper crossing of the Horse Shoe creek, singing and dancing the scalp dance. The Sioux are reported as raiding in almost every direction, burning ranches, murdering ranchmen and stealing stock. A company of cavalry under command of Capt. Wessels left here today for Fort Totten on the Union Pacific road, where the Indians have been driving in the reaction men and stealing stock.

LATER. CHEYENNE, February 11.—A telegram from Fort Laramie states that the mail carrier from Fort Laramie, by Indian escort, has just arrived, and brings information that Frank Appleton, who was acting as Indian agent in the absence of Agent Sorlie, was shot on Monday night by the Sioux. The same night fourteen mules were stolen from the freighter, Lieut. Robinson and Corporal Colman have just arrived at the post in a mutilated condition. Captain Egan's command is expected to arrive at the Fort to-night, as the Indians arrived back to the agency the same day as the massacre. The Quaker Indian policy is now bearing fruit.

Pittsburg, Pa. PITTSBURG, Pa. February 11.—The foundry of Warnick & Co., on Second avenue, near Ferry street, was destroyed by fire this morning. The loss will probably reach \$12,000. The insurance is \$7,000. A special train of cars, loaded with iron from Johnstown, Pennsylvania, that left by the capturing of a pot of molten metal at the steel works of the Cambria Iron company to-day, sixteen men were seriously burned, and one it is thought will die. Several had their clothing completely buried from the bodies. The company will take care of the injured while unable to work.

Chicago, Ills. CHICAGO, February 11.—The residence of Gen. N. Block, Springfield, Illinois, one of the finest in the city, burned this morning; loss about \$15,000, partially insured. Most of the furniture was saved. Thomas, travelling agent for a manufactory firm in Peoria, Illinois, was found dead in his room, having shot himself through the head.

The police to-day arrested T. W. Sheridan, the noted hotel thief, and captured several thousand dollars worth of stolen property. While the officers were searching his rooms, Sheridan possessed himself of a pistol and shot himself in the head. Though still living he will probably die.

Probabilities. WASHINGTON, February 11.—For low or lakes and Ohio Valley fair, barometer and higher temperature with southerly winds and increasing cloudiness. For upper lakes and the Northwest low barometer and increasing easterly winds veering to south and west, cloudy weather or possibly rain or snow.

For Southern States falling barometer, south-westerly winds, high temperature and cloudy weather.

Springfield, Ohio. SPRINGFIELD, February 11.—A crowded church this afternoon and opera house to-night, hearing the speeches of Dr. Lewis, and organizing for more extended temperance work. Seventy-five women visited also to-day, and a hundred and sixty-five more will be added to the visiting committee to-night. A meeting for a more perfect organization was appointed for to-morrow morning. The work has not fairly begun here yet. The movement elicits universal interest and meets with general sympathy.

RIVER NEWS. LITTLE ROCK, February 11.—River on a stand, 10 feet 6 inches. Departed—Clarksville, Fort Smith, Fort Gibson, Memphis.

Vicksburg, February 11.—Down—Robert Mitchell, John Kilgour. Up—Katie. Weather clear and cool. River rising slowly.

New Orleans, February 11.—No arrivals. Departed—John B. Maude, Memphis; K. P. Kountz, Arkansas river. The weather is pleasant.

Cincinnati, February 11.—River 17 feet and six inches and falling. No arrivals. Departed—Tharner, Evansville; Louisville, New Orleans.

Evansville, February 11.—Clear and pleasant. Mercury 7 to 56. River fallen 8 inches. Up—Fayate, Roberts and Idaho. Down—Gray Eagle, Silverthorne, Kirkman, Belle and Sed Cloud.

Nashville, February 11.—River rising slowly. 13 feet 6 inches and about. Weather, clear and pleasant. Arrived—Cooke, Paducah. Departed—Eddyville, upper Cumberland and Cooke, Paducah.

Louisville, February 11.—River still stationary with 8 feet 5 inches in canal and 9 feet 6 inches in Indian chute. Arrived—Pat Rogers, Cincinnati; Thomas H. Brock, New Orleans; Nail City and barges. Wheeling. Departed—Rogers, Memphis; Nail City, St. Louis. The weather is clear and mild like spring. Business brisk.

MARKET REPORT. MEMPHIS, February 11.—Flour quiet. Corn most lower at 55. Corn easier at 74@75. Oats steady at 58@59. Hay nominal. Bran dull at 13.50. Lard 9@10. Bulk meats easier; shoulders 6@6.5; sides 7@7.5.

CHICAGO, February 11.—Flour dull. Wheat dull and lower, No 1 spring 1.23; No 2 2@2.1; No 3 1.18. Corn easier at 74@75. Oats steady at 58@59. Lard 9@10. Bulk meats easier; shoulders 6@6.5; sides 7@7.5.
