THE NEW PARTY IN ILLINOIS.
[Memphis Avalanche.]
Political parties in Illinois are gradually receiving a new character.

THE SIAMESE TWINS.
APPEARANCE OF THE BODIES AFTER EMBALMING—MYSTERY OF THE UMBILICAL CONNECTION—CHARACTERISTIC OF THE CLASS OF MONSTERS TO WHICH CHANG AND ENG BELONGED.

THE QUINCY BANK ROBBERY.
Thursday morning, William Carr, janitor of the First National bank building, upon entering the rooms, in the ordinary discharge of his duty, noticed that the door yielded to the workings of a lock-smith, and the whole dazed glazier stared the community in the face, for by this time rumor seemed to have flown on the wings of the wind, and the bank, the offices above, the sidewalk, and no small portion of the street, was filled with an eager, gazing, listening crowd, gazing at the half-burnt bank notes, the hammers, chisels, fuses, hoop powder, &c., in blank astonishment.

should make "assurance doubly sure." The skill, too, which they avoided the alarm telegraph, attached to the door of the vault, is remarkable. The train ran, the villains retired to the street, the train is fired, a dull, deep report tells of the success of their plan. A few moments spent in silence assure them that they are unobserved, or at least, unnoticed, they return, gather the plunder, and soon the riches, which have cost long years of honest toil, have down in a night. Eighty thousand dollars, in round numbers, in cash, may be set down as ascertained beyond doubt.

Rumors are rife concerning half a million in special deposits, and, as it makes the matter no worse, and is shorter to speak and write, we can see no reason why we should not say a million. Of a like unsatisfactory nature, are all the rumors concerning suspicious characters, and the arrests made. Twenty thousand dollars have been offered as a reward for the arrest of the thieves and the recovery of the property. We would suggest, that a proportional amount should be offered for any part of the goods, or one of the thieves. When that has been done, there need be no question that all that detective agencies can do, will be done. One thing, public and private must be assured of—this is not the work of loafers about Quincy. The job is, at present, in the hands of Capt. John C. McGraw, and we have greatly overestimated his ability in his particular line, if he fails to avail himself of the experience of the most accomplished detectives of the Pinkerton agency, and the best agency of St. Louis and Cincinnati.

Before going to press we learn that \$100,000 of Adams county bonds were among the special deposits stolen. The numbers of these bonds are from 221 to 400, inclusive. These bonds were deposited to await the result of a lawsuit now pending in the Supreme Court, in which the issue is whether these bonds shall be cancelled or delivered to John B. Alley, and are therefore utterly useless at present.

THE SIAMESE TWINS.
APPEARANCE OF THE BODIES AFTER EMBALMING—MYSTERY OF THE UMBILICAL CONNECTION—CHARACTERISTIC OF THE CLASS OF MONSTERS TO WHICH CHANG AND ENG BELONGED.

(Philadelphia Correspondence of the New York Herald.)
The exterior and interior cases in which the Siamese twins have been enclosed since their death, with all the characters which they were packed during their freightage from the South to the North, have been entirely removed, and the bodies now lie in their embalmed state upon a large table in the college of physicians and surgeons. Across the face of each of the twins there reposes a layer of sponge saturated with chemical liquids, of which I am somewhat ignorant, but in which carbolic acid seems to be the basis.

YESTERDAY'S CONGRESSIONAL RECORD.

THE ORO TEMPERANCE CRUSADERS STILL ON THE RAMPAGE.

KING MOMUS' ENTRY INTO MEMPHIS.

EX-TREASURER GAGE OF CHICAGO BEFORE THE CRIMINAL COURT.

FURTHER NEWS FROM THE INDIAN COUNTRY.

TELEGRAPHIC MARKET AND RIVER REPORTS.

Washington, D. C.

Washington, February 16.—The department of state has no information in relation to the report that martial law has been declared in Havana and that seven thousand volunteers have possession of the city, compelling the captain general to take refuge on board the war ship Atropiles.

CONGRESSIONAL HOUSE.

Mr. Kasson, from the committee on ways and means, reported a bill providing that monies paid into the hands of any collector, or into the treasury, for customs or duties in accordance with any decision or ruling previously made by the secretary of the treasury, shall not be refunded or repaid except in pursuance thereof, or in accordance with the judgment of the secretary of the treasury giving construction to law, and from which the attorney general shall certify that no appeal or writ of error will be taken by the United States, providing that no ruling or decision once made by the secretary of the treasury in regard to customs and duties shall be changed by the same or a succeeding secretary, except in accordance with an opinion in favor of such change given by the attorney general or by reason of a judicial decision of the United States court affecting the same, from which the attorney general shall certify that no appeal or writ of error will be taken by the United States. The discussion of the subject was participated in by Butler of Mass., Dawes, Wood, Beck, Burchard, Kasson and Kelly. The latter stating that a conspiracy of New York congressmen had been formed to procure the refunding of duties, they to have one-half of all the sums recovered, and that an enrolled bill in the state department had been tampered with. The charge of Mr. Cameron in order to enable that conspiracy of lawless men to secure a revival of the discussion, and this had cost the government two million of dollars.

Mr. Burchard explained how the error occurred and held that the state department was not responsible.

Mr. Kelly disclaimed the idea of holding that department responsible.

Mr. Dawes went into further explanation of the matter, and argued that the secretary of the treasury was right in his decision. What he (Dawes) objected to was that any secretary of the treasury should have power to make his own construction of the law and then draw his warrant on the treasury for the amount which he decided to refund.

Mr. Woodford argued that the first great question which called for a decision by the House was the status of the \$44,000,000 reserve. The House refused to make this a special order for Wednesday, and it was referred to the committee of the whole on the state of the Union. The House then adjourned.

Columbus, O.

THE LIQUOR WAR.

The first movement in the war on the liquor traffic was the meeting held in the city hall this evening. More than three thousand persons were present, about half being ladies. The ministers of a general assembly occupied seats on the platform. The meeting was called to order by Rev. William Chadwick, and after prayer by Rev. W. Emon the audience joined in singing "Coronation" with grand effect. Dr. Lewis was chosen chairman, and at his request the audience sang "Nearer my God to Thee." Dr. Lewis said this hymn was the key note of the crusade. After saying that his health forbade long speaking he proceeded to make a speech similar to that delivered at other points. He said that churches, in neglecting to furnish bright and happy places for young men to spend their evenings in and to keep them out of places of dissipation and idleness, were responsible for many blighted lives. Much of his address was given to strictures on ladies who drank wine, and induced young men to drink. He said all real reformers, because they showed new beginners what strong drink would do for a man. To accomplish the abolition of this liquor traffic women must come to the front. In this as in all other great moral contests, women were more effective workers than men.

New York.

New York, February 16.—A new disease, effecting the horses of stage and street car lines, has made its appearance. A large number of animals have been prostrated, but the mortality, except in case of the stage lines, is small and in most instances the disease yields rapidly to medical treatment. The symptoms are the loss of appetite, swollen eyes which discharge a yellowish matter copiously and swollen legs, stupor follows with great weakness. Rapid recovery follows the return of appetite.

Probabilities.

For Tuesday in New England, Middle and Middle Atlantic states, rising barometer, cool westerly winds and partly cloudy or clear weather, except possibly cloudy weather in northern New England states.

For South Atlantic states northwesterly winds, partly clear and cloudy weather, and somewhat higher temperature.

For the Western Gulf Coast southeasterly winds with rain, veering to the south-west with northwesterly winds, followed by northerly winds in western Texas.

For Ohio and Mississippi Valleys, northwesterly to southeasterly winds and partly cloudy weather.

London, February 16.—The Pall Mall Gazette publishes the report that the British forces took possession of Gromasse, the capital of Anzou, on the 25th of January, and would commence their march back to the coast on the second of February.

Ripley, Ohio, February 16.—The crusaders are still moving on the works of the enemy. One more saloon surrenders, and the last one remaining is a wholesale establishment, which has been retreating by the drink. The owners propose to stop retreating, but this will not suffice. The ladies watch now as well as pray. The saloon keepers who have been unwillingly worsted are preparing to leave for Germany.

Memphis, Tenn.

Memphis, February 16.—King Momus is stated in the royal chariot, attended by a large retinue of cavaliers made his annual entry into the city at four o'clock. The key of the city was presented to him by a dwarf in front of the Peabody hotel with usual speeches. The city is full of visitors from all parts of the country. Every train and steamboat that arrives is crowded.

Little Rock, Arkansas.

Mrs. Outlow, a boarding-house keeper, attempted to kindle a fire in the stove last night with coal oil. The can exploded, and Mrs. Outlow is now lying at the point of death.

Proclamation.

Governor Baxter to-day issued a proclamation offering a reward of \$500 each for the Hot Springs and God's Hill mail robbers, either alive or dead.

New Orleans.

New Orleans, February 16.—A salute was fired this morning at the head of Canal street in honor of the king of the carnival who arrived at noon on the U. S. Steamer John A. Dix. The Mayor and city administrators met the royal party on the levee and escorted them to the St. Charles hotel, where the ladies presented the king with a handsome silk banner. Rex afterwards visited each of the theatres where free matinees were given to crowd the houses.

London.

London, February 16.—The southeast portion of Europe has been visited by a severe storm, with numerous disasters to shipping on the Black sea. The steamship Wyoming, which left Liverpool on the 11th inst., for New York, returned to the former port and went on to the docks. She encountered a terrific gale on Friday, and lost her funnel and life boat.

Omaha, Neb.

Omaha, Neb., February 16.—The following was received by Gen. Ord to-day from Fort Laramie, by a messenger who has just arrived from the Agency, Dr. Saville writes, "that the Northern Indians have all gone to Tongue river and that they alone have committed the recent depredations; that the Ogalalla Indians, however, guarded the agency since Frank Appleton was killed, and that they will prevent the northern Indians from coming to the agency or passing through the country. He also says that the Indian who shot Appleton was killed by the Bates who also recaptured the mules stolen by the Minnekaons from Cheyenne Agency. Howard writes which he decided to leave the agency, and guard over his agency. The party who killed Robinson and his corporal consisted of Minnekaons, Unappahos and Sansarocs. [Signed] SMITH.
