THURSDAY, JUNE 11, 1874.

COFFINS, CASKETS. And metallic cases at Wilcox's block at much less than usual prices 45-6-10-11.

LOCALISMS.

BURIED.—The funeral yesterday of Mr. John Clancy's little boy was well attended.

DISINFECT.—A liberal use of disinfectants is a good thing at this season of the year.

DRUGS.—The best glass of soda water to be found in the city.

CONCORDIA.—This society will celebrate its first anniversary at School's hall on the evening of the 1st of July.

HOT.—The thermometer succeeded in getting above one hundred yesterday. It was the hottest day of the season.

BUSINESS.—Business on the levee yesterday was tolerably good, though out-door transactions were somewhat retarded by the extreme heat.

Go to George Steinhouse and get one of his smooth shaves and cool your head and quiet your nerves with a shampoo, such as only George can give you.

CIGARS.—For the best Cigars and Tobacco in the city, go to T. E. Sullivan's, Commercial avenue, near Tenth street. The best in the city. 61-6-10-11.

SULLIVAN.—T. E. Sullivan, sole agent for Fouquet's Celebrated Perfumed Starch of Glos, the best article of the kind in use. Price 25 cents per box. 61-6-10-11.

WANTED.—A runner at the Southern hotel. A man who can bring good recommendations, and is of steady habits, can procure a permanent situation at liberal wages. 62-6-11-12.

RAIN.—We understand that a very heavy rain of several hours duration fell in the upper part of the county yesterday afternoon. It is said the rain extended down to within five miles of Cairo.

POLICE COURT.—There was only one case tried in police court yesterday. A colored man was before his honor on a charge of fighting and was fined five dollars and the usual costs.

THE appearance of cholera in New Orleans should put the people on their guard—should induce the people to take their whitewash brushes, and let alone dangerous fruits, whisky and too much ice water.

HEALTH AND PURE WATER.—Persons wanting cisterns repaired or new ones built can be accommodated in a satisfactory manner by calling on the undersigned on Cross street, or by addressing box 579, P. O., or by leaving word at city clerk's office. J. S. HAWKINS. 75-5-19-1m

DRUGS.—For the best pure drugs go to P. E. Sullivan's, Commercial avenue near Tenth street. Prescriptions carefully prepared at all hours day and night. 61-6-11-11

DOUGLAS'S SUCCESSOR.—Dr. J. J. Jennelle, of Du Quoin, having bought out Dr. G. E. Douglas's interest in his dental establishment in this city will take charge of the concern to-morrow. Dr. Jennelle comes among us highly recommended in his profession, and we hope he may receive a liberal share of patronage.

SHOOTING.—A shooting scrape is reported to have occurred on the Mississippi levee near one of the brick yards on Monday evening, in which two young men, both strangers in the city were the participants. Of course it was all about a woman. The whole affair has been kept mighty quiet.

CITY PRINTING.—At a special meeting of the city council held yesterday, the contract for publishing the proceedings of the city council and all ordinances adopted during the present municipal year, was awarded to D. L. Davis and John H. Oberly. The price to be paid for the work is \$420 00. Cheap enough.

IMPROVEMENTS.—Messrs. Thoms & Bro., owners of the Perry house, have commenced operations toward improving that property. They propose to raise the building 14 inches, put a brick foundation under it and thoroughly renovate and repair it from top to bottom. What they will then do remains to be seen.

GAS FOR THE STREET LAMPS.—The contract between the city and the gas company for lighting the street lamps being about to expire, the city council, at a special meeting held yesterday afternoon, instructed the street committee to enter into a new contract with the company to furnish gas and light the street lamps for two years from the expiration of the present contract.

HEALTH.—The health of Cairo was never better than at present. We have a man killed occasionally, or a woman burned to death from the effects of attempting to start a fire with coal oil, but beyond this funerals have become un-fashionable and are no longer indulged in by our people.

CHAZY.—A crazy negro made things lively in the vicinity of Tenth and Popular streets at a late hour last night. All that could be learned from the poor fellows incoherent jabbering was that his name was Sam Craig and that he lives in Kentucky. Officers Sheehan and Martin took charge of him for the night.

THE CITY vs THE EXMAS HUB FACTORY.—The case of the city vs the Exmas hub factory was tried in the circuit court yesterday, and resulted in the city obtaining a judgment against the factory for \$2,700. This was an action of debt to recover the above amount on a mortgage held by the city against the owners of the hub factory for certain machinery sold them several years ago.

OLD JOHN ROBINSON.—The fact that old John Robinson's mammoth circus and menagerie will exhibit in Cairo the 29th, promises to draw an immense crowd of people to Cairo. It would not injure Cairo to have such shows as old John's exhibit here often. The people that more money in the city than the show would take out.

DIED.—In this city on June 10, 1874, at 4:30 o'clock, Carrie Heim, in the twenty-second year of her age. The funeral services will take place from the residence of her brother, Geo. Heim, Fifth street, between Washington and Walnut streets, at three o'clock, this afternoon. The funeral will take place by special train at half-past three. Friends and acquaintances of the deceased are invited to attend.

DIED.—Miss Carrie Heim, the young lady so terribly burned on Tuesday morning while attempting to start a fire with coal oil, died yesterday afternoon. During the thirty-six hours which she lived after the occurrence she suffered all the agonies of a thousand deaths. This should prove a warning to every one not to attempt to use coal oil in kindling fires. The funeral notice will be found in another place.

LOST.—On Monday evening, either on Commercial avenue between Tenth and Nineteenth streets, or on Washington avenue between the same streets a Truscon gold locket, with the following inscription engraved on the back of it: "Christmas, 1873, M. P. W., Jr. to S. E. J." There is also a portrait in the locket. The finder will be suitably rewarded by leaving the same at THE BULLETIN OFFICE. 59-6-10-31.

THE COUNTY JAIL.—We pity the prisoners confined in the county jail during this dreadfully hot weather. The cells are only eight feet square, and nearly every one of them contains six prisoners. This is crowding them together almost too thick, and were it not for the vigilance of Jailer Dick Fitzgerald in keeping the place as clean as a pig-sty or in other words, as clean as could be expected under the circumstances, a great amount of sickness would prevail among them.

MILLINERY.—Mrs. Jackson, formerly Mrs. Swander, is now on hand with the cheapest stock of Millinery in Cairo. She has lowered her price to give them all a chance to buy a beautiful spring hat or bonnet and anything else in her line that they may want. Her store is now one of the most attractive, as it has long been one of the cheapest places in town to buy. Call and see her and be convinced. 18-6-11-1w

CHOLERA.—We are not at all alarmed, and do not wish to scare anybody, or send abroad the impression that our city is in a filthy and unhealthy condition. But we are in favor of having the city thoroughly cleaned up, and as near as can be, every disease-breeding place in it thoroughly renovated. The word has gone out from New Orleans that several cases cholera have occurred there this season, and that owing to the fact that the colored people refuse to take proper precautions against the disease, and to the refusal of many of the whites to do the same thing, it is feared the terrible scourge may spread, and in case it should, there is no telling where it would end. New Orleans is the starting point for cholera and yellow fever, and when New Orleans is thus afflicted, Vicksburg and Memphis are almost sure to be, and it might occur that Cairo might come in for her share of the scourge. We throw out these hints that the board of health may comprehend the importance of redoubling their efforts to prepare the inhabitants of the city for the season when these terrible diseases "do most prevail." We are aware of the fact that the police and health officers have worked diligently, and have accomplished much good in the direction aimed at, but there is yet much to be done and it can't be done too soon.

ATTACKED BY A NEGRO.—Early yesterday morning while passing along Seventh street, on his way home, Sheriff Irvin was approached by a stalwart negro who struck him with his fist. Ham "fought back" and "raised" his negroship "to the ground" two or three times. Just about this time Sergeant Cain happened along that way, and he and the sheriff arrested the negro, and took him to jail. The sheriff was not the only person interfered with yesterday morning by this same negro. Between twelve and one o'clock the local of THE BULLETIN was passing along Washington avenue, and when near the corner of Tenth street was met by the negro, who dropped on his knees and held up his hands as if in prayer. Ye local was about to join him in his devotional exercises, when the solemnity of the occasion was interrupted by the negro volunteering

the information that his name was Sam Craig; that he was from Kentucky, and that he was tired and wanted some place to sleep. He then rose to his feet and going to a pile of stove wood, which, contrary to the ordinances of the city, has been laying on the street for the last week, picked up a billet and came toward us. But we were in no humor to "fool" with that nigger, and "hit out." Officers Sheehan and Martin were informed of the occurrence and took Sam into custody. But how he came to be relieved we cannot tell. The poor fellow is undoubtedly insane.

T. E. SULLIVAN.—There is no more energetic young man in the city than T. E. Sullivan, and he deserves to be patronized. He has one of the neatest drug establishments in the state, and his stock of drugs cannot be surpassed. 61-6-10-11

PERSONALIA.—J. M. Heley, assistant engineer of the Illinois Central railroad, was at the St. Charles hotel yesterday.

—Mr. James Newman, agent of the American Central insurance company of St. Louis, is in the city to settle the losses sustained by his company in the fire of Sunday last. Mr. J. E. Larkin held a policy for one thousand dollars in this company.

—Captain Frank Bedard, during the war one of the organizers of the St. Charles hotel, is in the city. He thinks Cairo has improved wonderfully.

—Capt. Zaglar, of the steamer City of Chester, was in the city yesterday and left for St. Louis by rail.

—Mr. A. W. Campbell, of Chicago, has accepted the position of assistant ticket agent in the Illinois Central office at this place. Mr. Campbell arrived a day or two ago and has entered upon the discharge of his duties.

Prominent among the arrivals at the St. Charles hotel yesterday were B. Daniels, St. Louis; J. H. Parker, Tennessee; F. L. Carter, Chicago; H. C. Goodfellow, New York; Thos. Eginton, Winchester, Kentucky; J. F. McSorley, Cobden, Illinois.

—Mr. Ed. L. Corles, of Metropolis, and W. B. Anderson, of Commerce, Missouri, were at the St. Charles hotel yesterday.

PAY OFF.—Messrs. Safford and Morrill, receivers of the Cairo and Vincennes railroad, will start over the line of the road this morning for the purpose of paying off their May obligations.

Fruit cars will be run on the through freight train leaving Cairo at 4 p. m. Shippers of fruit and vegetables will please govern themselves accordingly. 41-6-5-1 JAMES JOHNSON, Agent.

AGENT WANTED. Mr. G. W. Smith, special agent for the HOWE MACHINE COMPANY, is now stopping at the St. Charles hotel. The company want a first class agent in Cairo, and Mr. Smith is prepared to offer special inducements to one of the right kind. The machine is well known here as well as in other sections of the country where sewing machines are in use, and in fact, as well as by reputation, is the very best and most reliable machine manufactured. Any person desiring an agency will please call on Mr. Smith, at the St. Charles hotel, for a few days. 40-6-5-11

NOTICE TO BUILDERS.—Having started up our sawmill again, we are now prepared to furnish all kinds of building material at lower prices, delivered than it can be bought from country mills. We have also on hand two hundred thousand feet of ASSORTED LUMBER that was colored by sipe water that we will sell at from \$7 to \$10 per 1000 feet. WALL & ENT. 101-5-5-11

THE barber shop is on the corner of Eighth street and Commercial avenue where J. George Steinhouse with his gentlemanly assistants can be found at any hour of the day or night, ready to soothe your feelings with a smooth shave, or cool your temples and head with a good shampoo. It is a first-class shop, and you are sure of receiving first-class treatment. Ladies' and children's hair cut or curled after the most approved styles. 8-15-11

CAIRO, AS SEEN BY THE TRAVELING CORRESPONDENT OF THE TOLEDO, OHIO, COMMERCIAL.

A correspondent of the Toledo (Ohio) Commercial, writing from Cairo under date of May 29th, speaks the following good words for Cairo. It is seldom we find a correspondent like this one, honest enough to tell the truth about our city: CAIRO, May 27, 1874.

EDITOR COMMERCIAL: One does not often get in a place where he can see three different States at one glance. From our hotel (the St. Charles) we can see portions of Illinois, Kentucky and Missouri. The two rivers, Ohio and Mississippi, make considerable of a "spread" just here. Why should they not? That is what we see. The people do or try to do, now-a-days. The two, uniting their waters, make quite an expanse of that liquid, but one can hardly guess at the real dimensions without an actual measurement. The Ohio makes much the better show of the two. It has the advantage of having the city on one bank; and then its waters are much clearer. The Mississippi shows only a deserted marsh or sand-bank on either side, and muddy water. For this last feature, the Missouri river is to be credited, I believe.

The two streams at this place make a spotted-looking one as they unite the muddy water of the one with the clearer water of the other. We could tell by this that we were approaching Cairo before we really recognized the city. Evidence of the flood is constantly being seen at all points along the Mississippi. One can see that the high banks were recently covered with water. The river was fully 25 feet higher two weeks ago than at present; but above the mouth of the Tennessee nothing to compare with points below. It was from the last named river that most of the flood was derived. One can get no idea of one of these floods of the Ohio, Mississippi or Tennessee rivers, if they have not actually been over the ground after the flood and seen the traces of its magnitude. To see the river, bearing marks of the presence of water to the depth of 25 and 30 feet is certainly a suggestion that one would get in no other way as to what destruction these floods may carry with them.

No bridge across the river at this place, but a transfer boat is constantly busy taking trains of freight cars back and forth. We should say that there is less freight or passenger transportation on these three streams than usual. That is the impression from the infrequency of passing boats up and down the river.

After the first rains of the spring they are wanting rain everywhere. The ground is hard and dry and crops are in danger of being retarded a great deal.

Cairo is a clean, pleasant and busy looking city. The St. Charles is an excellent hotel, very conveniently located near both boats and trains, and can be recommended to any traveler who desires a first-class, pleasant hotel, and an hospital host.

JUNE. DR. SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC, AND MANDRAKE PILL.—These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Pulmonic Syrup is warranted not to contain a particle of opium: It is composed of powerful but harmless herbs, which act on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. These are the only means by which consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schenck is professionally at his principal office, corner Sixth and Arch streets Philadelphia, every Monday, where all letters for advice must be addressed. 43-6-5-10-1m
